Dear Applicant:

The Rehabilitation Services Administration (RSA) invites new applications under Special Demonstration Programs. Please take a few moments to read this letter carefully as it includes important information related to the grant competition.

The purpose of Special Demonstration Programs is to expand and improve the provision of rehabilitation and other services authorized under the Rehabilitation Act of 1973, as amended, by supporting activities that increase the provision, extent, availability, scope, and quality of rehabilitation services. Under Special Demonstration Programs, RSA will fund model demonstrations for the reutilization of assistive technology and a technical assistance center to support these model demonstrations.

Please be sure your application addresses each of the following appropriately:

- The maximum funding levels contained in the Notices Inviting Application are strictly enforced. Failure to adhere to them will result in rejection of your application.

- Part III of the application narrative, is where you, the applicant, address the selection criteria used by reviewers in evaluating the application. The applicant must limit Part III to the equivalent of no more than 50 pages for 84.235V-1 and 60 pages for 84.235V-2, using the following standards:

  1. A “page” is 8.5” x 11”, on one side only with 1” margins at the top, bottom, and both sides.

  2. You must double space (no more than three lines per vertical inch) all text in the application narrative, including titles, headings, footnotes, quotations, references, and captions, as well as all text in charts, tables, figures, and graphs.

If you use a proportional computer font, you may not use a font smaller than a 12-point font or an average character density greater than 18 characters per inch. If you use a nonproportional font or a typewriter, you may not use more than 12 characters per inch.

The page limit does not apply to Part I, the cover sheet; Part II, the budget section, including the narrative budget justification; Part IV, the assurances and certifications; or the one-page abstract, the resumes, the bibliography, or the letters of support. However, you must include all of the application narrative in Part III.

If, in order to meet the page limit, you use print size, spacing, or margins smaller than the
standards specified in this notice, the Secretary will not consider your application for funding.

Please remember that peer reviewers are instructed that appendix material is to be considered supplemental material to support or show evidence supporting statements made in the narrative. They are neither requested nor expected to consider appendix material in rating applications.

Applicants should become familiar with the selection criteria contained in this application kit (see Section D for 235V-1 or F for 235V-2). These criteria will be used by reviewers and Rehabilitation Services Administration (RSA) staff to evaluate all applications. Your application should respond to each identified criterion since failure to do so will put your application at a significant disadvantage. Reviewers of applications report that an application written in a format that follows the peer review criteria and contains a separate budget section, greatly facilitates the review process.

**EDUCATION DEPARTMENT GENERAL ADMINISTRATIVE REGULATIONS (EDGAR)**

Office of Special Education and Rehabilitative Services Special Demonstrations Programs grants are subject to the requirements of the Education Department General Administrative Regulations at 34 CFR Parts 74, 75, 77, 79, 80, 81, 82, 85, and 86, 97, and 99. These regulations set forth all general rules affecting application submittal, review, grant awarding, and post-award administration of Department of Education grant programs.

Generally, Office of Special Education and Rehabilitative Services Special Demonstrations Programs grants are subject to the requirements for “Intergovernmental Review of Department of Education Programs and Activities,” found in 34 CFR Part 79 of EDGAR. For these priorities, Intergovernmental Review has been waived.

**APPLICATION PROCEDURES**

**Applicants for multi-year projects are required to provide detailed budget information for each project year.** The Department will determine at the time of the initial award, the funding levels for each year of the grant award. RSA requires annual performance and financial status reports, and uses those reports to determine progress and to make a decision as to whether or not to continue funding the project. These reports must be submitted to the designated RSA Project Officer.

**APPLICATION TRANSMITTING INSTRUCTIONS**

You must submit your application electronically. Please refer to the Notice Inviting Applications in this package for instructions submitting your application.

Applicants may contact the Competition Manager to discuss any matters relating to this
competition. The Competition Manager is Jeremy Buzzell, who may be reached at (202) 245-7319.

Sincerely,

/s/
Thomas Finch, Ph.D.

U.S. Department of Education
Grants.gov Submission Procedures and Tips for Applicants

Please note that the Grants.gov site works differently than the U.S. Department of Education’s (Department) e-Application system. To facilitate your use of Grants.gov, this document includes important submission procedures you need to be aware of to ensure your application is received in a timely manner and accepted by the Department of Education.

1) **REGISTER EARLY** – Grants.gov registration is a one-time process that may take five or more days to complete. You may begin working on your application while completing the registration process, but you cannot submit an application until all of the Get Started steps are complete. For detailed information on the Get Started Steps, please go to: [http://www.grants.gov/GetStarted](http://www.grants.gov/GetStarted).

2) **SUBMIT EARLY** – We strongly recommend that you do not wait until the last day to submit your application. Grants.gov will put a date/time stamp on your application and then process it after it is fully uploaded. The time it takes to upload an application will vary depending on a number of factors including the size of the application and the speed of your Internet connection, and the time it takes Grants.gov to process the application will vary as well. If Grants.gov rejects your application (see step three below), you will need to resubmit successfully before 4:30 pm on the deadline date.

   Note: To submit successfully, you must provide the DUNS number on your application that was used when your organization registered with the CCR (Central Contractor Registry).

3) **VERIFY SUBMISSION IS OK** – You will want to verify that Grants.gov and the Department receive your Grants.gov submission timely and that it was validated successfully. To see the date/time your application was received, login to Grants.gov and click on the Check Application Status link. For a successful submission, the date/time received should be earlier than 4:30 p.m. on the deadline date, AND the application status should be: Validated, Received by Agency, or Agency Tracking Number Assigned.

   If the date/time received is later than 4:30 p.m. Washington, D.C. time, on the closing date, your application is late. If your application has a status of “Received” it is still awaiting validation by Grants.gov. Once validation is complete, the status will either change to “Validated” or “Rejected with Errors.” If the status is “Rejected with Errors,” your application has not been received successfully. Some of the reasons Grants.gov may reject an application can be found on the Grants.gov site: [http://www.grants.gov/assets/ApplicationErrorTips.doc](http://www.grants.gov/assets/ApplicationErrorTips.doc). If you discover your application is late or has been rejected, please see the instructions below. Note: You will receive a series of confirmations both online and via e-mail about the status of your application. Please do not rely solely on e-mail to confirm whether your application has been received timely and validated successfully.

**Submission Problems – What should you do?**

If you have problems submitting to Grants.gov before the closing date, please contact Grants.gov Customer Support at 1-800-518-4726 or use the customer support available on the Web site: [http://www.grants.gov/CustomerSupport](http://www.grants.gov/CustomerSupport).
If electronic submission is optional and you have problems that you are unable to resolve before the deadline date and time for electronic applications, please follow the transmittal instructions for hard copy applications in the Federal Register notice and get a hard copy application postmarked by midnight on the deadline date.

