APPLICANT LETTER
Dear Applicant:

This application packet contains information and the required forms for you to use in submitting a new application for funding under one program authorized by the Individuals with Disabilities Education Act (IDEA). This packet covers one competition under the Technology and Media Services for Individuals with Disabilities (CFDA 84.327) Program.

An application for an award must be: (1) hand-delivered, submitted electronically or mailed by the closing date; and, (2) for paper applications, have an original signature on at least one copy of the assurances and certifications (Part IV of the application form). It is also important to include the appropriate Catalog of Federal Domestic Assistance (CFDA) numeric and alpha in Item #4 on ED Form 424 (e.g., CFDA No. 84.327J) for paper applications.

Please note the following:

• **APPLICATION SUBMISSION.** Based on the precautionary procedures the U.S. Postal Service is using to process mail, we are experiencing delays in the delivery of mail to the Department. Therefore, you may want to consider sending your application by overnight courier or submitting your application electronically.

• **E-APPLICATION SUBMISSION.** Applications for grants under this competition may be submitted electronically using the Department of Education’s e-Application system. Please read carefully the document that we have included entitled, E-Application Submission Procedures and Tips for Applicants, about submitting electronically using the E-Application site. Please note that you must follow the Application Procedures as described in the Federal Register notice announcing this grant competition. Information (including dates and times) about how to submit your application electronically, or by mail or hand delivery, can also be found in section D-1 Application Transmittal Instructions and Requirements for Intergovernmental Review of this application package.

• **MAXIMUM AWARD AMOUNT.** In addition to providing detailed budget information for the total grant period requested, the competition included in this package has a maximum award amount. Please refer to the specific information for the priority/competition to which you are submitting an application (i.e., Section B of this package). Please be advised that for the priority in this package, the maximum award amount covers all project costs including indirect costs.

• **STRICT PAGE LIMITS.** The competition included in this package limits the Part III Application Narrative to a specified number of double-spaced pages. This page limitation applies to all material presented in the application narrative -- including, for example, any charts, tables, figures, and graphs. (Please refer to the specific requirements on page limits for the priority/competition to which you are submitting an application - i.e., Section B of this package). The Department will reject, and will NOT consider an application that does not adhere to the page limit requirements for the competition.

• **FORMAT FOR APPLICATIONS.** Please note that additional information regarding formatting applications has been included on Pages C-3 and C-4 of the “General Information on Completing an Application” section of this package.

• **PROTECTION OF HUMAN SUBJECTS IN RESEARCH.** The discretionary grant Application Form SF 424 requires applicants to indicate whether they plan to conduct research involving human subjects at any time during the proposed project period. The Protection of Human Subjects in Research Attachment is an integral part of the SF 424 form. It includes information that applicants need to complete the protection of human subjects item and, as
appropriate, to provide additional information to the Department regarding human subjects research projects. Additional information on completing the protection of human subjects item is also available and can be accessed on the INTERNET at:

www.ed.gov/about/offices/list/ocfo/gcsindex.html
http://www.ed.gov/about/offices/list/ocfo/humansub.html

• RESPONSE TO GPRA. As required by the Government Performance and Results Act (GPRA) of 1993 OSEP has developed a strategic plan for measuring GPRA performance. The program included in this announcement is authorized under Part D - National Activities to Improve Education of Children with Disabilities of the Individuals with Disabilities Education Act. The Office of Special Education Programs (OSEP) will collect information to assess progress and performance. See Performance Measures included in the Priority Description section of this application package. Applicants are encouraged to consider this information, as applications are prepared.

• COPIES OF THE APPLICATION. Current Government-wide policy requires that an original and two copies need to be submitted. OSEP would appreciate receiving three additional copies to facilitate the peer review process. This would mean an original and two copies need to be submitted and we would appreciate your voluntarily submitting an additional three copies (six applications in all). If you are submitting your application electronically, you do not need to submit paper copies of the application. Please note: If an application is recommended for funding and a grant award is issued, we will contact the applicant to request an electronic copy of the application in MS Word or a PDF file. The Department is moving toward an electronic grant filing system and an electronic copy of all applications that are being funded will facilitate this effort.

A program officer is available to provide information to you regarding this competition. Please refer to the name of the program contact at the end of the priority description. OSEP also provides information on developing performance measures and logic models at www.tadnet.org/model_and_performance to assist you in preparing a quality application. Technology and Media Services for Individuals With Disabilities--Video Description Research and Development Center
Notice inviting applications for new awards for fiscal year (FY) 2011.
Catalog of Federal Domestic Assistance (CFDA) Number: 84.327J.

FULL TEXT OF ANNOUNCEMENT

I. FUNDING OPPORTUNITY DESCRIPTION
Purpose of Program: The purposes of the Technology and Media Services for Individuals with Disabilities program are to: (1) improve results for children with disabilities by promoting the development, demonstration, and use of technology; (2) support educational media services activities designed to be of educational value in the classroom setting to children with disabilities, and (3) provide support for captioning and video description of educational materials that are appropriate for use in the classroom setting. In the context of this notice, educational materials for use in the classroom setting include television programs, videos, and other materials, including programs and materials associated with new and emerging technologies, such as CDs, DVDs, and other forms of multimedia.
Priority: In accordance with 34 CFR 75.105(b)(2)(v), this priority is from allowable activities specified in the statute or otherwise authorized in the statute (see sections 674(c) and 681(d) of the Individuals with Disabilities Education Act (IDEA), 20 U.S.C. 1474 and 1481(d)).
Absolute Priority: For FY 2011 and any subsequent year in which we make awards from the list of unfunded applicants from this competition, this priority is an absolute priority. Under 34 CFR 75.105(c)(3) we consider only applications that meet this priority.

This priority is:

Technology and Media Services for Individuals with Disabilities--Video Description Research and Development Center.

Background:

To ensure that children who are blind or visually impaired have access to all educational program content, the Office of Special Education Programs (OSEP) provides competitive grant funds to support the video description of educational television programs. (See http://publicddb.tadnet.org. Use the keyword search function with the term “video description”.)

However, teachers are increasingly using the Internet and other technological devices (e.g., cell phones, smart phones, digital video cameras) rather than television for instruction. Unfortunately, much of the educational program content provided via the Internet or through other technological devices is not accessible to children who are blind or visually impaired. While progress has been made in accessibility--through video description--for television programming that is appropriate for the classroom setting, there is currently no legal requirement or any OSEP-funded project for providing video description for educational program content delivered via the Internet (e.g., YouTube, YouTube EDU, Second Life, and virtual on-line courses) or through technological devices (e.g., smart phones, cell phones, and digital video cameras). The technology needed to provide description for educational program content delivered via the Internet or through other technological devices is either just beginning to emerge or yet to be developed.

It is essential to develop methods for providing video description that can be used in conjunction with the Internet and other technological devices in order to ensure that all students who are blind or visually impaired have access to educational program content delivered through those methods. In addition, it is important to explore emerging alternatives to video description that could improve the accessibility of educational program content (e.g., creating description by having sighted viewers verbally describe video content).
Priority:

The purpose of this priority is to fund a cooperative agreement to support the establishment and operation of the Video Description Research and Development Center (Center). The purpose of the Center is to advance the research and development of video description, as well as alternative approaches to video description, to improve the accessibility of educational program content delivered via the Internet or through other technological devices (other than television) for students who are blind or visually impaired.

To be considered for funding under this absolute priority, applicants must meet the application requirements contained in this priority. Any project funded under this absolute priority also must meet the programmatic and administrative requirements specified in the priority.

Application Requirements. An applicant must include in its application the following:

(a) A detailed plan for implementing the activities described in the Project Activities and Leadership and Coordination Activities sections of this priority.

(b) A budget for attendance at the following:

(1) A one and one half-day kick-off meeting to be held in Washington, DC, within four weeks after receipt of the award, and an annual planning meeting held in Washington, DC, with the OSEP Project Officer during each subsequent year of the project period.

