

In September 2011, the U.S. Department of Education (the Department) offered each state education agency (SEA) the opportunity to request flexibility from the one-size-fits-all requirements of the *Elementary and Secondary Education Act of 1965 (ESEA)*, as amended by the *No Child Left Behind Act of 2001 (NCLB)*, on behalf of itself, its local education agencies (LEAs), and schools. SEAs wishing to qualify for *ESEA* flexibility were required to provide the Department with rigorous and comprehensive state-developed plans designed to improve educational outcomes for all students, close achievement gaps, increase equity, and improve instructional quality.

In order to receive *ESEA* flexibility, each SEA developed and implemented a system of differentiated recognition, accountability, and support that considered student achievement, graduation rates, and school performance and progress over time for the “all students” group, individual *ESEA* student subgroups, and any combined subgroup. A key element of the accountability systems was the identification of a state’s lowest-achieving schools and schools with the lowest graduation rates as priority schools and schools with the most significant achievement or graduation rate gaps as focus schools. Each SEA identified a number of schools equal to at least 5 percent of its Title I participating schools as priority schools and equal to at least 10 percent of its Title I participating schools as focus schools. Each SEA is ensuring that schools and students receive interventions and supports based on this comprehensive system of identification.

SEAs approved to begin implementation of *ESEA* flexibility in the 2012–13 school year (Windows 1 and 2 states) used 2010–11 data, 2011–12 data, or multiple years of data including 2011–12 data to identify schools under their systems of differentiated recognition, accountability, and support. Similarly, SEAs approved to begin implementation of *ESEA* flexibility in the 2013–14 school year (Windows 3 and 4 states) used 2011–12 data, 2012–13 data, or multiple years of data including 2012–13 data to identify schools under their accountability systems. The Department analyzed aggregate student data reported by SEAs to determine the extent to which each SEA’s identification of schools captured low subgroup achievement, low subgroup graduation rates, large subgroup achievement and graduation rate gaps, and subgroups meeting annual measurable objectives (AMOs), the 95-percent participation rate, and graduation rate targets. The data analysis that follows is a profile developed specifically for each state based on SEA-provided data for Title I participating schools. Each Window 1 and Window 2 state will have a Year 1 analysis (based on 2011–12 data) and a Year 2 analysis (based on 2012–13 data). Each Window 3 and Window 4 state will have only a Year 1 analysis (based on 2012–13 data). Please note that the analyses were impacted by varying levels of school data quality as indicated in the footnote for each exhibit and as noted in Appendix A-1 (Technical notes) and Appendix A-2 (Excluded and modified state profile analyses). Additionally, under *ESEA* flexibility, a state may have identified Title I eligible, but not Title I participating schools as priority schools. Such schools would not be included in the following analysis, which includes only Title I participating schools.

These profiles are provided to states as tools to facilitate continuous improvement of each SEA’s system of differentiated recognition, accountability, and support and to support conversations between individual SEAs and the Department. The Department intends to continue to generate data analyses of *ESEA* flexibility going forward. The current profiles are not designed to provide information on the effectiveness of individual state systems or the impact of *ESEA* flexibility on student achievement or other educational outcomes.

Section I: Overview of Accountability Under *Elementary and Secondary Education Act (ESEA) Flexibility*

Exhibit 1. What percentage of Title I participating elementary, middle, high, and non-standard schools were priority, focus, or other?

Exhibit reads: In Florida, among Title I participating elementary schools, 4 percent (56 schools) were priority schools, 11 percent (132 schools) were focus schools, and 85 percent (1,050 schools) were among all other Title I participating schools for 2013–14.

