1. **Borrowers 62+ carrying debt for 15+ years**

   - Any borrower age 62+: **2.6M** (out of 45.5M total borrowers)
     - Has debt on a loan (any type) that initially entered repayment 15+ years ago: **1.48M** (Note: a loan may not have been continuously in repayment for this period.)
     - Has debt on a non-Parent PLUS loan that initially entered repayment 15+ years ago: **1.16M**
     - Has debt on both non-Parent PLUS loan(s) and on Parent PLUS loans, and at least one of those outstanding loans initially entered repayment 15+ years ago: **78K**
     - Only has debt on Parent PLUS loans that initially entered repayment 15+ years ago: **312k**

2. **Parent PLUS loan data**

   - Among borrowers who had a Parent PLUS disbursement for Award Year 2000 or after, in 59% of those cases, the dependent student whose education was supported with the PLUS loan also received a Pell Grant.

   This is from a separate data run

   - There are 3.9 million Parent PLUS (PPLUS) borrowers with outstanding PPLUS loans, as of January 2023
   - There are 2.2 million PPLUS borrowers whose student also received a Pell Grant as of January 2023.
   - There are 566,000 PPLUS borrowers who received a Pell Grant for their own schooling, as of January 2023.
   - These are borrowers who either have open PPLUS loans with positive balances or open Parent PLUS debt in the form of consolidation loans with positive balances.
