Dear Colleague:

Thank you for your interest in the Early Reading First program, administered by the Office of Elementary and Secondary Education of the U.S. Department of Education. The primary goal of the Early Reading First program is to improve the early language, literacy, and prereading development of preschool-aged children, especially those from low-income families, by providing support for early childhood education programs serving preschool-aged children so they may become preschool centers of educational excellence. Many of America’s young children face daunting challenges as they enter kindergarten lacking the essential language and literacy skills they need to express their ideas and begin to learn to read. Through improvements in instruction and the classroom environment that are grounded in scientifically based reading research, Early Reading First helps children develop the oral language skills, vocabulary, phonological awareness, print awareness, and alphabet knowledge that will prepare them for later school success.

The Department has requested approximately $113 million for Early Reading First for fiscal year (FY) 2009, of which approximately $111 million would be available for grants awarded under this competition. The actual level of funding, if any, depends on final congressional action. Using FY 2009 funds, the Department expects to award between 24 and 74 grant awards, ranging between $1,500,000 and $4,500,000 for a three-year period, with the average size of awards being $3,000,000. The Department anticipates announcing FY 2009 Early Reading First awards no later than September 30, 2009.

Early Reading First utilizes a two-tier peer review process in an effort to identify the applications of highest quality. First, applicants are required to submit a 15-page pre-application by the established deadline included in the notice inviting applicants published in the Federal Register. Pre-applications submitted by the established deadline will be reviewed by a panel of three experts based on the pre-application selection criteria published in the Federal Register. Once the first tier of the review has been completed, scores will be standardized and applicants will be ranked. This ranking will determine which applicants are invited to submit a full application during the second tier of the review process. Based on previous competitions, the Department expects that approximately one-fifth of all pre-applicants will be invited to submit a full application. During the second tier of the review process, applicants will be required to submit a 40-page full application by the established deadline included in the notice inviting applicants published in the Federal Register. Approximately one half of the full applications received will be funded, depending on the availability of funds. Please refer to the notice inviting applicants published in the Federal Register for additional information about the pre-and full application and review process, as well as exceptions to the electronic submission requirements.

Please take the time to review thoroughly the applicable priorities, selection criteria, and all of the application instructions included in this application package. An application will not be evaluated for funding if the applicant does not comply with all of the procedural rules that govern the submission of
the application or the application does not contain the information required under the program (See Education Department General Administrative Regulations (EDGAR) §75.216 (b) and (c)).

For this competition, the Department requires applicants to use the government-wide website, Grants.gov (http://www.grants.gov), for submitting both the pre-applications and full applications. Please note that the Grants.gov site works differently than the U.S. Department of Education’s e-Application System. We strongly encourage you to familiarize yourself with Grants.gov and strongly recommend that you register and submit early. Also be aware that applications submitted to Grants.gov for the Department of Education will now be posted using Adobe forms. Therefore, applicants will need to download the latest version of Adobe reader (at least Adobe Reader 8.1.2). Please review the Submitting Applications with Adobe Reader Software and Education Submission Procedures and Tips for Applicants forms found within this package for further information and guidance related to this requirement.

Please visit our program website at www.ed.gov/programs/earlyreading/applicant.html for further information. If you have any questions about the program after reviewing the application package, please contact Pilla Parker at (202) 260-3710 (e-mail: Pilla.Parker@ed.gov) or Rebecca Marek at (202) 260-0968 (e-mail: Rebecca.Marek@ed.gov).

Program Background Information

The Early Reading First Program

Early Reading First provides funding and support to turn preschool programs into preschool centers of educational excellence by improving instruction and classroom environments through scientific research-based practices in spoken and written language, vocabulary, cognition, and early reading. Many of America’s children face daunting challenges as they enter kindergarten lacking the necessary skills to learn how to read and express their ideas.

Specifically, the purposes of the Early Reading First program are to:

- support local efforts to enhance the early language, literacy, and prereading development of preschool-aged children, particularly those from low-income families, through strategies and professional development that are based on scientifically based reading research;
- provide preschool-aged children with cognitive learning opportunities in high-quality language and literature-rich environments so that they can attain the fundamental knowledge and skills necessary for optimal reading development in kindergarten and beyond;
- demonstrate language and literacy activities based on scientifically based reading research to support the age-appropriate development of:
  - recognition, leading to automatic recognition, of letters of the alphabet;
  - knowledge of letter sounds, the blending of sounds, and the use of increasingly complex vocabulary;
  - an understanding that written language is composed of phonemes and letters each representing one or more speech sounds that in combination make up syllables;
  - spoken language, including vocabulary and oral comprehension abilities; and;
  - knowledge of the purposes and conventions of print
- use screening assessments or other appropriate measures to identify preschool-aged children who may be at risk for reading failure; and
- integrate scientifically reading research-based instructional materials and literacy activities with existing programs of preschools, child care agencies and programs, Head Start centers, and family literacy services.
Program Overview

The ultimate goal of the Early Reading First program is to improve the early language, literacy, and prereading development of our nation’s young children, especially those from low-income families, by providing support for early childhood education programs serving preschool-aged children so they may become centers of educational excellence. These centers will provide instruction based on scientifically based reading research that enhances not only children’s prereading skills but also their vocabulary and ability to use and comprehend oral language.

Through multi-year awards to highly committed eligible local educational agencies (LEAs) with at-risk children, and public and private organizations (including faith based organizations) located in communities served by those eligible LEAs, the Early Reading First program is intended to ensure that preschool-aged children have the instruction, experiences, and environment that they need to enter kindergarten prepared for continued learning.

What does a High Quality Early Learning Classroom Look Like?

In a high-quality early education program, there is a literature-rich environment with letters of the alphabet clearly displayed at the children's eye level, play and learning centers that include a large number and wide variety of good books, writing tools, and other materials and toys conducive to imaginative play, and many interesting and challenging activities through which children can gain vocabulary and knowledge about the world. Children are engaged in purposeful, meaningful, and significant learning activities and play, and are in the company of teachers who work from lesson and activity plans for which the purposes are known. Teachers engage in rich verbal exchanges and responsive interactions with their students. There is a balance between individual, small-group, and large-group activities. And of great importance, instruction is guided by a curriculum that has a strong and systematic focus on the cognitive, language, and early reading and writing skills children need to develop before they enter kindergarten.

Early Reading First does not emphasize the formal teaching of reading; rather it is about providing opportunities for children to develop early reading skills through activities that are appropriate and enjoyable for young children. The program encourages teachers to use constructive and imaginative play as opportunities for children to develop their vocabulary, understanding, and ability to think about the world around them.

What Projects Must Do

Applicants particularly serve children from low-income families, including meeting the diverse needs of children with limited English proficiency or who have special needs, with accommodations as appropriate for children with disabilities.

All Early Reading First projects must provide activities that include the following:

1. Providing preschool-aged children with high-quality oral language and literature-rich environments in which to acquire language and prereading skills;
2. Providing professional development based on scientifically based reading research knowledge of early language and reading development for the staff of the eligible applicant and that will assist in developing the preschool age children’s:
   a. recognition, leading to automatic recognition, of letters of the alphabet; knowledge of letter sounds, the blending of sounds, and the use of increasingly complex vocabulary;
   b. an understanding that written language is composed of phonemes and letters each representing one or more speech sounds that in combination make up syllables, words, and sentences;
   c. spoken language, including vocabulary and oral comprehension abilities; and;
   d. knowledge of the purposes and conventions of print

3. Identifying and providing activities and instructional materials that are based on scientifically-based reading research for use in developing the skills and abilities described in paragraph (2);

4. Acquiring, providing training for, and implementing screening reading assessments or other appropriate measures that are based on scientifically based reading research to determine whether preschool age children are developing the skills described in paragraph (2); and

5. Integrating instructional materials, activities, tools, and measures into the programs offered by the eligible applicant.

Early Reading First projects also must do the following:

1. **Coordinate with Reading First** — If they are located in a school district that receives a subgrant under the Reading First program, coordinate their Early Reading First activities with the school district’s Reading First activities to ensure continuity for children between the pre-kindergarten program and kindergarten through grade three reading instruction.

2. **Transition from Preschool to Kindergarten** – The project must help children, particularly children experiencing difficulty with spoken language, prereading, and early reading skills to make the transition from preschool to formal classroom instruction.

- The average number of letters Early Reading First preschool-aged children are able to identify after each year of implementation; and

- The percentage of preschool-aged children participating in Early Reading First programs who achieve significant gains in oral language skills after each year of implementation.

and describe, at a minimum:

- The research-based instruction, materials, and activities being used in the preschool programs supported with Early Reading First funds;

- The types of preschool programs supported with Early Reading First funds, and the number and ages of children served by those programs;

- The number and qualifications of the program staff who provide language, cognitive, and early reading instruction under those preschool programs and the type of ongoing professional development provided to that staff; and

- The results of the grantee’s evaluation of the success of the activities supported with Early Reading First funds in enhancing the language, cognitive, and early reading development of the preschool-aged children served by the project.

4. **Cooperate with any Evaluation** — Participate fully in any evaluation of the Early Reading First program carried out by the Department of Education.
Frequently Asked Questions

1. **Is direct teacher support an allowable expense?**

In addition to stipends, bonuses, and scholarships, direct teacher support such as salaries for specialists or new teachers to address the invitational priority related to intensity (e.g. to switch from half-day to full-day and/or to serve children for the two years prior to their entry into kindergarten) generally would be allowable, so long as they are necessary and reasonable to accomplish the program's purpose and objectives.

2. **What constitutes a "center" and how many centers may the applicant propose to serve with an Early Reading First Grant?**

A center may be a classroom or multiple classrooms within a building or campus, or multiple buildings or campuses, within one LEA. For example, it may be a Head Start center with one or more classrooms or one or more buildings or campuses, or a private or non-profit preschool program with one or more classrooms, buildings, or campuses.

The Secretary recommends that no more than five (5) centers (for center-based programs) be served with the applicant's proposed program. This is an approximate guideline. Applicants may list more or fewer centers depending on their needs and capacity. Nevertheless, applicants should be sure to limit the scope of their proposed project sufficiently to ensure that resources are concentrated enough to achieve all their program goals and they become models of excellence within their educational communities. Applicants are encouraged to keep their focus on improving quality rather than quantity.

3. **Can Early Reading First funds be used for paying rent?**

Applicants should focus their proposed activities on the statutory purposes of Early Reading First. To the extent that the leasing of some additional space is necessary and reasonable for meeting the purposes and objectives of the program, rent generally would be an allowable cost. (See the applicable OMB Cost Circulars at [http://www.whitehouse.gov/OMB/grants/index.html](http://www.whitehouse.gov/OMB/grants/index.html).)

