

APPLICATION COVER SHEET
SCHOOL IMPROVEMENT GRANTS

Legal Name of Applicant: Idaho State Department of Education	Applicant's Mailing Address: PO Box 83720 Boise, Idaho 83720-0027
State Contact for the School Improvement Grant Name: Greg Alexander Position and Office: Director, Statewide System of Support Division of Student Achievement & School Improvement Contact's Mailing Address: PO Box 83720 Boise, Idaho 83720-0027 Telephone: (208) 332-6869 Fax: (208) 334-2228 Email address: galexander@sde.idaho.gov	
Chief State School Officer (Printed Name): Thomas Luna, Superintendent of Public Instruction	Telephone: 208-332-6814
Signature of the Chief State School Officer: X 	Date: 12/20/13
The State, through its authorized representative, agrees to comply with all requirements applicable to the School Improvement Grants program, including the assurances contained herein and the conditions that apply to any waivers that the State receives through this application.	

School Improvement Grants
Application for FY 2013 New Awards Competition
Section 1003(g) of the
Elementary and Secondary Education Act
Fiscal Year 2013
CFDA Number: 84.377A

State Name: Idaho

U.S. Department of Education
Washington, D.C. 20202

OMB Number: 1810-0682
Expiration Date: September 30, 2016

Paperwork Burden Statement

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. Public reporting burden for this collection of information is estimated to average 74 hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The obligation to respond to this collection is mandatory required to obtain or retain benefit and voluntary. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the U.S. Department of Education, 400 Maryland Ave., SW, Washington, DC 20210-4537 or email ICDocketMgr@ed.gov and reference the OMB Control Number 1810-0682. Note: Please do not return the completed FY 2013 School Improvement Grant application to this address.

SCHOOL IMPROVEMENT GRANTS

Purpose of the Program

School Improvement Grants (SIG), authorized under section 1003(g) of Title I of the Elementary and Secondary Education Act of 1965 (Title I or ESEA), are grants to State educational agencies (SEAs) that SEAs use to make competitive subgrants to local educational agencies (LEAs) that demonstrate the greatest need for the funds and the strongest commitment to use the funds to provide adequate resources in order to raise substantially the achievement of students in their lowest-performing schools. Under the final requirements published in the *Federal Register* on October 28, 2010 (<http://www.gpo.gov/fdsys/pkg/FR-2010-10-28/pdf/2010-27313.pdf>), school improvement funds are to be focused on each State's "Tier I" and "Tier II" schools. Tier I schools are the lowest-achieving five percent of a State's Title I schools in improvement, corrective action, or restructuring, Title I secondary schools in improvement, corrective action, or restructuring with graduation rates below 60 percent over a number of years, and, if a State so chooses, certain Title I eligible (and participating) elementary schools that are as low achieving as the State's other Tier I schools ("newly eligible" Tier I schools). Tier II schools are the lowest-achieving five percent of a State's secondary schools that are eligible for, but do not receive, Title I, Part A funds, secondary schools that are eligible for, but do not receive, Title I, Part A funds with graduation rates below 60 percent over a number of years, and, if a State so chooses, certain additional Title I eligible (participating and non-participating) secondary schools that are as low achieving as the State's other Tier II schools or that have had a graduation rate below 60 percent over a number of years ("newly eligible" Tier II schools). An LEA also may use school improvement funds in Tier III schools, which are Title I schools in improvement, corrective action, or restructuring that are not identified as Tier I or Tier II schools and, if a State so chooses, certain additional Title I eligible (participating and non-participating) schools ("newly eligible" Tier III schools). In the Tier I and Tier II schools an LEA chooses to serve, the LEA must implement one of four school intervention models: turnaround model, restart model, school closure, or transformation model.

ESEA Flexibility

An SEA that has received ESEA flexibility no longer identifies Title I schools for improvement, corrective action, or restructuring; instead, it identifies priority schools, which are generally a State's lowest-achieving Title I schools. Accordingly, if it chooses, an SEA with an approved ESEA flexibility request may select the "**priority schools list waiver**" in Section H of the SEA application for SIG funds. This waiver permits the SEA to replace its lists of Tier I, Tier II, and Tier III schools with its list of priority schools.

Through its approved ESEA flexibility request, an SEA has already received a waiver that permits its LEAs to apply for SIG funds to serve priority schools that are not otherwise eligible to receive SIG funds because they are not identified as Tier I, Tier II, or Tier III schools. The waiver offered in this application goes beyond this previously granted waiver to permit the SEA to actually use its priority schools list as its SIG list.

Availability of Funds

The Consolidated and Further Continuing Appropriations Act, 2013, provided \$506 million for School Improvement Grants in fiscal year (FY) 2013.

FY 2013 SIG funds are available for obligation by SEAs and LEAs through September 30, 2015.

State and LEA Allocations

Each State (including the District of Columbia and Puerto Rico), the Bureau of Indian Education, and the outlying areas are eligible to apply to receive a SIG grant. The Department will allocate FY 2013 SIG funds in proportion to the funds received in FY 2013 by the States, the Bureau of Indian Education, and the outlying areas under Parts A, C, and D of Title I of the ESEA. An SEA must allocate at least 95 percent of its SIG funds

directly to LEAs in accordance with the final requirements (<http://www.gpo.gov/fdsys/pkg/FR-2010-10-28/pdf/2010-27313.pdf>). The SEA may retain an amount not to exceed five percent of its allocation for State administration, evaluation, and technical assistance.

Consultation with the Committee of Practitioners

Before submitting its application for a SIG grant to the Department, an SEA must consult with its Committee of Practitioners established under section 1903(b) of the ESEA regarding the rules and policies contained therein. The Department recommends that the SEA also consult with other stakeholders, such as potential external providers, teachers' unions, and business, civil rights, and community leaders that have an interest in its application.

FY 2013 NEW AWARDS APPLICATION INSTRUCTIONS

This application is for use only by SEAs that will make new awards. New awards are defined as an award of SIG funds to an LEA for a school that the LEA was not previously approved to serve with SIG funds in the school year for which funds are being awarded—in this case, the 2014–2015 school year. New three-year awards may be made with the FY 2013 funds or any unobligated SIG funds from previous competitions not already committed to grants made in earlier competitions.

The Department will require those SEAs that will use FY 2013 funds solely for continuation awards to submit a SIG application. However, those SEAs using FY 2013 funds solely for continuation purposes are only required to complete the Continuation Awards Only Application for FY 2013 School Improvement Grants Program located at the end of this application.

SUBMISSION INFORMATION

Electronic Submission:

The Department strongly prefers to receive an SEA's FY 2013 SIG application electronically. The application should be sent as a Microsoft Word document, **not** as a PDF.

The SEA should submit its FY 2013 application to OESE.OST@ed.gov.

In addition, the SEA must submit a paper copy of the cover page signed by the SEA's authorized representative to the address listed below under "Paper Submission."

Paper Submission:

If an SEA is not able to submit its application electronically, it may submit the original and two copies of its SIG application to the following address:

Carlas McCauley, Group Leader
Office of School Turnaround
U.S. Department of Education
400 Maryland Avenue, SW, Room 3W320
Washington, DC 20202-6132

Due to potential delays in government processing of mail sent through the U.S. Postal Service, SEAs are encouraged to use alternate carriers for paper submissions.

Application Deadline

Applications are due on or before November 15, 2013.

For Further Information

If you have any questions, please contact Carlas McCauley at (202) 260-0824 or by e-mail at Carlas.Mccauley@ed.gov.

APPLICATION COVER SHEET
SCHOOL IMPROVEMENT GRANTS

Legal Name of Applicant: Idaho State Department of Education	Applicant's Mailing Address: PO Box 83720 Boise, Idaho 83720-0027
State Contact for the School Improvement Grant Name: Greg Alexander Position and Office: Director, Statewide System of Support Division of Student Achievement & School Improvement Contact's Mailing Address: PO Box 83720 Boise, Idaho 83720-0027 Telephone: (208) 332-6869 Fax: (208) 334-2228 Email address: galexander@sde.idaho.gov	
Chief State School Officer (Printed Name): Thomas Luna, Superintendent of Public Instruction	Telephone:
Signature of the Chief State School Officer: X	Date:
The State, through its authorized representative, agrees to comply with all requirements applicable to the School Improvement Grants program, including the assurances contained herein and the conditions that apply to any waivers that the State receives through this application.	

PART I: SEA REQUIREMENTS

As part of its application for a School Improvement Grant under section 1003(g) of the ESEA, an SEA must provide the following information.

A. ELIGIBLE SCHOOLS

Part 1 (Definition of Persistently Lowest-Achieving Schools): Along with its list of Tier I, Tier II, and Tier III schools, the SEA must provide the definition that it used to develop this list of schools. If the SEA’s definition of persistently lowest-achieving schools that it makes publicly available on its Web site is identical to the definition that it used to develop its list of Tier I, Tier II, and Tier III schools, it may provide a link to the page on its Web site where that definition is posted rather than providing the complete definition. If an SEA is requesting the priority schools list waiver, it need not provide this definition, as its methodology for identifying its priority schools has already been approved through its ESEA flexibility request.

Idaho is requesting to use the Priority and Focus school list as defined in Idaho’s ESEA flexibility waiver that was approved October 24, 2012.

Part 2 (Eligible Schools List): As part of its FY 2013 application an SEA must provide a list, by LEA, of each Tier I, Tier II, and Tier III school in the State or, if it is requesting the priority schools list waiver, of each priority school in the State. (A State’s Tier I and Tier II schools are its persistently lowest-achieving schools and, if the SEA so chooses, certain additional Title I eligible schools that are as low achieving as the State’s persistently lowest-achieving schools or that have had a graduation rate below 60 percent over a number of years.) In providing its list of schools, the SEA must indicate whether a school has been identified as a Tier I or Tier II school solely because it has had a graduation rate below 60 percent over a number of years.

(See Attachment 1)

Directions: SEAs that generate new lists should create this table in Excel using the format shown below. An example of the table has been provided for guidance.

SCHOOLS ELIGIBLE FOR FY 2013 SIG FUNDS									
LEA NAME	LEA NCES ID #	SCHOOL NAME	SCHOOL NCES ID#	PRIORITY (if applicable)	TIER I	TIE R II	TIE R III	GRA D RATE	NEWLY ELIGIBL E¹

EXAMPLE:

SCHOOLS ELIGIBLE FOR FY 2013 SIG FUNDS									
-----------------------------------------------	--	--	--	--	--	--	--	--	--

¹ “Newly Eligible” refers to a school that was made eligible to receive SIG funds by the Consolidated Appropriations Act, 2010. A newly eligible school may be identified for Tier I or Tier II because it has not made adequate yearly progress for at least two consecutive years; is in the State’s lowest quintile of performance based on proficiency rates on State’s assessments; and is no higher achieving than the highest-achieving school identified by the SEA as a “persistently lowest-achieving school” or is a high school that has a graduation rate less than 60 percent over a number of years. For complete definitions of and additional information about “newly eligible schools,” please refer to the FY 2010 SIG Guidance, questions A-20 to A-30.

LEA NAME	LEA NCES ID #	SCHOOL NAME	SCHOOL NCES ID#	PRIORITY	TIE R I	TIE R II	TIE R III	GRADE RATIO	NEWLY ELIGIBLE
LEA 1	##	HARRISON ES	##		X				
LEA 1	##	MADISON ES	##		X				
LEA 2	##	TAYLOR MS	##				X		X

Part 3 (Terminated Awards): All SEAs are required to list any LEAs with one or more schools for which funding under previously awarded SIG grants will not be renewed for the 2014-2015 school year. For each such school, note the amount of unused remaining funds and explain how the SEA or LEA plans to use those funds.

Idaho has not terminated any SIG awards at this time.

LEA NAME	SCHOOL NAME	DESCRIPTION OF HOW REMAINING FUNDS WERE OR WILL BE USED	AMOUNT OF REMAINING FUNDS
N/A			
TOTAL AMOUNT OF REMAINING FUNDS:			

B. EVALUATION CRITERIA: An SEA must provide the criteria it will use to evaluate the information set forth below in an LEA's application for a School Improvement Grant.

