SUBJECT: Revision of the Vocational Rehabilitation Program Case Service Report
(RSA-911)

POLICY: Through this Policy Directive (PD), the Rehabilitation Services Administration (RSA) is transmitting a copy of the revised RSA-911 and instructions for the vocational rehabilitation (VR) and supported employment (SE) programs. The Office of Management and Budget (OMB) has approved this information collection OMB control number 1820-0508 until May 31, 2016. RSA will implement the revised RSA-911 and instructions for federal fiscal year 2014 and all subsequent fiscal years, beginning on October 1, 2013.

RSA uses the RSA-911 to collect data on the VR and SE programs authorized under Titles I and VI, respectively, of the *Rehabilitation Act of 1973*, as amended (*Rehabilitation Act*). As mandated by Sections 101(a)(10) and 626 of the *Rehabilitation Act*, the RSA-911 captures a variety of demographic and other data for each individual whose case is closed during the fiscal year, including, but not limited to:

- Type of disability;
- Services provided through the VR and SE programs;
- Providers and costs of services provided; and

- Employment outcomes achieved at the time of case closure.

RSA uses these data to compile the annual report to Congress and the President required by Section 13 of the *Rehabilitation Act*, as well as to:

- provide information necessary for the completion of the Department of Education annual budget request;
- respond to inquiries from Congress, other federal agencies, states, organizations, and private individuals; and
- respond to audits conducted by the Department of Education's Office of Inspector General and the General Accountability Office.

The data elements and record layout in this PD have changed from those transmitted with PD-12-05 (February 8, 2012).

RSA-911 RECORD LAYOUT	44

GENERAL INSTRUCTIONS

Reported records pertain to all individuals whose service records were closed in a given Federal fiscal year (FY).

The due date for RSA-911 submittals is November 30 following the Federal FY (October 1 to September 30) of reference.

All records submitted must be unique. The Agency Code, Social Security Number, and Closure Order Code determine the "uniqueness" of a given case service record. Duplicate case service records will be rejected. For example, case service records with an Agency Code, Social Security Number, and Closure Order Code identical to those in another record will be considered duplicates and will be rejected. In order to indicate that a second closure for an individual has taken place in the same FY, enter "2" in the Closure Order Code. Enter "3" for a third closure and "4" for a fourth closure, etc.

The format is no longer fixed length file, but has been changed to a delimited format. Each data element is accompanied by data type information that will serve as a guide to submitting valid values, but values that are not at the maximum length for the data type will no longer cause problems for the submission of the file. The three data types used are:

DATA TYPE	DESCRIPTION
VARCHAR (n)	This data type can hold any character(s) with a maximum length defined by the number within the parentheses. All variable character (VARCHAR) data elements within the RSA-911 hold numeric characters with the exception of County data element which can be alphanumeric.
Date 112 (YYYYMMDD)	<p>This data type holds dates in the eight-digit format of year, month, and day. All dates reported on the RSA-911 must be in the format of YYYYMMDD, where YYYY is Year, MM is Month and DD is Day.</p> <p>For Year: Record the year using all four digits of the year.</p> <p>For Month: Record the months using two digits. For example, use 01 for January, 02 for February, etc.</p> <p>For Day of the month: Record the day of the month using a "0" prefix for single digit date of days. For example, 01, 02, 03, etc.</p>

DATA TYPE	DESCRIPTION
INT(n)	This data type can hold any integer (whole number) with a maximum length of integers as defined by the number within the parentheses. Number of hours worked and dollar amounts for monthly amounts of public support, funds expended, and weekly earnings must be reported as positive integers.

Agencies should leave blank those data elements that are incomplete because cases were closed with a closure code 1, as the file format of the RSA-911 will no longer require the file to be of a fixed length.

Data element numbers are in the order of the record layout for text file submission. Also refer to the Record Layout listing on page 42.

INSTRUCTIONS FOR PREPARATION OF ELECTRONIC TRANSMITTAL

Submitting RSA-911 data via secured file transfer protocol (SFTP) is now preferred to submitting on CD-ROM. In order to upload your RSA-911 data file to the RSA SFTP server, you will need to download a free SFTP program onto your computer. Below is a list of a few free SFTP software packages and links to their websites. Follow the downloading instructions to install SFTP software on your system.