4. **Can Early Reading First funds be used for construction?**

No. Construction costs are not allowed to be charged to the Federal funds for an Early Reading First project. This is a requirement of the Education Department General Administrative Regulations (EDGAR) at 34 CFR 75.533 (applicants can access EDGAR provisions on the Department's website at [http://www.ed.gov/policy/fund/reg/edgarReg/edgar.html](http://www.ed.gov/policy/fund/reg/edgarReg/edgar.html).

However, Early Reading First funds may be used for minor remodeling (which does not include any structural alterations) to accomplish the program's purpose and objectives, such as to enhance the quality of the physical environment to make it more conducive to developing early language and early reading skills. (See the Education Department General Administrative Regulations (EDGAR) at 34 CFR section 77.1, definition of "minor remodeling," which you
5. **Can Early Reading First funds be used for the transportation cost of a van or book mobile to bring books and a literacy program to children in their home as part of the program?**

The use of a van or book mobile would be an allowable cost if it is shown to be necessary and reasonable to achieve the purpose and objectives of the program. However, the purchase of a van or book mobile generally would be considered a capital expenditure for equipment, assuming that it has a useful life of more than one year and a value of over $5,000. Thus, such a purchase would require specific prior approval from the Department.

6. **Is there a requirement for in-kind contributions?**

No. There is no requirement for matching funds or a local project cost-share.

7. **How can applicants that do not have a current federally approved indirect cost rate with a cognizant federal agency obtain an approved indirect cost rate?**

For the purposes of applications, if an applicant does not have an approved indirect cost rate agreement with a cognizant Federal agency, the applicant must apply to the Department for a temporary indirect cost rate if it wishes to charge indirect costs to the grant. For guidance in creating a cost policy statement please contact Katrina McDonald via e-mail, Katrina.McDonald@ed.gov. For additional information on establishing an indirect cost rate, please visit the Department’s website at: http://www.ed.gov/about/offices/list/ocfo/fipao/icgindex.html.

8. **Is the Department of Education planning to contract with an external evaluator, and how does that relate to the local project evaluation?**

By statute, the Secretary is required to conduct an independent evaluation of the effectiveness of Early Reading First. The purpose of that evaluation is to determine the overall effectiveness of Early Reading First projects, not to evaluate individual projects. This national evaluation is different from the evaluation referred to in the full application selection criteria, which local projects will conduct in order to evaluate the effectiveness of their own project. The national evaluation of Early Reading First was published in May 2007 and can be found at http://ies.ed.gov/ncee/pubs/20074007.

9. **Does your office make any specific recommendations about which assessments should be used?**

Our office has not made any specific recommendations about assessments. However, assessments used in Early Reading First projects must be valid and rigorous. The statute requires projects to use screening reading assessments or other appropriate measures that are based on scientifically based reading research to determine whether preschool age children are developing oral language skills, phonological awareness, print awareness, and alphabet knowledge. Question B-3 in the Non-Regulatory Guidance for Early Reading First, located in...
the Laws, Regs, & Guidance section of the Early Reading First website (www.ed.gov/programs/earlyreading/legislation.html), discusses the qualities of scientifically based reading research. A discussion of measures or assessments proposed by an Early Reading First applicant may address how each measure meets this definition. Books and articles addressing the qualities of scientifically based reading research can be found in the Resource section of the website.

10. Do charts and tables have to be double-spaced?

No. It is permissible to prepare charts in a single-spaced format.

11. What format should applicants use for citing research?

Applicants are asked to discuss the key research that is tied to their program design and its implications for classroom practice specifically in the narrative. Expert peer reviewers will then evaluate, among other things, the relevance and the rigor of the research cited. Applicants can assist reviewers by providing endnote citations for all works cited in the narrative. Endnotes are to be included in the appendices, and if included there, do not count toward the 40-page narrative limit.

While a specific citation style is not required, each endnote should include, at a minimum, the author(s), the title of the book, or journal and article, and the date of publication. **Do not include a general reference bibliography.**

12. May I include letters of support or the resumes of my key project personnel with my pre-application?

No, only include the appendices listed on the Full Application checklist in the application package. Any other materials will not be considered.

13. How many final grants will be awarded?

The Department will award the grants on a competitive basis for a project period of up to three years. The Department estimates that it will make between 24 and 74 awards, ranging between $1,500,000 and $4,500,000 for a three-year period with average size of awards $3,000,000.00.

14. What is the timeline for the FY 2009 project, i.e., approximately when will awards be made?

We anticipate that grants generally will be awarded no later than September 30, 2009 for a three-year project period.

15. Will there be a time for start-up/planning period for the grant?

Early Reading First programs will be given flexibility as to when they should begin the actual implementation of the program activities portion of their project. Projects are not required to be fully operational during the first months of the project, but may conduct start-up activities during that time, such as hiring and obtaining any needed new curricula. We encourage all FY
2009 Early Reading First project activities and services to be fully implemented by January 2010.

16. Can anyone apply for the full application?

No, only applicants invited back from the pre-application phase of the competition can submit an application for the full application phase of the Early Reading First grant competition.

17. What does SBRR stand for?

SBRR stands for Scientifically Based Reading Research. The definition is included in section 1208(6) of the Elementary and Secondary Education Act (ESEA), as amended by the No Child Left Behind (NCLB) Act, and is included in the application package.

18. How should applicants complete question #9 (type of application)?

LEAs may select "C - city or township government", or write in "LEA" on the line under "Other."

19. How should applicants complete #15 (descriptive title)?

Applicants may cross-reference their 1-page project abstract in answer to this question.

20. How should applicants complete #17, the proposed project date?

The project period for Early Reading First grants is generally September 1st of the fiscal year in which the grant was awarded through August 31st of the fiscal year three years after the grant was awarded (e.g. September 1, 2007 – August 31, 2010 for FY 2007 Early Reading First grants). Projects are not required to be fully operational during the first months of the project, but may conduct start-up activities during that time, such as hiring and obtaining curricula. We encourage all Early Reading First project activities and services to be fully implemented by the January following their award date. See question #16 for additional information on start-up activities.

21. How should applicants complete #18 (estimated funding)?

In response to question #18 on Form 424, applicants should provide the amount requested for the entire three-year project period.

22. Form SF-424, #19. Is the Early Reading First Grant application subject to Executive Order 12372? If so, what is the date the application is "made available for review."

Executive Order 12372 concerns the Intergovernmental Review of Federal Programs, and essentially gives States the opportunity to review and provide comments to Federal agencies on applications for Federal discretionary (competitive) grants. You can find more details in the Appendix for the Intergovernmental Review of Federal Programs in the Early Reading First application package.
Early Reading First grants are subject to Executive Order 12372 if your State is listed as having a Single State Point of Contact in the Appendix for Intergovernmental Review of Federal Programs in the application package. If your State is listed, you should check box “a” and contact the person listed for your State to determine your State's process under Executive Order 12372, and the date by which you must provide the application to the State for review. If your State is not listed in the Appendix, check box "b" in response to question 19 on the application cover page (Form SF-424).

23. Is there a specific format that applicants must use to demonstrate the support of the application by those stakeholders who would implement it?

No. Applicants may address Selection Criteria 3 (Adequacy of Resources), Factor 1, in any way they choose. However, any documentation demonstrating stakeholder support included in the appendices is limited to no more than five (5) one-sided pages. There is no prescribed form.

24. May applicants include the cost of food in their budgets?

Yes. Although entertainment (including food) is not allowable to be charged to the Federal funds for an Early Reading First project, food expenditures for participants (for example, parents, children, and attendees at professional development sessions) are allowable if they are not entertainment, and they are necessary and reasonable to accomplish project goals.

25. Is there a maximum or minimum number of centers we may propose?

No. Applicants may address Selection Criterion 1 (Quality of Project Design), Factor 2, Purpose 1, in any way they choose. However, it is suggested that applicants consider whether the number of centers proposed will allow funds to be sufficiently concentrated to achieve program goals.

26. Should we include a list of names and addresses of the existing preschool program(s) that the proposed Early Reading First project would support?

Applicants may address Selection Criterion 1 (Quality of Project Design), Factor 2, Purpose 1, in any way they choose. However, section 1222b requires that applicants include a list of programs to be served by the proposed project, including demographic and socioeconomic information on the preschool age children enrolled in the programs. (Selection Criterion 1), Note, Purpose 1.

27. If I don’t yet have a specific person committed for one or more project positions, may I provide a job description and qualifications for the position, in lieu of the vitae?

Yes. Applicants may address Selection Criterion 2 and factors in any way they choose. However, applicants may only include in the appendices position descriptions and/or vitae for five positions, although they may have more key personnel than these five positions.

28. Will the same pool of reviewers who evaluated the Pre-Application also review the Full
Generally, the same pool of expert readers will review the Full Application proposals. However, the same panel of readers that reviewed a Pre-Application will not review a Full Application from the same applicant.

29. Must we include a response to the “Need for Project” Pre-Application selection criterion in the Full Application?

The applicant should prepare the Full Application Narrative to respond to the Full Application Selection Criteria and factors. Full Applications will be evaluated only on the Full Application Selection Criteria published in the Federal Register, which are incorporated in the Full Application. Applicants should not assume that reviewers have read their pre-applications and should ensure that their full applications include all information needed by the reviewers to evaluate their proposals, including any program context information necessary for the reader to understand the applicant’s responses to the Full Application selection criteria.

30. Will the expert peer reviewers have access to the Pre-Applications?

No. Applicants should not cross-reference in the full application material from their pre-application because the full application is a “stand-alone” document. Reviewers will base their evaluation of the full application on the Full Application Narrative, the Budget and the Budget Narrative and other limited materials listed in the appendices.
Applicant Guide

How the Application Process Will Work

Early Reading First is a national competitive grant program that is directly administered by the U.S. Department of Education (ED). ED will award grants based on the quality of the applications and regulatory criteria in section 75.217 of the Education Department General Administrative Regulations (EDGAR).

The Administration has requested approximately $113 million for Early Reading First for fiscal year (FY) 2009, of which approximately $111 million would be available for grants awarded under this competition. The actual level of funding, if any, depends on final congressional action. We will award the grants on a competitive basis for a project period of up to three years. We estimate that we will make between 24 and 74 grant awards, ranging between $1,500,000 and $4,500,000 for a three-year period, with the average size of award being $3,000,000. ED expects to award grants by September 30, 2009.

The Secretary has established in the Federal Register notice inviting applications four (4) invitational priorities for the FY 2009 Early Reading First program.