(2) A three-day Project Directors’ Conference in Washington, DC, during each year of the project period; and

(3) A two-day technology Project Director’s meeting in Washington, DC, during each year of the project period.

Project Activities. To meet the requirements of this priority, the Center, at a minimum, must conduct the following activities:

(a) Complete a systematic review and synthesis of existing research on technology that provides accessibility to educational program content that is delivered via the Internet or through other technological devices for children who are blind or visually impaired.
(b) Develop methods for providing video description that can be used in conjunction with the Internet and other technological devices in order to ensure that students who are blind or visually impaired have access to educational program content delivered through these methods.

(c) Conduct research on emerging alternatives to video description that could improve the accessibility of educational program content (e.g., creating description by having sighted viewers verbally describe video content).

(d) Collaborate with researchers and technology experts to enhance or develop new open source technologies that make educational program content--appropriate for use in the classroom and delivered via the Internet or through other technological devices (e.g., smart phones, cell phones, and digital video cameras)--accessible through video description.

(e) Systematically field-test and evaluate the efficacy of the technologies developed under paragraph (d) of this priority.

(f) Ensure that all technology developed under paragraph (d) will be available as open source materials (i.e., the source codes for the developed technology are freely available to the public).

(g) Develop and implement--upon review and approval from OSEP--a strategy for disseminating research and development findings, in open source format, to key stakeholders including educators, technology developers, vendors, researchers, and federally-funded technical assistance and dissemination projects (e.g., the National Center on Technology and Innovation and the Family Center on Technology and Disability).

Leadership and Coordination Activities.

(a) Establish and maintain an advisory committee to review the activities and outcomes of the project and to provide programmatic support and advice throughout the project period. The committee membership must include technology experts, technical assistance providers, representatives of entities providing video description, educators, individuals with disabilities, parents of children with disabilities, and individuals from communities representing rural, low-income, urban, and English language learner populations. The names of proposed members of the advisory committee must be submitted to OSEP for approval within four weeks after receipt of the award.
(b) Conduct a summative evaluation of the Center in collaboration with the Center to Improve Project Performance (CIPP) as described in the following paragraphs. This summative evaluation must examine the outcomes or impact of the Center’s activities in order to assess the effectiveness of those activities, specifically the degree to which the Center’s activities contribute to changed practice and improved implementation of technologies that provide educational program content delivered via the Internet and through other technological devices accessible to children who are blind or visually impaired.

**Note:** The major tasks of CIPP are to guide, coordinate, and oversee the summative evaluations conducted by selected Technical Assistance, Personnel Development, Parent Training and Information Center, and Technology projects that individually receive $500,000 or more funding from OSEP annually. The efforts of CIPP are expected to enhance individual project evaluations by providing expert and unbiased assistance in designing evaluations, conducting analyses, and interpreting data.

To fulfill the requirements of the summative evaluation to be conducted under the guidance of CIPP, the Center must--

1. Hire or designate, with the approval of the OSEP Project Officer, a project liaison staff person with sufficient dedicated time and knowledge of the Center to work with CIPP on the following tasks--
   
   i. Planning for the Center’s summative evaluation (e.g., selecting evaluation questions, developing a timeline for the evaluation, and locating sources of relevant data);
   
   ii. Developing the summative evaluation design and instrumentation (e.g., determining quantitative or qualitative data collection strategies, selecting respondent samples, and pilot testing instruments);
   
   iii. Coordinating the evaluation timeline with the implementation of the Center’s activities;
   
   iv. Collecting summative data; and
   
   v. Writing reports of summative evaluation findings;

2. Cooperate with CIPP staff in order to accomplish the tasks described in paragraph (1) of this section; and

3. Dedicate $55,000.00 per year of the annual budget request for this project to cover the costs of carrying out the tasks described in paragraphs (1) and (2) of this section and of implementing the Center’s formative evaluation.
(c) Maintain ongoing communication with the OSEP Project Officer through regular teleconferences and e-mail communication.

Waiver of Proposed Rulemaking: Under the Administrative Procedure Act (APA) (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on proposed priorities and requirements. Section 681(d) of IDEA, however, makes the public comment requirements of the APA inapplicable to the priority in this notice.

Program Authority: 20 U.S.C. 1474 and 1481(d).

Applicable Regulations: The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 79, 80, 81, 82, 84, 85, 86, 97, 98, and 99.

Note: The regulations in 34 CFR part 79 apply to all applicants except federally recognized Indian tribes. The regulations in 34 CFR part 86 apply to institutions of higher education (IHEs) only.

However, please make certain that the TIN associated with your DUNS number is correct. Also note that you will need to update your CCR registration on an annual basis. This may take three or more business days to complete.

7. **Other Submission Requirements**: Applications for grants under this competition may be submitted electronically or in paper format by mail or hand delivery.

   a. **Electronic Submission of Applications**.

V. APPLICATION REVIEW INFORMATION
1. Selection Criteria: The selection criteria for this program are from 34 CFR 75.210 and are listed in the application package.

2. Review and Selection Process: In the past, the Department has had difficulty finding peer reviewers for certain competitions, because so many individuals who are eligible to serve as peer reviewers have conflicts of interest. The Standing Panel requirements under IDEA also have placed additional constraints on the availability of reviewers. Therefore, the Department has determined that, for some discretionary grant competitions, applications may be separated into two or more groups and ranked and selected for funding within specific groups. This procedure will make it easier for the Department to find peer reviewers, by ensuring that greater numbers of individuals who are eligible to serve as reviewers for any particular group of applicants will not have conflicts of interest. It also will increase the quality, independence, and fairness of the review process, while permitting panel members to review applications under discretionary grant competitions for which they also have submitted applications. However, if the Department decides to select an equal number of applications in each group for funding, this may result in different cut-off points for fundable applications in each group.

VI. AWARD ADMINISTRATION INFORMATION
1. Award Notices: If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may notify you informally, also.

If your application is not evaluated or not selected for funding, we notify you.
2. **Administrative and National Policy Requirements:** We identify administrative and national policy requirements in the application package and reference these and other requirements in the **Applicable Regulations** section of this notice.

We reference the regulations outlining the terms and conditions of an award in the **Applicable Regulations** section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. **Reporting:** At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

4. **Performance Measures:** Under the Government Performance and Results Act of 1993 (GPRA), the Department has established a set of performance measures, including long-term measures, that are designed to yield information on various aspects of the effectiveness and quality of the Technology and Media Services for Individuals with Disabilities program. These measures focus on the extent to which projects are of high quality, are relevant to improving outcomes of children with disabilities, and contribute to improving outcomes for children with disabilities. We will collect data on these measures from the projects funded under this competition.

Grantees will be required to report information on their projects’ performance in their annual performance reports to the Department (34 CFR 75.590).

SUBMISSION PROCEDURES AND TIPS FOR APPLICANTS

IMPORTANT—PLEASE READ FIRST

To facilitate your use of e-Application, this document includes important application preparation and submission procedures you need to be aware of to ensure your application is received in a timely manner and accepted by the Department of Education. Please read and follow these step-by-step directions to create and submit your application.

ATTENTION

Applicants using the Department of Education's e-Application system will need to register first to access an application package. Forms in an application package are completed on line and narratives are uploaded while logged into the system. Therefore, allow sufficient time to complete your application before the closing date. If you have not used e-Application in the past, you may want to walk through the Demo available on the e-Application homepage. If you encounter difficulties, you may also contact the e-Grants helpdesk on 1-888-336-8930. The following are steps you should follow to successfully complete an application with e-Application.

Step 1 – Determine if your program is accepting electronic applications. The Federal Register Notice of each program will indicate whether the program is accepting e-Applications as part of the Department's e-Application program. Here is a link to the Department's Federal Register notices: [http://www.ed.gov/news/fedregister/announce/index.html](http://www.ed.gov/news/fedregister/announce/index.html). Additional information on the Department's of Education's grant programs can be found at [http://www.ed.gov/about/offices/list/ocfo/grants/grants.html](http://www.ed.gov/about/offices/list/ocfo/grants/grants.html).