Part 1: The three actions listed in Part 1 are ones that an LEA must take prior to submitting its application for a School Improvement Grant. Accordingly, the SEA must describe, with specificity, the criteria the SEA will use to evaluate an LEA's application with respect to each of the following actions:

- (1) The LEA has analyzed the needs of each Tier I and Tier II school, or each priority school, as applicable, identified in the LEA's application and has selected an intervention for each school.
- (2) The LEA has demonstrated that it has the capacity to use school improvement funds to provide adequate resources and related support to each Tier I and Tier II school, or each priority school, as applicable, identified in the LEA's application in order to implement fully and effectively the selected intervention in each of those schools.
- (3) The LEA's budget includes sufficient funds to implement the selected intervention fully and effectively in each Tier I and Tier II school, or each priority school, as applicable, identified in the LEA's application, as well as to support school improvement activities in Tier III schools in a State that is not requesting the priority schools list waiver, throughout the period of availability of those funds (taking into account any waiver extending that period received by either the SEA or the LEA).

Part 2: The actions in Part 2 are ones that an LEA may have taken, in whole or in part, prior to submitting its application for a School Improvement Grant, but most likely will take after receiving a School Improvement Grant. Accordingly, an SEA must describe the criteria it will use to assess the LEA's commitment to do the following:

- Design and implement interventions consistent with the final requirements;
- Recruit, screen, and select external providers, if applicable, to ensure their quality;
- Align other resources with the interventions;
- Modify its practices or policies, if necessary, to enable it to implement the interventions fully and effectively; and,
- Sustain the reforms after the funding period ends.

Response to Section B – Part 1: Evaluation Criteria:

Part 1

(1) Criteria used by the SEA to assure the LEA has analyzed the needs of each Priority and Focus school identified in the LEA's application and has selected an intervention model for each school (see Scoring Rubric-Attachment 4, part 4).

The LEA must demonstrate in its application that it has analyzed the needs of each Priority and Focus school it plans to serve in the LEA's application and has selected an intervention for each school based on the analysis of needs. The LEA must describe the process used for collecting and diagnosing data with the primary goal of identifying probable causes of poor academic performance and the best turnaround strategy for the school. The school will select an intervention plan for each site based on the data findings and needs analysis. The LEA may also include any resources provided by the SDE and LEA within their analysis of each Priority and Focus school (see Scoring Rubric-Attachment 4, part 4).

Recommended resources provided by the SDE may include:

- The Center for Educational Effectiveness Survey
<http://effectiveness.org/default.aspx>
- Instructional Core Focus Visit data (comprehensive school improvement review provided by SDE team - see Attachment 2)
- Idaho's online strategic school improvement tool, *Ways to Improve School Effectiveness* (WISE Tool). <http://www.sde.idaho.gov/site/schoolimprovement/>

Other resources the LEA may include:

- Data pertinent to each school such as summative assessments and multiple measures (interim and formative assessments)
- Teacher qualifications and placement.
- Budget, including per pupil expenses.
- LEA School Improvement Plan - Wise Tool/ Indistar (see Scoring Rubric-Attachment 4, part 8).
- Engaged relevant stakeholders groups, including:
 - Local education associations regarding teacher evaluation and assignments (evidence may include a memorandum of understanding and/or timeline for collaboration on matters related to contracts, schedules, school reform, evaluation, policies, procedures).
 - Local School Board Members.

- Parents of students both within Priority and Focus Schools within the LEA as well as all schools within the LEA.
- Community partners.

The scoring rubric will be used by the SEA to evaluate the LEA's analysis of needs and selection of intervention model for each Priority and Focus school (see Scoring Rubric-Attachment 4, part 4).

(2) The LEA has demonstrated that it has the capacity to use school improvement funds to provide adequate resources and related support to each Tier I and Tier II school, or each priority school, as applicable, identified in the LEA's application in order to implement fully and effectively the selected intervention in each of those schools.

The SEA will use the scoring rubric (Attachment 4, Part 5) to evaluate the LEAs commitment to build capacity. The LEA must demonstrated their willingness and commitment (with assistance from the SDE) to use SIG funds to provide adequate resources and related support to each Priority and Focus school identified in the LEA's application in order to implement fully and effectively the selected intervention model in each school. Each LEA's application must demonstrate commitment to build capacity in the following areas:

- Develop the necessary infrastructure to support change at both the school and district level (creation of a district leadership position that is directly responsible for the implementation of the selected model within Priority and Focus schools, plan to review district policies, procedures, and manuals during the coming school year, system in place to review interim assessment data at each of the schools, etc. see Scoring Rubric-Attachment 4, part 5d and 5e).
- Identified district leader's attendance at all SDE sponsored professional development workshops (see Scoring Rubric-Attachment 4, part 7).
- Provide external technical assistance from providers that best meet the needs of each Priority and Focus school (optional services may include Idaho Building Capacity Project (IBC), Network of Innovative School Leaders (NISL) and Idaho Superintendents Network (ISN)).
- Creation of a timeline for the implementation of the elements of the selected model during the 2014-2015 school year (see Scoring Rubric-Attachment 4, part 6). The district must select a reform model prior to the beginning of the school year and begin implementation of the basic elements of the model at the beginning of the school year. However, certain elements such as job-embedded professional development, identifying and rewarding teachers and principals that have impacted student achievement may occur later in the school year. At a minimum, basic elements, for each model include:
 - Transformation Model: Replace the principal (unless the school has replaced the principal within the past two years); grant principal sufficient operational flexibility (staffing, calendars/time, and budgeting) to implement fully a comprehensive approach to substantially improve student achievement outcomes and increase high school graduation rates; provide timeline for identifying and implementing an instructional program that is research-based and vertically aligned from one grade to the next as well as with the state content standards, develop schedules for extending learning time, and creating community-oriented schools; and provide plan for ensuring that the school receives ongoing, intensive technical assistance from the district and external partners.
 - Turnaround Model: Replace the principal, grant new principal sufficient operational flexibility (staffing, calendars/time, and budgeting) to implement fully a comprehensive approach to substantially improve student achievement outcomes and increase high school graduation

rates; develop and adopt locally-determined “turnaround” competencies to screen all existing staff, rehiring up to 50% and select new staff; and identify processes for providing increased learning time to students and staff and for designing job-embedded professional development in collaboration with staff. The district will provide timelines indicating its commitments to address the remaining required actions.

- **Restart Model:** A restart model is one in which an LEA converts a school into a charter school or closes and reopens a school under a charter school operator, a charter management organization (CMO), or an education management organization (EMO) that has been selected through a rigorous review process. Restart models must be implemented in School Year 2014-15 and must enroll, within the grades it serves, any former student who wishes to attend the school. In Idaho, such a charter school must be authorized under the LEA rather than the Charter School Commission, and the district will hold the EMO responsible for the meeting the final requirements associated with the intervention model. Additional information regarding the process of conversion may be obtained at http://www.sde.idaho.gov/site/charter_schools/. (Note: A CMO is a non-profit organization that operates or manages charter schools by centralizing or sharing certain functions and resources among schools. An EMO is a for-profit or non-profit organization that provides “whole-school operation” services to an LEA.) **While federal guidance does not require it, Idaho State policy requires that it is mandatory for any CMO or EMO that enters into an agreement to operate a Priority or Focus school to attend state sponsored professional development offered by the State Department of Education.**
- **School Closure:** Establish a timeline for school closure and reassign students to other higher-achieving schools within the district.

A full description of the reform models and required elements can be found on the U.S. Department of Education’s web site <http://www2.ed.gov/programs/sif/applicant.html>

- Provide a description of the process for selecting the new principal and teachers (Aligning staff competencies to student needs).
- Provide evidence of School Board commitment.
- Provide timeline and process to build sufficient district level and school level staff to implement the selected model.
- If applicable, provide evidence from personnel associations with respect to teacher evaluations requirements (consider student achievement as part of the evaluation process).
- If applicable, provide evidence of the availability and qualifications of selected EMO.

(3). The LEA’s budget includes sufficient funds to implement the selected intervention fully and effectively in each Tier I and Tier II school, or each priority school, as applicable, identified in the LEA’s application (see Attachment 3), as well as to support school improvement activities in Tier III schools in a State that is not requesting the priority schools list waiver, throughout the period of availability of those funds (taking into account any waiver extending that period received by either the SEA or the LEA).

Idaho has developed a scoring rubric which will be used by the SEA to evaluate budgets submitted by each LEA (see Scoring Rubric-Attachment 4, part 10). Applications will be evaluated based on:

- Proposed budget for each Priority and Focus school the district is applying to serve.
- Overall proposed budget, with supporting rationale, indicates how district will allocate school improvement funds over a three year period, with separate budgets for each of Priority and Focus schools it is applying to serve.
- Budgets submitted are not less than the minimum amount and do not exceed the maximum allowable

amount per school.

- Proposed budget includes a plan for how the improvement efforts will be sustained once the funding period ends.
- If applicable, the proposed budget reflects amounts agreed upon between the LEA and SDE to provide technical assistance and other support services that extend over the three-year grant period.
- Pre-implementation activities must be included in each budget.

Part 2

The actions in Part 2 are ones that an LEA may have taken, in whole or in part, prior to submitting its application for a School Improvement Grant, but most likely will take after receiving a School Improvement Grant. Accordingly, an SEA must describe the criteria it will use to assess the LEA's commitment to do the following:

- Design and implement interventions consistent with the final requirements (see Scoring Rubric-Attachment 4, part 5a);
- Recruit, screen, and select external providers, if applicable, to ensure their quality; (see Scoring Rubric-Attachment 4, part 5b).
- Align other resources with the interventions (see Scoring Rubric-Attachment 4, part 10b);
- Modify its practices or policies, if necessary, to enable it to implement the interventions fully and effectively (see Scoring Rubric-Attachment 4, part 10a & 10b); and,
- Sustain the reforms after the funding period ends (see Scoring Rubric-Attachment 4, part 10c).

Each district's application and subsequent monitoring of implementation will be assessed by the SEA using the scoring rubric (Attachment 4) based on the extent to which the LEA addresses the following components:

Design and Implement interventions consistent with the final requirements (see Scoring Rubric-Attachment 4, part 5 & 6).

- LEA follows the timeline submitted in the application and begins to implement the basic elements (listed above in Part 1, #2) of the selected model during the 2014-15 school year. The district must select a reform model prior to the beginning of the school year and begin implementation of the basic elements of the model at the beginning of the school year. LEA must specifically address each "required action" on the selected reform model.
- Describes district actions which will promote the continuous use of student data (e.g. formative, interim, and summative assessments).
- Describes the district actions which will promote the use of classroom walkthroughs by district and school level leaders to inform professional development.
- Describes the district's action to recruit, screen, select, assign, and retain high performing teachers and administrators.
- Describes the process to ensure a clear focus on student learning and communicating and reinforcing high expectations and accountability for teachers/leaders.
- Describes district actions which will ensure both vertical and horizontal curriculum alignment.
- Describe district actions to ensure that each identified Priority and Focus school receives ongoing, intensive, technical assistance from central office staff.

Recruit, screen, and select external providers, if applicable, to ensure their quality (see Scoring Rubric-Attachment 4, part 5).

- LEA will create a screening tool that will be used to determine professional development providers.

Screening tool must include a resume, contacting references, professional experience in related to service provided and a formal proposal that includes goals based on school needs using current data.

Align other resources with the interventions (see Scoring Rubric-Attachment 4, part 9 &10).

- SEA will conduct an Instructional Core Focus Visit at both the district and school level each year for every Priority and Focus SIG school.
- LEA may choose one or more optional state level support which includes:
 - Network of Innovative School Leaders (NISL) <http://www.sde.idaho.gov/site/ssos/NISL.htm>
 - Idaho Superintendents Network (ISN) <http://www.sde.idaho.gov/site/ssos/suptNetworkofSupport/>
 - Idaho Building Capacity (IBC) <http://www.sde.idaho.gov/site/ssos/IBC.htm>
- Coordinate resources (in addition to SIG funds) needed to fully implement the selected reform model. Resources may include: personnel assignments, federal, state, and local funding sources and funding from private/public partnerships, technology (data systems, and assessment systems); partnerships with community agencies.
- Describe the systemic process in which the central office and building leaders will work together to analyze, coordinate, blend and align available resources to support the reform model.

Modify its practices or policies, if necessary, to enable it to implement the interventions fully and effectively (see Scoring Rubric-Attachment 4, part 5d).