<p>Exhibit 1. What percentage of Title I participating elementary, middle, high, and non-standard schools were priority, focus, or other?</p>	<p>School levels were defined using <i>Common Core of Data (CCD)</i> codes, which were calculated from the school's corresponding low/high grade span: elementary (low grade: PK–3, high grade: PK–8); middle (low grade: 4–7, high grade: 4–9); high (low grade: 7–12, high grade: 12 only); and non-standard (grade configurations not falling within the elementary, middle, or high categories).</p> <p>This exhibit is restricted to elementary, middle, and high schools that provided a Title I Targeted Assistance (TAS) program or Title I Schoolwide program (SWP) in 2012–13 and reported improvement status for 2013–14. This exhibit excludes 39 schools, including 23 Title I participating schools missing data for accountability status for 2013–14 and 16 schools reporting “not applicable” for 2012–13 Title I participation status.</p>
<p>Exhibit 3. What were the demographic characteristics of priority and focus schools compared to all other Title I participating schools?</p>	<p>^a Non-standard schools are schools with a grade configuration not falling within the elementary (low grade: PK–3, high grade: PK–8); middle (low grade: 4–7, high grade: 4–9); or high school (low grade: 7–12, high grade: 12 only) categories.</p> <p>^b Percentage of students by race/ethnicity may not sum to 100 percent due to exclusion of students reported as “two or more races.” <i>Asian</i> includes Pacific Islander, <i>American Indian</i> includes Alaska Native, <i>Black</i> includes African American, and <i>Hispanic</i> includes Latino.</p> <p>^c This category represents the percentage of limited English proficient (LEP) students participating in LEP programs among schools with LEP program—not all Title I participating—because the state did not report on schools with 0 LEP students participating in LEP programs.</p> <p>Student characteristics are weighted in proportion to the number of students enrolled in a school. This exhibit is restricted to schools that provided a Title I Targeted Assistance (TAS) program or Title I Schoolwide program (SWP) in 2012–13 and reported improvement status for 2013–14. Due to missing data in <i>EDFacts</i>, analysis samples vary across school characteristics, ranging from 284 to 312 for Title I participating priority and focus schools and from 1,385 to 1,495 for all other Title I participating schools. This exhibit also excludes 39 schools, including 23 Title I participating schools missing data for accountability status for 2013–14 and 16 schools reporting “not applicable” for 2012–13 Title I participation status.</p>
<p>Exhibit 4. What percentage of Title I participating priority, focus, and other schools had student subgroups performing in the bottom 5th percentile (for that subgroup) in reading?</p>	<p>Percentiles are defined by the percentage of students scoring at or above proficient on state assessments in reading/English language arts. The percentage of schools in the bottom 5th percentile may exceed 5 percent in cases where the cut point for the 5th percentile and higher ranked percentiles (e.g., 10th, 15th) is 0 percent proficient. No priority or focus school met or exceeded the minimum <i>n</i> size for the American Indian subgroup. In addition, no priority school met or exceeded the minimum <i>n</i> size for the Asian subgroup. Under <i>ESEA</i> flexibility, Florida uses a combined subgroup (“bottom 25th percentile”).</p> <p>This exhibit is restricted to schools that provided a Title I Targeted Assistance (TAS) program or Title I Schoolwide program (SWP) in 2012–13 and reported improvement status for 2013–14. This exhibit excludes 111 schools, including 53 Title I participating schools (1 priority, 0 focus, 52 all other Title I participating) below the minimum <i>n</i> size for each student subgroup; 19 Title I participating schools (0 priority, 0 focus, 19 all other Title I participating) missing reading proficiency data for every student subgroup; 23 Title I participating schools missing data for accountability status for 2013–14; and 16 schools reporting “not applicable” for 2012–13 Title I participation status.</p>

