School Loan

Dear Interested Party

My \$70K in school loans has ballooned to more than \$300K. I have been paying them in order to restore my credit. My monthly payment is more than \$1,000 and I will be paying the loans for 30 years. I have taken Equity Loans to pay off big chunks \$15 - \$60K at a time.

It's unfair that Sallie Mae can add interest to the principal to the extent that they do.

Sincerely,

[REDACTED]