[WinSCP](#)

[FileZilla](#)

[Core FTP LE](#)

Once you have completed downloading the software, you will need to establish a connection to RSA's SFTP server. The name of the server that you will be uploading the RSA-911 data file to is:

edsecureftp.ed.gov

Your user-id is "rsa-ba-g", where "ba" is the official postal abbreviation for your state/territory and "g" is the type of agency, that is "g"=general, "c"=combined and "b"=blind. Likewise, the naming convention for the RSA-911 data file is "BAgXFYNN", where "BA" is the official postal abbreviation for your state/territory, "g" is the type of agency, that is "g"=general, "c"=combined and "b"=blind, "X" is the number of the submission, that is, "1"=first, "2"=second, etc. "NN" is the last two digits of the reported fiscal year.

As an example, since the Oklahoma Department of Rehabilitation Services is a combined agency, the user ID would be: rsa-ok-c and the name of the FY2014 file would be OKc1FY14.

Passwords will be distributed by RSA to VR agency staff responsible for submitting RSA-911 data files. Passwords will be managed and maintained by Vernita Washington at vernita.washington@ed.gov or 202-245-7479 or Joan Ward at joan.ward@ed.gov or 202-245-7565.

If agencies are unable to submit data to the SFTP server, data are to be sent on a compact disc via overnight services with an external label identifying the contents as "RSA-911 Data for BAgXFYNN" following the naming convention as described above and must be signed for by the recipient.

Element-by-Element Instructions: CASE SERVICE RECORD REPORT (RSA-911)

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. Public reporting burden for this collection of information is estimated to average 81.25 hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The obligation to respond to this collection is mandatory as required by the Rehabilitation Act of 1973, as amended. 2. Social Security Number
Data type: VARCHAR (9)

Enter the individual's nine-digit Social Security number (SSN). When a SSN is not available or if the individual prefers not to provide his/her SSN, assign a unique nine-digit number that:

- a) does not duplicate a genuine SSN, and
- b) does not duplicate any other substitute number assigned in place of a SSN.

Starting the nine-digit number with the digits "99" will avoid duplicating a genuine SSN. Only numeric characters between "0" and "9" are permitted in the Social Security Number field.

3. Closure Order
Data type: VARCHAR (1)

Assign the appropriate closure order code for all service records from the list below:

- 1 First closure of an individual's service record in the FY being reported
- 2 Second closure of the same individual's service record in the same FY
- 3 Third closure of the same individual's service record in the same FY, and so on.

If an individual's service record is closed more than once in the FY, the RSA-911 data system must contain a separate record for each closure. Ensure that when a record indicates a closure order code 2, there is another record with a closure order code 1 with an identical SSN for that individual, and so on for all multiple closures in the same FY.

4. Previous Closure
Data type: VARCHAR (1)

Enter the appropriate code listed below to indicate whether the individual had a previous service record closed by the State VR agency within a 36-month period prior to the most recent application for services. If more than one record was closed for the individual within that 36-month period, consider the most recent previous closure. Indicate the type of the previous closure using one of the following codes:

- 0 No previous closure within 36 months
- 1 Closed while the individual was an applicant, but before a determination of eligibility
- 2 Closed during or after a trial work experience/extended evaluation
- 3 Closed after the individual achieved an employment outcome
- 4 Closed after individual received services, without an employment outcome
- 5 Closed after an individualized plan for employment (IPE) was signed, but before receiving services
- 6 Closed from an order of selection wait list
- 7 Closed after a determination of eligibility, but before an IPE was signed

5. Date of Application
Data type: DATE 112 (YYYYMMDD)

Record the date (year, month, and day) that the agency received a completed and signed application form from the applicant. The date should be verifiable by date stamp.

6. Date of Birth
Data type: DATE 112 (YYYYMMDD)

Record the individual's date (year, month, and day) of birth.

7. Gender
Data type: VARCHAR (1)

Code the individual's gender as follows:

- 1 Male
- 2 Female

RACE

Race information should be recorded for all individuals whose service records were closed in the FY being reported. For each race category below, use the following codes to record the individual's race:

- 0 if the individual is not of that race
- 1 if the individual is of that race

RSA continues to require self-identification to the greatest extent possible. It is generally expected that the information recorded will reflect the individual's own identification of race from the categories provided. However, if an individual refuses to identify his/her race, the counselor should, at a minimum, notify the individual that if he/she fails to self-identify, an observer-identification method will be used. The counselor or interviewer would then provide the best assessment of the individual's race. This guidance follows OMB standards for collecting race data. OMB prefers self-identification methods, but allows for observer-identification methods when necessary.

At least one of the race categories must be coded as 1. Remaining categories should have codes of 0 (not this race). More than one race variable can contain a code of 1 for an individual.