If electronic submission is required, you must submit an electronic application before 4:30 p.m., unless you follow the procedures in the Federal Register notice and qualify for one of the exceptions to the electronic submission requirement and submit, no later than two weeks before the application deadline date, a written statement to the Department that you qualify for one of these exceptions. (See the Federal Register notice for detailed instructions.)

**Helpful Hints When Working with Grants.gov**

Please note, once you download an application from Grants.gov, you will be working offline and saving data on your computer. Please be sure to note where you are saving the Grants.gov file on your computer. You will need to logon to Grants.gov to upload and submit the application. (This is different from e-Application, where you are working online and saving data to the Department’s database.) **You must provide on your application the DUNS number that was used when your organization registered with the CCR.**

**Dial-Up Internet Connections**

When using a dial up connection to upload and submit your application, it can take significantly longer than when you are connected to the Internet with a high-speed connection, e.g. cable modem/DSL/T1. While times will vary depending upon the size of your application, it can take a few minutes to a few hours to complete your grant submission using a dial up connection. **If you do not have access to a high-speed connection and electronic submission is required, you may want to consider following the instructions in the Federal Register notice to obtain an exception to the electronic submission requirement no later than two weeks before the application deadline date.** (See the Federal Register notice for detailed instructions.)

**MAC Users**

If you do not have a Windows operating System, you will need to use a Windows Emulation program to submit an application using Grants.gov. For additional information, review the PureEdge Support for Macintosh white paper published by Pure Edge: [http://www.grants.gov/GrantsGov_UST_Grantee/!SSL!/WebHelp/MacSupportforPureEdge.pdf](http://www.grants.gov/GrantsGov_UST_Grantee/!SSL!/WebHelp/MacSupportforPureEdge.pdf), and/or contact Grants.gov Customer Support ([http://www.grants.gov/CustomerSupport](http://www.grants.gov/CustomerSupport)) for more information. **If you do not have a Windows emulation program and electronic submission is required, please follow instructions in the Federal Register notice to obtain an exception to the electronic submission requirement no later than two weeks before the application deadline date.** (See the Federal Register notice for detailed instructions.)

NOTICE OF FINAL PRIORITIES
NOTICE OF FINAL PRIORITIES

DEPARTMENT OF EDUCATION

Special Demonstration Programs--Model Demonstrations for Assistive Technology Reutilization

AGENCY: Office of Special Education and Rehabilitative Services, Department of Education.

ACTION: Notice of final priorities.

SUMMARY: The Assistant Secretary for the Office of Special Education and Rehabilitative Services (OSERS) announces final priorities under the Special Demonstration Programs administered by the Rehabilitation Services Administration (RSA). The Assistant Secretary may use one or more of these priorities for competitions in fiscal year (FY) 2006 and later years. This notice announces two priorities—a priority for model demonstrations for assistive technology (AT) device reutilization and a priority for a National Assistive Technology Device Reutilization Coordination and Technical Assistance Center (Center). These priorities are intended to increase access to AT devices for individuals with disabilities. The term “AT devices” includes a wide range of AT, such as computers, durable medical equipment, augmentative and alternative communication, and other devices.

EFFECTIVE DATE: These priorities are effective September 18, 2006.

FOR FURTHER INFORMATION CONTACT: Jeremy Buzzell, U.S.
The purpose of the Special Demonstration Programs is to provide financial assistance to projects that expand and improve the provision of rehabilitation and other services for individuals with disabilities. The projects to be supported under these priorities are intended to improve the provision of AT to individuals with disabilities.

We published a notice of proposed priorities (NPP) for this program in the Federal Register on April 26, 2006 (71 FR 24800). The NPP included a background statement that described our rationale for each priority proposed in that notice. This notice of final priorities (NFP) contains several significant changes from the NPP. These changes are explained in the following Analysis of Comments and Changes.
In response to our invitation in the NPP, 17 parties submitted comments on the proposed priorities. An analysis of the comments and of any changes in the priorities since publication of the NPP follows. We discuss substantive issues by topic under the number of the priority to which they pertain. Due to the nature and number of changes made in the priorities, OSERS significantly reorganized the priorities, including renumbering some sections and deleting others.

Generally, we do not address technical and other minor changes and suggested changes the law does not authorize us to make under the applicable statutory authority.

**Priority 1--Model Demonstrations for AT Device Reutilization**

**Priority 1--General**

**Comments:** Four commenters recommended that the amount of funds to cover indirect costs be limited to no more than 10 percent of the grant award in order to ensure that most of the grant funds are used for direct services.

**Discussion:** It is not necessary to limit indirect costs in the final priority because 34 CFR 373.22 limits indirect costs to 10 percent of the total direct cost base or the grantee’s actual indirect costs, whichever is less.

**Change:** None.
**Comment**: One commenter requested greater specificity about requiring grantees to provide plans for sustaining their projects beyond the project period of this grant.

**Discussion**: Programs can be sustained in many ways, so OSERS agrees that a clarification of what is meant by this requirement will be helpful to potential applicants.

**Change**: OSERS replaced section (c) of Priority 1 with a new section (a)(ii) of Priority 1 to clarify that the project must be designed to sustain itself through its own activities beyond the project period of the grant.

**Priority 1—Eligibility Requirements**

**Comments**: Three commenters suggested that interstate collaborations be allowed to apply for grants under Priority 1.

**Discussion**: Eligible parties already are allowed to apply as a group pursuant to 34 CFR 75.127 through 75.129 and 34 CFR 373.2(a)(6).

**Change**: OSERS replaced section (b) of Priority 1 with new sections (a)(iii) and (a)(iv) of Priority 1 to clarify that projects may serve a State or group of States.

**Comments**: Three commenters suggested that grants be limited to one per State. One of these commenters would allow an exception if one project involved a single State and another involved that same State in a multi-State or regional project.

**Discussion**: Limiting grants to one per State may undermine the competitive grant process and reduce the quality of services to
individuals with disabilities, because high quality applications from one State would be passed over for low quality applications from another State. Additionally, as is stated elsewhere in this notice, statewide delivery of services will not be a requirement of applicants. Limiting the grants to one per State may prevent a State from achieving more comprehensive services through multiple grants.

Change: None.

Priority 1--Scope of Services

Comments: Two commenters recommended that rather than requiring projects under Priority 1 to include all types of AT, serve people with all types of disabilities, and be statewide, that grantees be allowed to determine what AT they will reutilize, what types of disabilities will be served, and whether they will serve the entire State.