- Identifies a process to review current practices and policies which support or impede reform efforts at the identified Priority and Focus schools. Evidence provided by the district may include: timeline for review of current policies and practices; process for annual review and revision of board policies and procedures; opportunity for stakeholder involvement and input; data used to assess implementation of reform model, and impact.
- Identifies processes and policies related to recruiting and retaining highly effective educators to work in the LEA's persistently low-achieving schools.
- Describes processes for intentional, frequent communications between superintendent/district central office and staff in Priority and Focus schools. (Response should include multiple methods for ongoing communication and opportunities for collaboration.)
- Describes the process to examine system-wide alignment of programs and practices with the reform model. (May include: identification of current programs and practices which may support or impede intervention, description of timeline and data collected, strategies for aligning programs with required actions.)
- Describes other district procedures and practices to support full and effective implementation of the reform model (e.g. staffing, calendar/time, and budgeting).

Sustain the reforms after funding period ends (see Scoring Rubric-Attachment 4, part 10).

- Describes how support and progress will be sustained after SIG funds end.

LEA response may include:

- Board adopting policies and practices.
- Systems and supports for Priority and Focus schools to sustain changes (designated district liaison, retention of highly effective educators, extended learning time, and new governance model).

- Systems of support for Priority and Focus schools to sustain changes over time.
- Tools, systems, and practices supporting the use of data to inform district, school, and classroom decision making.
- Establishing an annual process for goal setting (within content areas and for both all students and individual subgroups).
- Establishing a process for ongoing job-embedded professional development.
- Calendar and schedule which provides extended learning time (both students and staff).
- System for continued alignment of curriculum.
- Budget which uses federal, state, and local education funding to sustain reform.
- Decision-making processes at the district and school levels which provide for multiple opportunities for stakeholder involvement and input.

B-1. ADDITIONAL EVALUATION CRITERIA: In addition to the evaluation criteria listed in Section B, the SEA must evaluate the following information in an LEA's budget and application:

(1) How will the SEA review an LEA's proposed budget with respect to activities carried out during the pre-implementation period² to help an LEA prepare for full implementation in the following school year?

(2) How will the SEA evaluate the LEA's proposed activities to be carried out during the pre-implementation period to determine whether they are allowable?

² "Pre-implementation" enables an LEA to prepare for full implementation of a school intervention model at the start of the 2014–2015 school year. For a full description of pre-implementation, please refer to section J of the SIG Guidance.

Response to Section B-1 Additional Evaluation Criteria:

(1) How will the SEA review an LEA's proposed budget with respect to activities carried out during the pre-implementation period² to help an LEA prepare for full implementation in the following school year?

A team of reviewers at the Idaho SDE, located within the Division of Statewide System of Support, will review an LEA's proposed budget with respect to activities carried out during the pre-implementation period. This review will occur as part of the regular application approval process using the scoring guide (see Scoring Rubric-Attachment 4, part 10) that will be used with LEA applications. Pre-implementation budget and

activities will thus be reviewed in the following manner.

- Determining whether or not the budget falls within the parameters of the LEA's first-year SIG grant, which may be no less than \$50,000 and no more than \$2 million.
- Examining the reasonableness and necessity of the budgeted amounts and whether or not the proposed activities align with the implementation requirements of the intervention model that will be used in the 2014-15 school year.
- Evaluating whether or not the LEA has been thoughtful and deliberate in planning for such things as:
 - The budgeted amount covers not only the pre-implementation activities but also the first-year activities required as part of the intervention model.
 - The budgeted amount directly relates to the full and effective implementation of the model selected by the LEA, addresses the needs identified by the LEA, and advances the overall goal of the SIG program of improving student academic achievement in its identified schools.

(2) How will the SEA evaluate the LEA's proposed activities to be carried out during the pre-implementation period to determine whether they are allowable?

A team of reviewers at the Idaho SDE, located within the Division of Statewide System of Support, will evaluate the LEA's proposed activities to be carried out during the pre-implementation period to determine whether they are allowable by ensuring there is alignment between the activity carried out and the intent and requirements of the selected intervention model. This review will occur as part of the regular application approval process using the scoring guide (see Scoring Rubric-Attachment 4, part 10) that will be used with LEA applications. Pre-implementation activities will thus be evaluated with considerations such as the following:

(A) Are the proposed LEA activities to engage families and the community in preparation for the intervention model allowable? For example, are the funds being used for such things as:

- Conduct community meetings, gather input, inform parents/families, and gauge the needs of the community and its students?
- Communicate with families and local stakeholders about the school's status and need for improvement, options for choice, and other services available to support the needs of their students?
- Assist families in the decisions surrounding the transition to a new school in the event of a school closure?

(B) Are the proposed LEA activities to conduct a rigorous review of external providers allowable? For example, are the funds being used for such things as:

- Developing an appropriate RFP to find a successful CMO or EMO available in their area of the state?
- Recruiting, screening, and selecting external providers who can assist in the necessary preparations for implementing the intervention model?

(C) Are the proposed LEA activities related to staffing allowable? For example, are the funds being used for such things as:

- Recruit and hire a new principal
- Design a district and school leadership team
- Establish a Lead Partner
- Evaluate existing staff and determine what changes may be needed

(D) Are the LEA proposed activities for providing instructional support programs to the students in the school allowable? For example, are the funds being used for such things as:

- Remediating the academic needs of current students using evidence based programs and material?
- Planning for the achievement of specific subgroups (Native American, Hispanic, Limited English Proficient, Students with Disabilities)?
- Identifying and selecting curricular materials, programs, and professional development that are evidence based and which are needed to improve the instructional core of the school's program?
- Compensating staff for collaboration, planning, and data analysis that will result in improved outcomes in the current year and when the intervention model is implemented in 2014-15?

(E) Are the LEA proposed activities for professional development and support allowable? For example, are the funds being used for such things as:

- Training staff at all levels on the implementation of new or revised instructional programs, policies, or processes?
- Preparing for and implementing a job-embedded coaching model?
- Structuring collaborative times, processes, and procedures that connect data-driven decision-making to instructional planning and delivery?
- Designing and implementing a common instructional framework and/or evaluation model?

Examples of Pre-Implementation Activities

The following are examples of permissible SIG-related activities that may be carried out in the 2013–2014 school year in preparation for full implementation in the 2014–2015 school year. Reviewers will use these as examples for evaluation purposes when reviewing proposals. As such, they are possible activities that an LEA may carry out using SIG funds in the spring or summer prior to full implementation and should not be seen as exhaustive or as required. Rather, they illustrate possible activities, depending on the needs of particular SIG schools:

- **Family and Community Engagement:** Hold community meetings to review school performance, discuss the school intervention model to be implemented, and develop school improvement plans in line with the intervention model selected; survey students and parents to gauge needs of students, families, and the community; communicate with parents and the community about school status, improvement plans, choice options, and local service providers for health, nutrition, or social services through press releases, newsletters, newspaper announcements, parent outreach coordinators, hotlines, and direct mail; assist families in transitioning to new schools if their current school is implementing the closure model by providing counseling or holding meetings specifically regarding their choices; or hold open houses or orientation activities specifically for students attending a new school if their prior school is implementing the closure model.
- **Rigorous Review of External Providers:** Conduct the required rigorous review process to select a charter school operator, a CMO, or an EMO and contract with that entity; or properly recruit, screen, and select any external providers that may be necessary to assist in planning for the implementation of an intervention model.
- **Staffing:** Recruit and hire the incoming principal, leadership team, instructional staff, and administrative support; or evaluate the strengths and areas of need of current staff.

- **Instructional Programs:** Provide remediation and enrichment to students in schools that will implement an intervention model at the start of the 2014-15 school year through programs with evidence of raising achievement; identify and purchase instructional materials that are research-based, aligned with Idaho Core Standards <http://www.sde.idaho.gov/site/ICS/> and have data-based evidence of raising student achievement; or compensate staff for instructional planning, such as examining student data, developing a curriculum that is aligned to Idaho Core Standards and aligned vertically from one grade level to another, collaborating within and across disciplines, and devising student assessments.
- **Professional Development and Support:** Train staff on the implementation of new or revised instructional programs and policies that are aligned with the school's comprehensive instructional plan that includes Idaho Core Standards and the school's intervention model; provide instructional support for returning staff members, such as classroom coaching, structured common planning time, mentoring, consultation with outside experts, and observations of classroom practice, that is aligned with the school's comprehensive instructional plan and the school's intervention model; or train staff on the new evaluation system and locally adopted competencies.
- **Implement/Pilot an evaluation system for teachers and principals at schools receiving SIG funds to implement a transformation model:** An LEA may use SIG funds to implement the rigorous, transparent, and equitable evaluation systems for teachers and principals that are required in schools implementing the transformation model. To meet the requirements of the transformation model, the pilot evaluation system must take into account data on student growth as a significant factor as well as other factors, such as multiple observation-based assessments of performance, on-going collections of professional practice reflective of student achievement, and high school graduation rates. The pilot evaluation system must also be designed and developed with teacher and principal involvement. Although an LEA might want to establish and implement a teacher and principal evaluation system that includes all teachers and principals within the LEA, SIG funds may not be used for district-wide activities. However, prior to launching a district-wide teacher and principal evaluation system, an LEA may use SIG funds to pilot the system for teachers and principals only at schools that are being served with SIG funds to ensure that the system is a useful tool that operates as intended. Similarly, an LEA may use SIG funds to support the salaries of evaluators who, as part of the LEA's preparation to fully implement an intervention model, observe and evaluate teachers in schools that are receiving SIG funds to begin implementing an intervention model at the beginning of the 2014 school year.
- **Preparation for Accountability Measures:** Develop and pilot a data system for use in SIG-funded schools; analyze data on leading baseline indicators; or develop and adopt interim assessments for use in SIG-funded schools. In general, SIG funds may not be used to supplant non-Federal funds, but only to supplement non-Federal funding provided to SIG schools. In particular, an LEA must continue to provide all non-Federal funds that would have been provided to the school in the absence of SIG funds. This requirement applies to all funding related to full implementation, including pre-implementation activities.

In sum, the Idaho SDE will evaluate the LEA's proposed activities to be carried out during the pre-implementation period by holding them up against the intent and requirements of the selected intervention model as indicated within the Final Requirements and as further explained and clarified in the FY 2010 SIG Guidance. Pre-implementation activities will be deemed allowable to the degree that they specifically support the required components of the model and to the degree which they are supplemental and do not supplant non-Federal funds. The SEA will use the scoring rubric to evaluate LEAs proposed activities (Attachment 4)

C. TIMELINE: An SEA must describe its process and timeline for approving LEA applications.

Process and Timeline

A. **Process** – 95% of the state’s allocation from the USED SIG funds will be allocated and awarded as prescribed in federal guidelines, and priority will be given to districts based on the final requirements:

- SDE will give first priority to districts that apply on behalf of and have the capacity to serve Priority and Focus schools.

B. **Timeline** - Districts will be notified of eligibility within 30 days of the State’s SIG application being approved by the US Department of Education (USED). With the notice of eligibility, a copy of the LEA application will be provided (i.e., the Directions for LEAs, the Application for LEAs, and the Scoring Rubric).

The Idaho SDE will follow the following 2014 timeline:

- March 1 Submission of District Applications
- March 18 Webinar (invite all eligible districts with Priority and Focus schools to participate, with the purpose of explaining the intervention models and application process. The webinar will go over:
 - i. The State’s Application for 1003(g) funds
 - ii. Brief description of the purpose and goals of grant
 - iii. Brief description of the required intervention model choices
 - iv. District Application due date
 - v. Directions to LEAs for the District Application
 - vi. The application process for LEAs
 - vii. The Scoring Rubric used by reviewers
 - viii. The method for receiving technical assistance for the application process
 - ix. Post-approval processes and expectations
- May 1st District Applications Due
- May 14th Training for both reviewers and technical assistance providers.
- May 15-16 Proposal reviews
- May 27 Award announcements
- ISDE is making three year awards. Allocated funds using 2013 funds will be available to successful applicants after approval. An award announcement will be sent to districts and posted on the ISDE website.
- May 29 Approved applications will be posted to SDE’s web site
- Districts will begin any planned pre-implementation processes upon approval and through August 2014.

Districts and Priority and Focus schools will begin implementation of selected intervention models at the beginning of the 2014-15 school year.

D. DESCRIPTIVE INFORMATION: An SEA must include the information set forth below.

(1) Describe the SEA’s process for reviewing an LEA’s annual goals for student achievement for its Tier I and Tier II schools, or for its priority schools, as applicable, and how the SEA will determine whether to renew an LEA’s School Improvement Grant with respect to one or more Tier I or Tier II schools, or one or more priority schools, in at LEA that is not meeting those goals and making progress on the leading indicators in section III of the final requirements.