Agencies may leave the element blank only if the information is not available due to circumstances beyond the agency's control for closure type 1. Such service records will be few in number. As an example, if an individual applies for services via an application form or letter and is closed by the agency without being seen by agency personnel, this individual's race would not be known and could not be observed and therefore all race options would be left blank.

13. Ethnicity - Hispanic or Latino
An individual of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race.
Data type: VARCHAR (1)

The ethnic category Hispanic or Latino should be recorded for all individuals whose service records were closed in the FY being reported. Use the following codes to record the individual's Hispanic or Latino ethnicity:

- 0 if the individual is not of Hispanic/Latino ethnicity
- 1 if the individual is of Hispanic/Latino ethnicity

If the individual self-identifies as Hispanic, but refuses or is unable to identify one or more race categories in addition, then code the individual as Hispanic for ethnicity and follow the observer-identification method as described above for the race categories. Notify the individual that if he/she fails to identify, then an observer-identification method will be used. Individuals who identify as Hispanic may belong to any race group.

As a result of CMS' delayed implementation of the ICD-10 codes, RSA is delaying the use of the ICD-10 codes and/or the DSM-V codes until such time as we have consulted with CMS on the implementation of the new coding structures including whether CMS will move to DSM-V codes or rely solely on ICD-10 codes. Revised instructions will be issued upon implementation of the ICD-10 and/or DSM-V codes.

24. Significance of Disability
 Data type: VARCHAR (1)

Enter a one-digit code to indicate whether the individual was considered a person with a significant disability or a most significant disability at any time during his/her VR program. If an individual is receiving Social Security benefits at application or closure, he/she is presumed eligible and significantly disabled. Individuals are to be coded as most significantly disabled if they meet the definition of significantly disabled and have additional functional limitations as defined by the agency.

Note: Coding options have been added to this data element. For cases open at the time of form implementation, no changes to the existing data coding options are required. Begin collecting new data element coding options after form implementation for all new applicants. An individual with a significant disability is an individual:

- a) who has a physical or mental impairment that seriously limits one or more functional capacities (such as mobility, communication, self-care, self-direction, interpersonal skills, work tolerance, or work skills) in terms of an employment outcome;
- b) whose VR can be expected to require multiple VR services over an extended period of time; and
- c) who has one or more physical or mental disabilities resulting from amputation, arthritis, autism, blindness, burn injury, cancer, cerebral palsy, cystic fibrosis, deafness, head injury, heart disease, hemiplegia, hemophilia, respiratory or pulmonary dysfunction, intellectual disability, mental illness, multiple sclerosis, muscular dystrophy, musculo-skeletal disorders, neurological disorders (including stroke and epilepsy), spinal cord conditions (including paraplegia and quadriplegia), sickle cell anemia, specific learning disability, end-stage renal disease, or another disability or combination of disabilities determined on the basis of an assessment for determining eligibility and VR needs to cause comparable substantial functional limitation.

25. Employment Status at Application

Data type: VARCHAR (2)

Enter the code which best describes the employment status of the individual at application from the following codes. The first seven codes are considered "employment" for purposes of this item. Individuals not meeting the definitions for Codes 1 to 7 below would be classified as "not employed" (Codes 8 to 11) at the time of application for services.

- 1 Employment without Supports in Integrated Setting is full-time or part-time employment in an integrated setting without ongoing support services. For purposes of this report, this is work performed for wages, salary, commissions, tips, or piece-rates, below, at, or above the minimum wage. Do not include self-employed individuals.
- 2 Extended Employment refers to work for wages or salary in a non-integrated setting for a public or nonprofit organization. Such settings are variously referred to as community rehabilitation programs, or sheltered, industrial, or occupational workshops. Individuals are compensated according to the Fair Labor Standards Act and the organization provides any needed support services that enable the individual to train or prepare for competitive employment.
- 3 Self-employment (except BEP) refers to work for profit or fees including operating one's own business, farm, shop, or office. "Self-employment" includes sharecroppers, but not wage earners on farms.