Step 2 – Register in e-Application to access the application package. If you are a new user, you will need to register to use e-Application. From the e-Grants Portal Page [http://e-grants.ed.gov/](http://e-grants.ed.gov/), click on the continue button and click the register button on the right side of the next page. Select the e-Application module and click the next button. Please provide the requested information. Your e-Grants password will be sent to the e-mail address you provide. Once you receive the e-mail, enter your username and password and click the login button.

If you already have a username and password for e-Grants, use them to login. If you have access to more than one e-Grants module, you will be directed to select which module you wish to enter. Keep in mind that this username and password will be used for all e-Grants modules. In order to update your registration for additional e-Grants modules, click the appropriate tab on the top of the screen and provide the requested information.

Note the following browser compatibility problems. The site is viewed best in Internet Explorer 5. We currently support IE 5, Netscape 6.2, Firefox 2.2 (along with later versions of IE, Netscape and Firefox). Please make sure that you have Cookies and JavaScript enabled in your browser.

Step 3 - Add Application Package to your Start Page. From your Start Page, click on the “Add” button to see the list of application packages. Click on a specific package link on the List of Application Packages to apply. The package will now appear on your Start Page. From this point forward, you will access your unique application from your Start Page (not the Packages Page).

Step 4 - Begin the Application. Click on the underlined Application Package Title on your Start Page. This brings you to a page where you will see all of the application's forms and narratives listed as underlined links.
Step 5 - Fill out Forms. Enter a form by clicking on the underlined form title in order to enter data. Remember to click the "Save" button at the bottom of the form and check the "Form Completed" box for each form as you complete it.

Step 6 - Upload File(s) for Narrative Responses. Click on an underlined narrative form title for the e-Application. Enter the title of the document, and click on the "Browse" button to locate your file. Remember to click the "Save" button after you upload the document and check the "Form Completed" box when you finish uploading your file(s). Please note for file uploads, we accept .doc, .rtf, and .pdf files only. If you are using Word 2007, please save your document in a lower version of Word before uploading into e-Application.

Step 7 - Verify Information/Print Application. Verify your information is complete and correct on all required forms and narratives. You have the option to print each form at any time by clicking on the print/view icon next to the appropriate form. After submission of the forms and narratives, you have the option to print a complete e-Application package in PDF by clicking on the "Request Complete Package in PDF" on the e-Application PR/Award page. A second window will open informing you that your request has been received and that you will be notified via email once it is available. This process can take anywhere from a few minutes to a few hours. Once you receive the email, click on the link in the text of the message and enter your username and password in the new window. This will open the PDF file from which you can view/print the entire package. In addition, a blank complete package in PDF will be accessible from the package page in e-Application.

Step 8 - Submit your Application. Only authorized individuals for your organization can submit an application. Please check with your certifying official or sponsored research office before submission. Click on the "Ready to submit" button at the bottom of your application. Enter and verify the Authorizing Representative information. Click the "Submit" button. You will receive an e-mail to confirm that your application was received, and it will include a unique application number. Please print and keep this e-mail for your records. [Reminder: applications must be submitted before 4:30:00 pm, Washington, D.C. time, on the deadline date for applications. e-Application will not accept your application if you try to submit it after 4:30:00 on the deadline date.]

Step 9 - Fax the signed SF 424 Cover Page (or Program Specific Cover Page). Write your unique application number (received in step 8) on the upper right corner of your printed SF 424 Cover Page (or Program Specific Cover Page), and fax it to the Application Control Center (202) 245-6272 within 3 business days of submitting your e-Application.

NOTE: For more detailed information on submitting an e-Application, please see the User Guide. In addition, please try practicing with our e-Application Demo site by clicking on the Demo button found on the upper left corner of the e-Application Home Page. Both the User Guide and Demo can be found at http://e-grants.ed.gov.

OTHER SUBMISSION TIPS
1) Register Early—We strongly recommend that you do not wait until the last day to submit your application. The time it takes to upload the narratives for your application will vary depending on a number of factors including the size of the files and the speed of your Internet connection. If you try to submit your application after 4:30:00 on the deadline date, the e-Application system will not accept it.

2) If electronic submission is optional and you have problems that you are unable to resolve before the deadline date and time for electronic applications, please follow the transmittal instructions for hard copy applications in the Federal Register notice and get a hard copy application postmarked by midnight on the deadline date.
If electronic submission is required, you must submit an electronic application before 4:30:00 p.m., unless you follow the procedures in the Federal Register notice and qualify for one of the exceptions to the electronic submission requirement and submit, no later than two weeks before the application deadline date, a written statement to the Department that you qualify for one of these exceptions. (See the Federal Register notice for detailed instructions.)

3) **Dial-Up Internet Connections** - When using a dial up connection to upload and submit your application, it can take significantly longer than when you are connected to the Internet with a high-speed connection, e.g. cable modem/DSL/T1. While times will vary depending upon the size of your application, it can take a few minutes to a few hours to complete your grant submission using a dial up connection. If you do not have access to a high-speed connection and electronic submission is required, you may want to consider following the instructions in the Federal Register notice to obtain an exception to the electronic submission requirement no later than two weeks before the application deadline date. (See the Federal Register notice for detailed instructions.)

**ATTACHING FILES – ADDITIONAL TIPS**

Please note the following tips related to attaching files to your application:

1. Ensure that you only attach the Education approved file types detailed in the Federal Register application notice (.doc, .pdf or .rtf). If using Word 2007, save your file to a lower version of Word before uploading. Also, do not upload any password protected files to your application.

2. When attaching files, applicants should limit the size of their file names. Lengthy file names could result in difficulties with opening and processing your application. We recommend you keep your file names to less than 50 characters. In addition, applicants should avoid including special characters in their file names (for example, %, *, /, etc.) Both of these conditions (lengthy file names and/or special characters including in the file names) could result in difficulties opening and processing a submitted application.

Applicants should limit the size of their file attachments. Documents submitted that contain graphics and/or scanned material often greatly increase the size of the file attachments and can result in difficulties opening the files. Please note that each file attachment in e-Application has a file size limitation which is anywhere from 2 to 8 MB and the limitation will be indicated on the individual screen when you upload a file. For reference, however, the average discretionary grant application package totals 1 to 2 MB. Therefore, you may want to check the size of your attachments before uploading them into e-Application.
PRIORITY DESCRIPTION AND SELECTION CRITERIA
VIDEO DESCRIPTION RESEARCH AND DEVELOPMENT CENTER
(CFDA 84.327J)

DEADLINE: 10/12/2010

ABSOLUTE PRIORITY:

BACKGROUND

To ensure that children who are blind or visually impaired have access to all educational program content, the Office of Special Education Programs (OSEP) provides competitive grant funds to support the video description of educational television programs. (See http://publicddb.tadnet.org. Use the keyword search function with the term “video description”.)

However, teachers are increasingly using the Internet and other technological devices (e.g., cell phones, smart phones, digital video cameras) rather than television for instruction. Unfortunately, much of the educational program content provided via the Internet or through other technological devices is not accessible to children who are blind or visually impaired. While progress has been made in accessibility—through video description—for television programming that is appropriate for the classroom setting, there is currently no legal requirement or any OSEP-funded project for providing video description for educational program content delivered via the Internet (e.g., YouTube, YouTube EDU, Second Life, and virtual online courses) or through technological devices (e.g., smart phones, cell phones, and digital video cameras). The technology needed to provide description for educational program content delivered via the Internet or through other technological devices is either just beginning to emerge or yet to be developed.

It is essential to develop methods for providing video description that can be used in conjunction with the Internet and other technological devices in order to ensure that all students who are blind or visually impaired have access to educational program content delivered through those methods. In addition, it is important to explore emerging alternatives to video description that could improve the accessibility of educational program content (e.g., creating description by having sighted viewers verbally describe video content).

PRIORITY:

The purpose of this priority is to fund a cooperative agreement to support the establishment and operation of the Video Description Research and Development Center (Center). The purpose of the Center is to advance the research and development of video description, as well as alternative approaches to video description, to improve the accessibility of educational program content delivered via the Internet or through other technological devices (other than television) for students who are blind or visually impaired.