<p>Exhibit 6. What percentage of Title I participating priority, focus, and other schools had student subgroup gaps that exceeded statewide subgroup gaps by one or more standard deviations?</p>	<p>^a SWD = Students with disabilities ^b LEP = Limited English proficient ^c Econ Disadv = Economically disadvantaged</p> <p>Proficiency rates for the nonBlack, nonHispanic, noneconomically disadvantaged, nonSWD, and nonLEP subgroups were calculated by subtracting the number of proficient students and the number of students with valid scores for the Black, Hispanic, economically disadvantaged, SWD, and LEP subgroups, respectively, from the number of proficient students and the number of students with valid scores for the “all students” group, and then dividing the resulting number of proficient students in the nonBlack, nonHispanic, noneconomically disadvantaged, nonSWD, or nonLEP subgroup by the number of students with valid scores in the subgroup.</p> <p>This exhibit is restricted to schools that provided a Title I Targeted Assistance (TAS) program or Title I Schoolwide program (SWP) in 2012–13 and reported improvement status for 2013–14. This exhibit excludes 314 schools, including 256 Title I participating schools (36 priority, 26 focus, 194 all other Title I participating) below the minimum <i>n</i> size for each student subgroup; 19 Title I participating schools (0 priority, 0 focus, 19 all other Title I participating) missing reading and mathematics proficiency data for every student subgroup gap included in the exhibit; 23 Title I participating schools missing data for accountability status for 2013–14; and 16 schools reporting “not applicable” for 2012–13 Title I participation status.</p>
<p>Exhibit 7. What percentage of Title I participating priority, focus, and other high schools had graduation rates below 60 percent?</p>	<p>The regulatory four-year adjusted cohort graduation rate is the number of students who graduate in four years with a regular high school diploma divided by the number of students who formed the cohort for that graduating class. The four-year adjusted cohort rate also includes students who graduate in less than four years. Under ESEA flexibility, states identified all Title I schools with graduation rates below 60 percent over a number of years.</p> <p>No focus or other Title I participating high school met the analysis threshold (i.e., 10 students in graduation cohort) for the American Indian subgroup.</p> <p>Under ESEA flexibility, Florida uses a combined subgroup (“bottom 25th percentile”).</p> <p>This exhibit includes 66 Title I participating high schools (18 priority, 6 focus, 42 all other Title I participating) where 2009–10 grade 9 enrollment was 10 percent to 99 percent greater or less than the number of students in the 2012–13 graduation cohort.</p> <p>This exhibit is restricted to schools serving grade 12 that provided a Title I Targeted Assistance (TAS) program or Title I Schoolwide program (SWP) in 2012–13 and reported improvement status for 2013–14. This exhibit may include non-standard schools (i.e., schools with grade configurations not falling within the elementary, middle, or high categories) serving grade 12. This exhibit excludes 68 high schools, including 30 Title I participating high schools (2 priority, 2 focus, 26 all other Title I participating) below the minimum analysis threshold (10 students in the graduation cohort) for each student subgroup; 15 Title I participating high schools (0 priority, 1 focus, 14 all other Title I participating) missing graduation rate data for every student subgroup; 3 Title I participating high schools (0 priority, 0 focus, 3 all other Title I participating) where 2009–10 grade 9 enrollment was over 100 percent greater or less than the number of students in the 2012–13 graduation cohort; 4 Title I participating high schools missing data for accountability status for 2013–14; and 16 high schools reporting “not applicable” for 2012–13 Title I participation status.</p>

Percentages greater than or equal to 99.5 percent are rounded to 100 percent.</p> <p>This exhibit is restricted to schools serving grade 12 that provided a Title I Targeted Assistance (TAS) program or Title I Schoolwide program (SWP) in 2012–13 and reported improvement status for 2013–14. This exhibit may include non-standard schools (i.e., schools with grade configurations not falling within the elementary, middle, or high categories) serving grade 12. This exhibit excludes 76 high schools, including 41 Title I participating high schools (4 priority, 2 focus, 35 all other Title I participating) reportedly not accountable for any graduation rate target; 15 Title I participating high schools (0 priority, 1 focus, 14 all other Title I participating) missing data for all graduation rate targets; 4 Title I participating high schools missing data for accountability status for 2013–14; and 16 high schools reporting “not applicable” for 2012–13 Title I participation status.</p>

Exhibit A-2. Excluded and modified state profile analyses

Exhibit Number	Technical Notes
Exhibit 2. What percentage of Title I participating schools in each state-defined status were priority, focus, or other?	Excluded because Florida did not provide data on the state-defined accountability designation system (all schools reported as not having a state-defined accountability status).