- 4 State Agency-managed Business Enterprise Program (BEP) refers to Randolph-Sheppard vending facilities and other small businesses operated by individuals with significant disabilities under the management and supervision of a State VR agency. Include home industry where the work is done under the management and supervision of a State VR agency in the individual's own home or residence for wages, salary, or on a piece-rate. Individuals capable of activity outside the home, as well as homebound individuals, may engage in such employment.
- 5 Homemaker refers to men and women whose activity is keeping house with no earnings for persons in their households or for themselves if they live alone.
- 6 Unpaid Family Worker refers to persons who work without pay on a family farm or in a family business.
- 7 Employment with Supports in Integrated Setting is full-time or part-time employment in an integrated setting with ongoing support services for individuals with significant disabilities (supported employment). For purposes of this report, compensation for such employment may be below, at, or above the minimum wage.
- 8 Not employed: Student in Secondary Education including GED classes and special education classes with the goal of obtaining a high school diploma or GED.
- 9 Not employed: All other Students are persons attending school full or part-time other than students in secondary education (for example, students in post-secondary education, adult education, or vocational training).
- 10 Not employed: Trainee, Intern or Volunteer refers to persons engaging in unpaid work experiences, internships or volunteer work for purposes of increasing their employability. Such individuals may receive a stipend to defray the cost of transportation or other incidental expenses.
- 11 Not employed: Other refers to persons not in any of the other categories (e.g., persons just out of school who are not yet employed; persons unable to retain or obtain work; and persons who have recently left specialized medical facilities).

When an individual's work activity overlaps into two different employment categories, select the code more descriptive of the individual's employment activity at application.

26. Weekly Earnings at Application
Data Type INT(5)

Enter the amount of money (to the nearest dollar) earned in a typical week at the time of application.

This item collects data on the cash earnings of individuals at application and includes all wages, salaries, tips, and commissions received as income before payroll deductions of Federal, State and local income taxes and Social Security payroll tax. Earnings also include profits derived from self-employed individuals. Earnings for salespersons, consultants, self-employed individuals, and other similar occupations are based on the adjusted gross income. Adjusted gross income is gross income minus unreimbursed business expenses. Do not include estimates of payments in-kind, such as meals and lodging. Estimate profits of farmers, if necessary.

Where earnings are based on commissions that are irregular (e.g., real estate, automobile sales, etc.), to obtain a meaningful figure for a typical week's earnings, it should be calculated as a weekly average over a representative period of time such as one month or longer.

When, because of the occupation/situation, there are significant amounts of unreimbursed business expenses that are irregular (e.g., car lease payments due the first week of every month), the expenses should be averaged over a representative period of time such as one month or longer to obtain a meaningful figure for a typical week's expenses. Commissions are generally not paid when earned, but rather are paid periodically, such as weekly, biweekly, or even monthly. To bring standardization to this item, earnings should be based on the actual receipt of the payment and not on amounts accruing until the next commission payout.

If the individual had no earnings, enter "0".

27. Hours Worked in a Week at Application
Data type INT(3)

Enter the number of hours an individual worked for earnings in a typical week at the time of application. Earnings may have been in the form of wages, salaries, tips, commissions, profits from self-employment, adjusted gross income for salespersons, etc. If the individual generated no earnings, enter "0".

MONTHLY PUBLIC SUPPORT AMOUNT AT APPLICATION

Enter the monthly amount (to the nearest dollar) of public support received by the individual at application from each of the following sources. If individual did not receive any monthly public support, enter "0" for each type of public support. Agencies may leave these data elements blank for closure code 1.

Public support means cash payments made by Federal, State and/or local governments for any reason, including an individual's disability, age, or economic status. Include payments to a family unit precipitated by the individual's disability or when the individual's presence is taken into account in the computation of the family benefit. Also include any payments that are sent directly to the individual in an institution or to dependents on his/her behalf. Exclude any non-cash support payments such as Medicaid, Medicare, food stamps and rental subsidies. Categories of public support are as follows:

35. Primary Source of Support at Application
Data Type VARCHAR (1)

Enter a code from the list below to indicate the individual's largest single source of economic support at application, even if it accounts for less than one-half of the individual's total support.

Note: If an individual is supported by the earnings of a spouse, or by the spouse's unemployment insurance checks, identify Code 2 as the Primary Source of Support (family and friends) and not Code 0 (employment earnings) or Code 1 (personal income). If an individual is primarily supported by a governmental entity with no cash support – for example, incarcerated individuals, – use Code 3 (public support) as the primary source of support only if the individual applicant is the recipient of the support. If the family receives public support, use Code 2 (family and friends).

Enter the date that the individual's Extended Evaluation ended.
- 46. Date of Eligibility Determination
Data type: DATE 112 (YYYYMMDD)

Enter the date (year, month, and day) that an eligibility determination was made regardless of whether the individual was determined ineligible later in the VR process because of changed circumstances.