(2) Describe the SEA’s process for reviewing the goals an LEA establishes for its Tier III schools (subject to approval by the SEA) and how the SEA will determine whether to renew an LEA’s School Improvement Grant with respect to one or more Tier III schools in the LEA that are not meeting those goals. If an SEA is

requesting the priority schools list waiver, it need not provide this information, as it will have no Tier III schools.

(3) Describe how the SEA will monitor each LEA that receives a School Improvement Grant to ensure that it is implementing a school intervention model fully and effectively in the Tier I and Tier II schools, or the priority schools, as applicable, the LEA is approved to serve.

(4) Describe how the SEA will prioritize School Improvement Grants to LEAs if the SEA does not have sufficient school improvement funds to serve all eligible schools for which each LEA applies.

(5) Describe the criteria, if any, which the SEA intends to use to prioritize among Tier III schools. If an SEA is requesting the priority schools list waiver, it need not provide this information, as it will have no Tier III schools.

(6) If the SEA intends to take over any Tier I or Tier II schools, or any priority schools, as applicable, identify those schools and indicate the school intervention model the SEA will implement in each school.

(7) If the SEA intends to provide services directly to any schools in the absence of a takeover, identify those schools and, for Tier I or Tier II schools, or for priority schools, as applicable, indicate the school intervention model the SEA will implement in each school and provide evidence of the LEA's approval to have the SEA provide the services directly.

³ If, at the time an SEA submits its application, it has not yet determined whether it will provide services directly to any schools in the absence of a takeover, it may omit this information from its application. However, if the SEA later decides that it will provide such services, it must amend its application to provide the required information.

(1) Describe the SEA's process for reviewing an LEA's annual goals for student achievement for its Tier I and Tier II schools, or for its priority schools, as applicable, and how the SEA will determine whether to renew an LEA's School Improvement Grant with respect to one or more Tier I or Tier II schools, or one or more priority schools, in at LEA that is not meeting those goals and making progress on the leading indicators in section III of the final requirements.

The SDE's process for reviewing the district's annual goals for student achievement and if applicable annual goals for reducing dropout rate, for its Priority and Focus schools will include (see Scoring Rubric-Attachment 4, part 7).

:

- Baseline CEE survey data (perceptual data about Educational Effectiveness).
- Summary of current classroom observation data (if not currently in place, then the district will report on its progress towards implementing regular walk-through observations in each of the Priority and Focus schools).
- Tri-annual reports of student achievement data for each participating school (first, fifth, and ninth month of the academic year). The reports shall include (at a minimum):
 - The prior spring's ISAT data. (Except for the 2014 SBAC implementation year)
 - Idaho Reading Indicators results (if applicable).
 - Primary Math Assessment results (if applicable).
 - Results of local interim or formative assessments (if not currently in place then the district will report on its progress towards implementing interim and formative assessments).

(2) Describe the SEA's process for reviewing the goals an LEA establishes for its Tier III schools (subject to approval by the SEA) and how the SEA will determine whether to renew an LEA's School Improvement Grant with respect to one or more Tier III schools in the LEA that are not meeting those goals. If an SEA is requesting the priority schools list waiver, it need not provide this information, as it will have no Tier III schools.

Idaho SDE will not serve tier III schools because of ISDE's approved ESEA Flexibility waiver and waiver to fund focus schools.

(3) Describe how the SEA will monitor each LEA that receives a School Improvement Grant to ensure that it is implementing a school intervention model fully and effectively in the Tier I and Tier II schools, or the priority schools, as applicable, the LEA is approved to serve.

The SDE will monitor (at least 7 times) each district that receives a SIG to ensure that it is implementing a reform model fully and effectively in the Priority and Focus schools that it has been approved to serve. The monitoring process will include:

- Oversight by the Idaho SDE Director of the Statewide System of Support (within the Statewide System of Support Division of the SDE).
- The Director will:
 - Oversee the scheduling of Instructional Core Focus Visits in each of the LEAs and schools which will occur each year for Priority and Focus SIG schools.
 - Schedule review of implementation progress (both through the State online strategic planning tool (i.e., the WISE Tool, designed as "Indistar" by the federally funded Center on Innovation and Improvement) and onsite visits from regional School Improvement Coordinators two or more times per year for both Priority and Focus schools.
 - Schedule phone and in-person interviews with key district and school leaders at least two times per year for both Priority and Focus schools .
 - Review of quarterly cash balance reports for each funded LEA every quarter.

(4) Describe how the SEA will prioritize School Improvement Grants to LEAs if the SEA does not have sufficient school improvement funds to serve all eligible schools for which each LEA applies.

In the event that the SDE does not have sufficient funds to serve all eligible schools for which each district applies, allocations will be prioritized as follows:

- Priority Schools with a current status of "in need of improvement" will have first priority.
- Focus Schools with a current status of "in need of improvement" will then be awarded funds.
- Districts that apply to serve Priority and/or Focus schools will be based on scoring rubric (attachment 4).
- Awards will only be made to LEAs applying to serve Priority and Focus schools in the state which districts have both committed to serve and which have the capacity to fully implement the requirements of the selected intervention model.

(5) Describe the criteria, if any, which the SEA intends to use to prioritize among Tier III schools. If an SEA is requesting the priority schools list waiver, it need not provide this information, as it will have no Tier III schools.

Idaho SDE will not serve tier III schools because of ISDE's approved ESEA Flexibility waiver and waiver to fund focus schools.

(6) If the SEA intends to take over any Tier I or Tier II schools, or any priority schools, as applicable, identify those schools and indicate the school intervention model the SEA will implement in each school.

At this time, the Idaho SDE has not elected to take over any Priority or Focus schools in the state and thus cannot identify such schools. If at some point in the future the State elects to take over a Priority or Focus school, the State will amend this section of its application with the USED, identify such schools, indicate the intervention model to be used, and post the amended State SIG application on its website within 48 hours of approval from USED.

(7) If the SEA intends to provide services directly to any schools in the absence of a takeover, identify those schools and, for Tier I or Tier II schools, or for priority schools, as applicable, indicate the school intervention model the SEA will implement in each school and provide evidence of the LEA's approval to have the SEA provide the services directly.

³ If, at the time an SEA submits its application, it has not yet determined whether it will provide services directly to any schools in the absence of a takeover, it may omit this information from its application. However, if the SEA later decides that it will provide such services, it must amend its application to provide the required information.

The SEA will include in the LEA application services that the LEA may request for Direct Services from the SEA with the knowledge that Direct Services are optional. Where there are more than one school in an LEA applying, each school will have the option for Direct Services which include:

- Idaho Building Capacity Project (optional)
- Idaho Superintendent's Network (optional)
- Network of Innovative School Leaders for Principals (optional)

E. ASSURANCES: The SEA must provide the assurances set forth below.

By submitting this application, the SEA assures that it will do the following (check each box):

- Comply with the final requirements and ensure that each LEA carries out its responsibilities outlined in the final requirements.
- Award each approved LEA a School Improvement Grant in an amount that is of sufficient size and scope to implement the selected intervention in each Tier I and Tier II school, or each priority school, as applicable, that the SEA approves the LEA to serve.
- Monitor and evaluate the actions an LEA has taken, as outlined in its approved SIG application, to recruit, select and provide oversight to external providers to ensure their quality.
- Monitor and evaluate the actions the LEA has taken, as outlined in its approved SIG application, to sustain

the reforms after the funding period ends and provide technical assistance to LEAs on how they can sustain progress in the absence of SIG funding.

If a Tier I or Tier II school, or priority school, as applicable, implementing the restart model becomes a charter school LEA, hold the charter school operator or charter management organization accountable, or ensure that the charter school authorizer holds the respective entity accountable, for meeting the final requirements.

Post on its Web site, within 30 days of awarding School Improvement Grants, all final LEA applications and a summary of the grants that includes the following information: name and NCES identification number of each LEA awarded a grant; total amount of the three year grant listed by each year of implementation; name and NCES identification number of each school to be served; and type of intervention to be implemented in each Tier I and Tier II school or priority school, as applicable.

Report the specific school-level data required in section III of the final SIG requirements.

F. SEA RESERVATION: The SEA may reserve an amount not to exceed five percent of its School Improvement Grant for administration, evaluation, and technical assistance expenses.

Idaho intends to reserve five percent of its 1003(g) School Improvement Grant (SIG) funds for administration and technical assistance. Idaho expects the five percent reservation to amount to approximately \$95,000. The Idaho Department of Education will utilize these funds to pay for administrative costs associated with personnel. Specifically, portions of employee salaries within the division of Student Achievement & School Improvement will be funded through the SEA reservation in relation to time spent on School Improvement activities and technical assistance related to the grant. Additionally, the state intends to coordinate and oversee the technical assistance that is paid for by LEAs in the activities outlined in the LEA Application, such as the Idaho Building Capacity project. Therefore, the SEA reservation amount will contribute to costs associated with travel, meetings, and other technical assistance. Lastly, the state intends to supplement these activities and expenses through the use of the State's 1003(g) administrative set-aside in order that school improvement efforts will be provided seamlessly between funding streams.

G. CONSULTATION WITH STAKEHOLDERS

By checking this box, the SEA assures that it has consulted with its Committee of Practitioners regarding the information set forth in its application.

H. WAIVERS: SEAs are invited to request waivers of the requirements set forth below. An SEA must check the corresponding box(es) to indicate which waiver(s) it is requesting.

Idaho requests a waiver of the State-level requirements it has indicated below. The State believes that the requested waiver(s) will increase its ability to implement the SIG program effectively in eligible schools in the State in order to improve the quality of instruction and raise the academic achievement of students in Tier I, Tier II, and Tier III schools or in its priority and focus schools, as applicable.

Waiver 1: Tier II waiver

In order to enable the State to generate new lists of Tier I, Tier II, and Tier III schools for its FY 2013 competition, waive paragraph (a)(2) of the definition of "persistently lowest-achieving schools" in Section I.A.3 of the SIG final requirements and incorporation of that definition in identifying Tier II schools under Section I.A.1(b) of those requirements to permit the State to include, in the pool of secondary schools from which it

determines those that are the persistently lowest-achieving schools in the State, secondary schools participating under Title I, Part A of the ESEA that have not made adequate yearly progress (AYP) for at least two consecutive years or are in the State's lowest quintile of performance based on proficiency rates on the State's assessments in reading/language arts and mathematics combined.

Assurance

The State assures that it will include in the pool of schools from which it identifies its Tier II schools all Title I secondary schools not identified in Tier I that either (1) have not made AYP for at least two consecutive years; or (2) are in the State's lowest quintile of performance based on proficiency rates on the State's assessments in reading/language arts and mathematics combined. Within that pool, the State assures that it will identify as Tier II schools the persistently lowest-achieving schools in accordance with its approved definition. The State is attaching the list of schools and their level of achievement (as determined under paragraph (b) of the definition of "persistently lowest-achieving schools") that would be identified as Tier II schools without the waiver and those that would be identified with the waiver. The State assures that it will ensure that any LEA that chooses to use SIG funds in a Title I secondary school that becomes an eligible Tier II school based on this waiver will comply with the SIG final requirements for serving that school.

Waiver 2: n-size waiver

In order to enable the State to generate new lists of Tier I, Tier II, and Tier III schools for its FY 2013 competition, waive the definition of "persistently lowest-achieving schools" in Section I.A.3 of the SIG final requirements and the use of that definition in Section I.A.1(a) and (b) of those requirements to permit the State to exclude, from the pool of schools from which it identifies the persistently lowest-achieving schools for Tier I and Tier II, any school in which the total number of students in the "all students" group in the grades assessed is less than [Please indicate number].

Assurance

The State assures that it determined whether it needs to identify five percent of schools or five schools in each tier prior to excluding small schools below its "minimum n." The State is attaching, and will post on its Web site, a list of the schools in each tier that it will exclude under this waiver and the number of students in each school on which that determination is based. The State will include its "minimum n" in its definition of "persistently lowest-achieving schools." In addition, the State will include in its list of Tier III schools any schools excluded from the pool of schools from which it identified the persistently lowest-achieving schools in accordance with this waiver.

