Please be advised that for the priority in this package, the maximum award amount covers all project costs including indirect costs.
- STRICT PAGE LIMITS. The competition included in this package limits the Part III Application Narrative to a specified number of double-spaced pages. This page limitation applies to all material presented in the application narrative -- including, for example, any charts, tables, figures, and graphs. Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: Under section 616(i)(2) of the Individuals with Disabilities Education Act, as amended (IDEA), the Department may make awards to provide technical assistance to improve the capacity of States to meet data collection requirements.

Priority: This priority is from the notice of final priorities for this program, published in the Federal Register on July 9, 2007 (72 FR 37212).

Absolute Priority: For FY 2010 and any subsequent year in which we make awards based on the list of unfunded applicants from this competition, this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

This priority is:

Technical Assistance on Data Collection--General Supervision Enhancement Grants-Alternate Academic Achievement Standards (GSEG)

Background:

On April 9, 2010, the Department issued a notice inviting applications for new awards under the Race to the Top (RTT) Assessment Program (75 FR 18171),¹ indicating its intention to support States in developing new alternate assessments based on alternate academic achievement standards. This notice announces a separate competition for GSEG grants through which States may receive funding for the development of new alternate assessments for students with the most significant cognitive disabilities. Through the invitational priority announced in this notice, we are encouraging States to develop alternate assessments that fit coherently with the assessment systems to be developed under the RTT Assessment Program.

Under section 1111(b)(1) of Title I of the Elementary and Secondary Education Act of 1965, as amended (ESEA), a State is required to adopt challenging student academic achievement standards and to apply the same standards “to all schools and children in the State.” In developing the Title I ESEA regulations implementing this provision, the Department acknowledged that, although all children can learn challenging content, evaluating that learning through the use of alternate academic achievement standards is appropriate for a small, limited percentage of students who are within one or more of the existing categories of disability under IDEA (e.g., autism, multiple disabilities, traumatic brain injury, mental retardation), and whose cognitive impairments may prevent them from attaining grade-level achievement standards, even with the very best instruction. Accordingly, the Department adopted regulations, in 34 CFR 200.1(d), permitting States to measure the achievement of a limited percentage of students – those with the most significant cognitive disabilities – against challenging, but alternate, academic achievement standards.

The Title I, Part A regulations in 34 CFR 200.6(a)(2)(ii)(B) also permit a State to develop alternate assessments based on alternate academic achievement standards. Alternate assessments that are used by States and local educational agencies (LEAs) under the ESEA must be designed to generate valid data that can be used for purposes of school, district, and State accountability. They must meet the requirements in 34 CFR 200.2 (State Responsibilities for Assessment) and 34 CFR 200.3 (Designing State Academic Assessment Systems) and fit coherently in the State’s overall assessment system under 34 CFR 200.2. Under the provisions of 34 CFR 200.2(b), an alternate assessment must, among other

¹ The following Web site provides more information on the RTT Assessment Program:
<http://www2.ed.gov/programs/racetothetop-assessment/index.html>

things, be: (1) aligned with a State's alternate academic achievement standards and provide coherent information about student attainment of those standards; (2) valid and reliable for the purposes for which the assessment is used; (3) consistent with relevant, nationally-recognized professional and technical standards; and (4) supported by evidence from test publishers or other relevant sources that the assessment is of adequate technical quality for each purpose required under the ESEA.

States that adopt alternate academic achievement standards are required under IDEA, as reflected in 34 CFR 300.160(c), to develop and implement alternate assessments that are aligned with the State's challenging academic content standards and that measure the achievement of children with the most significant cognitive disabilities. States must include alternate assessment data in their State Performance Plan and Annual Performance Reports relative to performance and participation of children with disabilities on State assessments under IDEA.

Priority:

The Assistant Secretary for Special Education and Rehabilitative Services establishes a priority for grants to support States with one or more of the following activities: (1) development of alternate academic achievement standards aligned with the State's academic content standards; (2) development of high-quality alternate assessments using universal design principles, to the extent possible, that measure the achievement of students with the most significant cognitive disabilities based on those standards; (3) reporting on the participation and performance of students with disabilities on alternate assessments based on alternate academic achievement standards; and (4) development of clear and appropriate guidelines for IEP Teams to use in determining which students should be assessed based on alternate academic achievement standards, and the development and implementation of training on those guidelines for IEP Teams.

Applicants must include information in their applications on how they will work with experts in large-scale assessment and special education to ensure that they are designing alternate academic achievement standards, and assessments based on those standards, that: (1) address the needs of students with the most significant cognitive disabilities; (2) validly, reliably, and accurately measure student performance; and (3) result in high-quality data for use in evaluating the performance of schools, districts, and States. The experts selected should represent the range of skills needed to develop

assessments based on alternate academic achievement standards for students with the most significant cognitive disabilities that will meet the peer review guidelines for assessments published by the Department that are available at: <http://www2.ed.gov/policy/elsec/guid/saaprguidance.pdf>. Skill sets for experts must include experience with one or more of the following: (1) large scale assessment; (2) standards-setting techniques; (3) assessment and measurement of children with disabilities; (4) accommodations and supports to assess grade-level content; (5) working with States to develop assessments; (6) development of criterion-referenced tests and instruments; (7) psychometric evaluation; (8) conducting studies of the technical adequacy of assessment instruments; (9) research and publishing in the area of assessment and psychometrics; and (10) applying the principles of universal design to large-scale assessments.

Projects funded under this priority also must—

- (a) Budget to attend a three-day Project Directors' meeting in Washington, DC;
- (b) If the project maintains a Web site, include relevant information and documents in a format that meets a government or industry-recognized standard for accessibility; and
- (c) Provide a written assurance that the State's Assessment Office (i.e., the office that addresses accountability under Title I of the ESEA) was given the opportunity to contribute to the formulation of the application.