Discussion: OSERS understands that different capacities and expertise are required to reutilize particular types of devices. Additionally, it is possible that a project can best meet the needs of individuals with disabilities in particular areas of a State rather than on a statewide basis. Therefore, OSERS agrees that projects should have discretion to determine what types of devices they will reutilize and whether they have the capacity to serve statewide. However, individuals with diverse disabilities can benefit from similar devices; therefore, it is not appropriate to
give States the discretion to limit the type of disability served.

Change: OSERS has removed language from section (a) of Priority 1 requiring that projects be statewide and recycle all types of AT.

Priority 1--Requirements for Project Operations

Comments: Three commenters recommended that grantees under Priority 1 be required to use professional technicians to refurbish the recycled devices.

Discussion: Existing device reutilization projects use various models to successfully reutilize AT devices and rely on a wide range of expertise. Given the diversity of programs nationally and the lack of agreed-upon best practices for device reutilization, imposing such a requirement would unfairly restrict applications from viable programs. However, OSERS agrees that it is important to encourage the establishment of best practices in the field of AT device reutilization.

Changes: OSERS deleted sections 1(d) and 2(a) of Priority 2 and added sections (a)(ii), (a)(iv), and (b)(iv) to Priority 2 to require the Center to investigate and nationally disseminate best practices and to explore the need for and feasibility of developing standards of practice.

Priority 1--Collaboration

Comments: Four commenters suggested that every grantee under Priority 1 be required to collaborate with the Statewide
Assistive Technology Program (Statewide AT Program) funded under the Assistive Technology Act of 1998, as amended (AT Act), in their State, and two commenters recommended requiring an assurance from the Statewide AT Program in their State that the grantee’s application supplements and coordinates with the Statewide AT Program’s reutilization activities.

Discussion: Because Statewide AT Programs conduct reutilization activities, OSERS agrees that projects funded under Priority 1 should collaborate with Statewide AT Programs to ensure better services to individuals with disabilities in their States. However, requiring an applicant under Priority 1 to provide an assurance in its application from the Statewide AT Program in its State that the application supplements and coordinates these reutilization activities would unfairly limit applications and undermine the competitive process. Requiring such an assurance from the Statewide AT Program would allow the Statewide AT Program to determine what entities can apply under Priority 1 by agreeing to or refusing to provide an assurance to an entity.

Change: OSERS replaced section (b) of Priority 1, with a new section (a)(iii), which requires that grantees coordinate and collaborate with reutilization activities funded under the AT Act. However, an assurance from the grantee under the AT State Grant program will not be required as part of the application. OSERS also included in section (a)(iii) language from section
(h) in the NPP requiring that funds be used to supplement and not supplant the efforts of the Statewide AT Program.

Comments: One commenter recommended including a list of partners with whom grantees funded under Priority 1 should be required to collaborate, including AT Act programs, alternative financing programs, vocational rehabilitation agencies, education agencies, and vendors. An additional two commenters suggested that grantees be required to partner with manufacturers and suppliers of AT to conduct reutilization.

Discussion: OSERS agrees that collaboration is important for projects funded under Priority 1.

Change: OSERS replaced section (b) with a new section (a)(iv), which requires that grantees collaborate with relevant entities as appropriate, including the National Assistive Technology Device Reutilization Coordination and Technical Assistance Center funded under Priority 2, as well as State agencies that fund AT, alternative financing programs, vendors and manufacturers of AT, and other relevant entities and organizations.

Priority 1--Compliance with Regulations and Standards of Practice

Comments: Two commenters want to require grantees under Priority 1 to collaborate with manufacturers to establish standards for useful life by device type, minimum training and expertise for refurbishing and repair staff, and guidelines for training and education of clients and caregivers.
Discussion: OSERS agrees that it may be important to establish standards or best practices in device reutilization. However, if each project funded under Priority 1 works separately with manufacturers to establish standards, the standards will be inconsistent.

Change: OSERS added section (a)(iv) to Priority 2 to require the Center to explore the need for and feasibility of developing standards of practice.

Comments: Two commenters recommended that all grantees under Priority 1 be required to submit an assurance of compliance with all appropriate State and Federal requirements pertinent to the reuse, recycling, and sanitization of devices.

Discussion: While OSERS understands that projects may need assistance in understanding the appropriate State and Federal requirements, Priority 1 projects are subject to State and Federal requirements regardless of an additional assurance. Therefore, such an assurance is unnecessary. We believe it would be appropriate for the Center funded under Priority 2 to provide technical assistance to Priority 1 grantees on State and Federal requirements.

Change: OSERS has added sections (a)(iii) and (b)(iii) to Priority 2 requiring the Center funded under Priority 2 to disseminate information and to provide technical assistance related to relevant State and Federal requirements to projects funded under Priority 1.

Comments: Three commenters requested a requirement that all model demonstrations develop and maintain standards of practice and develop protocols for referrals to AT practitioners to provide evaluations.
**Discussion:** OSERS agrees that it may be important to develop standards of practice or procedures for referral. However, if each project funded under Priority 1 works separately to develop standards of practice or procedures for referrals, the standards and procedures will be inconsistent.

**Change:** OSERS added section (a)(iv) to Priority 2 to require the Center to explore the need for and feasibility of developing standards of practice for AT device reutilization nationally.

**Priority 1--Data Collection and Reporting**

**Comments:** Three commenters recommended that projects under Priority 1 be required to report to manufacturers when a reuse project has possession of a device and when a device has been involved in an injury or death.

**Discussion:** We agree that these types of reports may be beneficial. However, if each project funded under Priority 1 works separately with manufacturers to provide that information, reporting will not be standardized or reliable.

**Change:** OSERS added section (a)(v) to Priority 2 to require the Center to explore the necessity, feasibility, and development of reporting to AT manufacturers by Priority 1 grantees.

**Comments:** One commenter recommended that one data collection system be formed by RSA, the Center funded under Priority 2, and the grantees, rather than having each grantee form its own system. An additional commenter recommended that grantees under Priority 1 use common
measurement standards that are developed by the Center under Priority 2.

Discussion: OSERS agrees that a unified system of measuring and collecting data should be developed, which was intended by the NPP. Change: OSERS replaced section (d) in Priority 1 and section 1(g) in Priority 2 with a new section (b)(i) of Priority 1 and section (b)(v) of Priority 2 to clarify that RSA, the Center in Priority 2, and projects funded under Priority 1 will work together to develop a unified system of measuring and collecting data and to identify appropriate outcome measures and methods of collecting data. Comments: Four commenters recommended that the data collection requirements for Priority 1 be the same as the data collection requirements for device reutilization programs under the AT Act. An additional three commenters wanted to require that Priority 1 projects identify and collect data to measure clinical outcomes of individuals served by device reutilization programs. Discussion: OSERS believes that developing appropriate data collection requirements and identifying outcomes is important. OSERS agrees that data reported by projects funded under Priority 1, at a minimum, should meet the data collection requirements for device reutilization under the AT Act. However, restricting the data collection requirements solely to the requirements under the AT Act would limit the data collection before the full data needs of projects funded under Priority 1 have been explored. Additionally, while OSERS agrees that measuring outcomes, including clinical outcomes, of those served by reutilization
programs may be important, outcome measurement will be inconsistent if grantees under Priority 1 separately develop methods of outcome measurement.