Waiver 3: Priority schools list waiver

In order to enable the State to replace its lists of Tier I, Tier II, and Tier III schools with its list of priority schools that meet the definition of "priority schools" in the document titled *ESEA Flexibility* and that were identified in accordance with its approved request for ESEA flexibility, waive the school eligibility requirements in Section I.A.1 of the SIG final requirements.

Assurance

The State assures that its methodology for identifying priority schools, approved through its ESEA flexibility request, provides an acceptable alternative methodology for identifying the State's lowest-performing schools and thus is an appropriate replacement for the eligibility requirements and definition of persistently lowest-achieving schools in the SIG final requirements.

Waiver 4: Period of availability of FY 2013 funds waiver

Note: This waiver only applies to FY 2013 funds for the purpose of making three-year awards to eligible

LEAs.

Waive section 421(b) of the General Education Provisions Act (20 U.S.C. § 1225(b)) to extend the period of availability of FY 2013 school improvement funds for the SEA and all of its LEAs to September 30, 2017.

WAIVERS OF LEA REQUIREMENTS

Idaho requests a waiver of the requirements it has indicated below. These waivers would allow any local educational agency (LEA) in the State that receives a School Improvement Grant to use those funds in accordance with the final requirements for School Improvement Grants and the LEA's application for a grant. The State believes that the requested waiver(s) will increase the quality of instruction for students and improve the academic achievement of students in Tier I, Tier II, or Tier III schools by enabling an LEA to use more effectively the school improvement funds to implement one of the four school intervention models in its Tier I, Tier II, or Tier III schools. The four school intervention models are specifically designed to raise substantially the achievement of students in the State's Tier I, Tier II, and Tier III schools.

Waiver 5: School improvement timeline waiver

Note: An SEA that requested and received the school improvement timeline waiver for the FY 2012 competition and wishes to also receive the waiver for the FY 2013 competition must request the waiver again in this application.

An SEA that has been approved for ESEA flexibility need not request this waiver as it has already received a waiver of the requirement in section 1116(b) of the ESEA to identify schools for improvement through its approved ESEA flexibility request.

Schools that started implementation of a turnaround or restart model in the 2011-2012, 2012-2013, 2013-2014 school years cannot request this waiver to "start over" their school improvement timeline again.

Waive section 1116(b)(12) of the ESEA to permit LEAs to allow their Tier I, Tier II, and Tier III Title I participating schools that will fully implement a turnaround or restart model beginning in the 2014–2015 school year to "start over" in the school improvement timeline.

Assurances

The State assures that it will permit an LEA to implement this waiver only if the LEA receives a School Improvement Grant and requests the waiver in its application as part of a plan to implement the turnaround or restart model beginning in the 2014–2015 school year in a school that the SEA has approved it to serve. As such, the LEA may only implement the waiver in Tier I, Tier II, and Tier III schools, as applicable, included in its application.

The State assures that, if it is granted this waiver, it will submit to the U.S. Department of Education a report that sets forth the name and NCES District Identification Number for each LEA implementing a waiver.

Waiver 6: Schoolwide program waiver

Note: An SEA that requested and received the schoolwide program waiver for the FY 2012 competition and wishes to also receive the waiver for the FY 2013 competition must request the waiver again in this application.

An SEA that has been approved for ESEA flexibility need not request this waiver as it has already received a waiver of the schoolwide poverty threshold through its approved ESEA flexibility request.

Waive the 40 percent poverty eligibility threshold in section 1114(a)(1) of the ESEA to permit LEAs to implement a schoolwide program in a Tier I, Tier II, or Tier III participating school that does not meet the poverty threshold and is fully implementing one of the four school intervention models.

Assurances

The State assures that it will permit an LEA to implement this waiver only if the LEA receives a School Improvement Grant and requests to implement the waiver in its application. As such, the LEA may only implement the waiver in Tier I, Tier II, and Tier III schools, as applicable, included in its application.

The State assures that, if it is granted this waiver, it will submit to the U.S. Department of Education a report that sets forth the name and NCES District Identification Number for each LEA implementing a waiver.

I. ASSURANCE OF NOTICE AND COMMENT PERIOD – APPLIES TO ALL WAIVER REQUESTS

The State assures that, prior to submitting its School Improvement Grant application, the State provided all LEAs in the State that are eligible to receive a School Improvement Grant with notice and a reasonable opportunity to comment on its waiver request(s) and has attached a copy of that notice as well as copies of any comments it received from LEAs. The State also assures that it provided notice and information regarding the above waiver request(s) to the public in the manner in which the State customarily provides such notice and information to the public (e.g., by publishing a notice in the newspaper; by posting information on its Web site) and has attached a copy of, or link to, that notice.

PART II: LEA APPLICATION

An SEA must develop an LEA application form that it will use to make subgrants of school improvement funds to eligible LEAs (see Attachment 3).

LEA APPLICATION REQUIREMENTS

The LEA application form that the SEA uses must contain, at a minimum, the information set forth below. An SEA may include other information that it deems necessary in order to award school improvement funds to its LEAs.

A. SCHOOLS TO BE SERVED: An LEA must include the following information with respect to the schools it will serve with a School Improvement Grant.

An LEA must identify each Tier I, Tier II, and Tier III school, or each priority school, as applicable, the LEA commits to serve and identify the model that the LEA will use in each Tier I and Tier II school, or in each priority school, as applicable.

SCHOOL NAME	NCES ID #	PRIORITY (if applicable)	TIER I	TIER II	TIER III	INTERVENTION (TIER I AND II/PRIORITY ONLY)			
						turnaround	restart	closure	transformation

Note: An LEA that has nine or more Tier I and Tier II schools may not implement the transformation model in more than 50 percent of those schools.

B. DESCRIPTIVE INFORMATION: An LEA must include the following information in its application for a School Improvement Grant.

- (1) For each Tier I and Tier II school, or each priority school, that the LEA commits to serve, the LEA must demonstrate that the LEA has analyzed the needs of each school, such as instructional programs, school leadership and school infrastructure, and selected interventions for each school aligned to the needs each school has identified.
- (2) The LEA must ensure that each Tier I and Tier II school, or each priority school, that it commits to serve receives all of the State and local funds it would receive in the absence of the school improvement funds and that those resources are aligned with the interventions.
- (3) The LEA must describe actions it has taken, or will take, to—
 - Determine its capacity to provide adequate resources and related support to each Tier I and Tier II school, or each priority school, identified in the LEA’s application in order to implement, fully and effectively, the required activities of the school intervention model it has selected;
 - Design and implement interventions consistent with the final requirements of the turnaround model, restart model, school closure, or transformation model;
 - Recruit, screen, and select external providers, if applicable, to ensure their quality;
 - Modify its practices or policies, if necessary, to enable its schools to implement the interventions fully and effectively; and,
 - Sustain the reforms after the funding period ends.
- (4) The LEA must include a timeline delineating the steps it will take to implement the selected intervention in each Tier I and Tier II school, or each priority school, identified in the LEA’s application.
- (5) The LEA must describe how it will monitor each Tier I and Tier II school, or each priority school, that receives school improvement funds including by-
 - Establishing annual goals for student achievement on the State’s assessments in both reading/language arts and mathematics; and,
 - Measuring progress on the leading indicators as defined in the final requirements.
- (6) For each Tier III school the LEA commits to serve, the LEA must identify the services the school will receive or the activities the school will implement.
- (7) The LEA must describe the goals it has established (subject to approval by the SEA) in order to hold

accountable its Tier III schools that receive school improvement funds.

- (8) As appropriate, the LEA must consult with relevant stakeholders regarding the LEA’s application and implementation of school improvement models in its Tier I and Tier II schools or in its priority schools, as applicable.

C. BUDGET: An LEA must include a budget that indicates the amount of school improvement funds the LEA will use each year in each Tier I, Tier II, and Tier III school, or each priority school, it commits to serve.

The LEA must provide a budget that indicates the amount of school improvement funds the LEA will use each year to—

- Implement the selected model in each Tier I and Tier II school, or priority school, it commits to serve;
- Conduct LEA-level activities designed to support implementation of the selected school intervention models in the LEA’s Tier I and Tier II schools or priority schools; and
- Support school improvement activities, at the school or LEA level, for each Tier III school identified in the LEA’s application.

Note: An LEA’s budget should cover three years of full implementation and be of sufficient size and scope to implement the selected school intervention model in each Tier I and Tier II school the LEA commits to serve. Any funding for activities during the pre-implementation period must be included in the first year of the LEA’s three-year budget plan.

An LEA’s budget for each year may not exceed the number of Tier I, Tier II, and Tier III schools, or the number of priority schools, it commits to serve multiplied by \$2,000,000 (not to exceed \$6,000,000 per school over three years).

Example:

LEA XX BUDGET					
	Year 1 Budget		Year 2 Budget	Year 3 Budget	Three-Year Total
	Pre-implementation	Year 1 - Full Implementation			
Tier I ES #1	\$257,000	\$1,156,000	\$1,325,000	\$1,200,000	\$3,938,000
Tier I ES #2	\$125,500	\$890,500	\$846,500	\$795,000	\$2,657,500
Tier I MS #1	\$304,250	\$1,295,750	\$1,600,000	\$1,600,000	\$4,800,000
Tier II HS #1	\$530,000	\$1,470,000	\$1,960,000	\$1,775,000	\$5,735,000
LEA-level Activities	\$250,000		\$250,000	\$250,000	\$750,000
Total Budget	\$6,279,000		\$5,981,500	\$5,620,000	\$17,880,500

D. ASSURANCES: An LEA must include the following assurances in its application for a School Improvement Grant.

The LEA must assure that it will—

- (1) Use its School Improvement Grant to implement fully and effectively an intervention in each Tier I and Tier II school, or each priority school, that the LEA commits to serve consistent with the final requirements;
- (2) Establish annual goals for student achievement on the State’s assessments in both reading/language arts and mathematics and measure progress on the leading indicators in section III of the final requirements in order to monitor each Tier I and Tier II school, or priority school, that it serves with school improvement

funds, and establish goals (approved by the SEA) to hold accountable its Tier III schools that receive school improvement funds;

- (3) If it implements a restart model in a Tier I or Tier II school, or priority school, include in its contract or agreement terms and provisions to hold the charter operator, charter management organization, or education management organization accountable for complying with the final requirements;
- (4) Monitor and evaluate the actions a school has taken, as outlined in the approved SIG application, to recruit, select and provide oversight to external providers to ensure their quality;
- (5) Monitor and evaluate the actions schools have taken, as outlined in the approved SIG application, to sustain the reforms after the funding period ends and that it will provide technical assistance to schools on how they can sustain progress in the absence of SIG funding; and,
- (6) Report to the SEA the school-level data required under section III of the final requirements.

E. WAIVERS: If the SEA has requested any waivers of requirements applicable to the LEA's School Improvement Grant, an LEA must indicate which of those waivers it intends to implement.

The LEA must check each waiver that the LEA will implement. If the LEA does not intend to implement the waiver with respect to each applicable school, the LEA must indicate for which schools it will implement the waiver.

- "Starting over" in the school improvement timeline for Tier I and Tier II Title I participating schools implementing a turnaround or restart model.
- Implementing a school-wide program in a Tier I or Tier II Title I participating school that does not meet the 40 percent poverty eligibility threshold.

Continuation Awards Only Application for Fiscal Year (FY) 2013 School Improvement Grants (SIG) Program

In the table below, list the schools that will receive continuation awards using FY 2013 SIG funds:

LEA NAME	SCHOOL NAME	COHORT #	PROJECTED AMOUNT OF FY 13 ALLOCATION
N/A			
TOTAL AMOUNT OF CONTINUATION FUNDS PROJECTED FOR ALLOCATION IN FY 13:			

In the table below, list any LEAs with one or more schools for which funding under previously awarded SIG grants will not be renewed. For each such school, note the amount of unused remaining funds and explain how the SEA or LEA plans to use those funds as well as noting the explicit reason and process for reallocating those funds (e.g., reallocate to rural schools with SIG grants in cohort 2 who demonstrate a need for technology aimed at increasing student literacy interaction).

LEA NAME	SCHOOL NAME	DESCRIPTION OF HOW REMAINING FUNDS WERE OR WILL BE USED	AMOUNT OF REMAINING FUNDS
N/A			
TOTAL AMOUNT OF REMAINING FUNDS:			

School Improvement Grants (SIG) Program FY 2013 Assurances

By submitting this application, the SEA assures that it will do the following (check each box):

Use FY 2013 SIG funds solely to make continuation awards and will not make any new awards² to its LEAs.

