Subject: Student Loan Default

Importance: High

My life is ruined. I will never climb out of this. \$14,000 has turned into \$85,000. I'm viewed worse than an incarcerated serial killer. At least a prisoner gets 3 meals a day, has running water and shelter. Yes, he has lost his freedom. But, so have I. But, he can still get an education for free! At the government's expense! I would definitely say he has more freedoms than I do.

I got sick and couldn't find a well paying job. I ended up on disability for about 10 years. I graduated in 1986. At age 49 I have no assets, a low paying job and no hope for the future. I have paid \$12,000 to this debt but the powers that be do not acknowledge this according to my credit report. It just goes to show I have no rights as a human being, but, a prisoner does. This is worse than torture.

By the way, I'm a veteran of the U.S. Army. Thanks Uncle Sam.