**Change:** OSERS eliminated specific data collection requirements by deleting sections (e) through (g) of Priority 1. Instead, OSERS added sections (b)(i) and (b)(ii) to Priority 1 and sections (b)(v) and (b)(vi) to Priority 2 to require that the Center funded under Priority 2 and projects funded under Priority 1 work together with RSA to develop a data collection system, including identifying appropriate outcomes and outcome measures.

**Priority 2--National AT Device Reutilization Coordination and Technical Assistance Center**

**Priority 2--Eligibility and Collaboration with Stakeholders**

**Comments:** Three commenters wanted to require entities that apply under Priority 2 to have direct experience reutilizing devices in order to be eligible.

**Discussion:** While OSERS agrees that the expertise from those with direct experience reutilizing devices is important, eligibility requirements are established in section 303(b)(2)(A) of the Rehabilitation Act of 1973, as amended, and 34 CFR 373.2.

**Change:** None.

**Comments:** Four commenters recommended that under Priority 2 the grantee be required to create an advisory and oversight committee comprised of stakeholders. An additional three commenters wanted to
limit eligibility under Priority 2 to applicants who constitute a collaborative of entities that are stakeholders in reutilization of AT. **Discussion:** OSERS agrees that the Center funded under Priority 2 should work with a variety of stakeholders. However, while the eligibility requirements established in 34 CFR 373.2 allow applications by consortia, OSERS does not believe it is appropriate to restrict applications to consortia of stakeholders. In addition, while OSERS believes that the Center should be required to collaborate with stakeholders, effective collaboration with stakeholders can be achieved in many ways. Therefore, OSERS does not believe that it is necessary to require the Center to have an advisory committee. The grantee should have discretion as to the method by which it collaborates and with whom it collaborates.

**Changes:** OSERS replaced sections 2(c) and 2(e) of Priority 2 with new sections (a) and (c)(v) of Priority 2 to clarify that collaboration with stakeholders is a requirement of the Center funded under Priority 2.

**Priority 2--Scope of Work**

**Comments:** Two commenters recommended that the Center be used to identify regulatory issues and ensure compliance. **Discussion:** OSERS agrees that the identification and dissemination of State and Federal requirements governing device reutilization is important and that this
should be a key responsibility of the Center funded under Priority 2. However, while a Center can disseminate and provide technical assistance about requirements, it cannot enforce these requirements.

**Change:** OSERS replaced section 1(a) of Priority 2 with a new section (b), which includes (b)(iii) requiring the Center to disseminate information and provide technical assistance on compliance with State and Federal requirements regarding AT device utilization.

**Comment:** One commenter suggested funding Priority 2 prior to funding Priority 1 to identify regulatory issues and standards of practice prior to the operation of model demonstrations under Priority 1.

**Discussion:** There are many device reutilization projects already in existence, and there are many instances in which developing or expanding reutilization represents an immediate need for States. Further, OSERS believes that the projects funded under Priority 1 must be able to provide input into the development of any standards of practice. Therefore, it would not be appropriate to delay the funding of projects under Priority 1.

**Change:** None.

**Comment:** None.

**Discussion:** OSERS believes that reutilization of AT devices can be an important part of a national strategy to respond to the needs of individuals with disabilities involved in natural disasters. The Center funded under Priority 2 and the projects funded under Priority 1 present an opportunity to develop a coordinated effort to collect and distribute reutilized AT devices following a natural disaster.
Change: OSERS added section (c)(vi) to Priority 2 requiring the Center to develop a plan for device reutilization to meet the AT needs of individuals with disabilities who are affected by natural disasters.

Note: This notice does not solicit applications. In any year in which we choose to use one or more of these priorities, we invite applications through a notice in the Federal Register. When inviting applications we designate each priority as absolute, competitive preference, or invitational. The effect of each type of priority follows:

Absolute priority: Under an absolute priority we consider only applications that meet the priority (34 CFR 75.105(c)(3)).

Competitive preference priority: Under a competitive preference priority we give competitive preference to an application by either (1) awarding additional points, depending on how well or the extent to which the application meets the competitive priority (34 CFR 75.105(c)(2)(i)); or (2) selecting an application that meets the competitive priority over an application of comparable merit that does not meet the priority (34 CFR 75.105(c)(2)(ii)).

Invitational priority: Under an invitational priority we are particularly interested in applications that meet the invitational priority. However, we do not give an application
that meets the invitational priority a competitive or absolute preference over other applications (34 CFR 75.105(c)(1)).

PRIORITIES:

**Priority 1--Model Demonstrations for AT Device Reutilization**

This priority supports projects that propose model demonstrations to establish or expand AT device reutilization to serve consumers in a State or group of States. Projects funded under this priority must--

(a) Establish a new AT device reutilization project, expand an existing AT device reutilization project, or coordinate a partnership of AT device reutilization projects in a State or group of States, that--

(i) Meets the AT needs of individuals with disabilities without regard to type of disability;  
(ii) Is designed to sustain itself through its own activities beyond the project period of the grant;  
(iii) Coordinates and collaborates directly with, and supplements but does not supplant, reutilization activities in that State or group of States funded under section 4 of the Assistive Technology Act of 1998, as amended; and  
(iv) Coordinates and collaborates with providers of AT devices and AT services in the State or group of States and other relevant entities as appropriate, including the National AT Device Reutilization Coordination and Technical Assistance
Center (Center) funded by the Department, as well as State agencies that fund AT, alternative financing programs, vendors and manufacturers of AT, and other relevant entities and organizations; and

(b) Participate in data collection by--

(i) Working with RSA and the Center to develop a unified data collection system, including identifying appropriate outcomes and outcome measures; and

(ii) Collecting and reporting data on activities and outcomes as determined by RSA.

Priority 2--National AT Device Reutilization Coordination and Technical Assistance Center

This priority supports a National AT Device Reutilization Coordination and Technical Assistance Center that will address issues of national significance in AT device reutilization; provide technical assistance to AT device reutilization projects funded by the Department under the Model Demonstrations for AT Device Reutilization priority (Model Demonstrations Projects) and from other sources; and coordinate and network AT device reutilization projects funded both under the Model Demonstrations Projects and from other sources.