- Use the renewal process identified in [State]'s most recently approved SIG application to determine whether to renew an LEA's School Improvement Grant.
- Monitor and evaluate the actions an LEA has taken, as outlined in its approved SIG application, to recruit, select and provide oversight to external providers to ensure their quality.
- Monitor and evaluate the actions the LEA has taken, as outlined in its approved SIG application, to sustain the reforms after the funding period ends and provide technical assistance to LEAs on how they can sustain progress in the absence of SIG funding.
- If a Tier I or Tier II school implementing the restart model becomes a charter school LEA, hold the charter school operator or charter management organization accountable, or ensure that the charter school authorizer holds the respective entity accountable, for meeting the final requirements.
- Report the specific school-level data required in section III of the final SIG requirements.

By submitting the assurances and information above, Idaho agrees to carry out its most recently approved SIG application and does not need to submit a new FY 2013 SIG application; however, the State must submit the signature page included in the full application package (page 3).

² A "new award" is defined as an award of SIG funds to an LEA for a school that the LEA was not previously approved to serve with SIG funds in the school year for which funds are being awarded—in this case, the 2014–2015 school year. New awards may be made with the FY 2013 funds or any remaining SIG funds not already committed to grants made in earlier competitions.

STATE DEPARTMENT OF EDUCATION

**INSTRUCTIONAL CORE
FOCUS VISIT**

Patterns of Practice
PROCESS MANUAL

Patterns of Practice: A School Improvement Process IDAHO VERSION

8/27/2010

IDAHO FOCUS VISIT PROCESS MANUAL

Information Tools Training

Positive results for students will come from changes in the knowledge, skill, and behavior of their teachers and parents. State policies and programs must provide the opportunity, support, incentive, and expectation for adults close to the lives of children to make wise decisions.

The Center on Innovation & Improvement helps regional comprehensive centers in their work with states to provide districts, schools, and families with the opportunity, information, and skills to make wise decisions on behalf of students. The Center on Innovation & Improvement is administered by the Academic Development Institute (Lincoln, IL) in partnership with the Temple University Institute for Schools and Society (Philadelphia, PA) and Little Planet Learning (Nashville, TN).

Section 6 - Frequently Asked Questions.....171

Section 1: Introduction

In order to provide support to districts and schools that fall into the in need of improvement category, it is critical for states to distinguish among those that are engaged in long-term improvement efforts and those that have not begun such a process (Elmore, 2003). States must determine the different needs of low-performing schools. They also need to include detailed information on the quality of teaching, learning, and leadership in identified schools. Furthermore, the National Governors' Center for Best Practices suggests that the State Educational Agency (SEA) might maximize the usefulness of this information by developing or adopting fine-tuned assessment tools that can provide specific data about classroom instruction. Additionally, the use of the information should inform educational practice.

Fullan (2005) advises higher-level educators (e.g., at the SEA level) to partner strategically with district and school leaders, outside technical assistance providers, researchers, and others who can assist states in creating an aligned, coherent, and coordinated education system focused on common goals around improving student learning and achievement.

At the request of the Office of the State Superintendent of Education (OSSE) in the District of Columbia, the Center on Innovation & Improvement and the Mid-Atlantic Comprehensive Center engaged in a process of developing a planning process/protocol for conducting annual school reviews. This process uses research-based standards and indicators to assess local educational agencies (LEAs) in the areas of academic and organizational performance as outlined in the No Child Left Behind Act of 2001 (NCLB) and has been named *Patterns of Practice School Review*. Idaho State Department of Education has taken the foundational work and research of the Patterns of Practice School Review and developed a model specific to Idaho's districts and schools needs. This model is called ***Instructional Core Focus Visit***.

The Instructional Core Focus Visit is based on 49 indicators found in *Handbook on Restructuring and Substantial School Improvement* (2007) published by the Center on Innovation & Improvement, one of the U.S. Department of Education's five national content centers in the Comprehensive Centers Program, and endorsed by the United States Department of Education, to provide action-oriented principles for improving schools drawing on the existing research base. The Idaho adopted version has been modified to only include the *School Improvement Success Rapid Indicators and District Improvement Success Indicators*. Modifications have been made through this

document to reflect and update changes based on selected Idaho Rapid Indicators, as reflected in the WISE (Ways to Improve School Effectiveness) Tool. These are research/evidence-based indicators associated with substantial school improvement. A set of nine standards was adopted to scaffold the indicators. Modifications have been made to these nine standards for the Idaho version. Indicators have been linked to the *9 Characteristics of High Performing Schools* and realigned to reflect these characteristics.

The purpose of the Instructional Core Focus Visit process is to meet the rigorous demands set forth in NCLB. The clearly stated purpose of NCLB is to ensure that all public school students are proficient in reading/language arts, mathematics, and science by 2014. Guidance for meeting NCLB requirements defines the structures that are to be in place to meet this goal. An example is the requirement that states must establish processes to identify schools/districts where students are not meeting the standards as well as a statewide system of support to strengthen the performance of schools and ensure that every child receives a quality education. The Instructional Core Focus Visit process can provide information to SEA's, LEA's, as well as schools themselves, to more effectively design professional development and technical assistance focused around improving student learning and achievement. More specifically, it is hoped that the results of Instructional Core Focus Visits will: 1) assist LEAs in addressing deficiencies and strengthening core academic subjects that may have caused the identified problems, and support the design of school improvement plans that promote high-quality professional development and 2) address the academic needs of the school.

The Focus Visit process looks for evidence of the presence of indicators associated with substantial school improvement and to the degree these indicators are observed and documented. It includes collecting detailed information on the quality of instruction, assessment, curriculum, planning, and parent involvement. Data collection activities include classroom observation, perceptual surveys and interviews with staff, and the review of documents related to the educational program at all instructional levels. The process was designed to be conducted by an outside team with expertise in the area of educational administration and pedagogy.

Sections 2-5 lay out the process for conducting a Instructional Core Focus Visit organized within four phases: Planning, Preparing, Conducting, Reporting and Follow-up. Section 6 contains a set of Frequently Asked Questions regarding the Instructional Core Focus Visit process.

Appendix 1-A: Conversion of Nine Characteristics of High Performing Schools to the Nine Standards of the POP manual

#	Characteristics of High Performing Schools	#	POP Standard
1	Clear & Shared Focus		
2	High Standards & Expectations for All Students	1 3 4 5	Curriculum Instruction Comp & Effective Planning School Culture
3	Effective School Leadership	5 7	School Culture Leadership
4	High Levels of Collaboration & Communication	4 5 8	Comp & Effective Planning School Culture Org. Structure & Resources
5	Curriculum, Instruction & Assessment Aligned w/State Standards	1 2 3	Curriculum Assessment & Evaluation Instruction
6	Frequent Monitoring of Learning & Teaching	2 3	Assessment & Evaluation Instruction
7	Focused Professional Development	6	Professional Development
8	Supportive Learning Environment		
9	High Levels of Family & Community Involvement	5 7 9	School Culture Leadership Parent & Community Involvement

Appendix 1-B: District and School WISE Indicator Framework

The indicators for this framework were adapted in part from the *New Jersey Collaborative Assessment & Planning for Achievement* document and the *Handbook on Restructuring and Substantial School Improvement from the Center on Innovation & Improvement*, and has been modified based on the Idaho Rapid School Improvement Indicators and Idaho District Improvement Success Indicators as reflected in the WISE Tool.

Clear and Shared Focus:

Characteristic 1	District Improvement Indicators
Clear and Shared Focus	District Context and Support for School Improvement
	IA08: The school board and superintendent present a unified vision for school improvement.
	District and the Change Process
	IB08: The district ensures that school improvement and restructuring plans include a clear vision of what the school will look like when restructured or substantially improved.

High Standards and Expectations for All Students:

Characteristic 2	District Improvement Indicators
High Standards and Expectations for All Students	District Context and Support for School Improvement
	IA07: The district sets district, school, and student subgroup achievement targets.
	IA09: The superintendent and other central office staff are accountable for school improvement and student learning outcomes.
	District and the Change Process
	IB06: For each restructuring school, the district ensures that the restructuring plan includes both changes in governance and a detailed plan for school improvement.
	IB07: The district ensures that school improvement and restructuring plans include research-based, field proven programs, practices, and models.

Characteristic 2	Rapid School Improvement Indicators
High Standards and Expectations for All Students	Classroom Instruction - Preparation
	III A01: All teachers are guided by a document that aligns standards, curriculum, instruction, and assessment.
	III A02: All teachers develop weekly lesson plans based on aligned units of instruction.
	III A05: All teachers maintain a record of each student’s mastery of specific learning objectives.
	III A06: All teachers test frequently using a variety of evaluation methods and maintain a record of the results.
	Classroom Instruction – Teacher Directed - Introduction
	III A09: All teachers clearly state the lesson’s topic, theme, and objectives.
	III A11: All teachers use modeling, demonstration, and graphics.
	Classroom Instruction – Teacher Directed - Presentation
	III A13: All teachers explain directly and thoroughly.
	III A16: All teachers use prompting/cueing.
	Classroom Instruction – Teacher –Student Interaction
	III A26: Teachers encourage students to check their own comprehension.
	Classroom Instruction – Student-Directed (Small Group, Independent Work)
	III A28: All teachers travel to all areas in which students are working.
	III A31: All teachers interact instructionally with students (explaining, checking, giving feedback).
	III A32: All teachers interact managerially with students (reinforcing rules, procedures).
	Classroom Instruction – Computer-Based Instruction
	III A35: Students are engaged and on task.
	III A40: All teachers assess student mastery in ways other than those provided by the computer program.
Classroom Instruction – Homework/Parent Communication	

Characteristic 2	Rapid School Improvement Indicators
	IIIB06: All teachers systematically report to parents the student's mastery of specific standards-based objectives.
	Classroom Instruction – Classroom Management
	IIIC01: When waiting for assistance from the teacher, students are occupied with curriculum-related activities provided by the teacher.
	IIIC05: All teachers use a variety of instructional modes.
	IIIC10: All teachers reinforce classroom rules and procedures by positively teaching them.
	IIIC12: All teachers engage all students (e.g., encourage silent students to participate).

Effective District/School Leadership:

Characteristic 3	District Improvement Indicators
Effective District Leadership – Central Office Role	District Context and Support for School Improvement
	IA04: The district provides incentives for staff who work effectively in hard-to-staff and restructured schools.
	IA10: The district regularly reallocates resources to support school, staff, and instructional efforts.
	IA05: The district contracts with external service providers for key services in restructured schools.
	IA12: The district intervenes early when a school is not making adequate progress.
	IA14: The district recruits, trains, supports, and places personnel to competently address the problems of schools in need of improvement.
	District and the Change Process
	IB02: The district examines existing school improvement strategies being implemented across the district and determines their value, expanding, modifying, and culling as evidence suggests.
	IB04: For each restructuring school, the district ensures that the restructuring options chosen reflect the particular strengths and weaknesses of the restructuring school.

Characteristic 3	District Improvement Indicators
	IB05: For each restructuring school, the district ensures that the restructuring plan reflects the resources available to ensure its success.
	IB09: The district ensures that an empowered change agent (typically the principal) is appointed to head each restructuring school.
	IB11: The district ensures that school improvement and restructuring plans include "quick wins," early successes in improvement.
	IB12: The district is prepared for setbacks, resistance, and obstacles on the path to substantial improvement.
	District-School Expectations
	IC04: District policies and procedures clarify the scope of site-based decision making granted a school and are summarized in a letter of understanding.

Characteristic 3	Rapid School Improvement Indicators
Effective School Leadership – Principal’s Role	IE06: The principal keeps a focus on instructional improvement and student learning outcomes.
	IE07: The principal monitors curriculum and classroom instruction regularly.
	IE10: The principal celebrates individual, team, and school successes, especially related to student learning outcomes.
	IE13: The principal offers frequent opportunities for staff and parents to voice constructive critique of the school’s progress and suggestions for improvement.