DATES OF ORDER OF SELECTION (OOS) WAITING LIST

Agencies not using an OOS Waiting List may leave the following two data elements blank.

47. Date of Placement on OOS Waiting List
Data type: DATE 112 (YYYYMMDD)

Data type: DATE 112 (YYYYMMDD)
Enter the date when the individual exited from an OOS waiting list. This date field, if entered, must be after the Date of Placement on OOS Waiting List above. This field must be left blank if the individual was not placed on an OOS wait list. If the individual exited the VR program from the OOS waiting list, (data element 213, Type of Closure, coded 6), then this data element must be filled in, and the date should be equal to the Closure Date.

49. Date of Individualized Plan for Employment (IPE)
Data type: DATE 112 (YYYYMMDD)

Record the date (year, month, and day) on which the first IPE for the individual became effective. For purposes of this data element, assume that the IPE is effective on the date on which both the agency and individual reach agreement. If the two signatures bear two different dates, the later date should govern.

50. Supported Employment Goal
Data type: VARCHAR (1)

For individuals who had an employment goal of supported employment in their IPE at some point during their rehabilitation and received supported employment services under the plan, indicate when the supported employment goal was included in the IPE.

- 0 The individual had no supported employment goal identified in their IPE at any point during their rehabilitation.
- 1 Initial IPE identified supported employment as the employment goal.
- 2 The IPE was amended during the VR process to change the goal to supported employment.
- 3 The IPE was amended during the VR process to change the goal from supported employment to another employment goal.
- 4 The amended or final IPE identified supported employment as the employment goal only at the time the service record was closed.

Note: The term "supported employment" means competitive work in integrated work settings, or employment in integrated work settings, in which individuals are working toward competitive employment, for individuals with the most significant disabilities who require intensive supported employment services in order to perform such work and extended employment supports to maintain such work.

SERVICES PROVIDED AND COSTS FOR PURCHASED SERVICES

The purpose of the service categories listed below is to capture all services provided to individuals during the life of their service record whether provided by the VR agency or others as comparable services or benefits. Except for assessment services that can be provided to determine eligibility prior to an IPE or to assign an individual to a priority category, the services provided should be those identified on the IPE, not services merely authorized, but actually provided. There are five data elements for each of the 28 service categories. The first data element indicates whether service has been provided. If purchased by the VR agency, the second data element identifies the primary service provider type. The third and fourth data elements are used to identify the source of funds for VR-purchased services as being state VR (Title I) grant funds, or state supported employment (Title VI, Part B) grant funds. The fifth data element is used to capture up to three comparable services and benefits providers.

1) Services Provided Data Type VARCHAR (1)

For each of the service categories, this data element provides information on whether services in the category were purchased and/or provided by the VR agency and/or provided by comparable services and benefits providers for the individual. Include all services furnished over the life of the service record for the individual. The following codes are used to capture this information for all services within the service category.

- 0 not provided
- 1 provided by the VR agency (in-house/by VR staff)
- 2 purchased by the VR agency
- 3 provided by comparable services and benefits providers
- 4 provided by the VR agency (in-house/by VR staff) and/or purchased by the VR agency and/or provided by comparable services and benefits providers

Note:

Data element (5) Comparable Services and Benefits Providers should be left blank.

For each service category, select code 3 if the service was provided ONLY through a comparable services and benefits provider. One or more types of comparable benefits providers (up to the maximum of three) must be chosen for this element. Each of the other data elements, (2) Primary Purchase VR Service Provider Type, (3) State Vocational Rehabilitation Grant (Title I) Funds Used to Purchase Services, and (4) Supported Employment State Grant (Title VI Part B) Funds Used to Purchase Services should be left blank.

Data type INT(6)

This data element records all expenditures (amounts) within this service category for services purchased for the most significantly disabled individual with the supported employment grant program (Title VI, Part B) funds. Recipients of these funds should have a supported employment goal in their IPE. Individuals with a supported employment goal stated in their IPEs may receive any category of services depending on their particular needs. Therefore, to identify the use of these funds, each service category includes this data element.

Include all Title VI, Part B expenditures made to public and/or private service providers, individuals or an organization. PERSONAL ASSISTANCE SERVICES

Personal Assistance Services are a range of services provided by one or more persons designed to assist an individual to perform daily living activities on or off the job that the individual would typically perform without assistance if he or she did not have a disability. The services must be designed to increase the individual's control in life and ability to perform everyday activities on or off the job. The services must be necessary to the achievement of an employment outcome and may be provided only while the individual is receiving other VR services. The services may include training in managing, supervising, and directing personal assistance services.