(a) To address issues of national significance in AT device reutilization, the Center funded under this priority must collaborate with public and private AT stakeholders (including providers of AT devices, AT services, and funding for AT at the
State and Federal level; vendors and manufacturers of AT; and other relevant entities and organizations) to--

(i) Identify national issues that affect AT device reutilization;

(ii) Investigate the national scope, trends, best practices, and impact of AT device reutilization;

(iii) Identify Federal and State policies that affect AT device reutilization;

(iv) Explore the need for and feasibility of developing standards of practice for AT device reutilization nationally;

(v) Explore the necessity, feasibility, and development of reporting information to AT manufacturers; and

(vi) Address issues on the national level, such as building relationships among AT device vendors and manufacturers and projects funded under Model Demonstration Projects and working on liability and reimbursement issues.

(b) To provide technical assistance to reutilization projects funded both under Model Demonstrations Projects and from other sources, the Center funded under this priority must--

(i) Assist AT device reutilization projects with establishment, expansion, improvement, and sustainability by disseminating information about best practices and successful models for AT device reutilization;

Executive Order 12866

This notice of final priorities has been reviewed in accordance with Executive Order 12866. Under the terms of the order, we have assessed the potential costs and benefits of this regulatory action.

The potential costs associated with the notice of final priorities are those resulting from statutory requirements and those we have determined as necessary for administering this program effectively and efficiently.

In assessing the potential costs and benefits—both quantitative and qualitative—of this notice of final priorities, we have determined that the benefits of the final priorities justify the costs.

We have also determined that this regulatory action does not unduly interfere with State, local, and tribal governments in the exercise of their governmental functions.

Summary of potential costs and benefits

The potential costs associated with these final priorities are minimal, while the benefits are significant. Grantees will
increase the number of individuals with disabilities who obtain
the AT they need. Grantees may anticipate costs associated with
completing the application process in terms of staff time,
copying, and mailing or delivery. The use of electronic
application technology reduces mailing and copying costs
significantly.

Intergovernmental Review

This program is subject to Executive Order 12372 and the
regulations in 34 CFR part 79. One of the objectives of the
Executive order is to foster an intergovernmental partnership
and a strengthened federalism. The Executive order relies on
processes developed by State and local governments for
coordination and review of proposed Federal financial
assistance.

This document provides early notification of our specific
plans and actions for this program.

Applicable Program Regulations: 34 CFR part 373.

application electronically or by mail or hand delivery if you qualify for an exception to the electronic submission requirement, please refer to section IV.  6. **Other Submission Requirements** in this notice.

We do not consider an application that does not comply with the deadline requirements.

4. **Intergovernmental Review**: This competition is subject to Executive Order 12372 and the regulations in 34 CFR part 79. However, in order to ensure that these FY 2006 grants are made before September 30, 2006, the 60-day intergovernmental review period has been waived.

5. **Funding Restrictions**: We reference regulations outlining funding restrictions in the **Applicable Regulations** section of this notice.

6. **Other Submission Requirements**: Applications for grants under this competition must be submitted electronically unless you qualify for an exception to this requirement in accordance with the instructions in this section.

   a. **Electronic Submission of Applications**.

   Applications for grants under the Special Demonstration Programs--Model Demonstrations for AT Device Reutilization–CFDA Number 84.235V-1 must be submitted electronically using the Grants.gov Apply site at:  http://www.grants.gov  Through this site, you will be able to download a copy of the application package, complete it offline, and then upload and submit your application.
You may not e-mail an electronic copy of a grant application to us.

We will reject your application if you submit it in paper format unless, as described elsewhere in this section, you qualify for one of the exceptions to the electronic submission requirement and submit, no later than two weeks before the application deadline date, a written statement to the Department that you qualify for one of these exceptions. Further information regarding calculation of the date that is two weeks before the application deadline date is provided later in this section under Exception to Electronic Submission Requirement.

You may access the electronic grant application for Special Demonstration Programs--Model Demonstrations for AT Device Reutilization at: http://www.grants.gov You must search for the downloadable application package for this program by the CFDA number. Do not include the CFDA number’s alpha suffix in your search.

Please note the following:

• When you enter the Grants.gov site, you will find information about submitting an application electronically through the site, as well as the hours of operation.

• Applications received by Grants.gov are time and date stamped. Your application must be fully uploaded and submitted, and must be date/time stamped by the Grants.gov system no later than 4:30 p.m., Washington, DC time, on the application deadline date. Except as otherwise noted in this section, we will not consider your application if it is date/time stamped by the Grants.gov system later
than 4:30 p.m., Washington, DC time, on the application deadline date. When we retrieve your application from Grants.gov, we will notify you if we are rejecting your application because it was date/time stamped by the Grants.gov system after 4:30 p.m., Washington, DC time, on the application deadline date.

- The amount of time it can take to upload an application will vary depending on a variety of factors including the size of the application and the speed of your Internet connection. Therefore, we strongly recommend that you do not wait until the application deadline date to begin the submission process through Grants.gov.

- You should review and follow the Education Submission Procedures for submitting an application through Grants.gov that are included in the application package for this competition to ensure that you submit your application in a timely manner to the Grants.gov system. You can also find the Education Submission Procedures pertaining to Grants.gov at http://e-Grants.ed.gov/help/GrantsgovSubmissionProcedures.pdf

- To submit your application via Grants.gov, you must complete all of the steps in the Grants.gov registration process (see http://www.grants.gov/applicants/get_registered.jsp). These steps include (1) registering your organization, (2) registering yourself as an Authorized Organization Representative (AOR), and (3) getting authorized as an AOR by your organization. Details on these steps are outlined in the Grants.gov 3-Step Registration Guide (see http://www.grants.gov/section910/Grants.govRegistrationBrochure.pdf).
You also must provide on your application the same D-U-N-S Number used with this registration. Please note that the registration process may take five or more business days to complete, and you must have completed all registration steps to allow you to submit successfully an application via Grants.gov.

- You will not receive additional point value because you submit your application in electronic format, nor will we penalize you if you qualify for an exception to the electronic submission requirement, as described elsewhere in this section, and submit your application in paper format.

- You must submit all documents electronically, including all information typically included on the following forms: Application for Federal Assistance (SF 424), the Department of Education Supplemental Information for SF 424, Budget Information--Non-Construction Programs (ED 524), and all necessary assurances and certifications. Please note that two of these forms--the SF 424 and the Department of Education Supplemental Information for SF 424--have replaced the ED 424 (Application for Federal Education Assistance). You must attach any narrative sections of your application as files in a .DOC (document), .RTF (rich text), or .PDF (Portable Document) format. If you upload a file type other than the three file types specified above or submit a password protected file, we will not review that material.

- Your electronic application must comply with any page limit requirements described in this notice.
After you electronically submit your application, you will receive an automatic acknowledgment from Grants.gov that contains a Grants.gov tracking number. The Department will retrieve your application from Grants.gov and send you a second confirmation by e-mail that will include a PR/Award number (an ED-specified identifying number unique to your application).