High Levels of Collaboration & Communication:

Characteristic 4	District Improvement Indicators
High Levels of Collaboration & Communication	District Context and Support for School Improvement
	IA01: The district includes municipal and civic leaders in district and school improvement planning and maintains regular communication with them.
	IA02: The district includes community organizations in district and

Characteristic 4	District Improvement Indicators
	school improvement planning and maintains regular communication with them.
	IA03: The district includes parent organizations in district & school improvement planning & maintains regular communication w/ them.
	District and the Change Process
	IB01: The district operates with district-level and school-level improvement teams.
	IB10: In restructuring schools, the district ensures that the change agent (typically the principal) is skilled in motivating staff and the community, communicating clear expectations, and focusing on improved student learning.
	District-School Expectations
	IC02: The district designates a central office contact person for the school, and that person maintains close communication with the school and an interest in its progress.
	IC03: District and school decision makers meet at least twice a month to discuss the school's progress.
	IC04: District policies and procedures clarify the scope of site-based decision making granted a school and are summarized in a letter of understanding.

Characteristic 4	Rapid School Improvement Indicators
High Levels of Collaboration & Communication	ID01: A team structure is officially incorporated into the school improvement plan and school governance policy.
	ID07: A Leadership Team consisting of the principal, teachers who lead the Instructional Teams, and other key professional staff meets regularly (twice a month or more for an hour each meeting).
	ID08: The Leadership Team serves as a conduit of communication to the faculty and staff.
	ID13: Instructional Teams meet for blocks of time (4 to 6 hour blocks, once a month; whole days before and after the school year) sufficient to develop and refine units of instruction and review student learning data.

Curriculum, Instruction and Assessments Aligned with State Standards:

Characteristic 5	District Improvement Indicators
Curriculum, Instruction and Assessments Aligned with State Standards	District-School Expectations
	IC05: The district provides a cohesive district curriculum guide aligned with state standards or otherwise places curricular expectation on the school.

Characteristic 5	Rapid School Improvement Indicators
Curriculum, Instruction and Assessments Aligned with State Standards	IIA01: Instructional Teams develop standards-aligned units of instruction for each subject and grade level.
	IIA02: Units of instruction include standards-based objectives and criteria for mastery.
	IC01: Units of instruction include specific learning activities aligned to objectives.
	IC03: Materials for standards-aligned learning activities are well-organized, labeled, and stored for convenient use by teachers.

Frequent Monitoring of Learning and Teaching:

Characteristic 6	District Improvement Indicators
Frequent Monitoring of Learning and Teaching	District Context and Support for School Improvement
	IA11: The district ensures that key pieces of user-friendly data are available in a timely fashion at the district, school, and classroom levels.
	IA13: The district works with the school to provide early and intensive intervention for students not making progress.
	District-School Expectations
	IC01: The school reports and documents its progress monthly to the superintendent, and the superintendent reports the school's progress to the school board.

Characteristic 6	Rapid School Improvement Indicators
Frequent Monitoring of Learning and Teaching	Classroom Assessment
	IIB01: Units of instruction include pre-/post-tests to assess student mastery of standards-based objectives.
	IIB04: Teachers individualize instruction based on pre-test results to provide support for some students and enhanced learning opportunities for others.
	IIB05: Teachers re-teach based on post-test results.
	Periodic Assessment
	IID06: Yearly learning goals are set for the school by the Leadership Team, utilizing student learning data.
	IID08: Instructional Teams use student learning data to assess strengths and weaknesses of the curriculum and instructional strategies.
	IID09: Instructional Teams use student learning data to plan instruction.
	IID10: Instructional Teams use student learning data to identify students in need of instructional support or enhancement.
	IID11: Instructional Teams review the results of unit pre-/post-tests to make decisions about the curriculum and instructional plans and to "red flag" students in need of intervention (both students in need of tutoring or extra help and students needing enhanced learning opportunities because of their early mastery of objectives).

Focused Professional Development:

Characteristic 7	District Improvement Indicators
Focused Professional Development	District Context and Support for School Improvement
	IA06: The district provides schools with technology, training, and support for integrated data collection, reporting, and analysis systems.
	District-School Expectations
	IC06: The district provides the technology, training, and supports to facilitate the school's data management needs.
	IC07: Professional development is built into the school schedule by

Characteristic 7	District Improvement Indicators
	the district, but the school is allowed discretion in selecting training and consultation that fit the requirements of its improvement/restructuring plan and its evolving needs.
	IC08: Staff development is built into the schedule for support staff (e.g., aides, clerks, custodians, cooks) as well as classroom teachers.

Characteristic 7	Rapid School Improvement Indicators
Focused Professional Development	IF01: The principal compiles reports from classroom observations, showing aggregate areas of strength and areas that need improvement without revealing the identity of individual teachers.
	IF02: The Leadership Team reviews the principal's summary reports of classroom observations and takes them into account in planning professional development.
	IF03: Professional development for teachers includes observations by the principal related to indicators of effective teaching and classroom management.
	IF04: Professional development for teachers includes observations by peers related to indicators of effective teaching and classroom management.
	IF05: Professional development for teachers includes self-assessment related to indicators of effective teaching and classroom management.
	IF06: Teachers are required to make individual professional development plans based on classroom observations.
	IF08: Professional development for the whole faculty includes assessment of strengths and areas in need of improvement from classroom observations of indicators of effective teaching.
	IF10: The principal plans opportunities for teachers to share their strengths with other teachers.

High Level of Family and Community Involvement:

(Indicators will be monitored through the Parent Involvement Application)

Characteristic 9	Rapid School Improvement Indicators
High Level of Family and Community Involvement	IE 13: The principal offers frequent opportunities for staff and parents to voice constructive critique of the school's progress and suggestions for improvement.
	IIIB01: All teachers maintain a file of communication with parents.
	IIIB06: All teachers systematically report to parents the student's mastery of specific standards-based objectives
	Parent Involvement Application Indicators
	PIA: A majority of the members of the School Community Council are parents of currently enrolled students and are not also employees of the school.
	PIA: Parents receive regular communication (absent jargon) about learning standards, their children's progress, and the parents' role in their children's school success.
	PIA: Parents receive practical guidance to encourage their children's regular reading habits at home.
PIA: Parents are given opportunities to meet with teachers to discuss both their children's progress in school and their children's home-based study and reading habits.	

Section 2: Planning the Focus Visit

The SDE initiates the Instructional Core Focus Visit activity in a planning phase that consists of two (2) parts: (1) selection of the school districts that are to participate in the Instructional Core Focus Visit process, and (2) scheduling the Instructional Core Focus Visits. The SDE undertakes these two activities in cooperation with the LEAs involved. The SDE prefers to precede these activities whenever possible by holding briefings for leadership in the LEAs regarding the Instructional Core Focus Visit process to promote understanding and cooperation.

Selection Process for Participating Districts:

To identify LEAs that are most in need of support from the State, the Idaho State Department of Education (ISDE) applies multiple layers of data analysis to evaluate districts and sort them according to a comprehensive view of their needs. This analysis consists of four components: the definition of the academic risk factors and local resources, an analysis of achievement data for at-risk populations, the consecutive number of years in school improvement status, and district graduation rates.

Population Definition

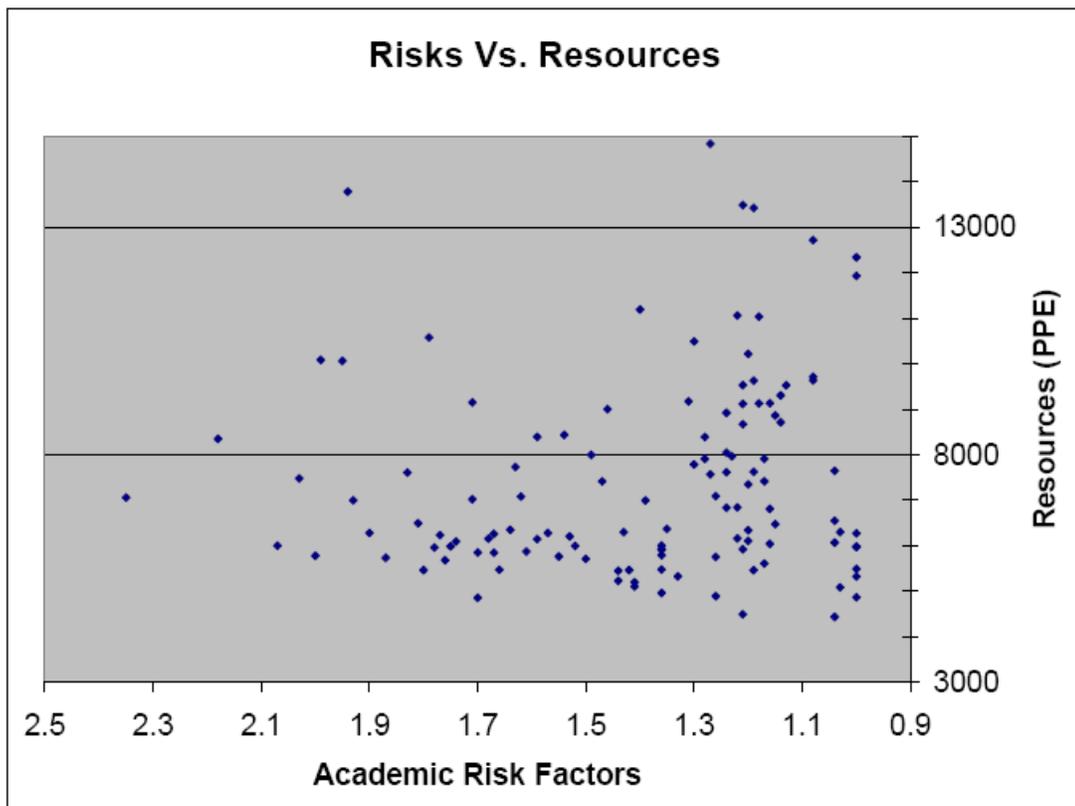

The first layer of data analysis involves defining each district's student population according to non-academic factors. By defining the local population of students, the State is able to make comparisons about the academic performance of each district to similar districts. This is done by plotting two factors against each other. All Title I districts in the State are classified into cells that indicate (a) the degree to which their students are traditionally considered to be At-Risk and (b) the financial resources made up of state and local dollars that are available to spend on the educational needs of their students. The relationship of these two variables forms the ***Risk Factors & Resources Scatterplot***.

Academic Risk is defined according to four demographic features. Students who are from families that are economically disadvantaged, students with disabilities, students from non-white ethnicity groups, and students with limited English proficiency are traditionally considered at risk. While educational systems can have an impact on all of these students, the reason that a child is placed in such a category is external to the school or district instructional impact. Therefore, Idaho defines one aspect of a district's population in relation to this external set of factors. For each of the four risk categories into which any individual student falls, a student receives a point. Thus, for example, a student who falls into none of the above risk factors receives a value of 0; a student who is economically disadvantaged and LEP receives a value of 2; a student who is LEP, economically disadvantaged, has disabilities, and is a non-white ethnicity¹ receives a

¹ Non-white ethnicity is grouped into one category for two reasons. Idaho is 85% white. The majority of the remaining population is Hispanic. However, in some school districts, the primary alternate ethnicity is Native American. Because ethnic groups are usually dichotomous in the districts, the criteria uses a dichotomous variable or white or non-white for analysis.