Three distinct services that are considered personal assistance services are reader services, interpreter services, and personal attendant services. Further information on recording each of these services follows. Record only whether and which of these services were provided to the individual (e.g., if the same person provided both reader service and personal attendant service to an individual, indicate both services).

➤ Reader Services

Data Elements 151-155

Reader services are for individuals who cannot read print because of blindness or other disability. Reader services include, in addition to reading aloud, transcription of printed information into Braille or sound recordings if the individual requests such transcription. Reader services are generally for individuals who are blind or deaf-blind, but may also include individuals unable to read because of serious neurological disorders, specific learning disabilities, or other physical or mental impairments.

➤ Interpreter Services

Data Elements 156-160

Interpreter services are sign language or oral interpretation services for individuals who are deaf or hard of hearing and tactile interpretation services for individuals who are deaf-blind. Specially trained individuals perform sign language or oral interpretation. Also include here real-time captioning services for persons who are deaf or hard of hearing. Do not include language interpretation in this category, but in "other services".

➤ Personal Attendant Services

Data Elements 161-165

Personal attendant services are those personal services that an attendant performs for an individual with a disability including, but not limited to

bathing, feeding, dressing, providing mobility and transportation, etc in multiple settings to include home, work and training facilities/school.

➤ Benefits Counseling
Data Elements 176-180

Assistance provided to an individual who is interested in becoming employed, but is uncertain of the impact work income will have on any disability benefits and entitlements being received, and/or is not aware of benefits, such as access to healthcare, that might be available to support any work attempt.

This typically involves an analysis of an individual's current benefits, such as SSDI and SSI, the individual's financial situation, and the effect different income levels from work will have on the individual's future financial situation. This assistance is intended to provide the individual an opportunity to make an informed choice regarding the pursuit of employment. Ongoing assistance may also be provided as the individual decides on employment goals, searches for jobs, and becomes employed.

➤ Customized Employment Services
Data Elements 181-185

Services that involve a blend of flexible strategies that result in the provision of individually negotiated and designed services, supports, and job opportunities for an individual and that lead to an employment outcome of customized employment, including self-employment. A key factor in deciding if a service is a customized employment service is the presence of employer negotiation, including customizing a job description based on current unidentified and unmet needs of the employer and the needs of the employee; developing a set of job duties or tasks; developing a work schedule (including determining hours worked); determining a job location; developing a job arrangement (such as job carving, job sharing, or a split schedule); or determining specifics of supervision.

➤ Other Services
Data Elements 186-190

Use this category for all other VR services that cannot be recorded elsewhere. Included here are occupational licenses, tools and equipment, initial stocks and supplies.

193. Number of Jobs / Occupations at Closure
Data type VARCHAR (1)

This data element captures the number of separate jobs consistent with the employment goal on an individual's IPE and primary employment goal SOC codes that the individual held at the time of closure. For those exiting with only one source of employment, enter the number '1'. For those exiting the VR program with 2 sources of employment or jobs, enter a '2', etc. For those individuals exiting without employment, leave blank.

194. Primary Occupation at Closure
Data type VARCHAR (6)

For an individual who achieved an employment outcome, enter a six-digit SOC code to describe the individual's occupation when the service record was closed. For individuals who did not achieve an employment outcome, leave blank.

Instructions for individuals who Exit with Multiple Occupations

For individuals exiting the VR program with multiple jobs, (coded in data element number 193, Number of Jobs / Occupations at Closure) the Occupation at Closure data element should be populated with the code for the occupation consistent with the employment goal on an individual's IPE and primary SOC codes from which the exiting individual derives the majority of their weekly earnings. See also 34 CFR 361.56(a). The following procedures should be followed to determine which occupation code to use:

1. If the earnings amounts of the multiple jobs are reported at the time of entering the occupation code, enter the occupation consistent with the employment goal specified on the IPE that encompasses the majority of the earnings per week at closure.
2. If the earnings amounts of the various jobs are not reported at the time of entry, the occupation code should be populated with the code for the occupation consistent with the employment goal specified on the IPE that encompasses the majority of the hours worked per week at closure.
3. If neither hours nor wages per occupation are known, then individual self reporting of the primary occupation consistent with the employment goal specified on the IPE should be used to determine the appropriate occupation code.

For the employment situations unique to the VR program, use the special codes indicated below.

For an individual who achieved an employment outcome, enter the applicable one-digit code that describes the employment outcome of the individual when his or her service record was closed. If classifying the individual into two different employment statuses from Codes 1 or 3-6 is possible, select a code designating the principal status.