- We may request that you provide us original signatures on forms at a later date.

Application Deadline Date Extension in Case of Technical Issues with the Grants.gov System: If you are prevented from electronically submitting your application on the application deadline date because of technical problems with the Grants.gov system, we will grant you an extension until 4:30 p.m., Washington, DC time, the following business day to enable you to transmit your application electronically, or by hand delivery. You also may mail your application by following the mailing instructions as described elsewhere in this notice. If you submit an application after 4:30 p.m., Washington, DC time, on the deadline date, please contact the person listed elsewhere in this notice under For Further Information Contact, and provide an explanation of the technical problem you experienced with Grants.gov, along with the Grants.gov Support Desk Case Number (if available). We will accept your application if we can confirm that a technical problem occurred with the Grants.gov system and that that problem affected your ability to submit your application by 4:30 p.m., Washington, DC time, on the application
deadline date. The Department will contact you after a determination is made on whether your application will be accepted.

**Note:** Extensions referred to in this section apply only to the unavailability of or technical problems with the Grants.gov system. We will not grant you an extension if you failed to fully register to submit your application to Grants.gov before the deadline date and time or if the technical problem you experienced is unrelated to the Grants.gov system.

**Exception to Electronic Submission Requirement:** You qualify for an exception to the electronic submission requirement, and may submit your application in paper format, if you are unable to submit an application through the Grants.gov system because—

- You do not have access to the Internet; or

and

- No later than two weeks before the application deadline date (14 calendar days or, if the fourteenth calendar day before the application deadline date falls on a Federal holiday, the next business day following the Federal holiday), you mail or fax a written statement to the Department, explaining which of the two grounds for an exception prevent you from using the Internet to submit your application. Department, we must receive the faxed statement no later than two weeks before the application deadline date.

are from 34 CFR 75.210 and are in the application package.

VI. Award Administration Information

1. **Award Notices:** If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may also notify you informally.

   If your application is not evaluated or not selected for funding, we notify you.

2. **Administrative and National Policy Requirements:** We identify administrative and national policy requirements in the application package and reference these and other requirements in the Applicable Regulations section of this notice.

   We reference the regulations outlining the terms and conditions of an award in the Applicable Regulations section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. **Reporting:** At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as specified by the Secretary in 34 CFR 75.118.

4. **Performance Measures:** The Government Performance and Results Act of 1993 (GPRA) directs Federal departments and agencies to improve the effectiveness of their programs by engaging in
strategic planning, setting outcome-related goals for programs, and measuring program results against those goals. Given that little is known about appropriate outcomes of device reutilization, performance measures will be developed and implemented with the input of grantees and stakeholders during the grant period. Once developed, OSERS will require all grantees to use the same measures.

5. Funding Restrictions: We reference regulations outlining funding restrictions in the Applicable Regulations section of this notice.

6. Other Submission Requirements: Applications for grants under this competition must be submitted electronically unless you qualify for an exception to this requirement in accordance with the instructions in this section.

   a. Electronic Submission of Applications.

   Applications for grants under the Special Demonstration Programs--National AT Device Reutilization Coordination and Technical Assistance Center-CFDA Number 84.235V-2 must be submitted electronically using the Grants.gov Apply site at: http://www.grants.gov Through this site, you will be able to download a copy of the application package, complete it offline, and then upload and submit your application. You may not e-mail an
electronic copy of a grant application to us.

We will reject your application if you submit it in paper format unless, as described elsewhere in this section, you qualify for one of the exceptions to the electronic submission requirement and submit, no later than two weeks before the application deadline date, a written statement to the Department that you qualify for one of these exceptions. Further information regarding calculation of the date that is two weeks before the application deadline date is provided later in this section under Exception to Electronic Submission Requirement.

You may access the electronic grant application for the Special Demonstration Programs--National AT Device Reutilization Coordination and Technical Assistance Center at: http://www.grants.gov You must search for the downloadable application package for this program by the CFDA number. Do not include the CFDA number’s alpha suffix in your search.

Please note the following:

• When you enter the Grants.gov site, you will find information about submitting an application electronically through the site, as well as the hours of operation.

• Applications received by Grants.gov are time and date stamped. Your application must be fully uploaded and submitted, and must be date/time stamped by the Grants.gov system no later than 4:30 p.m., Washington, DC time, on the application deadline date. Except as otherwise noted in this section, we will not consider your
application if it is date/time stamped by the Grants.gov system later than 4:30 p.m., Washington, DC time, on the application deadline date. When we retrieve your application from Grants.gov, we will notify you if we are rejecting your application because it was date/time stamped by the Grants.gov system after 4:30 p.m., Washington, DC time, on the application deadline date.

- The amount of time it can take to upload an application will vary depending on a variety of factors including the size of the application and the speed of your Internet connection. Therefore, we strongly recommend that you do not wait until the application deadline date to begin the submission process through Grants.gov.

- You should review and follow the Education Submission Procedures for submitting an application through Grants.gov that are included in the application package for this competition to ensure that you submit your application in a timely manner to the Grants.gov system. You can also find the Education Submission Procedures pertaining to Grants.gov at http://e-Grants.ed.gov/help/GrantsgovSubmissionProcedures.pdf

These steps include (1) registering your organization, (2) registering yourself as an Authorized Organization Representative (AOR), and (3) getting authorized as an AOR by your organization. Details on these steps are outlined in the Grants.gov 3-Step Registration Guide (see
You also must provide on your application the same D-U-N-S Number used with this registration. Please note that the registration process may take five or more business days to complete, and you must have completed all registration steps to allow you to submit successfully an application via Grants.gov.

- You will not receive additional point value because you submit your application in electronic format, nor will we penalize you if you qualify for an exception to the electronic submission requirement, as described elsewhere in this section, and submit your application in paper format.

- You must submit all documents electronically, including all information typically included on the following forms: Application for Federal Assistance (SF 424), the Department of Education Supplemental Information for SF 424, Budget Information—Non-Construction Programs (ED 524), and all necessary assurances and certifications. Please note that two of these forms—the SF 424 and the Department of Education Supplemental Information for SF 424—have replaced the ED 424 (Application for Federal Education Assistance). You must attach any narrative sections of your application as files in a .DOC (document), .RTF (rich text), or .PDF (Portable Document) format. If you upload a file type other than the three file types specified above or submit a password protected file, we will not review that material.

- Your electronic application must comply with any page limit
requirements described in this notice.

• After you electronically submit your application, you will receive an automatic acknowledgment from Grants.gov that contains a Grants.gov tracking number. The Department will retrieve your application from Grants.gov and send you a second confirmation by e-mail that will include a PR/Award number (an ED-specified identifying number unique to your application).