- **Invitational Priority (1):** The Secretary is especially interested in proposals that would use Early Reading First funds to support preschool programs that operate full-time, full-year early childhood educational programs and that serve children for the two consecutive years prior to their entry into kindergarten. Early Reading First funds may be used to meet this invitational priority.

- **Invitational Priority (2):** The Secretary is especially interested in applications that include a specific plan for the development of English language proficiency for these children from the start of their Early Reading First preschool experience. Among other components explained in the invitational priority, the plans should include intensive professional development for instructors and paraprofessionals on the development of English language proficiency.

- **Invitational Priority (3):** The Secretary is especially interested in applications that include a specific plan for the development of a Kindergarten Transition plan. Among other components explained in the invitational priority, the plan should describe how the program would support continuity through developmentally appropriate curricula for preschool and kindergarten children and how the program will effectively support ongoing communication and cooperation between the program and the local educational agency (LEA) and/or the Reading First program where applicable.

- **Invitational Priority (4):** The Secretary is interested in applications that propose to engage community-based organizations in the delivery of services under this program.

Applications that meet any of these invitational priorities do not receive any absolute or competitive preference.
Early Reading First is subject to the Government Performance and Results Act (GPRA). The GPRA requires each agency and program to set targets for its performance; measure progress toward those targets; report on whether or not the targets have been met; and describe future strategies for continued striving toward those targets. This process is designed to improve program management, and to help Congress, the Department of Education, the Office of Management and Budget, and others review a program’s progress toward its goals. Under the GPRA, the Secretary has established the following three measures for evaluating the overall effectiveness of the Early Reading First program:

- The cost per preschool-aged child participating in Early Reading First programs who achieves a significant gain in oral language skills after each year of implementation;
- The percentage of preschool-aged children participating in Early Reading First programs who demonstrate age-appropriate oral language skills after each year of implementation;
- The average number of letters Early Reading First preschool-aged children are able to identify after each year of implementation; and
- The percentage of preschool-aged children participating in Early Reading First programs who achieve significant gains in oral language skills after each year of implementation.

All grantees must provide information on these performance measures in the required annual performance report.

Application Process

The grant competition will include a pre-application and full application, both of which must be submitted electronically unless you qualify under an exception explained in the Federal Register application notice for this competition. All applicants will submit a pre-application that includes up to 15 double-spaced pages addressing two selection criteria: (1) Need for Project and (2) Quality of the Project Design.

The specific requirements for the pre-application, the selection criteria for the pre-application, and the pre-application invitational priorities, are described later in this application package under the “Pre-Application” section. ED, through a peer review panel of experts convened under section 1203(c)(2) of the ESEA in accordance with section 1222(c) of the ESEA, will evaluate each pre-application on the pre-application selection criteria. In determining which applicants to invite to submit full applications, ED will consider the rank order of pre-applications as determined by the total score of the pre-application based on the selection criteria published in the Federal Register application notice. Approximately one-fifth of all pre-applicants will be asked to submit a full application.

Only those eligible full applications submitted by successful pre-applicants will be considered for funding. The specific requirements and process for the full application are described later in this application package under the “Full Application” section. ED, through a peer review panel of experts convened under section 1203(c)(2) of the ESEA in accordance with section 1222(c) of the ESEA, will
evaluate each full application on the full application selection criteria included in the Federal Register application notice. ED will select applicants for funding based on the quality of the full applications including their rank order as determined by the total score of the full application based on the selection criteria. In making funding decisions, ED will use the procedures in section 75.217 of EDGAR, 34 CFR 75.217. ED anticipates making final awards no later than September 30, 2009.

Application Eligibility

Eligible applicants for Early Reading First grants are entities that meet one of the following criteria:

1. One or more local educational agencies (LEAs) that are eligible to receive a subgrant under the Reading First program (Title I, Part B, Subpart 1, the Elementary and Secondary Education Act, as amended (ESEA)). A list of these eligible LEAs is posted on the Early Reading First website located at http://www.ed.gov/programs/earlyreading/eligibility.html. If a State changes its Reading First program eligibility list after the date of publication of the Early Reading First Federal Register application notice, those changes will not affect a LEA’s eligibility for the purpose of this FY 2009 Early Reading First program competition.

2. One or more public or private organizations or agencies located in a community served by an eligible LEA. Unless the public or private organization is a preschool program applying on its own behalf, it must apply on behalf of one or more programs that serve preschool-aged children (such as a Head Start program, a child care program, a family literacy program such as Even Start, or a lab school at a university).

3. One or more of the eligible LEAs, applying in collaboration with one or more of the eligible organizations or agencies.
Application Transmittal Instructions

Pre-Application and Full Application

Attention Electronic Applicants: This program requires the electronic submission of applications—specific requirements and instructions can be found in the Federal Register notice. Please note that you must follow the Application Procedures as described in the Federal Register notice announcing the grant competition.

We will reject your application if you submit it in paper format unless, as described in the Federal Register notice for this competition, you qualify for one of the exceptions to the electronic submission requirement and submit, no later than two weeks before the application deadline date, a written statement to the Department that you qualify for one of these exceptions.

Applications Submitted Electronically

Applications for grants under this program must be submitted electronically using the Governmentwide Grants.gov Apply site at http://www.Grants.gov. Through this site, you will be able to download a copy of the application package, complete it offline, and then upload and submit your application. You may not e-mail an electronic copy of a grant application to us.

Your application must be fully uploaded and submitted and must be date and time stamped by the Grants.gov system no later than 4:30:00 p.m., Washington, DC time, on the application deadline date. Except as otherwise noted in Federal Register notice for this competition, we will not consider your application if it is date and time stamped by the Grants.gov system later than 4:30:00 p.m., Washington, DC time, on the application deadline date.

You should review and follow the Education Submission Procedures for submitting an application through Grants.gov that are included in this application package to ensure that you submit your application in a timely manner to the Grants.gov system.

Please note the following:

- You must attach any narrative sections of your application as files in a .doc (document), .rtf (rich text), or .pdf (Portable Document) format. If you upload a file type other than the three file types specified in this paragraph or submit a password-protected file, we will not review that material.

- Grants.gov cannot process an application that includes two or more files that have the same name within a grant submission.

- When attaching files, applicants should limit the size of their file names. Lengthy file names could result in difficulties with opening and processing your application. We recommend your file names be less than 50 characters. The amount of time it can take to upload an application will vary depending on a variety of factors, including the size of the application and the speed of your Internet connection. Therefore, we strongly recommend that you do not wait until the application deadline date to begin the submission process through Grants.gov.

- Your electronic application must comply with any page-limit requirements described in this application package.
If you are experiencing problems submitting your application through Grants.gov, please contact the Grants.gov Support Desk, toll free, at 1-800-518-4726. You must obtain a Grants.gov Support Desk Case Number and must keep a record of it.

According to the instructions found in the Federal Register notice, only those requesting and qualifying for an Exception to the electronic submission requirement may submit an application via mail, commercial carrier or by hand delivery.

Submitting Applications with Adobe Reader Software

The Department of Education, working with Grants.gov, is currently moving from using PureEdge software to using Adobe Reader software exclusively and applications submitted to Grants.gov for the Department of Education will be posted using Adobe forms. Applicants will no longer need to use the PureEdge software to create or submit an application.

Please note: The compatible version of Adobe Reader is required for viewing, editing and submitting a complete grant application package for the Department of Education through Grants.gov. Applicants should confirm the compatibility of their Adobe Reader version before downloading the application. To ensure applicants have a version of Adobe Reader on their computer that is compatible with Grants.gov, applicants are encouraged to use the test package provided by Grants.gov that can be accessed at http://www.grants.gov/applicants/AdobeVersioningTestOnly.jsp.

Important issues to consider:

- If the applicant opened or edited the application package with any software other than the compatible version of Adobe Reader, the application package may contain errors that will be transferred to the new package even if you later download the compatible Adobe Reader version.
- Applicants cannot copy and paste data from a package initially opened or edited with an incompatible version of Adobe Reader and will need to download an entirely new package using the compatible version of Adobe Reader.
- Some applicants using an incompatible version of Adobe Reader may have trouble opening and viewing the application package while others may find they can open, view and complete the application package but may not be able to submit the application package through Grants.gov.
- Grants.gov does not guarantee to support versions of Adobe Reader that are not compatible with Grants.gov.
- Any and all edits made to the Adobe Reader application package must be made with the compatible version of Adobe Reader.

For your convenience, the latest version of Adobe Reader is available for free download at http://grantsgov.tmp.com/static2007/help/download_software.jsp#adobe811.

We strongly recommend that you review the information on computer and operating system compatibility with Adobe available at http://www.grants.gov/applicants/applicant_faqs.jsp#software before downloading, completing or submitting your application.

Applicants are reminded that they should submit their application a day or two in advance of the closing date as detailed in the Federal Register Notice. If you have any questions regarding this matter please email the Grants.gov Contact Center at support@grants.gov or call 1-800-518-4726.
**Education Submission Procedures and Tips for Applicants**

To facilitate your use of Grants.gov, this document includes important submission procedures you need to be aware of to ensure your application is received in a timely manner and accepted by the Department of Education.

**ATTENTION**

Applications submitted to Grants.gov for the Department of Education will be posted using Adobe forms. Therefore, applicants will need to download the latest version of Adobe reader (at least Adobe Reader 8.1.2). Information on computer and operating system compatibility with Adobe and links to download the latest version is available on Grants.gov.

We strongly recommend that you review these details on [www.Grants.gov](http://www.Grants.gov) before completing and submitting your application. In addition, applicants should submit their application a day or two in advance of the closing date as detailed below. Applicants will no longer need to use the PureEdge software to create or submit an application. If you have any questions regarding this matter please email the Grants.gov Contact Center at support@grants.gov or call 1-800-518-4726.

1) **REGISTER EARLY** – Grants.gov registration may take five or more business days to complete. You may begin working on your application while completing the registration process, but you cannot submit an application until all of the Registration steps are complete. For detailed information on the Registration Steps, please go to: [http://www.grants.gov/applicants/get_registered.jsp](http://www.grants.gov/applicants/get_registered.jsp). [Note: Your organization will need to update its Central Contractor Registry (CCR) registration annually.]

2) **SUBMIT EARLY** – We strongly recommend that you do not wait until the last day to submit your application. Grants.gov will put a date/time stamp on your application and then process it after it is fully uploaded. The time it takes to upload an application will vary depending on a number of factors including the size of the application and the speed of your Internet connection, and the time it takes Grants.gov to process the application will vary as well. If Grants.gov rejects your application (see step three below), you will need to resubmit successfully before 4:30:00 p.m. Washington, DC time on the deadline date.

