Communities In Schools, Richmond	The East End Achievement Zone	http://data.ed.gov/node/17123	Richmond	VA	80.00		\$ 499,823	AP1

Notes

¹ When no official project name was included (*), the Department added Promise Neighborhoods to the geographic focus and generated a project name.

Eligibility determination is based on the Department's review of information provided by the applicant and its alignment with the eligibility requirements of the Promise Neighborhoods competition (e.g., legal status of the organization applying for the grant, commitment of match, etc). Due to the volume of applications in this competition, the Department only made formal eligibility determinations for those proposals that scored high enough in the peer review process to be considered for funding.

For applications addressing Absolute Priority 1, Absolute Priority 2, and Absolute Priority 3, the Secretary prepared a rank order of applications for each absolute priority based solely on the evaluation of their quality according to the selection criteria. Department staff reviewed whether applicants scoring 80 or above qualified for Absolute Priority 2 (Rural Communities) or Absolute Priority 3 (Tribal Communities), therefore some information may differ from Absolute Priority assignments on data.ed.gov.

² Eligibility determination is based on the Department's review of information provided by the applicant and its alignment with the eligibility requirements of the Promise Neighborhoods competition (e.g., legal status of the organization applying for the grant, commitment of match, etc). Due to the volume of applications in this competition, the Department only made formal eligibility determinations for those proposals that scored high enough in the peer review process to be considered for funding.

³ For applications addressing Absolute Priority 1, Absolute Priority 2, and Absolute Priority 3, the Secretary prepared a rank order of applications for each absolute priority based solely on the evaluation of their quality according to the selection criteria. Department staff reviewed whether applicants scoring 80 or above qualified for Absolute Priority 2 (Rural Communities) or Absolute Priority 3 (Tribal Communities), therefore some information may differ from Absolute Priority assignments on data.ed.gov.