To be considered for funding under this absolute priority, applicants must meet the application requirements contained in this priority. Any project funded under this absolute priority also must meet the programmatic and administrative requirements specified in the priority.
APPLICATION REQUIREMENTS.

An applicant must include in its application the following:

(a) A detailed plan for implementing the activities described in the Project Activities and Leadership and Coordination Activities sections of this priority.

(b) A budget for attendance at the following:

(1) A one and one half-day kick-off meeting to be held in Washington, DC, within four weeks after receipt of the award, and an annual planning meeting held in Washington, DC, with the OSEP Project Officer during each subsequent year of the project period.

(2) A three-day Project Directors’ Conference in Washington, DC, during each year of the project period; and

(3) A two-day technology Project Director's meeting in Washington, DC, during each year of the project period.

PROJECT ACTIVITIES.

To meet the requirements of this priority, the Center, at a minimum, must conduct the following activities:

(a) Complete a systematic review and synthesis of existing research on technology that provides accessibility to educational program content that is delivered via the Internet or through other technological devices for children who are blind or visually impaired.

(b) Develop methods for providing video description that can be used in conjunction with the Internet and other technological devices in order to ensure that students who are blind or visually impaired have access to educational program content delivered through these methods.

(c) Conduct research on emerging alternatives to video description that could improve the accessibility of educational program content (e.g., creating description by having sighted viewers verbally describe video content).

(d) Collaborate with researchers and technology experts to enhance or develop new open source technologies that make educational program content--appropriate for use in the classroom and delivered via the Internet or through other technological devices (e.g., smart phones, cell phones, and digital video cameras)--accessible through video description.

(e) Systematically field-test and evaluate the efficacy of the technologies developed under paragraph (d) of this priority.

(f) Ensure that all technology developed under paragraph (d) will be available as open source materials (i.e., the source codes for the developed technology are freely available to the public).

(g) Develop and implement--upon review and approval from OSEP--a strategy for disseminating research and development findings, in open source format, to key stakeholders including educators, technology developers, vendors, researchers, and federally-funded
technical assistance and dissemination projects (e.g., the National Center on Technology and Innovation and the Family Center on Technology and Disability).

**LEADERSHIP AND COORDINATION ACTIVITIES.**

(a) Establish and maintain an advisory committee to review the activities and outcomes of the project and to provide programmatic support and advice throughout the project period. The committee membership must include technology experts, technical assistance providers, representatives of entities providing video description, educators, individuals with disabilities, parents of children with disabilities, and individuals from communities representing rural, low-income, urban, and English language learner populations. The names of proposed members of the advisory committee must be submitted to OSEP for approval within four weeks after receipt of the award.

(b) Conduct a summative evaluation of the Center in collaboration with the Center to Improve Project Performance (CIPP) as described in the following paragraphs. This summative evaluation must examine the outcomes or impact of the Center's activities in order to assess the effectiveness of those activities, specifically the degree to which the Center's activities contribute to changed practice and improved implementation of technologies that provide educational program content delivered via the Internet and through other technological devices accessible to children who are blind or visually impaired.

**Note:** The major tasks of CIPP are to guide, coordinate, and oversee the summative evaluations conducted by selected Technical Assistance, Personnel Development, Parent Training and Information Center, and Technology projects that individually receive $500,000 or more funding from OSEP annually. The efforts of CIPP are expected to enhance individual project evaluations by providing expert and unbiased assistance in designing evaluations, conducting analyses, and interpreting data.

To fulfill the requirements of the summative evaluation to be conducted under the guidance of CIPP, the Center must—

1. Hire or designate, with the approval of the OSEP Project Officer, a project liaison staff person with sufficient dedicated time and knowledge of the Center to work with CIPP on the following tasks—

   (i) Planning for the Center's summative evaluation (e.g., selecting evaluation questions, developing a timeline for the evaluation, and locating sources of relevant data);

   (ii) Developing the summative evaluation design and instrumentation (e.g., determining quantitative or qualitative data collection strategies, selecting respondent samples, and pilot testing instruments);

   (iii) Coordinating the evaluation timeline with the implementation of the Center's activities;

   (iv) Collecting summative data; and

   (v) Writing reports of summative evaluation findings;

2. Cooperate with CIPP staff in order to accomplish the tasks described in paragraph (1) of this section; and
(3) Dedicate $55,000.00 per year of the annual budget request for this project to cover
the costs of carrying out the tasks described in paragraphs (1) and (2) of this section and of
implementing the Center’s formative evaluation.
(c) Maintain ongoing communication with the OSEP Project Officer through regular
teleconferences and e-mail communication.

PROGRAM AUTHORITY:
20 U.S.C. 1474 and 1481(d).

PERFORMANCE MEASURES:
Under the Government Performance and Results Act of 1993 (GPRA), the Department has
established a set of performance measures, including long-term measures, that are designed to
yield information on various aspects of the effectiveness and quality of the Technology and
Media Services for Individuals with Disabilities program. These measures are as follows:

- Program Performance Measure #1: The percentage of technology and media projects
judged to be of high relevance to improving outcomes of infants, toddlers, children and
youth with disabilities.

- Program Performance Measure #2: The percentage of technology and media projects
judged to be of high quality.

- Program Performance Measure #3: The percentage of technology and media projects that
produce findings, products and/or other services that contribute to improving results for
infants, toddlers, children and youth with disabilities.

- Program Performance Measure #4: The federal cost per unit of technology and media
services program.

- Program Performance Measure #5: The percentage of technology and media projects that
validate their products and services.

- Program Performance Measure #6: The percentage of technology and media projects that
make validated technologies available for widespread use.

Projects funded under this competition will be required to participate in our collection of data on
these measures.

Grantees also will be required to report information on their projects’ performance in annual
reports to the Department (34 CFR 75.590).

APPLICATIONS AVAILABLE: August 12, 2010.

DEADLINE FOR TRANSMITTAL OF APPLICATIONS: October 12, 2010.

**ESTIMATED AVAILABLE FUNDS:** The Administration has requested $41,223,000 for the Technology and Media Services for Individuals with Disabilities program for FY 2011, of which we intend to use an estimated $1,000,000 for the competition announced in this notice. The actual level of funding, if any, depends on final congressional action. However, we are inviting applications to allow enough time to complete the grant process if Congress appropriates funds for this program.

Contingent upon the availability of funds and the quality of applications, we may make additional awards in FY 2012 from the list of unfunded applicants from this competition.

**ESTIMATED NUMBER OF AWARDS:** 1.

**Note:** The Department is not bound by any estimates in this notice.

**MAXIMUM AWARD:** We will reject any application that proposes a budget exceeding $1,000,000 for a single budget period of 12 months. The Assistant Secretary for Special Education and Rehabilitative Services may change the maximum amount through a notice published in the Federal Register.

**PROJECT PERIOD:** Up to 24 months.

**PAGE LIMITS:**

The application narrative (Part III of the application) is where you, the applicant, address the selection criteria that reviewers use to evaluate your application. You must limit the application narrative to the equivalent of no more than 50 pages, using the following standards:

- A "page" is 8.5" x 11" (on one side only) with 1" margins at the top, bottom, and both sides.

- Double-space (no more than three lines per vertical inch) all text in the application narrative, including titles, headings, footnotes, quotations, references, and captions, as well as all text in charts, tables, figures, and graphs.

- Use a font that is either 12 point or larger and no smaller than 10 pitch (characters per inch).

The page limit does not apply to Part I, the cover sheet; Part II, the budget section, including the narrative budget justification; Part IV, the assurances and certifications; or the one-page abstract, the resumes, the bibliography, references, or the letters of support. However, the page limit does apply to the application narrative in Part III.

We will reject any application if you exceed the page limit; or if you apply other standards and exceed the equivalent of the page limit.

