Subject: Student Loans

Department of Education

My name is [REDACTED]. I have several student loans federal and private. I know I have to repay these but it is becoming very difficult. My federal loans are not bad but Sallie Mae is a joke. They will hand out student loans all day regardless of credit and tell you your interest rate after the you have already signed your life away. Now with the credit crisis i can't refinance or consolidate. People with student loans have NO PROTECTION. IF we are unable to work they can take our disablility. If we file for bankruptcy we still have student loans. If i default my tax money pays for my loans and then i get to pay them back again. We bail out people with credit cards and bad home loans but what about the new slaves that pay crooked student loan companys? WE NEED PROTECTIONS!!!!!! GET RIDE OF SALLIE MAE!!!!!! BAIL OUT THE FUTURE LABORFORCE!!!