Under this competition we are particularly interested in applications that address the following priority.

Invitational Priority: For FY 2010 and any subsequent year in which we make awards from the list of unfunded applicants from this competition, this priority is an invitational priority. Under 34 CFR 75.105(c)(1) we do not give an application that meets this invitational priority a competitive or absolute preference over other applications.

Background:

The RTT Assessment Program supports the development of new assessment systems that are to be used by multiple States; are valid, reliable, and fair; and measure student knowledge and skills against a common set of college- and career-ready standards in English/language arts (ELA) and mathematics in grades 3 to 8 and at least once in high school. The RTT Assessment Program requires that the

Comprehensive Assessment Systems developed under the program include all students who have been identified as students with disabilities under IDEA who are not eligible to participate in alternate assessments based on alternate academic achievement standards.

The assessment systems developed under the RTT Assessment Program must also produce student achievement data and student growth data that can be used to determine whether individual students are college- and career-ready.

Information gathered from the RTT assessments should be useable in informing--

- (i) Determinations of school effectiveness for purposes of accountability under Title I of the ESEA;
- (ii) Determinations of individual principal and teacher effectiveness for purposes of evaluation;
- (iii) Determinations of principal and teacher professional development and support needs; and
- (iv) Teaching, learning, and program improvement.

States are obligated, under Title I of the ESEA, IDEA, and section 504 of the Rehabilitation Act of 1973, as amended, to ensure that all children with disabilities are included in State assessment systems. States or consortia of States may apply under the absolute priority in this notice for a grant to develop alternate academic achievement standards and alternate assessments for students with the most significant cognitive disabilities. Given that the RTT Assessment program does not support the development of alternate assessments based on alternate academic achievement standards, we encourage States under this competition to develop assessments that fit coherently with the Comprehensive Assessment Systems to be developed by State consortia under the RTT Assessment Program.

This invitational priority is:

The Secretary is particularly interested in projects from consortia of States to develop alternate assessment systems for students with the most significant cognitive disabilities that fit coherently with the assessment systems to be developed under the RTT Assessment Program. These alternate assessment systems must measure student knowledge and skills against a common set of college- and career-ready standards in ELA and mathematics held in common by States in the consortia and the related alternate assessments, for grades 3 through 8, and at least one grade in high school. The Secretary is also interested in projects that propose the development of alternate assessment systems that use

approaches to technology, assessment administration, scoring, reporting, and other factors that facilitate the coherent inclusion of these assessments within States' Comprehensive Assessment Systems.

Program Authority: 20 U.S.C. 1411(c) and 1416(i)(2).

Applicable Regulations: (a) The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 79, 80, 81, 82, 84, 85, 86, 97, 98, and 99. (b) The notice of final priorities for this program, published in the Federal Register on July 9, 2007 (72 FR 37212).

Note: The regulations in 34 CFR part 79 apply to all applicants except federally recognized Indian tribes.

Note: The regulations in 34 CFR part 86 apply to institutions of higher education (IHEs) only.

A consortium is any combination of eligible entities. The Secretary views the formation of consortia as an effective and efficient strategy to address the requirements of the priority in this notice.

V. APPLICATION REVIEW INFORMATION

1. Selection Criteria: The selection criteria for this program are from 34 CFR 75.210 and are listed in the application package.

2. Review and Selection Process: In the past, the Department has had difficulty finding peer reviewers for certain competitions because so many individuals who are eligible to serve as peer reviewers have conflicts of interest. The Standing Panel requirements under IDEA also have placed additional constraints on the availability of reviewers. Therefore, the Department has determined that, for

some discretionary grant competitions, applications may be separated into two or more groups and ranked and selected for funding within specific groups. This procedure will make it easier for the Department to find peer reviewers, by ensuring that greater numbers of individuals who are eligible to serve as reviewers for any particular group of applicants will not have conflicts of interest. It also will increase the quality, independence, and fairness of the review process, while permitting panel members to review applications under discretionary grant competitions for which they also have submitted applications. However, if the Department decides to select an equal number of applications in each group for funding, this may result in different cut-off points for fundable applications in each group.

VI. Award Administration Information

1. Award Notices: If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may notify you informally, also.

If your application is not evaluated or not selected for funding, we notify you.

2. Administrative and National Policy Requirements: We identify administrative and national policy requirements in the application package and reference these and other requirements in the Applicable Regulations section of this notice.

We reference the regulations outlining the terms and conditions of an award in the Applicable Regulations section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. Reporting: At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

4. Performance Measures: Under the Government Performance and Results Act of 1993 (GPRA), the Department has developed a performance measure that will be used to evaluate the overall effectiveness of projects funded under this competition. This measure is: The percentage of General Supervision Enhancement Grantee products and services that are of high-quality, relevance, and

usefulness, as determined by Annual Performance Report submissions and reviews of grantee work products. To ensure that the Department has the data needed for this measure, grantees will be expected to participate in mid-term assessments of progress towards stated goals and objectives, and will also be required to report information on their projects' performance in annual reports to the Department (34 CFR 75.590). The Department will also determine at the end of the grantee's project period whether the grantee has been successful in achieving the purposes of its award.

SUBMISSION PROCEDURES AND TIPS FOR APPLICANTS

IMPORTANT—PLEASE READ FIRST

To facilitate your use of e-Application, this document includes important application preparation and submission procedures you need to be aware of to ensure your application is received in a timely manner and accepted by the Department of Education. Please read and follow these step-by-step directions to create and submit your application.

ATTENTION

Applicants using the Department of Education's e-Application system will need to register first to access an application package. Forms in an application package are completed on line and narratives are uploaded while logged into the system. Therefore, allow sufficient time to complete your application before the closing date. If you have not used e-Application in the past, you may want to walk through the Demo available on the e-Application homepage. If you encounter difficulties, you may also contact the e-Grants helpdesk on 1-888-336-8930. The following are steps you should follow to successfully complete an application with e-Application.