**GENERAL REQUIREMENTS:**

(a) The projects funded under this competition must make positive efforts to employ and advance in employment qualified individuals with disabilities (see section 606 of IDEA).
(b) Applicants and grant recipients funded under this competition must involve individuals with disabilities or parents of individuals with disabilities ages birth through 26 in planning, implementing, and evaluating the projects (see section 682(a)(1)(A) of IDEA).

**APPLICABLE REGULATIONS:**
The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 79, 80, 81, 82, 84, 85, 86, 97, 98, and 99.

**Note:** The regulations in 34 CFR part 79 apply to all applicants except federally recognized Indian tribes.

**Note:** The regulations in 34 CFR part 86 apply to institutions of higher education (IHEs) only.

**ELIGIBLE APPLICANTS:**
State educational agencies; local educational agencies; public charter schools that are LEAs under State law; IHEs; other public agencies; private nonprofit organizations; outlying areas; freely associated States; Indian tribes or tribal organizations; and for-profit organizations.

**INTERGOVERNMENTAL REVIEW:**
The program in this notice is subject to the requirements of Executive Order 12372 and the regulations in 34 CFR part 79. One of the objectives of the Executive Order is to foster an intergovernmental partnership and a strengthened federalism. The Executive order relies on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

This document provides early notification of our specific plans and actions for this program.

Part III of the application form requires a narrative that addresses the selection criteria that will be used by reviewers in evaluating individual proposals. Applications are more likely to receive favorable reviews by panels when they are organized according to the format suggested below. This format was published in the FEDERAL REGISTER as an appendix to the program regulations, and it addresses all the selection criteria used to evaluate applications required by regulations. If you prefer to use a different format, you may wish to cross-reference the sections of your application to the selection criteria to be sure that reviewers are able to find all relevant information.

The selection criteria that will be used to evaluate applications submitted to the Video Description Research and Development Center (CFDA 84.327J) competition are the selection criteria for new grants required by the EDGAR general selection criteria menu. The maximum score for all of the criteria is 100 points.

An abstract, not to exceed one page, should precede the application narrative of all applications and it would be helpful if it included the following information: Purpose of the project; disability addressed by the project; age group (e.g., 0-3, preschool, elementary school, middle school, high school, secondary transition, and postsecondary); geography (e.g., rural, suburban, urban); severity (e.g., mild, moderate, and severe); proposed products; proposed outcomes; names/affiliations of key collaborators. It would be helpful if the abstract includes: (a) the title of the program, (b) the name of the Absolute Priority, and (c) the CFDA Number (e.g., 84.327J).

For Media and Captioning applications, the abstract should include method of distribution (e.g., broadcast television, Internet, direct sales, and loan service).

The application narrative should include the following sections in this order:

(a) **Need for project** (10 points)

   (1) The Secretary considers the need for the proposed project.

   (2) In determining the need for the proposed project, the Secretary considers the following factors:

      (i) The magnitude of the need for the services to be provided or the activities to be carried out by the proposed project; and

(b) **Quality of project services** (30 points)

   (1) The Secretary considers the quality of the services to be provided by the proposed project.

(2) In determining the quality of project personnel, the Secretary considers the extent to which the applicant encourages applications for employment from persons who are members of groups that have traditionally been underrepresented based on race, color, national origin, gender, age, or disability.

(3) In addition, the Secretary considers the following factors:

(i) The qualifications, including relevant training and experience, of the project director or principal investigator;

(ii) The qualifications, including relevant training and experience, of key project personnel; and

(iii) The qualifications, including relevant training and experience, of project consultants or subcontractors.

GENERAL INFORMATION ON COMPLETING AN APPLICATION
Potential applicants frequently direct questions to officials of the Department regarding application notices and programmatic and administrative regulations governing various direct grant programs. To assist potential applicants, the Office of Special Education Programs staff have assembled the following most commonly raised issues. In general, this information applies to the grant competitions covered by this application package.

**Extension of Deadlines**

Waivers for individual applications are not granted, regardless of the circumstances. Under very extraordinary circumstances a closing date may be changed. Such changes are announced in the Federal Register.

**Copies of the Application**

Current Government-wide policy is that only an original and two copies need to be submitted. OSEP would appreciate receiving three additional copies to facilitate the peer review process. This would mean an original and two copies need to be submitted and we would appreciate your voluntarily submitting an additional three copies (six applications in all). Copies of the application may be bound, but it is not necessary or required. If bound, one copy should be left unbound to facilitate electronic scanning and any necessary reproduction. Applicants should not use colored paper, foldouts, photographs, or other materials that are hard to duplicate.

Please Note: If an application is recommended for funding and a grant award is issued, we will contact the applicant to request a copy of the application on a diskette or CD. The Department is moving toward an electronic grant filing system and an electronic copy of all applications that are being funded will facilitate this effort.

**Making Applications More Accessible to Reviewers Who Are Blind or Have Low Vision**

The Department will accept one copy of the application in an accessible format (i.e., IBM PC compatible Word or ASCII code diskette) along with the original and two print copies of the application. The accessible format copy can be used with available software to convert the text of the application into Braille, or with text to voice applications. If there are any differences in the print original provided on the disk and in print, the print original is assumed to be the correct version. Please note that it is not a requirement that one copy of the application be in an accessible format.

**Missed Deadlines and Submission Under Other Competitions**

Should an application miss the deadline for a particular competition, it may be submitted to another competition. However, if an application is properly prepared to meet the specifications of one competition, it is extremely unlikely that it would be favorably evaluated under a different competition.

**Submission to More Than One Program**

Applications may be submitted to more than one Federal program if you are unsure of the most appropriate program. Each application should be prepared following the instructions for that particular program as closely as possible (which may require some reformulation). It is very helpful if each program is notified that an identical or similar application is being submitted to another program.

**Help Preparing Applications**

We are happy to provide general program information. Clearly it would not be appropriate for staff to participate in the actual writing of an application, but we can respond to specific questions about our application requirements and evaluation criteria, or about the announced priorities. Applicants should
understand that such previous contact is not required, nor does it guarantee the success of an application.

**NOTIFICATION OF FUNDING**

The time required to complete the evaluation of applications is variable. Once applications have been received staff must determine the areas of expertise needed to appropriately evaluate the applications, identify and contact potential reviewers, convene peer review panels, and summarize and review the recommendations of the review panels. You can expect to receive notification within 3 to 6 months of the application closing date, depending on the number of applications received and the number of competitions with closing dates at about the same time. The requested start date should therefore be a minimum of 6 months after the application closing date.

**POSSIBILITY OF LEARNING THE OUTCOME OF REVIEW PANELS PRIOR TO OFFICIAL NOTIFICATION**

Every year we are called by a number of applicants who have legitimate reasons for needing to know the outcome of the review prior to official notification. Some applicants need to make job decisions, some need to notify a local school district, etc. Regardless of the reason, we cannot share information about the review with anyone until the Assistant Secretary has approved a slate of projects recommended for funding. You will be notified as quickly as possible either by telephone (if your application is recommended for funding), or through a letter (if your application is not successful).

**FORMAT FOR APPLICATIONS**

The application narrative (Part III of the application form) should be organized to follow the exact sequence of the components in the selection criteria used to evaluate applications. (The selection criteria for the competitions covered by this packet are listed following the specific competition information in section “B” of this packet.) A table of contents, list of priority requirements, and an abstract (see page B-13) should precede the application narrative. If you prefer to use a different format, you may wish to cross-reference the sections of your application to the selection criteria to be sure that reviewers are able to find all relevant information.

To aid in screening and reviewing the application, applicants should list in Part II and prior to the abstract, all general, special, and other requirements for the priority and corresponding page number (s) where requirements are addressed within the application. Page limits do not apply to this list. (All requirements are found in each priority description included in this application package.) The format included below is an example of how you might provide this information in your application.