Note: To submit successfully, you must provide the DUNS number on your application that was used when your organization registered with the CCR (Central Contractor Registry).

3) **VERIFY SUBMISSION IS OK** – You will want to verify that Grants.gov and the Department of Education receive your Grants.gov submission timely and that it was validated successfully. To see the date/time your application was received, login to Grants.gov and click on the Track My Application link. For a successful submission, the date/time received should be earlier than 4:30:00 p.m. Washington, DC time, on the deadline date, AND the application status should be: **Validated, Received by Agency, or Agency Tracking Number Assigned**.

If the date/time received is later than 4:30:00 p.m. Washington, D.C. time, on the deadline date, your application is late. If your application has a status of “Received” it is still awaiting validation by Grants.gov. Once validation is complete, the status will either change to “Validated” or “Rejected with Errors.” If the status is “Rejected with Errors,” your application has not been received successfully. Some of the reasons Grants.gov may reject an application can be found on the Grants.gov site: [http://www.grants.gov/applicants/applicant_faqs.jsp#54](http://www.grants.gov/applicants/applicant_faqs.jsp#54).
For more detailed information on why an application may be rejected, you can review Application Error Tips [http://www.grants.gov/section910/ApplicationErrorTips.pdf](http://www.grants.gov/section910/ApplicationErrorTips.pdf). If you discover your application is late or has been rejected, please see the instructions below. Note: You will receive a series of confirmations both online and via e-mail about the status of your application. Please do not rely solely on e-mail to confirm whether your application has been received timely and validated successfully.
Submission Problems – What should you do?
If you have problems submitting to Grants.gov before the closing date, please contact Grants.gov Customer Support at 1-800-518-4726 or http://www.grants.gov/contactus/contactus.jsp, or use the customer support available on the Web site: http://www.grants.gov/applicants/applicant_help.jsp.

Electronic submission is required and you must submit an electronic application before 4:30:00 p.m., unless you follow the procedures in the Federal Register notice and qualify for one of the exceptions to the electronic submission requirement and submit, no later than two weeks before the application deadline date, a written statement to the Department that you qualify for one of these exceptions. (See the Federal Register notice for detailed instructions.)

Helpful Hints When Working with Grants.gov
Please note, once you download an application from Grants.gov, you will be working offline and saving data on your computer. Please be sure to note where you are saving the Grants.gov file on your computer. You will need to logon to Grants.gov to upload and submit the application. You must provide on your application the DUNS number that was used when your organization registered with the CCR.

Dial-Up Internet Connections
When using a dial up connection to upload and submit your application, it can take significantly longer than when you are connected to the Internet with a high-speed connection, e.g. cable modem/DSL/T1. While times will vary depending upon the size of your application, it can take a few minutes to a few hours to complete your grant submission using a dial up connection. If you do not have access to a high-speed connection and electronic submission is required, you may want to consider following the instructions in the Federal Register notice to obtain an exception to the electronic submission requirement no later than two weeks before the application deadline date. (See the Federal Register notice for detailed instructions.)

MAC Users
If you do not have a Windows operating System, you may need to use the Citrix solution discussed on Grants.gov to submit an application using Grants.gov. For additional information, review the FAQs for non-windows users http://www.grants.gov/help/download_software.jsp. If electronic submission is required and you are concerned about your ability to submit electronically as a non-windows user, please follow instructions in the Federal Register notice to obtain an exception to the electronic submission requirement no later than two weeks before the application deadline date. (See the Federal Register notice for detailed instructions.)
**Attaching Files – Additional Tips**

Please note the following tips related to attaching files to your application:

1. Ensure that you only attach the Education approved file types detailed in the Federal Register application notice (.doc, .pdf or .rtf). Also, do not upload any password protected files to your application.

2. Grants.gov cannot process an application that includes two or more files that have the same name within a grant submission. Therefore, each file uploaded to your application package should have a unique file name.

3. When attaching files, applicants should limit the size of their file names. Lengthy file names could result in difficulties with opening and processing your application. We recommend you keep your file names to less than 50 characters. In addition, applicants should avoid including special characters in their file names (for example, %, *, /, etc.) Both of these conditions (lengthy file names and/or special characters including in the file names) could result in difficulties opening and processing a submitted application.

4. Applicants should limit the size of their file attachments. Documents submitted that contain graphics and/or scanned material often greatly increase the size of the file attachments and can result in difficulties opening the files. For reference, the average discretionary grant application package totals 1 to 2 MB. Therefore, you may want to check the total size of your package before submission.

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: This program supports local efforts to enhance the oral language, cognitive, and early reading skills of preschool-aged children, especially those from low-income families, through strategies, materials, and professional development that are grounded in scientifically based reading research.

The specific activities for which recipients must use grant funds are identified in section 1222(d) of the Elementary and Secondary Education Act of 1965, as amended (ESEA). This and other relevant provisions of the ESEA are included in the application package.

Statutory Requirements: All applicants must meet the application requirements established in section 1222(b) of the ESEA in order to be considered for funding. All applications must include a description of the following:

1. the programs to be served by the proposed project, including demographic and socioeconomic information on the preschool-aged children enrolled in the programs;
2. how the proposed project will enhance the school readiness of preschool age children in high-quality oral language and literature-rich environments;
3. how the proposed project will prepare and provide ongoing assistance to staff in the programs, through professional development and other support, in providing high-quality language, literacy, and prereading activities using scientifically based reading research, for preschool-aged children;
4. how the proposed project will provide services and use instructional materials that are based on scientifically based reading research on early language acquisition, prereading activities, and the development of spoken vocabulary skills;
5. how the proposed project will help staff in the programs to meet more effectively the diverse needs of preschool-aged children in the community, including such children with limited English proficiency, disabilities, or other special needs;
6. how the proposed project will integrate such instructional materials and literacy activities with existing preschool programs and family literacy services;
7. how the proposed project will help children, particularly children experiencing difficulty with spoken language, prereading, and early reading skills, to make the transition from preschool to formal classroom instruction in school;
8. if the eligible applicant has received a subgrant under the Reading First program, subpart 1, part B, title I of the ESEA, how the activities conducted under the Early Reading First program will be coordinated.
with the eligible applicant's activities under the Reading First program at the kindergarten through grade 3 level; and

(9) how the proposed project will evaluate the success of the activities supported under the Early Reading First program in enhancing the early language, literacy, and prereading development of preschool-aged children served by the project.

Priorities: This competition includes four invitational priorities. Under this competition we are particularly interested in applications that address the following priorities.

Invitational Priorities: For FY 2009 and any subsequent year in which we make awards from the list of unfunded applicants from this competition, these priorities are invitational priorities. Under 34 CFR 75.105(c)(1) we do not give an application that meets these invitational priorities a competitive or absolute preference over other applications.

These priorities are:

Invitational Priority 1 — Intensity.

The Secretary is especially interested in preschool programs that operate full-time, full-year early childhood educational programs and that serve children for the two consecutive years prior to their entry into kindergarten.

Scientifically based research on increasing the effectiveness of early childhood education programs serving children from low-income families tells us that children attending these types of programs that have a greater intensity of service make higher and more persistent gains in the language and cognitive domains than children who attend early childhood programs that have lesser intensity of service. In other words, children who spend more time in high-quality early childhood education programs learn more than children who spend less time in those programs. The purpose of this invitational priority is to encourage preschool programs supported with Early Reading First funds to provide services that are of a sufficient duration and intensity to maximize language and early literacy gains for children enrolled in those programs.

Invitational Priority 2 – English Language Acquisition Plan.

For applicants serving children with limited English proficiency, the Secretary is especially interested in applications that include a specific plan for the development of English language proficiency for these children from the start of their preschool experience. The Early Reading First program is designed to prepare children to enter kindergarten with the necessary cognitive, early language, and literacy skills for success in school. School success often is dependent on each child entering kindergarten as proficient as possible in English so that the child is ready to benefit from formal reading instruction in English when he or she starts school.

Note: The term “limited English proficient” is defined in section 9101(25) of the ESEA (20 U.S.C. 7801(25)). That definition is included in the application package.

Under this invitational priority, the Secretary is interested in English language acquisition plans that, at a minimum: (1) include a description of the applicant’s approach to the development of language, based on the linguistic factors or skills that serve as the foundation for a strong language base, which foundation is a necessary precursor for success in the development of pre-literacy and literacy skills for children with limited English proficiency; (2) explain the instructional strategies, based on best available valid and reliable research, that the applicant will use to address English language acquisition in a multi-lingual classroom; (3) describe how the project will facilitate the children’s transition to English proficiency through such means as the use of environmental print in appropriate multiple languages and hiring bilingual teachers, paraprofessionals, or translators to work in the preschool classroom; (4) include intensive professional development for instructors and paraprofessionals on the development of English language proficiency; and (5) include a timeline that describes benchmarks for the introduction of the development of English language proficiency and the use of measurement tools.

Ideally, at least one instructional staff member in each Early Reading First classroom that serves limited English proficient children will be dual-language proficient in the children’s first language and in English so as
to facilitate those children’s understanding of instruction and transition to English proficiency. At a minimum, each such classroom should include a teacher who is proficient in English.

**Invitational Priority 3 – Kindergarten Transition.**

The Early Reading First program is designed to prepare children to enter kindergarten with the necessary cognitive, early language, and literacy skills for success in school. The Secretary is especially interested in applications that include a specific plan to transition preschool-aged children to kindergarten.

Under this invitational priority, the Secretary is especially interested in supporting projects that have kindergarten transition plans that, at a minimum: (1) identify the key issues involved in transitioning preschool-aged children to kindergarten; (2) explain how the program would support continuity through developmentally appropriate curricula for preschool and kindergarten children; (3) where applicable, include a description of how the program will effectively support ongoing communication and cooperation between the program and Reading First; (4) include a description of how the program will effectively support ongoing communication and cooperation between the program and the local educational agency (LEA); (5) include a timeline that describes benchmarks for transition activities; and (6) include a description of the role of stakeholders in transitioning preschool-aged children to kindergarten.

**Invitational Priority 4 – Community-based Organizations.**

The Secretary is especially interested in applications that propose to engage community-based organizations in the delivery of services under this program.

**Program Authority:** 20 U.S.C. 6371-6376.

**Applicable Regulations:** The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 79, 80, 81, 82, 84, 85, 86, 97, 98, and 99.