Step 1 – Determine if your program is accepting electronic applications. The Federal Register Notice of each program will indicate whether the program is accepting e-Applications as part of the Department's e-Application program. Here is a link to the Department's Federal Register notices: <http://www.ed.gov/news/fedregister/announce/index.html>. Additional information on the Department's of Education's grant programs can be found at <http://www.ed.gov/about/offices/list/ocfo/grants/grants.html>.

Step 2 – Register in e-Application to access the application package. If you are a new user, you will need to register to use e-Application. From the e-Grants Portal Page <http://e-grants.ed.gov/>, click on the continue button and click the register button on the right side of the next page. Select the e-Application module and click the next button. Please provide the requested information. Your e-Grants password will be sent to the e-mail address you provide. Once you receive the e-mail, enter your username and password and click the login button.

If you already have a username and password for e-Grants, use them to login. If you have access to more than one e-Grants module, you will be directed to select which module you wish to enter. Keep in mind that this username and password will be used for all e-Grants modules. In order to update your registration for additional e-Grants modules, click the appropriate tab on the top of the screen and provide the requested information.

Note the following browser compatibility problems. The site is viewed best in Internet Explorer 5. We currently support IE 5, Netscape 6.2, Firefox 2.2 (along with later versions of IE, Netscape and Firefox). Please make sure that you have **Cookies** and **JavaScript** enabled in your browser.

Step 3 - Add Application Package to your Start Page. From your Start Page, click on the "Add" button to see the list of application packages. Click on a specific package link on the List of Application Packages to apply. The package will now appear on your Start Page. From this point forward, you will access your unique application from your Start Page (not the Packages Page).

Step 4 - Begin the Application. Click on the underlined Application Package Title on your Start Page. This brings you to a page where you will see all of the application's forms and narratives listed as underlined links.

Step 5 - Fill out Forms. Enter a form by clicking on the underlined form title in order to enter data. Remember to click the "Save" button at the bottom of the form and check the "Form Completed" box for each form as you complete it.

Step 6 - Upload File(s) for Narrative Responses. Click on an underlined narrative form title for the e-Application. Enter the title of the document, and click on the "Browse" button to locate your file. Remember to click the "Save" button after you upload the document and check the "Form Completed" box when you finish uploading your file(s). Please note for file uploads, we accept .doc, .rtf, and .pdf files only. If you are using Word 2007, please save your document in a lower version of Word before uploading into e-Application.

Step 7 - Verify Information/Print Application. Verify your information is complete and correct on all required forms and narratives. You have the option to print each form at any time by clicking on the print/view icon  next to the appropriate form. After submission of the forms and narratives, you have the option to print a complete e-Application package in PDF by clicking on the "Request Complete Package in PDF" on the e-Application PR/Award page. A second window will open informing you that your request has been received and that you will be notified via email once it is available. This process can take anywhere from a few minutes to a few hours. Once you receive the email, click on the link in the text of the message and enter your username and password in the new window. This will open the PDF file from which you can view/print the entire package. In addition, a blank complete package in PDF will be accessible from the package page in e-Application.

Step 8 - Submit your Application. Only authorized individuals for your organization can submit an application. Please check with your certifying official or sponsored research office before submission. Click on the "Ready to submit" button at the bottom of your application. Enter and verify the Authorizing Representative information. Click the "Submit" button. You will receive an e-mail to confirm that your application was received, and it will include a unique application number. Please print and keep this e-mail for your records. [Reminder: applications must be submitted before 4:30:00 pm, Washington, D.C. time, on the deadline date for applications. e-Application will not accept your application if you try to submit it after 4:30:00 on the deadline date.]

Step 9 - Fax the signed SF 424 Cover Page (or Program Specific Cover Page). Write your unique application number (received in step 8) on the upper right corner of your printed SF 424 Cover Page (or Program Specific Cover Page), and fax it to the Application Control Center (202) 245-6272 within 3 business days of submitting your e-Application.

NOTE: For more detailed information on submitting an e-Application, please see the **User Guide**. In addition, please try practicing with our e-Application Demo site by clicking on the Demo button found on the upper left corner of the e-Application Home Page. Both the User Guide and Demo can be found at <http://e-grants.ed.gov>.

OTHER SUBMISSION TIPS

- 1) **Register Early— We strongly recommend that you do not wait until the last day to submit your application.** The time it takes to upload the narratives for your application will vary depending on a number of factors including the size of the files and the speed of your Internet connection. If you try to submit your application after 4:30:00 on the deadline date, the e-Application system will not accept it.
- 2) **If electronic submission is optional** and you have problems that you are unable to resolve before the deadline date and time for electronic applications, please follow the transmittal instructions for hard copy applications in the Federal Register notice and get a hard copy application postmarked by midnight on the deadline date.

If electronic submission is required, you must submit an electronic application before 4:30:00 p.m., unless you follow the procedures in the Federal Register notice and qualify for one of the exceptions to the electronic submission requirement and submit, no later than two weeks before the application deadline date, a written statement to the Department that you qualify for one of these exceptions. (See the Federal Register notice for detailed instructions.)

- 3) Dial-Up Internet Connections** - When using a dial up connection to upload and submit your application, it can take significantly longer than when you are connected to the Internet with a high-speed connection, e.g. cable modem/DSL/T1. While times will vary depending upon the size of your application, it can take a few minutes to a few hours to complete your grant submission using a dial up connection. If you do not have access to a high-speed connection and electronic submission is required, you may want to consider following the instructions in the Federal Register notice to obtain an exception to the electronic submission requirement no later than two weeks before the application deadline date. (See the Federal Register notice for detailed instructions.)