• We may request that you provide us original signatures on forms at a later date.

Application Deadline Date Extension in Case of Technical Issues with the Grants.gov System: If you are prevented from electronically submitting your application on the application deadline date because of technical problems with the Grants.gov system, we will grant you an extension until 4:30 p.m., Washington, DC time, the following business day to enable you to transmit your application electronically, or by hand delivery. You also may mail your application by following the mailing instructions as described elsewhere in this notice. If you submit an application after 4:30 p.m., Washington, DC time, on the deadline date, please contact the person listed elsewhere in this notice under For Further Information Contact, and provide an explanation of the technical problem you experienced with Grants.gov, along with the Grants.gov Support Desk Case Number (if available). We will accept your application if we can confirm that a technical problem occurred with the Grants.gov system and that that problem affected your ability to submit your
application by 4:30 p.m., Washington, DC time, on the application deadline date. The Department will contact you after a determination is made on whether your application will be accepted.

**Note:** Extensions referred to in this section apply only to the unavailability of or technical problems with the Grants.gov system. We will not grant you an extension if you failed to fully register to submit your application to Grants.gov before the deadline date and time or if the technical problem you experienced is unrelated to the Grants.gov system.

**Exception to Electronic Submission Requirement:** You qualify for an exception to the electronic submission requirement, and may submit your application in paper format, if you are unable to submit an application through the Grants.gov system because—

- You do not have access to the Internet; or

- No later than two weeks before the application deadline date (14 calendar days or, if the fourteenth calendar day before the application deadline date falls on a Federal holiday, the next business day following the Federal holiday), you mail or fax a written statement to the Department, explaining which of the two grounds for an exception prevent you from using the Internet to submit your application. PROTECTION OF HUMAN SUBJECTS IN RESEARCH

I. Definitions and Exemptions

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department’s regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Research

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as “a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge.” If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge it is research. Activities which meet this definition constitute research whether or not they are conducted or supported under a program which is considered research for other purposes.
For example, some demonstration and service programs may include research activities.

—Human Subject

The regulations define human subject as “a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information.” (1) If an activity involves obtaining information about a living person by manipulating that person or that person’s environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met. (2) If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met. [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).

B. Exemptions.

Research activities in which the only involvement of human subjects will be in one or more of the following six categories of exemptions are not covered by the regulations:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects’ responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects’ financial standing, employability, or reputation. If the subjects are children, exemption 2 applies only to research involving educational tests and observations of public behavior when the investigator(s) do not participate in the activities being observed. Exemption 2 does not apply if children are surveyed or interviewed or if the research involves observation of public behavior and the investigator(s) participate in the activities being observed. [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

(3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

(4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those
programs.

(6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

II. Instructions for Exempt and Nonexempt Human Subjects Research Narratives

If the applicant marked “Yes” for Item 13 on the ED 424, the applicant must provide a human subjects “exempt research” or “nonexempt research” narrative and insert it immediately following the ED 424 face page.

A. Exempt Research Narrative.

If you marked “Yes” for item 13 a. and designated exemption numbers(s), provide the “exempt research” narrative. The narrative must contain sufficient information about the involvement of human subjects in the proposed research to allow a determination by ED that the designated exemption(s) are appropriate. The narrative must be succinct.

B. Nonexempt Research Narrative.

If you marked “No” for item 13 a. you must provide the “nonexempt research” narrative. The narrative must address the following seven points. Although no specific page limitation applies to this section of the application, be succinct.

1. Human Subjects Involvement and Characteristics: Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable.

2. Sources of Materials: Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

3. Recruitment and Informed Consent: Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the circumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

4. Potential Risks: Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

5. Protection Against Risk: Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

6. Importance of the Knowledge to be Gained: Discuss the importance of the knowledge gained or to be gained.
as a result of the proposed research. Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

(7) **Collaborating Site(s):** If research involving human subjects will take place at collaborating site(s) or other performance site(s), name the sites and briefly describe their involvement or role in the research.

NOTICE TO ALL APPLICANTS

The purpose of this enclosure is to inform you about a new provision in the Department of Education's General Education Provisions Act (GEPA) that applies to applicants for new grant awards under Department programs. This provision is Section 427 of GEPA, enacted as part of the Improving America's Schools Act of 1994 (Public Law (P.L.) 103-382).

To Whom Does This Provision Apply?

Section 427 of GEPA affects applicants for new grant awards under this program. ALL APPLICANTS FOR NEW AWARDS MUST INCLUDE INFORMATION IN THEIR APPLICATIONS TO ADDRESS THIS NEW PROVISION IN ORDER TO RECEIVE FUNDING UNDER THIS PROGRAM.

(If this program is a State-formula grant program, a State needs to provide this description only for projects or activities that it carries out with funds reserved for State-level uses. In addition, local school districts or other eligible applicants that apply to the State for funding need to provide this description in their applications to the State for funding. The State would be responsible for ensuring that the school district or other local entity has submitted a sufficient section 427 statement as described below.)

What Does This Provision Require?

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs. This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, you should determine whether these or other barriers may prevent your students, teachers, etc. from such access or participation in, the Federally-funded project or activity. The description in your application of steps to be taken to overcome these barriers need not be lengthy; you may provide a clear and succinct description of how you plan to address those barriers that are applicable to your circumstances. In addition, the information may be provided in a single narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for Federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve to high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it to eliminate barriers it identifies.

What are Examples of How an Applicant Might Satisfy the Requirement of This Provision?

The following examples may help illustrate how an applicant may comply with Section 427.

(1) An applicant that proposes to carry out an adult literacy project serving, among others, adults with limited English proficiency, might describe in its application how it intends to distribute a brochure about the proposed project to such potential participants in their native language.

(2) An applicant that proposes to develop instructional materials for classroom use might describe how it will make the materials available on audio tape or in braille for students who are blind.

(3) An applicant that proposes to carry out a model science program for secondary students and is concerned that girls may be less likely than boys to enroll in the course, might indicate how it intends to conduct "outreach" efforts to girls, to encourage their enrollment.

We recognize that many applicants may already be implementing effective steps to ensure equity of access and participation in their grant programs, and we appreciate your cooperation in responding to the requirements of this provision.

NOTICE TO ALL APPLICANTS:
The Government Performance and Results Act (GPRA)

What is GPRA?

The Government Performance and Results Act (GPRA) of 1993 is a straightforward statute that requires all Federal agencies to manage their activities with attention to the consequences of those activities. Each agency is to clearly state what intends to accomplish, identify the resources required, and periodically report their progress to the Congress. In doing so, it is expected that GPRA will contribute to improvements in accountability for the expenditures of public funds, improve Congressional decision-making through more objective information on the effectiveness of Federal programs, and promote a new government focus on results, service delivery, and customer satisfaction.