- 1 Employment without Supports in Integrated Setting is full-time or part-time employment in an integrated setting without ongoing support services. For purposes of this report, this is work performed for wages, salary, commissions, tips, or piece-rates, below, at, or above the minimum wage. Do not include self-employed individuals.
- 3 Self-employment (except BEP) refers to work for profit or fees including operating one's own business, farm, shop, or office. "Self-employment" includes sharecroppers, but not wage earners on farms.
- 4 State Agency-managed Business Enterprise Program (BEP) refers to Randolph-Sheppard vending facilities and other small businesses operated by individuals with significant disabilities under the management and supervision of a State VR agency. Include home industry where the work is done under the management and supervision of a State VR agency in the individual's own home or residence for wages, salary, or on a piece-rate. Individuals capable of activity outside the home, as well as homebound individuals, may engage in such employment.
- 5 Homemaker refers to men and women whose activity is keeping house with no earnings for persons in their households or for themselves if they live alone.
- 6 Unpaid Family Worker refers to persons who work without pay on a family farm or in a family business.
- 7 Employment with Supports in Integrated Setting is full-time or part-time employment in an integrated setting with ongoing support services for individuals with significant disabilities (supported employment). For purposes of this report, compensation for such employment may be below, at, or above the minimum wage.

197. Weekly Earnings at Closure
Data type INT(5)

Enter the amount of money (to the nearest dollar) the individual earned in a typical week after achieving an employment outcome consistent with the employment goal on an individual's IPE, at the time the service record was closed and includes all income from wages, salaries, tips, and commissions received as income before payroll deductions of Federal, State and local income taxes and Social Security payroll tax. Earnings also include profits derived from self-employed individuals. Earnings for salespersons, consultants, self-employed individuals, and other similar occupations are based on the adjusted gross income. Adjusted gross income is gross income minus unreimbursed business expenses. Do not include estimates of payments in-kind, such as meals and lodging. Estimate profits of farmers, if necessary.

Where earnings are based on commissions that are irregular (e.g., real estate, automobile sales, etc.), to obtain a meaningful figure for a typical week's earnings, it should be calculated as a weekly average over a representative period of time such as one month or longer.

When, because of the occupation/situation, there are significant amounts of unreimbursed business expenses that are irregular (e.g., car lease payments due the first week of every month), the expenses should be averaged over a representative period of time such as one month or longer to obtain a meaningful figure for a typical week's business expenses.

Commissions are generally not paid when earned, but rather are paid periodically, such as weekly, biweekly, or even monthly. To bring standardization to this item, earnings should be based on the actual receipt of the payment and not on amounts accruing until the next commission payout.

If the individual had no earnings or did not achieve an employment outcome, enter "0".

198. Hours Worked in a Week at Closure
Data type INT(3)

For an individual who achieved an employment outcome, this item collects data on the number of hours worked on all employment consistent with the employment goal on the individual's IPE. Enter the number of hours the individual worked for earnings in a typical week when the service record was closed. Earnings may have been in the form of wages, salaries, tips, commissions, profits from self-employment, adjusted gross income for salespersons, etc. If the individual had no earnings or did not achieve an employment outcome, enter "0".

MONTHLY PUBLIC SUPPORT AMOUNT AT CLOSURE

Enter the monthly amount (to the nearest dollar) of public support received by the individual at closure from each of the following sources. If individual did not receive any monthly public support, enter "0" for each type of public support. Agencies may leave these data elements blank for closure code 1.

Public support refers to cash payments made by Federal, State and/or local governments for any reason, including an individual's disability, age, or economic status. Include payments to a family unit precipitated by the individual's disability or when the individual's presence is taken into account in the computation of the family benefit. Also include any payments that are sent directly to the individual in an institution or to dependents on his/her behalf. Exclude any non-cash support payments such as Medicaid, Medicare, food stamps and rental subsidies. Categories of public support are as follows:

199. Social Security Disability Insurance (SSDI)
Data Type INT(5)
Enter the amount of SSDI received by the individual each month. This figure can be verified through the Social Security Administration (SSA) or from a copy of the individual's benefit notification letter.
200. Supplemental Security Income (SSI) for the Aged, Blind or Disabled
Data Type INT(5)
Enter the monthly payment to the individual under the Federal program of SSI for the aged, blind, and disabled. Only the individual's portion of the payment should be recorded here. This figure can be verified through the SSA or from a copy of the individual's benefit notification letter.
201. Temporary Assistance for Needy Families (TANF)
Data Type INT(5)
Enter the monthly amount of cash public assistance payments made through the federally funded TANF program. If the TANF payment is made to the family unit, use the local disbursing agency's procedure to estimate the individual's portion of the payment.
202. General Assistance (State or local government)
Data Type INT(5)
203. Veterans' Disability Benefits
Data Type INT(5)
Veterans' Disability Benefits are payments made by the Department of Veterans Affairs for partial or total disability.
204. Workers' Compensation
Data Type INT(5)
205. All Other Public Support
Data Type INT(5)
Enter the monthly amount of public support received from all other sources of public support not listed. Other Public Support payments are cash payments to individuals beyond those otherwise listed, and include payments made by Federal, State and local governments for retirement or survivor benefits to the individual as well as unemployment insurance benefits and other temporary payments.

206. Primary Source of Support at Closure
Data type VARCHAR (1)

Enter a code from the list below to indicate the individual's largest single source of economic support at the time the service record was closed, even if it accounts for less than one-half of the individual's total support.

Note: If an individual is supported by the earnings of a spouse, or by the spouse's unemployment insurance checks, identify Code 2 as the Primary Source of Support (family and friends) and not Code 0 (employment earnings) or Code 1 (personal income). If an individual is primarily supported by a governmental entity with no cash support – for example, incarcerated individuals, – use code 3 (public support) as the primary source of support only if the individual applicant is the recipient of the support. If the family receives public support, use Code 2 (family and friends).

- 0 Employment Earnings
- 1 Personal Income (interest, dividends, rent, retirement including social security)
- 2 Family and Friends
- 3 Public Support (SSI, SSDI, TANF, etc.)
- 4 All other sources (e.g., private disability insurance and private charities)

MEDICAL INSURANCE COVERAGE AT CLOSURE

Record whether an individual had medical insurance coverage at the time of closure. Enter a "1" in each of the following data elements if the individual had this type of medical insurance coverage at closure, otherwise leave blank. Note: A new data element has been added to Medical Insurance Coverage at Closure.

- 207. Medicaid
Data Type: VARCHAR (1)
- 208. Medicare
Data Type: VARCHAR (1)
- 209. Public Insurance from Other Sources (Workers' Compensation, Children's Health Insurance Program, etc)
Data Type: VARCHAR (1)
- 210. Private Insurance Through Own Employer

Data Type: VARCHAR (1)

212. Private Insurance Through Other Means
Data Type: VARCHAR (1)
Individuals receiving benefits through their parent/family members' insurance plan should use this code.

213. Type of Closure
Data type VARCHAR (1)

Enter a one-digit code from the following list to indicate when in the VR process an individual exited the program:

- 1 Exited as an applicant
- 2 Exited during or after a trial work experience/extended evaluation
- 3 Exited with an employment outcome
- 4 Exited without an employment outcome, after receiving services
- 5 Exited without an employment outcome, after a signed IPE, but before receiving services
- 6 Exited from an order of selection waiting list
- 7 Exited without an employment outcome, after eligibility, but before an IPE was signed

214. Reason for Closure
Data type VARCHAR (2)

Enter the code listed below that identifies the reason for closing the service record of an individual. The code 0 applies only to service records with a code of 3 in data element 213, type of closure. Codes of 1 or higher apply to all other types of closure, that is, 1, 2, 4, 5, 6, and 7.

- 0 Achieved employment outcome (applicable only to closure type 3)
- 1 Unable to locate or contact
Use this code when the individual has relocated or left the State without a forwarding address.
- 2 Disability too significant to benefit from VR services - ineligible
Use this code to identify an applicant whose mental or physical disability is so significant that the individual cannot benefit from VR services in terms of employment.
- 3 No longer interested in receiving services or further services

Examples would include repeated failures to keep appointments for assessment, counseling, or other services.

- 4 Death
- 6 Transferred to another agency
Use this code when an individual needs services that are more appropriately obtained elsewhere. Transfer to the other agency indicates that appropriate referral information is forwarded to the other agency so that agency may provide services more effectively. Include individuals transferred to other State VR agencies.
- 8 No disabling condition - ineligible
Use this code only for applicants who are not eligible for VR services because no physical or mental impairment exists, such as when the reported disability is an acute condition with no residual impairment, e.g., a broken bone that heals.
- 9 No impediment to employment - ineligible
Use this code for applicants who are not eligible for VR services because their physical or mental impairment does not constitute a substantial impediment to employment.