Attaching Files – Additional Tips

Please note the following tips related to attaching files to your application:

1. Ensure that you only attach the Education approved file types detailed in the Federal Register application notice (.doc, .pdf or .rtf). If using Word 2007, save your file to a lower version of Word before uploading. Also, do not upload any password protected files to your application.
2. When attaching files, applicants should limit the size of their file names. Lengthy file names could result in difficulties with opening and processing your application. We recommend you keep your file names to less than 50 characters. In addition, applicants should avoid including special characters in their file names (for example, %, *, /, etc.) Both of these conditions (lengthy file names and/or special characters including in the file names) could result in difficulties opening and processing a submitted application.

Applicants should limit the size of their file attachments. Documents submitted that contain graphics and/or scanned material often greatly increase the size of the file attachments and can result in difficulties opening the files. Please note that each file attachment in e-Application has a file size limitation which is anywhere from 2 to 8 MB and the limitation will be indicated on the individual screen when you upload a file. For reference, however, the average discretionary grant application package totals 1 to 2 MB. Therefore, you may want to check the size of your attachments before uploading them into e-Application.

PRIORITY DESCRIPTION AND SELECTION CRITERIA

GENERAL SUPERVISION ENHANCEMENT GRANTS: ALTERNATE ACADEMIC ACHIEVEMENT STANDARDS (CFDA 84.373X)

DEADLINE: 07/23/2010

ABSOLUTE PRIORITY:

Background

On April 9, 2010, the Department issued a notice inviting applications for new awards under the Race to the Top (RTT) Assessment Program (75 FR 18171),² indicating its intention to support States in developing new alternate assessments based on alternate academic achievement standards. This notice announces a separate competition for GSEG grants through which States may receive funding for the development of new alternate assessments for students with the most significant cognitive disabilities. Through the invitational priority announced in this notice, we are encouraging States to develop alternate assessments that fit coherently with the assessment systems to be developed under the RTT Assessment Program.

Under section 1111(b)(1) of Title I of the Elementary and Secondary Education Act of 1965, as amended (ESEA), a State is required to adopt challenging student academic achievement standards and to apply the same standards “to all schools and children in the State.” In developing the Title I ESEA regulations implementing this provision, the Department acknowledged that, although all children can learn challenging content, evaluating that learning through the use of alternate academic achievement standards is appropriate for a small, limited percentage of students who are within one or more of the existing categories of disability under IDEA (e.g., autism, multiple disabilities, traumatic brain injury, mental retardation), and whose cognitive impairments may prevent them from attaining grade-level achievement standards, even with the very best instruction. Accordingly, the Department adopted regulations, in 34 CFR 200.1(d), permitting States to measure the achievement of a limited percentage of students – those with the most significant cognitive disabilities – against challenging, but alternate, academic achievement standards.

The Title I, Part A regulations in 34 CFR 200.6(a)(2)(ii)(B) also permit a State to develop alternate assessments based on alternate academic achievement standards. Alternate assessments that are used by States and local educational agencies (LEAs) under the ESEA must be designed to generate valid data that can be used for purposes of school, district, and State accountability. They must meet the requirements in 34 CFR 200.2 (State Responsibilities for Assessment) and 34 CFR 200.3 (Designing State Academic Assessment Systems) and fit coherently in the State’s overall assessment system under 34 CFR 200.2. Under the provisions of 34 CFR 200.2(b), an alternate assessment must, among other things, be: (1) aligned with a State’s alternate academic achievement standards and provide coherent information about student attainment of those standards; (2) valid and reliable for the purposes for which the assessment is used; (3) consistent with relevant, nationally-recognized professional and technical standards; and (4) supported by evidence from test publishers or other relevant

² The following Web site provides more information on the RTT Assessment Program:
<http://www2.ed.gov/programs/racetothetop-assessment/index.html>

sources that the assessment is of adequate technical quality for each purpose required under the ESEA.

States that adopt alternate academic achievement standards are required under IDEA, as reflected in 34 CFR 300.160(c), to develop and implement alternate assessments that are aligned with the State's challenging academic content standards and that measure the achievement of children with the most significant cognitive disabilities. States must include alternate assessment data in their State Performance Plan and Annual Performance Reports relative to performance and participation of children with disabilities on State assessments under IDEA.

Priority:

The Assistant Secretary for Special Education and Rehabilitative Services establishes a priority for grants to support States with one or more of the following activities: (1) development of alternate academic achievement standards aligned with the State's academic content standards; (2) development of high-quality alternate assessments using universal design principles, to the extent possible, that measure the achievement of students with the most significant cognitive disabilities based on those standards; (3) reporting on the participation and performance of students with disabilities on alternate assessments based on alternate academic achievement standards; and (4) development of clear and appropriate guidelines for IEP Teams to use in determining which students should be assessed based on alternate academic achievement standards, and the development and implementation of training on those guidelines for IEP Teams.

Applicants must include information in their applications on how they will work with experts in large-scale assessment and special education to ensure that they are designing alternate academic achievement standards, and assessments based on those standards, that: (1) address the needs of students with the most significant cognitive disabilities; (2) validly, reliably, and accurately measure student performance; and (3) result in high-quality data for use in evaluating the performance of schools, districts, and States. The experts selected should represent the range of skills needed to develop assessments based on alternate academic achievement standards for students with the most significant cognitive disabilities that will meet the peer review guidelines for assessments published by the Department that are available at: <http://www2.ed.gov/policy/elsec/guid/saaprguidance.pdf>. Skill sets for experts must include experience with one or more of the following: (1) large scale assessment; (2) standards-setting techniques; (3) assessment and measurement of children with disabilities; (4) accommodations and supports to assess grade-level content; (5) working with States to develop assessments; (6) development of criterion-referenced tests and instruments; (7) psychometric evaluation; (8) conducting studies of the technical adequacy of assessment instruments; (9) research and publishing in the area of assessment and psychometrics; and (10) applying the principles of universal design to large-scale assessments.

