

Panel Discussion on Opportunities for Aligning College- and Career-Ready Standards and Educator Evaluation

Wednesday, April 25

2:00 pm- 3:00 pm

Worksheet for Tuning Observation Rubrics/Evaluation with Attention to CCSS – *Draft for Improvement*

What steps should my state take to better coordinate our CCSS implementation and teacher evaluation rollout?

Given the evaluation materials we already have adopted in my state (or district), what additional tools or materials are needed to support evaluators as they focus on implementing the CCSS?

To support teachers?

Because tools/materials are no substitute for in-depth training, how can we help evaluators become instructional leaders?

1. How can we better utilize our state's planned PD activities and/or planned instructional improvement systems or technology platforms to build instructional leadership skills?
2. What new activities/programs/technology might be needed?

What are two or three ideas my state could adopt to improve the real-time, formative coaching and feedback that evaluators, peers and others involved in PD/evaluation systems give to teachers?

- 1.
- 2.
- 3.
