MEMORANDUM

TO : State Directors of Special Education

FROM : Stephanie S. Lee  
Director *Stephanie S. Lee*  
Office of Special Education Programs

SUBJECT : Implementing the New Funding Formula Under the IDEA—  
Year of Age Cohorts for Which FAPE is Ensured

ACTION : Due May 17, 2002

The Individuals with Disabilities Education Act (IDEA) funding formula for Section 611 of Part B, first allocates base amounts to States that are equal to the amounts they received of Federal Fiscal Year 99 funds. Then 85 percent of any remaining funds are allocated among the States, on the basis of their relative populations of children aged 3 through 21, *who are of the same age as children with disabilities for whom the State ensures the availability of a free appropriate public education (FAPE)*, and 15 percent of remaining funds are allocated on the basis of the relative populations of those children who are living in poverty. See Section 611(e)(3)(A); see also 34 CFR §300.707.

At this point, all States are providing FAPE to all children with disabilities aged 3 through 17. State practice varies for children aged 18 through 21. For example, some States ensure FAPE for all children with disabilities through age 21 (and in some cases, even beyond that age). Some States ensure FAPE for all children who have not reached 21 by a date certain, such as September 1, and continue to ensure FAPE for children who turn 21 after that date for the remainder of the school year. Other States ensure FAPE for all children with disabilities through age 18, but allow local education agencies to serve children with disabilities beyond that age.

In order to calculate State grants under Section 611 of Part B for Federal Fiscal Year 2002, we need to determine the age cohort for which each State ensures the availability of FAPE. Our rule for establishing the age cohort is quite simple -- all children with disabilities, who are a particular number of years old, must be ensured the availability of FAPE in order for that age year to be included in the State's relative population-age cohort. For example, if a State ensures FAPE to

children through the end of a school term or school year in which the child turns 21, the State is ensuring the availability of FAPE to all children with disabilities through age 20 years old, but is not ensuring the availability of FAPE to all who are 21 years old. Therefore, the last age year to be included in their relative population-age cohort would be 20.

The attached chart identifies, in the second column, the year of age cohorts for which each State ensures FAPE. The third column provides a description, taken from State documents, of how each State determines the upper age for which it ensures FAPE.

We ask you to carefully review this information. If there are any errors, we need to be notified immediately. Any unresolved problems will affect the grants to all States. If we do not hear from your State by May 17, 2002, we will assume you agree with our determination. Please e-mail any responses to Ruth Ryder at [ruth.ryder@ed.gov](mailto:ruth.ryder@ed.gov).

If you have any questions about this memorandum, please contact Ms. Ryder at (202) 205-5547.