Projects funded under this priority also must—

- (a) Budget to attend a three-day Project Directors' meeting in Washington, DC;
- (b) If the project maintains a Web site, include relevant information and documents in a format that meets a government or industry-recognized standard for accessibility; and

(c) Provide a written assurance that the State's Assessment Office (i.e., the office that addresses accountability under Title I of the ESEA) was given the opportunity to contribute to the formulation of the application.

Under this competition we are particularly interested in applications that address the following priority.

Invitational Priority: For FY 2010 and any subsequent year in which we make awards from the list of unfunded applicants from this competition, this priority is an invitational priority. Under 34 CFR 75.105(c)(1) we do not give an application that meets this invitational priority a competitive or absolute preference over other applications.

Background:

The RTT Assessment Program supports the development of new assessment systems that are to be used by multiple States; are valid, reliable, and fair; and measure student knowledge and skills against a common set of college- and career-ready standards in English/language arts (ELA) and mathematics in grades 3 to 8 and at least once in high school. The RTT Assessment Program requires that the Comprehensive Assessment Systems developed under the program include all students who have been identified as students with disabilities under IDEA who are not eligible to participate in alternate assessments based on alternate academic achievement standards.

The assessment systems developed under the RTT Assessment Program must also produce student achievement data and student growth data that can be used to determine whether individual students are college- and career-ready.

Information gathered from the RTT assessments should be useable in informing--

- (i) Determinations of school effectiveness for purposes of accountability under Title I of the ESEA;
- (ii) Determinations of individual principal and teacher effectiveness for purposes of evaluation;
- (iii) Determinations of principal and teacher professional development and support needs; and
- (iv) Teaching, learning, and program improvement.

States are obligated, under Title I of the ESEA, IDEA, and section 504 of the Rehabilitation Act of 1973, as amended, to ensure that all children with disabilities are included in State assessment systems. States or consortia of States may apply under the absolute priority in this notice for a grant to develop alternate academic achievement standards and alternate assessments for students with the most significant cognitive disabilities. Given that the RTT Assessment program does not support the development of alternate assessments based on alternate academic achievement standards, we encourage States under this competition to develop assessments that fit coherently with the Comprehensive Assessment Systems to be developed by State consortia under the RTT Assessment Program.

This invitational priority is:

The Secretary is particularly interested in projects from consortia of States to develop alternate assessment systems for students with the most significant cognitive disabilities that fit coherently with the assessment systems to be developed under the RTT Assessment Program. These alternate assessment systems must measure student knowledge and skills against a common set of college- and career-ready standards in ELA and mathematics held in common by States in the consortia and the related alternate assessments, for grades 3 through 8, and at least one grade in high school. The Secretary is also interested in projects that propose the development of alternate assessment systems that use approaches to technology, assessment administration, scoring, reporting, and other factors that facilitate the coherent inclusion of these assessments within States' Comprehensive Assessment Systems.

PROGRAM AUTHORITY: 20 U.S.C. 1411(C) AND 1416(I)(2).

PERFORMANCE MEASURES:

Under the Government Performance and Results Act of 1993 (GPRA), the Department has developed a performance measure that will be used to evaluate the overall effectiveness of projects funded under this competition. This measure is: The percentage of General Supervision Enhancement Grantee products and services that are of high-quality, relevance, and usefulness, as determined by Annual Performance Report submissions and reviews of grantee work products. To ensure that the Department has the data needed for this measure, grantees will be expected to participate in mid-term assessments of progress towards stated goals and objectives, and will also be required to report information on their projects' performance in annual reports to the Department (34 CFR 75.590). The Department will also determine at the end of the grantee's project period whether the grantee has been successful in achieving the purposes of its award.

The page limit does not apply to Part I, the cover sheet; Part II, the budget section, including the narrative budget justification; Part IV, the assurances and certifications; or the one-page abstract, the resumes, the bibliography, references, or the letters of support. However, the page limit does apply to the application narrative in Part III.

We will reject any application if you exceed the page limit; or if you apply other standards and exceed the equivalent of the page limit.

Note: States, OAs, and FAS are encouraged to form consortia with any other group of eligible parties that meet the requirements in 34 CFR 75.127 through 75.129 to apply under the priority in this notice. A consortium is any combination of eligible entities. The Secretary views the formation of consortia as an effective and efficient strategy to address the requirements of the priority in this notice.

INTERGOVERNMENTAL REVIEW:

The program in this notice is subject to the requirements of Executive Order 12372 and the regulations in 34 CFR part 79. One of the objectives of the Executive Order is to foster an intergovernmental partnership and a strengthened federalism. The Executive order relies on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

SELECTION CRITERIA AND FORMAT FOR THE GENERAL SUPERVISION ENHANCEMENT GRANTS: ALTERNATE ACADEMIC ACHIEVEMENT STANDARDS (CFDA 84.373X) COMPETITION

Part III of the application form requires a narrative that addresses the selection criteria that will be used by reviewers in evaluating individual proposals. Applications are more likely to receive favorable reviews by panels when they are organized according to the format suggested below. This format was published in the FEDERAL REGISTER as an appendix to the program regulations, and it addresses all the selection criteria used to evaluate applications required by regulations. If you prefer to use a different format, you may wish to cross-reference the sections of your application to the selection criteria to be sure that reviewers are able to find all relevant information.

The selection criteria that will be used to evaluate applications submitted to the **General Supervision Enhancement Grants: Alternate Academic Achievement Standards** (CFDA 84.373X) competition are the selection criteria for new grants required by the EDGAR general selection criteria menu. The maximum score for all of the criteria is 100 points.