PAGE LIMITS

Please note that all applications submitted under the competition in this application package must adhere to the Part III—Application Narrative page limit requirements that are specified under each priority/competition description. Your application should provide enough information to allow the review panel to evaluate the importance and impact of the project as well as to make knowledgeable judgments about the methods you propose to use (design, subjects, sampling procedures, measures, instruments, data analysis strategies, etc.). It is often helpful to have:

1. **Staff Vitae:** They should include each person's title and role in the proposed project and contain only information that is relevant to this proposed project's activities and/or publications. Vitae for consultants and Advisory Council members should be similarly brief.

2. **Instruments:** Except in the case of generally available and well known instruments.

3. **Agreements:** When the participation of an agency other than the applicant is critical to the project. This is particularly critical when an intervention will be implemented within an agency, or when subjects will be drawn from particular agencies. Letters of cooperation should be specific, indicating agreement to implement a particular intervention or to provide access to a particular group of students.

The items listed above are not included under page limits.

MAKING SURE APPLICATION IS ASSIGNED TO THE CORRECT COMPETITION

Applicants should clearly indicate in Item 11 on the application (SF Form 424) the CFDA number of the program priority (e.g., 84.327J, etc.) representing the competition in which the application should be considered. If this information is not provided, your application may inadvertently be assigned and reviewed under a different competition from the one you intended.

RETURN OF NON-FUNDED APPLICATIONS

We do not return original copies of applications. Thus, applicants should retain at least one copy of the application. Copies of reviewer comments will be mailed to all applicants.

PROPOSED STAFF AVAILABILITY TO PROJECT

For each staff person named in the application, please provide documentation of all internal and external time commitments. In instances where a staff person is committed on a federally supported project, please provide the project name, Federal office, program title, the project federal award number, and the amount of committed time by each project year. This information (e.g., **Staff**: Jane Doe; **Project Name**: Succeeding in the General Curriculum; **Federal office**: Office of Special Education Programs; **Program title**: Technology and Media Services for Individuals with Disabilities; **Award number**: H326A030002; **Time commitments**: Year 1—30%; Year 2—25% and Year 3—40%) can be provided as an Appendix to the application.

In general, we will not reduce time commitments on currently funded grants from the time proposed in the original application. Therefore, we will not consider for funding any application where key staff are bid above a time commitment level that staff have available to bid. Further, the time commitments stated in newly submitted applications will not be negotiated down to permit the applicant to receive a new grant award.

USE OF PERSON LOADING CHARTS

It is important for applicants to include proposed time commitments for all project personnel. Also, program officials and applicants often find person loading charts useful formats for showing project personnel and their time commitments to individual activities. A person loading chart is a tabular
representation of major evaluation activities by number of days spent by each key person involved in each activity, as shown in the following example.

**DELIVERING/SENDING APPLICATIONS TO THE COMPETITION MANAGER**

Applications can be mailed or hand delivered, or submitted electronically but in either case must go to the Application Control Center at the address listed in the Application Transmittal Instructions. Delivering or sending the application to the competition manager in the program office may prevent it from being logged in on time to the appropriate competition and may result in the application not being reviewed.

**ALLOWED TRAVEL UNDER THESE PROJECTS**

Travel is allowed if the travel specifically relates to the expressed goals of the project. Travel by students to further their education under the project's goals is also allowed. Travel to conferences is the travel item that is most likely to be questioned during negotiations. Such travel is sometimes allowed when it is for purposes of dissemination, when there will be results to be disseminated, and when it is clear that a conference presentation or workshop is an effective way of reaching a particular target group.

**FUNDING OF APPROVED APPLICATIONS**

It is often the case that the number of applications recommended for approval by the reviewers exceeds the dollars available for funding projects under a particular competition. When the panel reviews are completed for a particular competition, the individual reviewer scores and applications are ranked. The higher ranked, approved applications are funded first, and there are often lower ranked, approved applications that do not receive funding. Sometimes, one or two applications that are approved and fall next in rank order (after those projects selected for funding) are placed on hold. If dollars become available as a result of negotiations, or if a higher ranked applicant declines the award, the projects on hold may receive funding. If you receive a letter stating that you will not receive funding, then your project has neither been selected for funding nor placed on hold.

**INDIRECT COST RATE**

There is no maximum indirect cost for the competitions in this application package. An organization's current effective indirect cost rate is the rate that should be reflected in your proposed budget. The Department of Education (ED) reimburses grantees for its portion of indirect costs that a grantee incurs in projects funded by the Video Description Research and Development Center (CFDA 84.327J) competition. Any grantee charging indirect costs to a grant from this program must use the indirect cost rate (ICR), negotiated with its cognizant agency, i.e., either the Federal agency from which it has received the most direct funding, subject to indirect cost support, the particular agency specifically assigned cognizance by the Office of Management and Budget or the State agency that provides the most subgrant funds to the grantee.
Note: Applicants should pay special attention to specific questions on the application budget form (ED 524) about their cognizant agency and the ICR they are using in their budget.

If an applicant selected for funding under this program has not already established a current ICR with its cognizant agency as a result of current or previous funding, ED will require it to do so within 90 days after the date the grant was issued by ED. Applicants should be aware that ED is very often not the cognizant agency for its own grantees. Rather, ED accepts, for the purpose of funding its awards, the current ICR established by the appropriate cognizant agency.

An applicant that has not previously established an indirect cost rate with the Federal government or a State agency under a Federal program and that is selected for funding will not be allowed to charge its grant for indirect costs until it has negotiated a current indirect cost rate agreement with its cognizant agency.

Applicants are encouraged to use their accountant (or CPA) to calculate an indirect cost rate using information in the IRS Form 990, audited financial statements, actual cost data or a cost policy statement that such applicants are urged to prepare (but NOT submit to ED) during the application process.

Applicants should use this proposed rate in their application materials and indicate which of the above methods was used to calculate the rate. Guidance for creating a cost policy statement can be obtained by sending an E-mail to:

katrina.mcdonald@ed.gov

Applicants with questions about using indirect cost rates under this program should contact the program contact person shown elsewhere in this application package.

ISSUES RAISED DURING DISCUSSIONS PRIOR TO AWARD

If your application is recommended for funding, discussions may be held prior to award to clarify technical or budget issues. These are issues that have been identified during panel and staff review. Generally, technical issues are minor issues that require clarification. Alternative approaches may be presented for your consideration, or you may be asked to provide additional information or rationale for something you have proposed to do. Sometimes, concerns are stated as "conditions". These are concerns that have been identified as so critical that the award cannot be made unless those conditions are met. Questions are also raised about the proposed budget during the discussion phase. Generally, budget issues are raised because there is inadequate justification or explanation of the particular budget item, or because the budget item does not seem critical to the successful completion of the project. A Federal project officer will present the issues to you and ask you to respond. If you do not understand the question, you should ask for clarification. In responding to discussion items you should provide any additional information or clarification requested. You may feel that an issue was addressed in the application. It may not, however, have been explained in enough detail to make it understood by reviewers, and more information should be provided. If you are asked to make changes that you feel could seriously affect the project's success, you may provide reasons for not making the changes, or provide alternative suggestions. Similarly, if proposed budget reductions will, in your opinion, seriously affect the proposed activities, you may want to explain why and provide additional justification for the proposed expenses. Your changes, explanations and alternative suggestions will be carefully evaluated by staff. In some instances, an applicant may again be contacted for additional information. An award cannot be made until all issues have been resolved and conditions met.

TREATING A PRIORITY AS TWO SEPARATE COMPETITIONS.

In the past, there have been problems in finding peer reviewers without conflicts of interest where applications are made by many entities throughout the country. The Standing Panel requirements also place additional constraints on the availability of reviewers. Therefore, The Department has determined that, for some discretionary priorities, applications may be ranked and selected for funding in two or more groups, which will ensure the availability of a much larger group of reviewers without conflicts of interest. This procedure will
increase the quality, independence and fairness of the review process and will permit panel members to
review applications under discretionary priorities to which they have also submitted applications.