**Note:** The regulations in 34 CFR part 79 apply to all applicants except federally recognized Indian tribes.

**Note:** The regulations in 34 CFR part 86 apply to institutions of higher education only.

**II. Award Information**

**Type of Award:** Discretionary grant.

**Estimated Available Funds:** $111,424,000. The actual level of funding, if any, depends on final congressional action. However, we are inviting applications to allow enough time to complete the grant process before the end of the current fiscal year if Congress appropriates funds for this program.

Contingent upon the availability of funds and the quality of applications, we may make additional awards in FY 2010 from the list of unfunded applicants from this competition.

**Estimated Range of Awards:** $1,500,000-$4,500,000.

**Estimated Average Size of Awards:** $3,000,000.

**Estimated Number of Awards:** 24-74.

**Note:** The Department is not bound by any estimates in this notice.

**Project Period:** Up to 36 months.

**III. Eligibility Information**

1. **Eligible Applicants:** Under this competition, eligible applicants are:
   (a) one or more LEAs, including charter schools that are considered LEAs under State law, that are eligible to receive a subgrant under the Reading First program (Title I, Part B, Subpart 1 of the ESEA);
   (b) one or more public or private organizations or agencies located in a community served by an eligible LEA; or
   (c) one or more eligible LEAs, applying in collaboration with one or more eligible organizations or agencies.

To qualify under paragraph (b) of this definition, the organization’s or agency’s application must be on behalf of one or more programs that serve preschool-aged children (such as a Head Start program, a child care program, a family literacy program such as Even Start, or a lab school at a university), unless the organization or agency itself operates a preschool program.
Lists, by State, of LEAs that qualify under paragraph (a) of this definition for this FY 2009 competition are posted on the Early Reading First Web site at http://www.ed.gov/programs/earlyreading/eligibility.html. These lists are based on the most recent information provided by each State and the Department of Interior’s Bureau of Indian Education (BIE) to the Department’s Reading First program, and are posted for the convenience of Early Reading First applicants. However, we consider it to be each applicant’s responsibility to verify with the Reading First office in its State, or with the BIE, as appropriate, whether a particular LEA is eligible to receive a subgrant under the Reading First program as of the date of publication of this notice in the Federal Register. A list of State and BIE contacts for this purpose is also posted at the Early Reading First Web site at http://www.ed.gov/programs/earlyreading/eligibility.html.

**Eligibility determination date:** The date governing whether an LEA is eligible to receive a subgrant under the Reading First program is the date of publication in the Federal Register of this notice inviting applications for new awards under the Early Reading First program for FY 2009.

**Required submission of eligibility information:** In accordance with the following instructions, each applicant must complete and submit with its pre-application for this competition a Pre-Application Attachment A, Applicant Eligibility, which is included in the application package:

- **LEAs included on a posted eligibility list:** If the LEA on which you, the applicant, are basing your Early Reading First eligibility is included on the State’s Reading First subgrant eligibility list posted on the Early Reading First Web site, you must complete section I of Pre-Application Attachment A (Applicant Eligibility) and submit that attachment with your pre-application.

- **LEAs not included on a posted eligibility list:** If the LEA on which you, the applicant, are basing your Early Reading First eligibility is not included on the State’s Reading First subgrant eligibility list posted on the Early Reading First Web site, you must complete both section I and section II of Pre-Application Attachment A (Applicant Eligibility) and submit that form with your pre-application. Section II requires you to verify with your State’s Reading First office, or the BIE, as appropriate, that the LEA is in fact eligible to receive a Reading First subgrant as of the date of publication in the Federal Register of this notice. You must also submit the name of, and contact information for, the person with whom you verified that information. If you are invited to submit a full application and we are unable to verify the LEA’s eligibility from the contact information that you have provided, we may not consider the LEA as an eligible LEA for the purposes of this competition or we may require you to submit additional written information demonstrating eligibility.

**2. Cost Sharing or Matching:** This program does not require cost sharing or matching.

3. Submission Dates and Times:

Deadline for Transmittal of Pre-Applications: April 2, 2009.
Deadline for Transmittal of Full Applications: June 16, 2009 (for applicants invited to submit full applications only).

Pre- and full applications for grants under this competition must be submitted electronically using the Grants.gov Apply site (Grants.gov). For information (including dates and times) about how to submit your
application electronically, or in paper format by mail or hand delivery if you qualify for an exception to the electronic submission requirement, please refer to section IV. 6. Other Submission Requirements of this notice. We do not consider an application that does not comply with the deadline requirements.

Individuals with disabilities who need an accommodation or auxiliary aid in connection with the application process should contact the person listed under For Further Information Contact in section VII of this notice. If the Department provides an accommodation or auxiliary aid to an individual with a disability in connection with the application process, the individual’s application remains subject to all other requirements and limitations in this notice.

Deadline for Intergovernmental Review: **August 15, 2009.**

4. **Intergovernmental Review:** This competition is subject to Executive Order 12372 and the regulations in 34 CFR part 79. Information about Intergovernmental Review of Federal Programs under Executive Order 12372 is in the application package for this competition.

5. **Funding Restrictions:** We reference regulations outlining funding restrictions in the Applicable Regulations section of this notice.

6. **Other Submission Requirements:** Pre- and full applications for grants under this competition must be submitted electronically unless you qualify for an exception to this requirement in accordance with the instructions in this section.

   a. **Electronic Submission of Applications.**

      Pre- and full applications for grants under the Early Reading First program, CFDA number 84.359A (pre-application) and CFDA number 84.359B (full application), must be submitted electronically using the Governmentwide Grants.gov Apply site at www.Grants.gov. Through this site, you will be able to download a copy of the application package, complete it offline, and then upload and submit your pre- or full application. You may not e-mail an electronic copy of a grant application to us.

      We will reject your pre- or full application if you submit it in paper format unless, as described elsewhere in this section, you qualify for one of the exceptions to the electronic submission requirement and submit, no later than two weeks before the pre- or full application deadline date, a written statement to the Department that you qualify for one of these exceptions. Further information regarding calculation of the date that is two weeks before the pre- or full application deadline date is provided later in this section under Exception to Electronic Submission Requirement.

      You may access the electronic grant application for the Early Reading First competition at www.Grants.gov. You must search for the downloadable application package for this competition by the CFDA number. Do not include the CFDA number’s alpha suffix in your search (e.g., search for 84.359, not 84.359A).

      Please note the following:
      • When you enter the Grants.gov site, you will find information about submitting an application electronically through the site, as well as the hours of operation.
      • Applications received by Grants.gov are date and time stamped. Your pre- and full applications must be fully uploaded and submitted and must be date and time stamped by the Grants.gov system no later than 4:30:00 p.m., Washington, DC time, on the pre- or full application deadline date, as appropriate. Except as otherwise noted in this section, we will not accept your pre- or full application if it is received—that is, date and time stamped by the Grants.gov system—after 4:30:00 p.m., Washington, DC time, on the pre- or full application deadline date, as appropriate. We do not consider an application that does not comply with the deadline requirement. When we retrieve your pre- or full application from Grants.gov, we will notify you if we are rejecting your pre- or full application because it was date and time stamped by the Grants.gov system after 4:30:00 p.m., Washington, DC time, on the applicable application deadline date.
      • The amount of time it can take to upload a pre- or full application will vary depending on a variety of factors, including the size of the application and the speed of your Internet connection. Therefore, we strongly
recommend that you do not wait until the pre- or full application deadline date to begin the submission process through Grants.gov.

- You should review and follow the Education Submission Procedures for submitting an application through Grants.gov that are included in the application package for this competition to ensure that you submit your pre- and any full application in a timely manner to the Grants.gov system. You can also find the Education Submission Procedures pertaining to Grants.gov at http://e-Grants.ed.gov/help/GrantsgovSubmissionProcedures.pdf.
- To submit your pre- or full application via Grants.gov, you must complete all steps in the Grants.gov registration process (see www.grants.gov/applicants/get_registered.jsp). These steps include (1) registering your organization, a multi-part process that includes registration with the Central Contractor Registry (CCR); (2) registering yourself as an Authorized Organization Representative (AOR); and (3) getting authorized as an AOR by your organization. Details on these steps are outlined in the Grants.gov 3-Step Registration Guide (see www.grants.gov/section910/Grants.govRegistrationBrochure.pdf). You also must provide on your pre- and full application the same D-U-N-S Number used with this registration. Please note that the registration process may take five or more business days to complete, and you must have completed all registration steps to allow you to submit successfully a pre- or full application via Grants.gov. In addition you will need to update your CCR registration on an annual basis. This may take three or more business days to complete.
- You will not receive additional point value because you submit your pre- or full application in electronic format, nor will we penalize you if you qualify for an exception to the electronic submission requirement, as described elsewhere in this section, and submit your pre- or full application in paper format.
- You must submit all documents electronically, including all information you typically provide on the following forms: Application for Federal Assistance (SF 424), the Department of Education Supplemental Information for SF 424, Budget Information--Non-Construction Programs (ED 524), and all necessary assurances and certifications.
- You must attach any narrative sections of your pre-and full applications as files in a .DOC (document), .RTF (rich text), or .PDF (Portable Document) format. If you upload a file type other than the three file types specified in this paragraph or submit a password-protected file, we will not review that material.
- Your electronic pre- and full applications must comply with any page-limit requirements described in this notice.
- After you electronically submit your pre- or full application, you will receive from Grants.gov an automatic notification of receipt that contains a Grants.gov tracking number. (This notification indicates receipt by Grants.gov only, not receipt by the Department.) The Department then will retrieve your pre- or full application from Grants.gov and send a second notification to you by e-mail. This second notification indicates that the Department has received your pre- or full application and has assigned your pre- or full application a PR/Award number (an ED-specified identifying number unique to your pre- or full application).
- We may request that you provide us original signatures on forms at a later date.

Application Deadline Date Extension in Case of Technical Issues with the Grants.gov System: If you are experiencing problems submitting your pre- or full application through Grants.gov, please contact the Grants.gov Support Desk, toll free, at 1-800-518-4726. You must obtain a Grants.gov Support Desk Case Number and must keep a record of it.

If you are prevented from electronically submitting your pre- or full application on the applicable application deadline date because of technical problems with the Grants.gov system, we will grant you an extension until 4:30:00 p.m., Washington, DC time, the following business day to enable you to transmit your pre- or full application electronically or by hand delivery. You also may mail your pre- and full applications by following the mailing instructions described elsewhere in this notice.

If you submit a pre- or full application after 4:30:00 p.m., Washington, DC time, on the applicable application deadline date, please contact the person listed under For Further Information Contact in section VII of this notice and provide an explanation of the technical problem you experienced with Grants.gov, along with
the Grants.gov Support Desk Case Number. We will accept your pre- or full application if we can confirm that a technical problem occurred with the Grants.gov system and that that problem affected your ability to submit your pre- or full application by 4:30:00 p.m., Washington, DC time, on the applicable application deadline date. The Department will contact you after a determination is made on whether your pre- or full application will be accepted.