GENERAL INFORMATION ON COMPLETING AN APPLICATION

GENERAL INFORMATION ON COMPLETING AN APPLICATION

FORMAT FOR APPLICATIONS

The application narrative (Part III of the application form) should be organized to follow the exact sequence of the components in the selection criteria used to evaluate applications. (The selection criteria for the competitions covered by this packet are listed following the specific competition information in section "B" of this packet.) A table of contents, list of priority requirements, and a two-page abstract summarizing the objectives, activities, project participants, and expected outcomes of the proposed project should precede the application narrative. If you prefer to use a different format, you may wish to cross-reference the sections of your application to the selection criteria to be sure that reviewers are able to find all relevant information.

To aid in screening and reviewing the application, applicants should list in Part II and prior to the abstract, all general, special, and other requirements for the priority and corresponding page number (s) where requirements are addressed within the application. Page limits do not apply to this list. (All requirements are found in each priority description included in this application package.) The format included below is an example of how you might provide this information in your application.

Page #	Requirements
_____	(a) Projects funded under this notice must make positive efforts to employ and advance in employment qualified individuals with disabilities in project activities. (See Section 606 of IDEA)
_____	(b) Applicants and grant recipients funded under this notice must involve individuals with disabilities or parents of individuals with disabilities ages birth through 26 in planning, implementing, and evaluating the projects. (See Section 682(a)(1)(A) of IDEA)
_____	(c) Applicant must describe steps to ensure equitable access to, and participation in, its program for students, teachers, and other program beneficiaries with special needs. (See Section 427, GEPA)
_____	(d) Projects funded under these priorities must budget for a three-day Project's Directors' meeting in Washington, D.C. during each year of the project.

PROGRAM ABSTRACT

The program abstract should not exceed one page in length. It would be helpful if it included; the title of the program, the name of the Absolute Priority, and the CFDA Number (e.g., 84.373X, etc.).

NARRATIVE

Applications should be concise and clearly written. The application narrative (Part III of the application) is where you, the applicant, address the selection criteria that reviewers use to evaluate your application. You must limit Part III to the equivalent of no more than 40 pages. The narrative must be single-sided, double-spaced pages printed in 12 point font or larger. The page limitation does not include the title page, Application for Federal Assistance (SF 424), two-page abstract, the budget summary form (ED 524) and the narrative budget justification, any curriculum vitae, the bibliography of literature cited, or the GEPA statement, assurances, and certifications.

Before preparing the narrative, applicants should review the closing date notice, program statute, and any notice of final priorities for specific guidance or requirements. Note that applications will be evaluated according to the selection criteria specified in the closing date notice or in this package.

A strong evaluation plan should be included in the application narrative and should be used, as appropriate, to shape the development of the project from the beginning of the grant period. The plan should include benchmarks to monitor progress toward specific project objectives and also outcome measures to assess the impact on teaching and learning or other important outcomes for project participants. More specifically, the plan should identify the individual and/or organization that have agreed to serve as evaluator for the project and describe the qualifications of that evaluator. The plan should describe the evaluation design, indicating: (1) what types of data will be collected; (2) when various types of data will be collected; (3) what methods will be used; (4) what instruments will be developed and when; (5) how the data will be analyzed; (6) when reports of results and outcomes will be available; and (7) how the applicant will use the information collected through the evaluation to monitor progress of the funded project and to provide accountability information both about success at the initial site and effective strategies for replication in other settings. Applicants are encouraged to devote an appropriate level of resources to project evaluation.

Successful applicants will be expected to report annually on the progress of each project or study included in the grant, including a description of preliminary or key findings and an explanation of any changes in goals, objectives, methodology, or planned products or publications.

APPENDIX

INTERGOVERNMENTAL REVIEW OF FEDERAL PROGRAMS

This appendix applies to each program that is subject to the requirements of Executive Order 12372 (Intergovernmental Review of Federal Programs) and the regulations in 34 CFR part 79.

The objective of the executive order is to foster an intergovernmental partnership and to strengthen federalism by relying on state and local processes for state and local government coordination and review of proposed federal financial assistance.

Applicants must contact the appropriate State Single Point of Contact to find out about, and to comply with, the state's process under Executive Order 12372. Applicants proposing to perform activities in more than one state should immediately contact the Single Point of Contact for each of those states and follow the procedure established in each of those states under the Executive order. A listing containing the Single Point of Contact for each state is included in this appendix.

In states that have not established a process or chosen a program for review, state, areawide, regional, and local entities may submit comments directly to the Department.

Any State Process Recommendation and other comments submitted by a State Single Point of Contact and any comments from state, areawide, regional and local entities must be mailed or hand-delivered by the date indicated in the actual application notice to the following address:

The Secretary
EO 12372—CFDA 84.373X [commenter must insert number—including suffix letter, if any]
U.S. Department of Education, Room 7W301
400 Maryland Avenue, SW
Washington, DC 20202

Proof of mailing will be determined on the same basis as applications (see 34 CFR 75.102). Recommendations or comments may be hand-delivered until 4:30 p.m. (Washington, D.C. time) on the date indicated in the actual application notice.

PLEASE NOTE THAT THE ABOVE ADDRESS IS NOT THE SAME ADDRESS AS THE ONE TO WHICH THE APPLICANT SUBMITS ITS COMPLETED APPLICATION. DO NOT SEND APPLICATIONS TO THE ABOVE ADDRESS.

STATE SINGLE POINTS OF CONTACT (SPOCs)

It is estimated that in 2008 the federal government will outlay \$449 billion in grants to state and local governments. Executive Order 12372, "Intergovernmental Review of Federal Programs," was issued with the desire to foster the intergovernmental partnership and strengthen federalism by relying on state and local processes for the coordination and review of proposed federal financial assistance and direct federal development. The order allows each state to designate an entity to perform this function. Below is the official list of those entities. For those states that have a home page for their designated entity, a direct link has been provided below by clicking on the state name.

States that are not listed on this page have chosen not to participate in the intergovernmental review process, and therefore do not have a SPOC. If you are located within a state that does not have a SPOC, you may send application materials directly to a federal awarding agency

Contact information for federal agencies that award grants can be found in Appendix IV of the Catalog of Federal Domestic Assistance.

