Dear Sir or Madam,

Please, it is urgent to restore bankruptcy rights to student loan borrow.

[REDACTED] privatized it and took the gloves off collectors. They have no rules and they are horrible, cruel, demeaning and vulgar.

Thousands upon thousands of other stories at <http://www.studentloanjustice.org>

My private story is attached.

For profit collectors, in collusion with schools and the DOE have ballooned my debt 300 to 500%; in a good year, I could not pay the interest. Now, next year they have the right to garnish my Social Security for the rest of my life.

Please help.

Warm regards,