Note: The extensions to which we refer in this section apply only to the unavailability of, or technical problems with, the Grants.gov system. We will not grant you an extension if you failed to fully register to submit your pre- or full application to Grants.gov before the pre- or full application deadline date and time or if the technical problem you experienced is unrelated to the Grants.gov system.

Exception to Electronic Submission Requirement: You qualify for an exception to the electronic submission requirement, and may submit your pre- or full application in paper format, if you are unable to submit a pre- or full application through the Grants.gov system because—

- You do not have access to the Internet; or
- You do not have the capacity to upload large documents to the Grants.gov system;

and

- No later than two weeks before the pre- or full application deadline date (14 calendar days or, if the fourteenth calendar day before the pre- or full application deadline date falls on a Federal holiday, the next business day following the Federal holiday), as appropriate, you mail or fax a written statement to the Department, explaining which of the two grounds for an exception prevent you from using the Internet to submit your pre- or full application.

If you mail your written statement to the Department, it must be postmarked no later than two weeks before the applicable application deadline date. If you fax your written statement to the Department, we must receive the faxed statement no later than two weeks before the pre- or full application deadline date.

Your paper pre- or full application must be submitted in accordance with the mail or hand delivery instructions described in this notice.

1. **Project Director.** Name, address, telephone and fax numbers, and e-mail address of the person to be contacted on matters involving this application.

2. **Novice Applicant.** Check “Yes” or “No” only if assistance is being requested under a program that gives special consideration to novice applicants. Otherwise, leave blank.

   Check “Yes” if you meet the requirements for novice applicants specified in the regulations in 34 CFR 75.225 and included on the attached page entitled “Definitions for Department of Education Supplemental Information for SF 424.” By checking “Yes” the applicant certifies that it meets these novice applicant requirements. Check “No” if you do not meet the requirements for novice applicants.

3. **Human Subjects Research.** (See I. A. “Definitions” in attached page entitled “Definitions for Department of Education Supplemental Information For SF 424.”)

   **If Not Human Subjects Research.** Check “No” if research activities involving human subjects are not planned at any time during the proposed project period. The remaining parts of Item 3 are then not applicable.

   **If Human Subjects Research.** Check “Yes” if research activities involving human subjects are planned at any time during the proposed project period, either at the applicant organization or at any other performance site or collaborating institution. Check “Yes” even if the research is exempt from the regulations for the protection of human subjects. (See I. B. “Exemptions” in attached page entitled “Definitions for Department of Education Supplemental Information For SF 424.”)

   **If Human Subjects Research is Exempt from the Human Subjects Regulations.** Check “Yes” if all the research activities proposed are designated to be exempt from the regulations. Insert the exemption number(s) corresponding to one or more of the six exemption categories listed in I. B. “Exemptions.” In addition, follow the instructions in II. A. “Exempt Research Narrative” in the attached page entitled “Definitions for Department of Education Supplemental Information For SF 424.”

   **If Human Subjects Research is Not Exempt from Human Subjects Regulations.** Check “No” if some or all of the planned research activities are covered (not exempt). In addition, follow the instructions in II. B. “Nonexempt Research Narrative” in the page entitled “Definitions for Human Subjects Assurance Number.** If the applicant has an approved Federal Wide (FWA) on file with the Office for Human Research Protections (OHRP), U.S. Department of Health and Human Services, that covers the specific activity, insert the number in the space provided. If the applicant does not have an approved assurance on file with OHRP, enter “None.” In this case, the applicant, by signature on the SF-424, is declaring that it will comply with 34 CFR 97 and proceed to obtain the human subjects assurance upon request by the designated ED official. If the application is recommended/selected for funding, the designated ED official will request that the applicant obtain the assurance within 30 days after the specific formal request.

**Note about Institutional Review Board Approval.** ED does not require certification of Institutional Review Board approval with the application. However, if an application that involves non-exempt human subjects research is recommended/selected for funding, the designated ED official will request that the applicant obtain and send the certification to ED within 30 days after the formal request.

**Paperwork Burden Statement.** According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. The valid OMB control number for this information collection is 1890-0017. The time required to complete this information collection is estimated to average between 15 and 45 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the estimate(s) or suggestions for improving this form, please write to: U.S. Department of Education, Washington, DC 20202-4700. If you have comments or concerns regarding the status of your individual submission of this form write directly to: Joyce I. Mays, Application Control Center, U.S. Department of Education, Potomac Center Plaza, 550 12th Street, S.W. Room 7076, Washington, DC 20202-4260.
Definitions for ED Supplemental Information for SF 424

Definitions:

Novice Applicant (See 34 CFR 75.225). For discretionary grant programs under which the Secretary gives special consideration to novice applications, a novice applicant means any applicant for a grant from ED that—

- Has never received a grant or subgrant under the program from which it seeks funding;
- Has never been a member of a group application, submitted in accordance with 34 CFR 75.127-75.129, that received a grant under the program from which it seeks funding; and
- Has not had an active discretionary grant from the Federal government in the five years before the deadline date for applications under the program. For the purposes of this requirement, a grant is active until the end of the grant’s project or funding period, including any extensions of those periods that extend the grantee’s authority to obligate funds.

In the case of a group application submitted in accordance with 34 CFR 75.127-75.129, a group includes only parties that meet the requirements listed above.

PROTECTION OF HUMAN SUBJECTS IN RESEARCH

I. Definitions and Exemptions

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department’s regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Research

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as “a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge.” If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge it is research. Activities, which meet this definition, constitute research whether or not they are conducted or supported under a program that is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Human Subject

The regulations define human subject as “a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information.” (1) If an activity involves obtaining information about a living person by manipulating that person or that person’s environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met. (2) If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met. [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the only involvement of human subjects will be in one or more of the following six categories of exemptions are not covered by the regulations:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and
(b) any disclosure of the human subjects’ responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects’ financial standing, employability, or reputation. If the subjects are children, exemption 2 applies only to research involving educational tests and observations of public behavior when the investigator(s) do not participate in the activities being observed. Exemption 2 does not apply if children are surveyed or interviewed or if the research involves observation of public behavior and the investigator(s) participate in the activities being observed. [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

(3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

(4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

(6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

II. Instructions for Exempt and Nonexempt Human Subjects Research Narratives

If the applicant marked “Yes” for Item 3 of Department of Education Supplemental Information for SF 424, the applicant must provide a human subjects “exempt research” or “nonexempt research” narrative. Insert the narrative(s) in the space provided. If you have multiple projects and need to provide more than one narrative, be sure to label each set of responses as to the project they address.

A. Exempt Research Narrative.
If you marked “Yes” for item 3 a. and designated exemption numbers(s), provide the “exempt research” narrative. The narrative must contain sufficient information about the involvement of human subjects in the proposed research to allow a determination by ED that the designated exemption(s) are appropriate. The narrative must be succinct.

B. Nonexempt Research Narrative.
If you marked “No” for item 3 a. you must provide the “nonexempt research” narrative. The narrative must address the following seven points. Although no specific page limitation applies to this section of the application, be succinct.

(1) Human Subjects Involvement and Characteristics: Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable.

(2) Sources of Materials: Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) Recruitment and Informed Consent: Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the circumstances under which consent will be sought and obtained, who
will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) **Potential Risks**: Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) **Protection Against Risk**: Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) **Importance of the Knowledge to be Gained**: Discuss the importance of the knowledge gained or to be gained as a result of the proposed research. Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

(7) **Collaborating Site(s)**: If research involving human subjects will take place at collaborating site(s) or other performance site(s), name the sites and briefly describe their involvement or role in the research.

**NOTE**: The **State Applicant Identifier** on the SF 424 is for State Use only. Please complete it on the OMB Standard 424 in the upper right corner of the form (if applicable).
Part 2: ED Abstract Form

This section should be attached as a single document to the ED Abstract Form in accordance with the instructions found on Grants.gov and should be organized in the following manner and include the following parts in order to expedite the review process.

You must attach any narrative sections of your application as files in a .DOC (document), .RTF (rich text), or .PDF (Portable Document) format. If you upload a file type other than the three file types specified in this paragraph or submit a password-protected file, we will not review that material.

Please note that Grants.gov cannot process an application that includes two or more files that have the same name within a grant submission.

When attaching files, applicants should limit the size of their file names. Lengthy file names could result in difficulties with opening and processing your application. We recommend your file names be less than 50 characters.

- **Project Abstract**
  - Applicants must submit a one-page, double-spaced Abstract, briefly describing their proposed project. Do not number this page. Place the name of the applicant at the top of the page.
  - Applicants may want to consider including the project’s objectives and activities, applicable priorities, proposed project outcomes, number of participants to be served, and the number and location of proposed sites.
  - Applicants may also include a title page and table of contents in the pre-application.

Application Narrative

The application narrative responds to the selection criteria found in this application package and should follow the order of the selection criteria.

- Peer reviewers will evaluate each pre-application on how well it responds to the pre-application selection criteria listed below. The maximum number of points that a pre-application may receive on the pre-application selection criteria is a combined total of 100.

- The 15-page Pre-application Narrative should respond to the pre-application selection criteria and factors in the order in which they are listed.

- Place the name of the applicant and the page number at the top of each page of the Pre-Application Narrative. Number each page consecutively with the first page of the narrative listed as page 1.

- The pre-application narrative of no more than 15 pages must adhere to the following guidelines:

  - A page is 8.5” x 11”, on one side only, with 1” margins at the top, bottom, and both sides. The name of the applicant and the page number should be placed in the header of the document. Headers may be placed in the margins.

  - Double space (no more than three lines per vertical inch) all text in the pre-application narrative, including titles, headings, quotations, references and captions included in the body of the narrative.
• Text in endnotes, charts, tables, figures and graphs may be single-spaced.

• Use one of the following commonly used 12-point fonts for all text, including text in endnotes, charts, tables, figures, and graphs: Times New Roman, Times, Courier, or CG Times.

• The page limits do not apply to any title page or table of contents, or the forms in the pre-application.
Selection Criteria for Program Narrative (Pre-Application)

PRE-APPLICATION SELECTION CRITERIA

Reminder to Applicants: The applicant should consider preparing the Pre-Application Narrative to respond to the criteria and factors that comprise the Pre-Application Selection Criteria in the order in which they are listed. To avoid redundancy within the pre-application, information that the applicant provides in one section of the pre-application may be cross-referenced in another section. Reviewers will base their evaluation of the pre-application on the Pre-Application Narrative and other limited materials listed in the appendices in this application package (except for any English language acquisition plan or kindergarten transition plan responding to the invitational priority).