**NOTICE TO ALL APPLICANTS
ENSURING EQUITABLE ACCESS AND
APPLICATION FORMS AND INSTRUCTIONS**

NOTICE TO ALL APPLICANTS

The purpose of this enclosure is to inform you about a new provision in the Department of Education's General Education Provisions Act (GEPA) that applies to applicants for new grant awards under Department programs. This provision is Section 427 of GEPA, enacted as part of the *Improving America's Schools Act of 1994* (Public Law (P.L.) 103-382).

To Whom Does This Provision Apply?

Section 427 of GEPA affects applicants for new grant awards under this program. **All applicants for new awards must include information in their applications to address this new provision in order to receive funding under this program.**

(If this program is a state-formula grant program, a state needs to provide this description only for projects or activities that it carries out with funds reserved for state-level uses. In addition, local school districts or other eligible applicants that apply to the state for funding need to provide this description in their applications to the state for funding. The state would be responsible for ensuring that the school district or other local entity has submitted a sufficient section 427 statement as described below.)

What Does This Provision Require?

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its federally-assisted program for students, teachers, and other program beneficiaries with special needs. This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, you should determine whether these or other barriers may prevent your students, teachers, etc. from such access or participation in, the federally-funded project or activity.

The description in your application of steps to be taken to overcome these barriers need not be lengthy; you may provide a clear and succinct description of how you plan to address those

barriers that are applicable to your circumstances. In addition, the information may be provided in a single narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve to high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it to eliminate barriers it identifies.

What are Examples of How an Applicant Might Satisfy the Requirement of This Provision?

The following examples may help illustrate how an applicant may comply with Section 427.

- (1) An applicant that proposes to carry out an adult literacy project serving, among others, adults with limited English proficiency, might describe in its application how it intends to distribute a brochure about the proposed project to such potential participants in their native language.
- (2) An applicant that proposes to develop instructional materials for classroom use might describe how it will make the materials available on audio tape or in Braille for students who are blind.
- (3) An applicant that proposes to carry out a model science program for secondary students and is concerned that girls may be less likely than boys to enroll in the course, might indicate how it intends to conduct "outreach" efforts to girls, to encourage their enrollment.

We recognize that many applicants may already be implementing effective steps to ensure equity of access and participation in their grant programs, and we appreciate your cooperation in responding to the requirements of this provision.

Check “Yes” if you meet the requirements for novice applicants specified in the regulations in 34 CFR 75.225 and included on the attached page entitled “Definitions for Department of Education Supplemental Information for SF 424.” By checking “Yes” the applicant certifies that it meets these novice applicant requirements. Check “No” if you do not meet the requirements for novice applicants.

3. **Human Subjects Research.** (See I. A. “Definitions” in attached page entitled “Definitions for Department of Education Supplemental Information for SF 424.”)

If Not Human Subjects Research. Check “No” if research activities involving human subjects are not planned at any time during the proposed project period. The remaining parts of Item 3 are then not applicable.

If Human Subjects Research. Check “Yes” if research activities involving human subjects are planned at any time during the proposed project period, either at the applicant organization or at any other performance site or collaborating institution. B. “Exemptions” in attached page entitled “Definitions for Department of Education Supplemental Information For SF 424.”)

3a. **If Human Subjects Research is Exempt from the Human Subjects Regulations.** Check “Yes” if all the research activities proposed are designated to

be exempt from the regulations. Insert the exemption number(s) corresponding to one or more of the six exemption categories listed in I. B. “Exemptions.” In addition, follow the instructions in II. A. “Exempt Research Narrative” in the attached page entitled “Definitions for Department of Education Supplemental Information Form SF 424.”

3a. **If Human Subjects Research is Not Exempt from Human Subjects Regulations.** Check “No” if some or all of the planned research activities are covered (not exempt). In addition, follow the instructions in II. B. “Nonexempt Research Narrative” in the page entitled “Definitions for Department of Education Supplemental Information Form SF 424

DEFINITIONS FOR DEPARTMENT OF EDUCATION SUPPLEMENTAL INFORMATION FOR SF 424

(Attachment to Instructions for Supplemental Information for SF 424)

DEFINITIONS

Novice Applicant (See 34 CFR 75.225).

For discretionary grant programs under which the Secretary gives special consideration to novice applications, a novice applicant means any applicant for a grant from ED that—

- Has never received a grant or subgrant under the program from which it seeks funding;
- Has never been a member of a group application, submitted in accordance with 34 CFR 75.127-75.129, that received a grant under the program from which it seeks funding; and
- Has not had an active discretionary grant from the Federal government in the five years before the deadline date for applications under the program. For the purposes of this requirement, a grant is active until the end of the grant's project or funding period, including any extensions of those periods that extend the grantee's authority to obligate funds.

In the case of a group application submitted in accordance with 34 CFR 75.127-75.129, a group includes only parties that meet the requirements listed above.

PROTECTION OF HUMAN SUBJECTS IN RESEARCH

I. Definitions and Exemptions

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department's regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Research

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as “a

systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge.” *If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge it is research.* Activities which meet this definition constitute research whether or not they are conducted or supported under a program that is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Human Subject

The regulations define human subject as “a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information.” (1) *If an activity involves obtaining information about a living person by manipulating that person or that person's environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met.* (2) *If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met.* [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the **only** involvement of human subjects will be in one or more of the following six categories of **exemptions** are not covered by the regulations:

- (1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.
- (2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects' responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects' financial standing, employability, or reputation. ***If the subjects are children, exemption 2 applies only to research involving educational tests and observations of public behavior when the investigator(s) do not participate in the activities being observed. Exemption 2 does not apply if children are surveyed or interviewed or if the research involves observation of public behavior and the investigator(s) participate in the activities being observed.*** [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]
- (3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

- (4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.
- (5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.
- (6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

II. Instructions for Exempt and Nonexempt Human Subjects Research Narratives

If the applicant marked "Yes" for Item 3 of Department of Education Supplemental Information for SF 424, the applicant must provide a human subjects "exempt research" or "nonexempt research" narrative. Insert the narrative(s) in the space provided. If you have multiple projects and need to provide more than one narrative, be sure to label each set of responses as to the project they address.