**SUCCESSFUL APPLICATIONS AND ESTIMATED/PROJECTED BUDGET AMOUNTS IN SUBSEQUENT YEARS**

There is a maximum award amount specified for the priority/competitions included in this package. The
Department rejects and does not consider an application that proposes a budget exceeding the maximum
amount for any single budget period of 12 months for the priorities included in this package. Please refer
to the priority description to determine the maximum award for any one particular competition. Since the yearly
budgets for multi-year projects will be negotiated at the time of the initial award, applicants must include
detailed budgets for each year of their proposed project. Generally, out-year funding levels most likely will
not exceed 1st year budgets. However, budget modifications during the negotiation process, the findings
from the previous year, or needed changes in the study design can affect your budget requirements in
subsequent years, but in no case will out-year budgets exceed the maximum award amount.

**REQUIREMENT TO REPORT THE RESULTS OF GRANT ACTIVITIES**

The Department shall, where appropriate, require recipients of all grants, contracts and cooperative
agreements under Part D of the *Individuals with Disabilities Education Act* to prepare reports describing
their procedures, findings, and other relevant information. The Department shall require their delivery to
the Department of Education and other networks as The Department may determine appropriate.

(20 U.S.C. 1482)

**DIFFERENCE BETWEEN A COOPERATIVE AGREEMENT AND A GRANT**

A cooperative agreement is similar to a grant in that its principal purpose is to accomplish a public purpose
of support or stimulation as authorized by a Federal statute. It differs from a grant in the sense that in a
cooperative agreement substantial involvement is anticipated between the executive agency (in this case
the Department of Education) and the recipient during the performance of the contemplated activity.

**DIFFERENCE BETWEEN AN ABSOLUTE PRIORITY, AN INVITATIONAL PRIORITY, AND A COMPETITIVE
PRIORITY**

An absolute priority is a priority that an applicant must address in order to receive an award. If an
applicant does not address an absolute priority, their application will be returned as being non-responsive
to the priority.

An invitational priority is a priority that reflects a particular interest of the Department, and an applicant is
couraged to address the invitational priority along with the required absolute priority. However, an
applicant choosing to address an invitational priority will not receive any competitive preference over
other applications.

A competitive priority is like an invitational priority in that it reflects a particular interest of the Department,
and an applicant is encouraged to address the competitive priority along with the required absolute
priority. A competitive priority may be handled in one of two ways:

1. an application may be awarded additional points depending on how effectively it addresses the
   competitive priority; or

2. an application that meets a competitive priority may be selected over an application of comparable
   merit that does not address the competitive priority. The type of competitive priority for a particular
   competition is always included in the *Federal Register* announcement.

APPENDIX
INTERGOVERNMENTAL REVIEW OF FEDERAL PROGRAMS

This appendix applies to each program that is subject to the requirements of Executive Order 12372 (Intergovernmental Review of Federal Programs) and the regulations in 34 CFR part 79.

The objective of the executive order is to foster an intergovernmental partnership and to strengthen federalism by relying on state and local processes for state and local government coordination and review of proposed federal financial assistance.

Applicants must contact the appropriate State Single Point of Contact to find out about, and to comply with, the state's process under Executive Order 12372. Applicants proposing to perform activities in more than one state should immediately contact the Single Point of Contact for each of those states and follow the procedure established in each of those states under the Executive order. A listing containing the Single Point of Contact for each state is included in this appendix.

In states that have not established a process or chosen a program for review, state, areawide, regional, and local entities may submit comments directly to the Department.

Any State Process Recommendation and other comments submitted by a State Single Point of Contact and any comments from state, areawide, regional and local entities must be mailed or hand-delivered by the date indicated in the actual application notice to the following address:

The Secretary
EO 12372—CFDA 84.327J [commenter must insert number—including suffix letter, if any]
U.S. Department of Education, Room 7W301
400 Maryland Avenue, SW
Washington, DC 20202

Proof of mailing will be determined on the same basis as applications (see 34 CFR 75.102). Recommendations or comments may be hand-delivered until 4:30 p.m. (Washington, D.C. time) on the date indicated in the actual application notice.

PLEASE NOTE THAT THE ABOVE ADDRESS IS NOT THE SAME ADDRESS AS THE ONE TO WHICH THE APPLICANT SUBMITS ITS COMPLETED APPLICATION. DO NOT SEND APPLICATIONS TO THE ABOVE ADDRESS.
It is estimated that in 2008 the federal government will outlay $449 billion in grants to state and local governments. Executive Order 12372, "Intergovernmental Review of Federal Programs," was issued with the desire to foster the intergovernmental partnership and strengthen federalism by relying on state and local processes for the coordination and review of proposed federal financial assistance and direct federal development. The order allows each state to designate an entity to perform this function. Below is the official list of those entities. For those states that have a home page for their designated entity, a direct link has been provided below by clicking on the state name.

States that are not listed on this page have chosen not to participate in the intergovernmental review process, and therefore do not have a SPOC. If you are located within a state that does not have a SPOC, you may send application materials directly to a federal awarding agency.

Contact information for federal agencies that award grants can be found in Appendix IV of the Catalog of Federal Domestic Assistance.

NOTICE TO ALL APPLICANTS  
ENSURING EQUITABLE ACCESS AND APPLICATION FORMS AND INSTRUCTIONS
NOTICE TO ALL APPLICANTS

The purpose of this enclosure is to inform you about a new provision in the Department of Education's General Education Provisions Act (GEPA) that applies to applicants for new grant awards under Department programs. This provision is Section 427 of GEPA, enacted as part of the Improving America's Schools Act of 1994 (Public Law (P.L.) 103-382).

To Whom Does This Provision Apply?

Section 427 of GEPA affects applicants for new grant awards under this program. All applicants for new awards must include information in their applications to address this new provision in order to receive funding under this program.

(If this program is a state-formula grant program, a state needs to provide this description only for projects or activities that it carries out with funds reserved for state-level uses. In addition, local school districts or other eligible applicants that apply to the state for funding need to provide this description in their applications to the state for funding. The state would be responsible for ensuring that the school district or other local entity has submitted a sufficient section 427 statement as described below.)

What Does This Provision Require?

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its federally-assisted program for students, teachers, and other program beneficiaries with special needs. This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, you should determine whether these or other barriers may prevent your students, teachers, etc. from such access or participation in, the federally-funded project or activity.

The description in your application of steps to be taken to overcome these barriers need not be lengthy; you may provide a clear and succinct description of how you plan to address those barriers that are applicable to your circumstances. In addition, the information may be provided in a single narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve to high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it to eliminate barriers it identifies.

What are Examples of How an Applicant Might Satisfy the Requirement of This Provision?

The following examples may help illustrate how an applicant may comply with Section 427.

(1) An applicant that proposes to carry out an adult literacy project serving, among others, adults with limited English proficiency, might describe in its application how it intends to distribute a brochure about the proposed project to such potential participants in their native language.

(2) An applicant that proposes to develop instructional materials for classroom use might describe how it will make the materials available on audio tape or in Braille for students who are blind.

(3) An applicant that proposes to carry out a model science program for secondary students and is concerned that girls may be less likely than boys to enroll in the course, might indicate how it intends to conduct "outreach" efforts to girls, to encourage their enrollment.

We recognize that many applicants may already be implementing effective steps to ensure equity of access and participation in their grant programs, and we appreciate your cooperation in responding to the requirements of this provision.

INSTRUCTIONS FOR DEPARTMENT OF EDUCATION
SUPPLEMENTAL INFORMATION FOR SF 424

1. Project Director. Name, address, telephone and fax numbers, and e-mail address of the person to be contacted on matters involving this application.

2. Novice Applicant. Check “Yes” or “No” only if assistance is being requested under a program that gives special consideration to novice applicants. Otherwise, leave blank.

Check “Yes” if you meet the requirements for novice applicants specified in the regulations in 34 CFR 75.225 and included on the attached page entitled “Definitions for Department of Education Supplemental Information for SF 424.” By checking “Yes” the applicant certifies that it meets these novice applicant requirements. Check “No” if you do not meet the requirements for novice applicants.

If Not Human Subjects Research. Check “No” if research activities involving human subjects are not planned at any time during the proposed project period. The remaining parts of Item 3 are then not applicable.