Instructions for the ED Supplemental Information for SF 424

1. **Project Director.** Name, address, telephone and fax numbers, and e-mail address of the person to be contacted on matters involving this application.

2. **Novice Applicant.** Check “Yes” or “No” only if assistance is being requested under a program that gives special consideration to novice applicants. Otherwise, leave blank.

Check “Yes” if you meet the requirements for novice applicants specified in the regulations in 34 CFR 75.225 and included on the attached page entitled “Definitions for Department of Education Supplemental Information for SF 424.” By checking “Yes” the applicant certifies that it meets these novice applicant requirements. Check “No” if you do not meet the requirements for novice applicants.

3. **Human Subjects Research.** (See I. A. “Definitions” in attached page entitled “Definitions for Department of Education Supplemental Information For SF 424.”)

**If Not Human Subjects Research.** Check “No” if research activities involving human subjects are not planned at any time during the proposed project period. The remaining parts of Item 3 are then not applicable.

**If Human Subjects Research.** Check “Yes” if research activities involving human subjects are planned at any time during the proposed project period, either at the applicant organization or at any other performance site or collaborating institution. Check “Yes” even if the research is exempt from the regulations for the protection of human subjects. (See I. B. “Exemptions” in attached page entitled “Definitions for Department of Education Supplemental Information For SF 424.”)

**If Human Subjects Research is Exempt from the Human Subjects Regulations.** Check “Yes” if all the research activities proposed are designated to be exempt from the regulations. Insert the exemption number(s) corresponding to one or more of the six exemption categories listed in I. B. “Exemptions.” In addition, follow the instructions in II. A. “Exempt Research Narrative” in the attached page entitled “Definitions for Department of Education Supplemental Information For SF 424.”

**If Human Subjects Research is Not Exempt from Human Subjects Regulations.** Check “No” if some or all of the planned research activities are covered (not exempt). In addition, follow the instructions in II. B. “Nonexempt Research Narrative” in the page entitled “Definitions for...”

**Human Subjects Assurance Number.** If the applicant has an approved Federal Wide (FWA) on file with the Office for Human Research Protections (OHRP), U.S. Department of Health and Human Services, that covers the specific activity, insert the number in the space provided. If the applicant does not have an approved assurance on file with OHRP, enter “None.” In this case, the applicant, by signature on the SF-424, is declaring that it will comply with 34 CFR 97 and proceed to obtain the human subjects assurance upon request by the designated ED official. If the application is recommended/selected for funding, the designated ED official will request that the applicant obtain the assurance within 30 days after the specific formal request.

**Note about Institutional Review Board Approval.** ED does not require certification of Institutional Review Board approval with the application. However, if an application that involves non-exempt human subjects research is recommended/selected for funding, the designated ED official will request that the applicant obtain and send the certification to ED within 30 days after the formal request.

**Paperwork Burden Statement.** According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. The valid OMB control number for this information collection is 1890-0017. The time required to complete this information collection is estimated to average between 15 and 45 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the estimate(s) or suggestions for improving this form, please write to: U.S. Department of Education, Washington, DC 20202-4700. If you have comments or concerns regarding the status of your individual submission of this form write directly to: Joyce I. Mays, Application Control Center, U.S. Department of Education, Potomac Center Plaza, 550 12th Street, S.W. Room 7076, Washington, DC 20202-4260.
Definitions: Novice Applicant (See 34 CFR 75.225). For discretionary grant programs under which the Secretary gives special consideration to novice applications, a novice applicant means any applicant for a grant from ED that—

- Has never received a grant or subgrant under the program from which it seeks funding;
- Has never been a member of a group application, submitted in accordance with 34 CFR 75.127-75.129, that received a grant under the program from which it seeks funding; and
- Has not had an active discretionary grant from the Federal government in the five years before the deadline date for applications under the program. For the purposes of this requirement, a grant is active until the end of the grant’s project or funding period, including any extensions of those periods that extend the grantee’s authority to obligate funds.

In the case of a group application submitted in accordance with 34 CFR 75.127-75.129, a group includes only parties that meet the requirements listed above.

PROTECTION OF HUMAN SUBJECTS IN RESEARCH

I. Definitions and Exemptions

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department’s regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Research

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as “a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge.” If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge it is research. Activities, which meet this definition, constitute research whether or not they are conducted or supported under a program that is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Human Subject

The regulations define human subject as “a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information.” (1) If an activity involves obtaining information about a living person by manipulating that person or that person’s environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met. (2) If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met. [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the only involvement of human subjects will be in one or more of the following six categories of exemptions are not covered by the regulations:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and
II. Instructions for Exempt and Nonexempt Human Subjects Research Narratives

If the applicant marked “Yes” for Item 3 of Department of Education Supplemental Information for SF 424, the applicant must provide a human subjects “exempt research” or “nonexempt research” narrative. Insert the narrative(s) in the space provided. If you have multiple projects and need to provide more than one narrative, be sure to label each set of responses as to the project they address.

A. Exempt Research Narrative.
If you marked “Yes” for Item 3 a. and designated exemption numbers(s), provide the “exempt research” narrative. The narrative must contain sufficient information about the involvement of human subjects in the proposed research to allow a determination by ED that the designated exemption(s) are appropriate. The narrative must be succinct.

B. Nonexempt Research Narrative.
If you marked “No” for Item 3 a. you must provide the “nonexempt research” narrative. The narrative must address the following seven points. Although no specific page limitation applies to this section of the application, be succinct.

1. Human Subjects Involvement and Characteristics:
Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable.

2. Sources of Materials:
Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

3. Recruitment and Informed Consent:
Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the circumstances under which consent will be sought and obtained, who...
will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) **Potential Risks**: Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) **Protection Against Risk**: Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) **Importance of the Knowledge to be Gained**: Discuss the importance of the knowledge gained or to be gained as a result of the proposed research. Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

(7) **Collaborating Site(s)**: If research involving human subjects will take place at collaborating site(s) or other performance site(s), name the sites and briefly describe their involvement or role in the research.

NOTE: The **State Applicant Identifier** on the SF 424 is for State Use only. Please complete it on the OMB Standard 424 in the upper right corner of the form (if applicable).
Part 2: Budget Information

ED Budget Information Non-Construction Programs (ED Form 524)

This part of your application contains information about the Federal funding you are requesting. Remember that you must provide all requested budget information for each year of the project (up to 36 months) and the total column in order to be considered for Federal funding. Specific instructions for completing the budget forms are provided within this application package.

Instructions for completing ED Form 524 Section A:

Name of Institution/Organization: Enter the name of the applicant in the space provided.

Personnel (line 1): Enter project personnel salaries and wages only. Include fees and expenses for consultants on line 6.

Fringe Benefits (line 2): The institution’s normal fringe benefits contribution may be charged to the program. Leave this line blank if fringe benefits applicable to direct salaries and wages are treated as part of the indirect cost.

Travel (line 3): Indicate the travel costs of employees and participants only. Include travel of persons such as consultants on line 6.

Equipment (line 4): Indicate the cost of tangible, non-expendable personal property that has a usefulness greater than one year and acquisition costs that are the lesser of the capitalization level established by the applicant entity for financial statement purposes or $5,000 per article. Lower limits may be established to maintain consistency with the applicant’s policy.

Supplies (line 5): Show all tangible, expendable personal property. Direct supplies and materials differ from equipment in that they are consumable, expendable, and of a relatively low unit cost. Supplies purchased with grant funds should directly benefit the grant project and be necessary for achieving the goals of the project.

Contractual (line 6): The contractual category should include all costs specifically incurred with actions that the applicant takes in conjunction with an established internal procurement system. Include consultant fees, expenses, and travel costs in this category if the consultant’s services are obtained through a written binding agreement or contract.

Construction (line 7): Not applicable.

Other (line 8): Indicate all direct costs not covered on lines 1-6. For example, include costs such as space rental, required fees, honoraria and travel (where a contract is not in place for services), training, and communication and printing costs. Do not include costs that are included in the indirect cost rate.

Total Direct Costs (line 9): The sum of lines 1-8.

Indirect Costs (line 10): Indicate the applicant’s approved indirect cost rate, per sections 75.560
– 75.564 of EDGAR. If an applicant does not have an approved indirect cost rate agreement with a cognizant Federal agency, the applicant must apply to the Department for a temporary indirect cost rate if it wishes to charge indirect costs to the grant. For more information, go to the Department's website at: http://www.ed.gov/about/offices/list/ocfo/fipao/icgindex.html.

**Training Stipends (line 11):** This line item is not applicable to this program. The training stipend line item only pertains to costs associated with long term training programs and college or university coursework, not workshops or short-term training supported by this program. *Salary stipends paid to teachers and other school personnel for participating in short-term professional development should be reported in Personnel (line 1).*

**Total Cost (line 12):** This should equal to sum of lines 9-11 (total direct costs + indirect + stipends). The sum for column one, labeled *Project Year 1* (a), should also be equal to item 15a on the application cover sheet (SF Form 424).

Section C - Budget Narrative [Attach separate sheet(s)]
Pay attention to applicable program specific instructions, if attached.

1. Provide an itemized budget breakdown, and justification by project year, for each budget category listed in Sections A and B. For grant projects that will be divided into two or more separately budgeted major activities or sub-projects, show for each budget category of a project year the breakdown of the specific expenses attributable to each sub-project or activity.

2. For non-Federal funds or resources listed in Section B that are used to meet a cost-sharing or matching requirement or provided as a voluntary cost-sharing or matching commitment, you must include:
   a. The specific costs or contributions by budget category;
   b. The source of the costs or contributions; and
   c. In the case of third-party in-kind contributions, a description of how the value was determined for the donated or contributed goods or services.

[Please review ED’s general cost sharing and matching regulations, which include specific limitations, in 34 CFR 74.23, applicable to non-governmental entities, and 80.24, applicable to governments, and the applicable Office of Management and Budget (OMB) cost principles for your entity type regarding donations, capital assets, depreciation and use allowances. OMB cost principle circulars are available on OMB’s website at: http://www.whitehouse.gov/omb/circulars/index.html]

3. If applicable to this program, provide the rate and base on which fringe benefits are calculated.

4. If you are requesting reimbursement for indirect costs on line 10, this information is to be completed by your Business Office. Specify the estimated amount of the base to which the indirect cost rate is applied and the total indirect expense. Depending on the grant program to which you are applying and/or your approved Indirect Cost Rate Agreement, some direct cost budget categories in your grant application budget may not be included in the base and multiplied by your indirect cost rate. For example, you must multiply the indirect cost rates of “Training grants” (34 CFR 75.562) and grants under programs with “Supplement not Supplant” requirements (“Restricted Rate” programs) by a “modified total direct cost” (MTDC) base (34 CFR 75.563 or 76.563). Please indicate which costs are included and which costs are excluded from the base to which the indirect cost rate is applied.

