The screenshot shows a web browser window displaying the Tennessee Educator Acceleration Model (TEAM) website. The browser's address bar shows the URL <http://team-tn.org/teacher-model>. The website header includes the TN.GOV logo, the Department of Education logo with Commissioner Kevin Huffman's name, and Governor Bill Haslam's name and website link. A navigation menu contains links for Welcome, How TEAM Works, How TEAM Helps, Teacher Model, Administrator Model, and FAQs. The main content area is titled "Teacher Model" and features a section for "Understanding TVAAS". This section includes a paragraph explaining the need for value-added measures and a list of video links: Overview (7:57) View, Tennessee Model (3:26) View, TCAP Assessments (2:02) View, and EOC Assessments (2:22) View. The browser's taskbar at the bottom shows various application icons and the system clock indicating 7:31 PM on 5/18/2012.

Teacher Model

Understanding TVAAS

Due to the increased emphasis placed on value-added measures by TEAM, educators now have an even greater need to understand the statistical models and process for generating value-added reporting. We have created a video series, led by Nancy Zambito, that addresses some key understandings. First, what is value-added and how is it different from achievement measures? Why do we use it? And what do educators need to know about the statistical models used to generate value-added measures in Tennessee? The second part of this session covers how the composites used in educator evaluation are calculated. A FAQ section will be added in the coming weeks to provide more specific information about some aspects of the model and process. We hope that by learning more about how TVAAS is calculated, teachers will better understand the reporting and be able to leverage that knowledge in their work with their students.