How has the United States Department of Education Responded to the GPRA Requirements?

As required by GPRA, the United States Department of Education (the Department) has prepared a strategic plan for 1998-2002. This plan reflects the Department’s priorities and integrates them with its mission and program authorities and describes how the Department will work to improve education for all children and adults in the United States. The Department’s goals, as listed in the plan, are:

**Goal 1:** Help all students reach challenging academic standards so that they are prepared for responsible citizenship, further learning, and productive employment.

**Goal 2:** Build a solid foundation for learning for all children.

**Goal 3:** Ensure access to postsecondary education and lifelong learning.

**Goal 4:** Make the United States Department of Education a high performance organization by focusing on results, service quality, and customer satisfaction.

Program Application Indirect Cost Instructions

The Department of Education (ED) reimburses grantees for its portion of indirect costs that a grantee incurs. Any grantee charging indirect costs to a grant from this program must use the indirect...
cost rate (ICR), negotiated with its cognizant agency, i.e., either the Federal agency from which it has received the most direct funding, subject to indirect cost support, the particular agency specifically assigned cognizance by the Office of Management and Budget or the State agency that provides the most subgrant funds to the grantee.

Note: Applicants should pay special attention to specific questions on the application budget form (ED 524) about their cognizant agency and the ICR they are using in their budget. If an applicant selected for funding under this program has not already established a current ICR with its cognizant agency as a result of current or previous funding, ED will require it to do so within 90 days after the date the grant was issued by ED. Applicants should be aware that ED is very often not the cognizant agency for its own grantees. Rather, ED accepts, for the purpose of funding its awards, the current ICR established by the appropriate cognizant agency.

An applicant that has not previously established an indirect cost rate with the Federal government or a State agency under a Federal program and that is selected for funding will not be allowed to charge its grant for indirect costs until it has negotiated a current indirect cost rate agreement with its cognizant agency.

Applicants are encouraged to use their accountant (or CPA) to calculate an indirect cost rate using information in the IRS Form 990, audited financial statements, actual cost data or a cost policy statement that such applicants are urged to prepare (but NOT submit to ED) during the application process.

Applicants should use this proposed rate in their application materials and indicate which of the above methods was used to calculate the rate. Guidance for creating a cost policy statement can be obtained by sending an e-mail to katrina.mcdonald@ed.gov.

Applicants with questions about using indirect cost rates under this program should contact the program contact person shown elsewhere in this application package or in the Federal Register application notice of MM/DD/YYYY, (FILL IN FED REG CITE HERE).

COMMON QUESTIONS AND ANSWERS

[Below are some examples of Q's & A's that programs may include in their application booklets. Programs may want to add others. Generally speaking, Q's & A's should not repeat information that is given elsewhere in the application. However, there may be exceptions to this "rule of thumb." Q's &
Q. **What happens to my application after it is received in the Department?**

A. The Department's Application Control Center receives each application, assigns each an identifying number (PR/Award number), confirms receipt of applications, and sends the applications to the appropriate program office, which screens them for eligibility. The program conducts a peer review of all eligible applications sent to a program competition, ranks them and recommends the highest ranked applications for funding with exceptions as provided by law. The responsible official for the applicable program reviews the program office's recommendations, checks the adequacy of the documentation supporting the recommendations, and approves a final list, or slate, of recommended projects and funding amounts. RSA Training Division staff discuss the recommendations with the successful applicants and award the grants.

Q. **What happens to my application if the Department finds it to be ineligible?**

A. The Department immediately returns an application that does not meet the eligibility criteria for the particular program. A letter from the Department explaining why it is not being reviewed in the competition accompanies the application.

Q. **How does the Department review an application?**

A. Each application is assessed by knowledgeable persons from outside and sometimes inside the Department who are asked for their judgments about the quality and significance of the proposed project. These persons represent a diversity of disciplines and institutional, regional, and cultural backgrounds. The advice of these experts is compiled by Departmental staff that comment on matters of fact or on significant issues that would otherwise be missing from the review. The results are then presented to the responsible official responsible for the program who approves the recommendations for funding.

Q. **What Criteria do the reviewers use when scoring an application?**

A. Reviewers score each application using the selection criteria published in the Federal Register as part of the program regulations, which are given in Section F of this application package. Reviewers are instructed to use only the published criteria.

Q. **Is a recommended application guaranteed funding?**

A. No. Funding is not final until discussions have been successfully concluded and a grant award notification has been signed by the grants office and mailed to the applicant.

Q. **How long does it take the Department to complete the review process?**
A. Most review processes take from four to six months.

Q. How does the *invitational, competitive and absolute* priorities differ?

✓ **Invitational Priority**

The Secretary may simply invite applicants to meet a priority. However, an application that addresses invitational priorities receives no competitive or absolute preference over applications that do not meet this priority.

✓ **Competitive Priority**

If a program uses weighted selection criteria, the Secretary may award selection points to an application that meets the priority. These points are in addition to any points the application earns under the selection criteria. The notice states the maximum number of additional points that the Secretary may award to applications that meet the priority in a particularly effective way. Or the Secretary may simply select applications that meet the competitive priority over applications of comparable merit that do not meet the priority.

✓ **Absolute Priority**

Under an absolute priority, the Secretary may select for funding only those Applications that meet the priority.

Q. Can changes in the size of subsequent year awards be made after the multi-year budget has been negotiated?

A. Yes, a grantee can renegotiate his or her multi-year budget and may be awarded additional funds if sufficient justification is presented to the Secretary and funds are available. Also, funds can be decreased if it is determined that the multi-year budget was overestimated.

Q. How will funding continuation decisions be made if the Department is phasing out the use of non-competing continuation applications after fiscal year 1995?

A. Grantees will be required to complete annual performance reports that describe the projects' accomplishments, evaluations, and finances. These performance reports, along with other information, will be used by the Department to decide whether to continue funding projects.
DUNS Number Instructions

D-U-N-S No.: Please provide the applicant’s D-U--N-S Number. You can obtain your D-U-N-S Number at not charge by calling **1-800-333-0505** or by completing a D-U-N-S Number Request Form. The form can be obtained via the Internet at the following URL:

[http://www.dnb.com/dbis/about/intlduns.htm](http://www.dnb.com/dbis/about/intlduns.htm)

The D-U-N-S Number is a unique nine-digit number that does not convey any information about the recipient. A built in check digit helps assure the accuracy of the D-U-N-S Number. The ninth digit of each number is the check digit, which is mathematically related to the other digits. It lets computer systems determine if a D-U-N-S Number has been entered correctly.

DUN & Bradstreet, a global information services provider, has assigned D-U-N-S number to over 43 million companies worldwide.
