Student Learning Objectives Working Group Meeting

April 25, 2012

Meeting Goal

- To lay the groundwork for a successful SLO work group that addresses state needs and results in tangible products

Meeting Objectives

- To build understanding across the work group of where states stand with SLO implementation, what their assets are and the challenges they face
- To review the draft work group plan and prioritize deliverables
- To advance state understanding of SLO quality control and quality assessment procurement and development mechanisms
- To identify specific tools/documents states would like to co-create/co-refine over the next 90-120 days
- To identify states to participate in work group subgroups that design a quality control framework for SLO implementation and a protocol to help evaluators calibrate SLOs for quality
