

Notes on Validation Intent to Apply Summary Document

1. Organizations were not required to submit an intent to apply, nor are they required to apply once they have submitted an intent, so this may not be a wholly accurate predictor of applications we will actually receive or of the sources of applications.
2. Potential applicants submitted multiple intents to apply, in some cases indicating different priorities or grant types, in some cases not. Therefore, the summary information is an estimate used for planning purposes only and we have only released the names and locations of potential applicants to facilitate identification and potential connections.
3. Only one organization name is listed for each intent received. Therefore, this list does not indicate all organizations that may be partners or who may have been included in the intents submitted.
4. This list reflects information that was reported to us and has not otherwise been vetted by the agency for accuracy.
5. We collect this information with the goal of informing our internal planning (i.e., Have we lined up enough peer reviewers? Are there consistent patterns we should address through targeted guidance or FAQs?) and find it helpful for that purpose.