When calculating indirect costs (line 10) for “Training grants” or grants under “Restricted Rate” programs, you must refer to the information and examples on ED’s website at:

You may also contact (202) 377-3838 for additional information regarding calculating indirect cost rates or general indirect cost rate information.

5. Provide other explanations or comments you deem necessary.

**Reminder to Applicants:** The applicant should consider preparing the Full Application Narrative to respond to the Full Application Selection Criteria and factors in the order in which they are listed. Applicants should not assume that reviewers have read their pre-applications and should ensure that their full applications include all information needed by the reviewers to evaluate their proposals. The first selection criterion in the full application is identical to the second selection criterion in the pre-application; applicants are encouraged in the full application to refine and expand upon the response they provided to that pre-application selection criterion. To avoid redundancy within the full application, information that the applicant provides in one section of the full application may be cross-referenced in another section. However, applicants should not cross-reference in the full application material from their pre-application because the full application is a “stand-alone” document. Reviewers will base their evaluation of the full application on the Full Application Narrative, the Budget and the Budget Narrative and other limited materials listed in the appendices of this application package (except for any English language acquisition plan or kindergarten transition plan responding to the invitational priority).
ADDRESS EACH OF THE FOLLOWING FULL APPLICATION SELECTION CRITERIA

The Secretary will use the following selection criteria in Section 75.210 of EDGAR (34 CFR 75.210) to evaluate full applications under this competition. The maximum score for all of these selection criteria is 100 points. The maximum score for each criterion is indicated in the parenthesis with the criterion. Use no more than a total of 40 double-spaced pages to address all of the following full application selection criteria. The criteria follow in the boxes below. Below each selection criterion, the factors that make up that criterion are delineated.

Part 5: Budget Narrative

This section should be attached as a single document to the Budget Narrative Attachment Form in accordance with the instructions found on Grants.gov. It should be organized in the following manner and include the following parts in order to expedite the review process.

You must attach any narrative sections of your application as files in a .DOC (document), .RTF (rich text), or .PDF (Portable Document) format. If you upload a file type other than the three file types specified in this paragraph or submit a password-protected file, we will not review that material.

Please note that Grants.gov cannot process an application that includes two or more files that have the same name within a grant submission.

When attaching files, applicants should limit the size of their file names. Lengthy file names could result in difficulties with opening and processing your application. We recommend your file names be less than 50 characters.

Each application must also provide a Budget Narrative (which serves to meet the requirements of ED Form 524, Section C) for requested Federal funds. The Budget Narrative for requested Federal funds should provide a justification of how the money requested for each budget item will be spent.

This section requires an itemized budget breakdown for each project year and the basis for estimating the costs of personnel salaries, benefits, project staff travel, materials and supplies, consultants and subcontracts, indirect costs and any other projected expenditures. Be sure to complete an itemized budget breakdown and narrative for each year of the proposed project (up to 36 months).

The Budget Narrative provides an opportunity for the applicant to identify the nature and amount of the proposed expenditures. The applicant should provide sufficient detail to enable reviewers and project staff to understand how requested funds will be used, how much will be expended, and the relationship between the requested funds and project activities and outcomes.

Important Notes

- Applicants are encouraged to review OMB Circular A-21, Cost Principles for Educational Institutions [OMB Circular A-87, Cost Principles for State, Local, and Indian Tribal Governments or OMB Circular A-122, Cost Principles for Nonprofit Organizations] in preparing their budget and budget narrative.
- OMB Circular A-21 may be found at the following link: http://www.whitehouse.gov/omb/circulars/a021/a21_2004.html

Important Information Regarding Indirect Cost Rates

The Department of Education (ED) reimburses grantees for its portion of indirect costs that a grantee incurs on projects funded by the Early Reading First program (CFDA 84.359A and B). In order to charge indirect costs to this program, a grantee must have a currently approved Indirect Cost Rate (ICR) agreement. The ICR must be negotiated with and approved by the grantee’s cognizant agency, i.e., either (1) the federal agency from which it has received the most direct funding, subject to indirect cost support; (2) the federal agency specifically assigned cognizance by the Office of Management and Budget; or (3) the State agency that provides the most subgrant funds to the grantee (if no direct federal awards are received).

Note: Applicants should pay special attention to specific questions on the application budget form (ED 524) about their cognizant agency and the ICR being used in the budget. Applicants should be aware that ED is very often not the cognizant agency for its grantees. Rather, ED accepts the currently approved ICR established by the appropriate cognizant agency.

Applicants are encouraged to have an accountant calculate a proposed ICR using current information in the audited financial statements, actual cost data or the Internal Revenue Service Form 990. Applicants should use this proposed rate in the application materials and indicate the documentation used to calculate the rate. Guidance related to calculating an ICR can be found on ED's website at http://www.ed.gov/about/offices/list/ocfo/fipao/icgindex.html

An applicant selected for funding, that does not have a currently approved ICR, must review and follow the final regulations published at 34 CFR 75.560 in the Federal Register on December 7, 2007 (72 FR 69145). The rules allow for a temporary ICR of 10% of budgeted salaries and wages and require the grantee to submit an ICR proposal within 90 days after issuance of the grant award notification.

Applicants with questions about charging indirect costs on this program should contact the program contact person noted elsewhere in this application package.
Part 6: Other Attachments Form

You must attach any narrative sections of your application as files in a .DOC (document), .RTF (rich text), or .PDF (Portable Document) format. If you upload a file type other than the three file types specified in this paragraph or submit a password-protected file, we will not review that material.

Please note that Grants.gov cannot process an application that includes two or more files that have the same name within a grant submission.

Instructions for Meeting the General Education Provisions Act (GEPA) Section 427 Requirements

All applicants for new awards must include information in their applications to address this new provision in order to receive funding under this program.

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs.

This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age.

A general statement of an applicant’s nondiscriminatory hiring policy is not sufficient to meet this requirement. Applicants must identify potential barriers and explain steps they will take to overcome these barriers.

Please review the Notice to all Applicants (included in the electronic application package in Grants.gov) for further information on meeting the provisions in the Department of Education's General Education Provisions Act (GEPA).

Applicants are required to address this provision by attaching a statement (not to exceed three pages) to the ED GEPA427 form that is included in the electronic application package in Grants.gov.
Survey Instructions on Ensuring Equal Opportunity for Applicants

Provide the applicant’s (organization) name and DUNS number and the grant name and CFDA number.

1. Self-explanatory.

2. Self-identify.

4. 501(c)(3) status is a legal designation provided on application to the Internal Revenue Service by eligible organizations. Some grant programs may require nonprofit applicants to have 501(c)(3) status. Other grant programs do not.

5. Self-explanatory.

6. For example, two part-time employees who each work half-time equal one full-time equivalent employee. If the applicant is a local affiliate of a national organization, the responses to survey questions 2 and 3 should reflect the staff and budget size of the local affiliate.

7. Annual budget means the amount of money your organization spends each year on all of its activities.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. The valid OMB control number for this information collection is 1890-0014. The time required to complete this information collection is estimated to average five (5) minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: The Agency Contact listed in this grant application package.

Paperwork Burden Statement

OMB No. 1890-0014 Exp. 02/28/09
**Part 8: Intergovernmental Review (Executive Order 12372)**

It is estimated that in 2008 the Federal Government will outlay $449 billion in grants to State and local governments. **Executive Order 12372**, "Intergovernmental Review of Federal Programs," was issued with the desire to foster the intergovernmental partnership and strengthen federalism by relying on State and local processes for the coordination and review of proposed Federal financial assistance and direct Federal development. The Order allows each State to designate an entity to perform this function.

**This program is subject to the requirements of Executive Order 12372 (Intergovernmental Review of Federal Programs) and the regulations in 34 CFR part 79.**

Applicants must contact the appropriate State single point of contact to find out about, and to comply with, the State’s process under Executive Order 12372. Applicants proposing to perform activities in more than one State should immediately contact the single point of contact for each of those States and follow the procedures established in each State under the Executive order.

In keeping with the Executive Order, the Office of Management and Budget has established and maintains a list of the States participating in the program. The list below provides the names, addresses, telephone and fax numbers of designated State single points of contact and can be electronically accessed at: [http://www.whitehouse.gov/omb/grants/s poc.html](http://www.whitehouse.gov/omb/grants/s poc.html)

Any State process recommendation and other comments submitted by a State single point of contact and any comments from State, area-wide, regional, and local entities must be mailed or hand-delivered by the date indicated in this notice to the following address:

The Secretary  
**EO 12372**  
U.S. Department of Education  
Room 7E200  
400 Maryland Avenue SW  
Washington, DC 20202

Proof of mailing will be determined on the same basis as applications (see 34 CFR § 75.102). Recommendations or comments may be hand-delivered until 4:30 p.m. (eastern time) on the closing date indicated in this notice.

**Important note:** The above address is not the same address as the one to which the applicant submits its completed applications. **Do not send applications to the above address.**

States that are not listed on the following pages have chosen not to participate in the intergovernmental review process, and therefore do not have a SPOC. If you are located within a State that does not have a SPOC, you may send application materials directly to the Department as described in the Federal Register notice announcing the grant competition.

Reporting and Accountability

Successful applicants with multi-year grants must submit an annual performance report demonstrating their progress in meeting approved project objectives. Grantees must also provide the most current financial and performance measure data for each year of the project.

At the end of the project period, applicants will also be required to submit a final performance report.

Under the Government Performance and Results Act (GPRA), the following performance indicators have been established to evaluate the overall effectiveness of the Early Reading First Program:

- The cost per preschool-aged child participating in Early Reading First programs who achieves a significant gain in oral language skills after each year of implementation;

- The percentage of preschool-aged children participating in Early Reading First programs who demonstrate age-appropriate oral language skills after each year of implementation;

- The average number of letters Early Reading First preschool-aged children are able to identify after each year of implementation; and

- The percentage of preschool-aged children participating in Early Reading First programs who achieve significant gains in oral language skills after each year of implementation.

For specific requirements on grantee reporting, please go to the ED Performance Report Form 524B at http://www.ed.gov/fund/grant/apply/appforms/appforms.html.