A. Exempt Research Narrative.

If you marked "Yes" for item 3 a. and designated exemption numbers(s), provide the "exempt research" narrative. The narrative must contain sufficient information about the involvement of human subjects in the proposed research to allow a determination by

ED that the designated exemption(s) are appropriate. The narrative must be succinct.

B. Nonexempt Research Narrative.

If you marked "No" for item 3 a. you must provide the "nonexempt research" narrative. The narrative must address the following seven points. Although no specific page limitation applies to this section of the application, be succinct.

- (1) **Human Subjects Involvement and Characteristics:** Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable
- (2) **Sources of Materials:** Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.
- (3) **Recruitment and Informed Consent:** Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the circumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.
- (4) **Potential Risks:** Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and

seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

- (5) **Protection Against Risk:** Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.
- (6) **Importance of the Knowledge to be Gained:** Discuss the importance of the knowledge gained or to be gained as a result of the proposed research. Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.
- (7) **Collaborating Site(s):** If research involving human subjects will take place at collaborating site(s) or other performance site(s), name the sites and briefly describe their involvement or role in the research.

SECTION C: BUDGET NARRATIVE

[Attach separate sheet(s)] Pay attention to applicable program specific instructions, if attached.

1. Provide an itemized budget breakdown, and justification by project year, for each budget category listed in Sections A and B. For grant projects that will be divided into two or more separately budgeted major activities or sub-projects, show for each budget category of a project year the breakdown of the specific expenses attributable to each sub-project or activity.
2. If applicable to this program, provide the rate and base on which fringe benefits are calculated.
3. If you are requesting reimbursement for indirect costs on line 10, this information is to be completed by your Business Office. Specify the estimated amount of the base to which the indirect cost rate is applied and the total indirect expense. Depending on the grant program to which you are applying and/or your approved Indirect Cost Rate Agreement, some direct cost budget categories in your grant application budget may not be included in the base and multiplied by your indirect cost rate. For example, you must multiply the indirect cost rates of "Training grants" (34 CFR 75.562) and grants under programs with "Supplement not Supplant" requirements ("Restricted Rate" programs) by a "modified total direct cost" (MTDC) base (34 CFR 75.563 or 76.563). Please indicate which costs are included and which costs are excluded from the base to which the indirect cost rate is applied.

When calculating indirect costs (line 10) for "Training grants" or grants under "Restricted Rate" programs, you must refer to the information and examples on ED's Web site at:

www.ed.gov/fund/grant/apply/appforms/appforms.html

You may also contact 202-377-3838 for additional information regarding calculating indirect cost rates or general indirect cost rate information.

4. Provide other explanations or comments you deem necessary.

PROGRAM PERFORMANCE MEASURES UNDER THE *GOVERNMENT PERFORMANCE AND RESULTS ACT (GPRA)*

WHAT IS *GPRA*

The *Government Performance and Results Act* of 1993 is a straightforward statute that requires all Federal agencies to manage their activities with attention to the consequences of those activities. Each agency is to clearly state what it intends to accomplish, identify the resources required, and periodically report its progress to the Congress. In doing so, it is expected that *GPRA* will contribute to improvements in accountability for the expenditures of public funds, improve Congressional decision-making through more objective information on the effectiveness of Federal programs, and promote a new government focus on results, service delivery, and customer satisfaction.

HOW HAS THE UNITED STATES DEPARTMENT OF EDUCATION RESPONDED TO THE *GPRA* REQUIREMENTS?

As required by *GPRA*, the United States Department of Education (the Department) has prepared a strategic plan for 2002-2007. This plan reflects the Department's priorities and integrates them with its mission and program authorities and describes how the Department will work to improve education for all children and adults in the United States. The Department's goals, as listed in the plan, are:

- Goal 1:** Create a Culture of Achievement: Create a culture of achievement throughout the nation's education system by effectively implementing the new law, the No Child Left Behind Act of 2001, and by basing all federal education programs on its principles: accountability, flexibility, expanded parental options and doing what works.
- Goal 2:** Improve Student Achievement: Improve student achievement for all groups of students by putting reading first, expanding high-quality mathematics and science teaching, reforming high schools, and boosting teacher and principal quality, thereby closing the achievement gap.
- Goal 3:** Develop Safe Schools and Strong Character: Establish disciplined and drug-free education environments that foster the development of good character and citizenship.
- Goal 4:** Transform Education into an Evidence-based Field: Strengthen the quality of education research.
- Goal 5:** Enhance the Quality of and Access to Postsecondary and Adult Education: Increase opportunities for students and the effectiveness of institutions.
- Goal 6:** Establish Management Excellence: Create a culture of accountability throughout the Department of Education.

DUNS NUMBER INSTRUCTIONS

D-U-N-S No.

Please provide the applicant's D-U-N-S Number. You can obtain your D-U-N-S Number at no charge by calling 1-800-333-0505 or by completing a D-U-N-S Number Request Form. The form can be obtained via the Internet at the following URL:

www.dnb.com

The D-U-N-S Number is a unique nine-digit number that does not convey any information about the recipient. A built in check digit helps assure the accuracy of the D-U-N-S Number. The ninth digit of each number is the check digit, which is mathematically related to the other digits. It lets computer systems determine if a D-U-N-S Number has been entered correctly.

Dun & Bradstreet, a global information services provider, has assigned D-U-N-S numbers to over 43 million companies worldwide.
