## Program Integrity and Improvement Issues

**Issue:** Clock to Credit Hour Conversion

**Statutory Cites:** None

**Regulatory Cites:** §668.8(k)

**Summary of Change:** Under §668.8(k)(2)(i) of the current regulations, an undergraduate educational program is considered to be a clock hour program for title IV, HEA purposes if it is required to measure student progress in clock hours (1) to receive State or Federal approval or licensure to offer the program, or (2) for graduates to apply for licensure or the authorization to practice the occupation that the student is intending to pursue.

Under §668.8(k)(2)(ii) of the current regulations, an undergraduate educational program is considered to be a clock hour program for title IV, HEA purposes if the hours for the program have been converted from clock hours to credit hours but the resulting credit hours do not comply with the definition of a credit hour in 34 CFR 600.2.

Under §668.8(k)(2)(iii) of the current regulations, an undergraduate educational program is considered to be a clock hour program for title IV, HEA purposes if the institution does not offer all the underlying clock hours for a converted program and requires attendance in the clock hours that are the basis for the credit hours awarded.

The proposed changes would eliminate §668.8(k)(2) and (k)(3) to streamline the regulatory requirements governing clock to credit hour conversions and minimize confusion among participating institutions, while maintaining the conversion formula for such programs to ensure that similar amounts of aid are paid to students for similar levels of academic coursework.