If Human Subjects Research. Check “Yes” if research activities involving human subjects are planned at any time during the proposed project period, either at the applicant organization or at any other performance site or collaborating institution. Check “Yes” even if the research is exempt from the regulations for the protection of human subjects. (See I. B. “Exemptions” in attached page entitled “Definitions for Department of Education Supplemental Information for SF 424.”)

3a. If Human Subjects Research is Not Exempt from Human Subjects Regulations. Check “No” if some or all of the planned research activities are covered (not exempt). In addition, follow the instructions in II. B. “Nonexempt Research Narrative” in the page entitled “Definitions for Department of Education Supplemental Information for SF 424.”

3a. Human Subjects Assurance Number. If the applicant has an approved Federal Wide (FWA) on file with the Office for Human Research Protections (OHRP), U.S. Department of Health and Human Services, that covers the specific activity, insert the number in the space provided. If the applicant does not have an approved assurance on file with OHRP, enter “None.” In this case, the applicant, by signature on the SF-424, is declaring that it will comply with 34 CFR 97 and proceed to obtain the human subjects assurance upon request by the designated ED official. If the application is recommended/selected for funding, the designated ED official will request that the applicant obtain the assurance within 30 days after the specific formal request.

NOTE ABOUT INSTITUTIONAL REVIEW BOARD APPROVAL.

ED does not require certification of Institutional Review Board approval with the application. However, if an application that involves non-exempt human subjects research is recommended/selected for funding, the designated ED official will request that the applicant obtain and send the certification to ED within 30 days after the formal request.

Novice Applicant (See 34 CFR 75.225).
For discretionary grant programs under which the Secretary gives special consideration to novice applications, a novice applicant means any applicant for a grant from ED that—

- Has never received a grant or subgrant under the program from which it seeks funding;
- Has never been a member of a group application, submitted in accordance with 34 CFR 75.127-75.129, that received a grant under the program from which it seeks funding; and
- Has not had an active discretionary grant from the Federal government in the five years before the deadline date for applications under the program. For the purposes of this requirement, a grant is active until the end of the grant’s project or funding period, including any extensions of those periods that extend the grantee’s authority to obligate funds.

In the case of a group application submitted in accordance with 34 CFR 75.127-75.129, a group includes only parties that meet the requirements listed above.

PROTECTION OF HUMAN SUBJECTS IN RESEARCH

I. Definitions and Exemptions

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department’s regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Research

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as "a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge." If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge it is research. Activities which meet this definition constitute research whether or not they are conducted or supported under a program that is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Human Subject

The regulations define human subject as "a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information." (1) If an activity involves obtaining information about a living person by manipulating that person or that person’s environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met. (2) If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met. [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]
B. Exemptions.

Research activities in which the only involvement of human subjects will be in one or more of the following six categories of exemptions are not covered by the regulations:

1. Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

2. Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects' responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects’ financial standing, employability, or reputation. If the subjects are children, exemption 2 applies only to research involving educational tests and observations of public behavior when the investigator(s) do not participate in the activities being observed. Exemption 2 does not apply if children are surveyed or interviewed or if the research involves observation of public behavior and the investigator(s) participate in the activities being observed. [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

3. Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

4. Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

5. Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

6. Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

II. Instructions for Exempt and Nonexempt Human Subjects Research Narratives

If the applicant marked “Yes” for Item 3 of Department of Education Supplemental Information for SF 424, the applicant must provide a human subjects “exempt research” or “nonexempt research” narrative. Insert the narrative(s) in the space provided. If you have multiple projects and need to provide more than one narrative, be sure to label each set of responses as to the project they address.

A. Exempt Research Narrative.

If you marked “Yes” for item 3 a. and designated exemption numbers(s), provide the “exempt research” narrative. The narrative must contain sufficient information about the involvement of human subjects in the proposed research to allow a determination by
ED that the designated exemption(s) are appropriate. The narrative must be succinct.

B. Nonexempt Research Narrative.

If you marked “No” for item 3 a. you must provide the “nonexempt research” narrative. The narrative must address the following seven points. Although no specific page limitation applies to this section of the application, be succinct.

(1) Human Subjects Involvement and Characteristics: Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable.

(2) Sources of Materials: Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) Recruitment and Informed Consent: Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the circumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) Potential Risks: Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) Protection Against Risk: Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) Importance of the Knowledge to be Gained: Discuss the importance of the knowledge gained or to be gained as a result of the proposed research. Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

(7) Collaborating Site(s): If research involving human subjects will take place at collaborating site(s) or other performance site(s), name the sites and briefly describe their involvement or role in the research.

Lines 1-11, column (f): Show the multi-year total for each budget category. If funding is requested for only one project year, leave this column blank.

Line 12, columns (a)-(e): Show the total budget request for each project year for which funding is requested.

Line 12, column (f): Show the total amount requested for all project years. If funding is requested for only one year, leave this space blank.

Indirect Cost Information: If you are requesting reimbursement for indirect costs on line 10, this information is to be completed by your Business Office.

(1) Indicate whether or not your organization has an Indirect Cost Rate Agreement that was approved by the Federal government.

(2) If you checked “yes” in (1), indicate in (2) the beginning and ending dates covered by the Indirect Cost Rate Agreement. In addition, indicate whether ED or another Federal agency (Other) issued the approved agreement. If you check “Other,” specify the name of the Federal agency that issued the approved agreement.

(3) If you are applying for a grant under a Restricted Rate Program (34 CFR 75.563 or 76.563), indicate whether you are using a restricted indirect cost rate that is included on your approved Indirect Cost Rate Agreement or whether you are using a restricted indirect cost rate that complies with 34 CFR 76.564(c)(2). Note: State or local government agencies may not use the provision for a restricted indirect cost rate specified in 34 CFR 76.564(c)(2). Check only one response. Leave blank, if this item is not applicable.

SECTION C: BUDGET NARRATIVE

[Attach separate sheet(s)] Pay attention to applicable program specific instructions, if attached.

1. Provide an itemized budget breakdown, and justification by project year, for each budget category listed in Sections A and B. For grant projects that will be divided into two or more separately budgeted major activities or sub-projects, show for each budget category of a project year the breakdown of the specific expenses attributable to each sub-project or activity.

2. If applicable to this program, provide the rate and base on which fringe benefits are calculated.

3. If you are requesting reimbursement for indirect costs on line 10, this information is to be completed by your Business Office. Specify the estimated amount of the base to which the indirect cost rate is applied and the total indirect expense. Depending on the grant program to which you are applying and/or your approved Indirect Cost Rate Agreement, some direct cost budget categories in your grant application budget may not be included in the base and multiplied by your indirect cost rate. For example, you must multiply the indirect cost rates of “Training grants” (34 CFR 75.562) and grants under programs with “Supplement not Supplant” requirements (“Restricted Rate” programs) by a “modified total direct cost” (MTDC) base (34 CFR 75.563 or 76.563). Please indicate which costs are included and which costs are excluded from the base to which the indirect cost rate is applied.

When calculating indirect costs (line 10) for "Training grants" or grants under "Restricted Rate" programs, you must refer to the information and examples on ED's Web site at:

You may also contact 202-377-3838 for additional information regarding calculating indirect cost rates or general indirect cost rate information.

4. Provide other explanations or comments you deem necessary.

DUNS NUMBER INSTRUCTIONS

D-U-N-S No.
Please provide the applicant's D-U-N-S Number. You can obtain your D-U-N-S Number at no charge by
calling 1-800-333-0505 or by completing a D-U-N-S Number Request Form. The form can be obtained via
the Internet at the following URL:

www.dnb.com

The D-U-N-S Number is a unique nine-digit number that does not convey any information about the
recipient. A built in check digit helps assure the accuracy of the D-U-N-S Number. The ninth digit of each
number is the check digit, which is mathematically related to the other digits. It lets computer systems
determine if a D-U-N-S Number has been entered correctly.

Dun & Bradstreet, a global information services provider, has assigned D-U-N-S numbers to over
43 million companies worldwide.