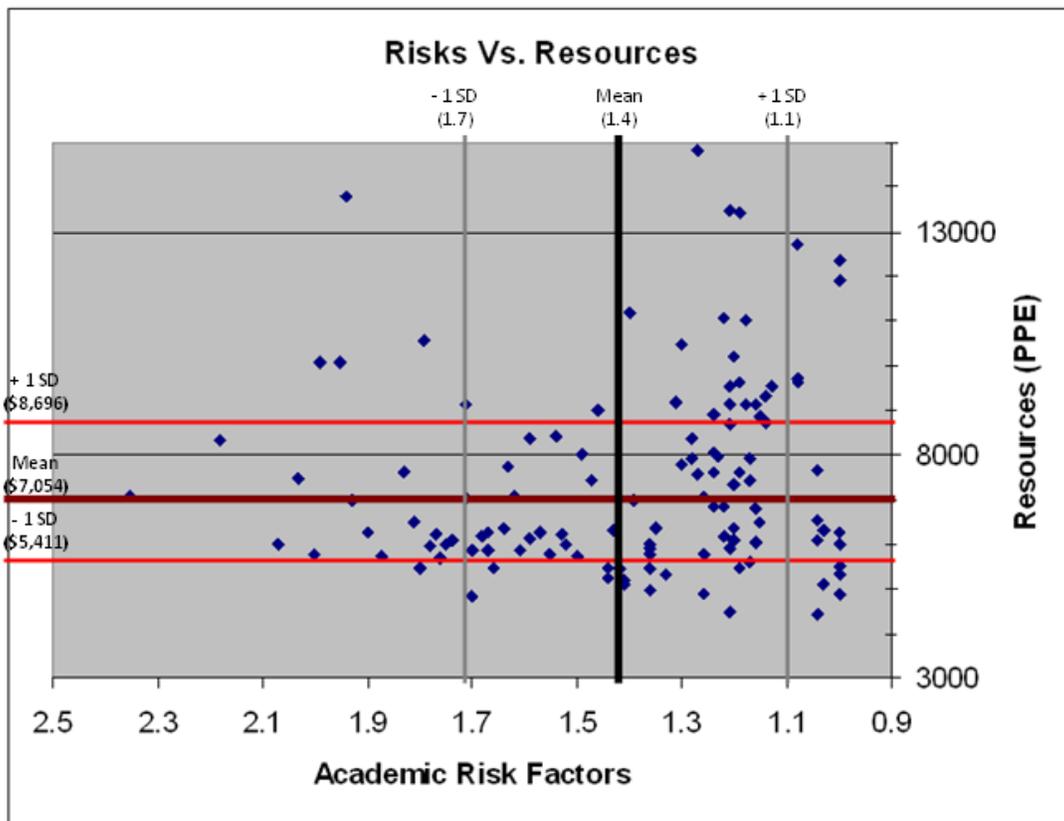

value of 4. Based upon this value, every student in grades 3-8 throughout a district is analyzed and the mean value of these Risk Factors is taken. Thus, in a district in which the average Risk Factor is 1.75, it can be said that of the 4 risk categories, the average student in the district fits into 1.75 risk categories.

This information is useful because it spreads districts across a possible continuum of 0-4 in which the initial or potential educational challenges of the student population can be better understood. The closer a district is to 0, the less risk a district has that is purely based on demographic make-up, whereas the closer a district is to 4, the more at-risk its population is according to these traditionally underserved and underperforming categories.

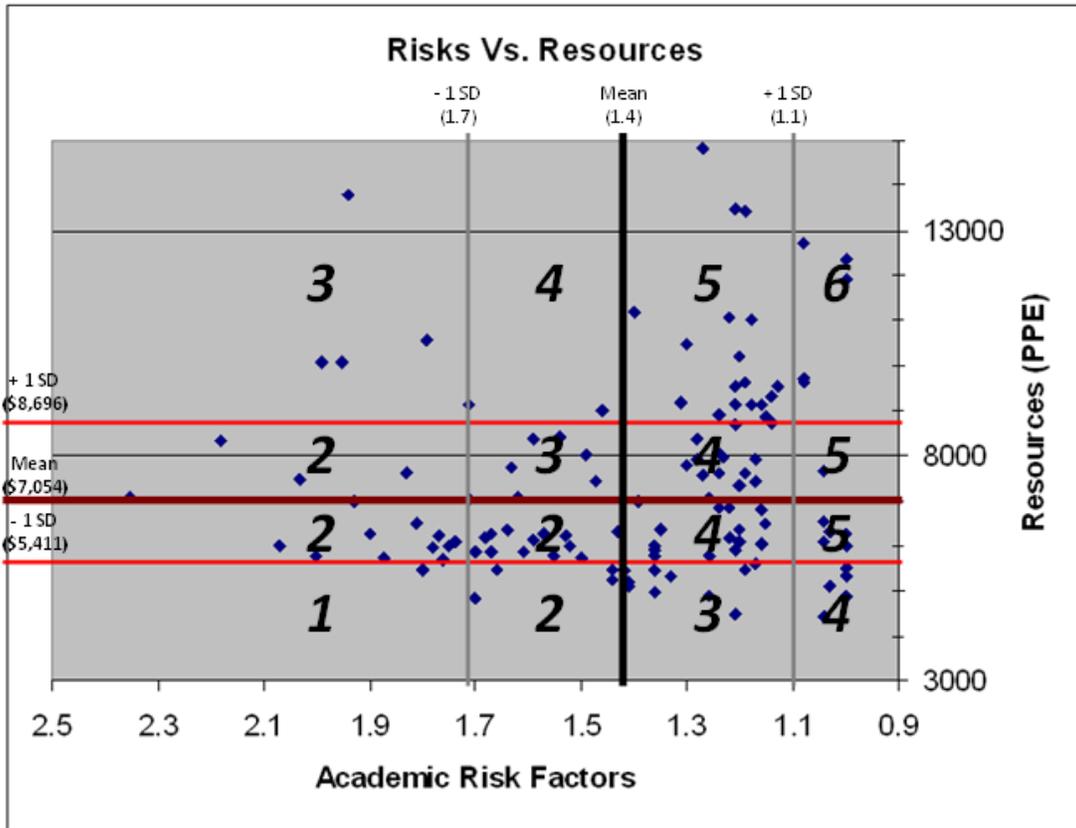

Resources are defined as the amount of state and local dollars that are made available to districts. Specifically, this is the state Per Pupil Expenditure (PPE) for each district and is based on Average Daily Attendance (ADA). While there are some extreme outliers in PPE data due to the rural and remote characteristics of a few small districts, the PPE spreads districts along a continuum in which each district can be evaluated in relation to its financial capital available to meet the needs of its learners. When excluding the outliers, the PPE in Idaho falls along a continuum between \$4,400 and \$11,000. It is hypothesized that districts that have greater financial resources per pupil are in less need of extra school improvement funding than those districts with similar challenges that have far fewer financial resources.

On the basis of these two variables, districts are plotted on the **Risk Factors & Resources Scatterplot**, and from there they are categorized as having High or Low Risk Factors and High or Low Resources. The cells are first defined by finding the mean² for each axis. Then, by demarking +/- 1 standard deviation from the mean, districts are further subdivided to separate the norm of each axis from the extreme highs and lows in the Idaho district population. The resulting sub-cells form quadrants in which districts with similar funding and similar risk populations are stratified, thereby forming the basis for tentative comparisons. Because these two axes are defined in relation to non-instructional variables, further analysis can better extrapolate any impact that the instructional system is having when compared to similar populations.

Because the State views these cells in terms of radiating levels of need, each subdivided cell is given a categorical label of 1 to 6. Lower numbers in this range mean that the district has a higher degree of academic risk and a lower level of financial resources per student. Higher numbers in the range represent less need in terms of fewer risk factors and higher resources.

² The mean for the Resources (PPE) axis excludes values above \$11,100 in order to not inordinately skew the standard deviation.

With each district given a categorical label of 1 to 6, the State then overlays academic achievement data using the assessments outlined in section 1111(b)(3) of the ESEA in reading and mathematics. Using a sample of grade levels and indicators, the State creates one numeric value that represents the performance of each district in relation to academic achievement. Specifically, the State has chosen to sample grades 4 and 8 in reading and mathematics to define a district’s general performance. The rationale for this selection is multifaceted. First, these grades parallel NAEP, thus providing for some comparison to other measures. Second, the placement of grade levels varies in Idaho in terms of the type of school in which they are housed. For example, some 5th grade classrooms are located in elementary schools, whereas in other districts they are located in middle schools. Similarly, 8th grade classrooms could be located in middle school or high school. In fact, because many of Idaho’s school districts are rural and remote, there are many instances in which one building houses all of grades K-12. By sampling grades 4 and 8, the State is able to confidently represent a continuum of district level performance at two key grade levels that align with elementary and secondary education. The State considered sampling grade 10 also. However, while the assessment data is collected accurately in grade 10 and demographics are accurately represented in the student enrollment files used to code the assessment data, the State recognizes that there is a national trend in which students from low-income backgrounds do not necessarily report their economic needs in high school for social and other reasons. Therefore, since the calculations rely on representing each of the four major risk categories described above, the State believed that it was best to not

include a 10th grade sample due to the possibility of skewing the data in cases where some districts have more accurate information on economically disadvantaged high school students. Additionally, 8th grade assessment data correlates quite highly with 10th grade data in Idaho; therefore, the 10th grade data were not necessary for this purpose. Lastly, the State has sampled from reading and mathematics alone because these two assessments are the State’s two primary AYP indicators and are thus a common focus for every district and school in Idaho. While language usage and science assessments are extremely important and valued, language usage is replaced in upper grades as a 3rd indicator by graduation rate and science is assessed only in grades 5, 7, and 10. Thus, for simplicity and accuracy of sampling, grades 4 and 8 assessments in reading and mathematics form the basis for the academic achievement component of the selection criteria.

Academic Achievement Data

From the assessment data that are sampled, assessment outcomes are combined into one variable. The Idaho accountability assessments (ISAT) are scored along a vertical interval scale. Because of the nature of the scale, a numeric score of 250 can reasonably be compared with that of 212. While the interpretations of each number will vary between content areas and proficiency levels will vary between grade levels, the values themselves are intervals that have more or less the same type of meaning. Therefore, the scores can be averaged within any given assessment and grade level, and the mean score of one district can be compared to the mean score of another district. Therefore, the State has calculated the mean scale score for every student in a district who is labeled at-risk (in order to maintain continuity with the Risk Factors & Resources Scatterplot) for grades 4 and 8 in reading and mathematics. The mean scale score for each grade level and content area is then added to form an overall point value from which comparisons about districts can be made. The Sum of Means is therefore sensitive to detect differences in individual districts at an aggregated level of overall achievement based on the sample.

$$(G4^{At-Risk} Mean^{Reading}) + (G4^{At-Risk} Mean^{Math}) + (G8^{At-Risk} Mean^{Reading}) + (G8^{At-Risk} Mean^{Math}) = \text{Sum of Means}$$

District Name	Reading 4 At-Risk Scale Mean	Reading 8 At-Risk Scale Mean	Math 4 At-Risk Scale Mean	Math 8 At-Risk Scale Mean	Sum of Scale Score Means
Sample District 01	202	221	209	228	860
Sample District 02	202	229	203	239	873
Sample District 03	208	221	216	232	877

Once the Sum of Means for at-risk students is determined for each district, the values are analyzed for variance and then ranked using a categorical variable: high (4), above

average (3), below average (2), and low (1) achievement. This categorical variable is utilized when comparing achievement with other indicators in the criteria.

School Improvement Status

Because persistent low performance is of great concern, each district is evaluated on the basis of how many years it has been in School Improvement status for AYP. Because the achievement data used rely on reading and mathematics, the School Improvement status is also based solely on reading and mathematics at the district, aggregate level. Each year of improvement, therefore, is counted such that year 6 is equal to 6, year 3 is equal to 3, and so forth. The only special consideration is that of districts who are not in improvement or who are in alert. In these cases, “Met Goal” counts as 0, while Alert counts as 0.5. In order to describe the magnitude of the district’s status, each year of improvement for the two content areas is added together.

$$(Improvement\ Year^{Reading}) + (Improvement\ Year^{Math}) = Sum\ of\ Years\ in\ Improvement$$

It is hypothesized, for example, that a district in Year 5 for reading and Year 2 for math (sum = 7) is in greater need than a district in Year 3 for reading and 2 for math (sum = 5). Similar to the process for achievement data, the values thus created by the magnitude of a district’s School Improvement status are analyzed and ranked using a categorical variable: low (3), medium (2), and high (1) degrees of magnitude of years in improvement status. This categorical variable is also utilized when comparing other indicators in the criteria.

Graduation Rate

Graduation is a key indicator in the performance of a district and its ability to meet the needs of all learners. As such, graduation rates are factored into the selection criteria much like the other indicators. Using the federal definition for graduation (34 CFR 200.19(b)), each district’s graduation rate is utilized and assigned a categorical variable: greater than 97% (3), 90% < 97% (2), and less than 90% (1). These categories provide further weight in the analysis of each district’s performance.

Data Analysis

Once each of the four indicators is determined for each district, the resulting categorical variables are placed into an equation that weights academic achievement while taking the other three into significant consideration.

Indicator	Categorical Values
Academic Risks & Resources Layers (ARR)	1, 2, 3
Academic Achievement (AA)	1, 2, 3, 4
School Improvement Status (SI)	1, 2, 3
Graduation Rate (GR)	1, 2, 3

The equation values Academic Risks & Resources Layers, School Improvement Status, and Graduation Rate with the same weight. These three categorical variables are

added together. However, considering that the values associated with Academic Achievement portray actual student achievement, it is weighted with more importance. The equation is the following.

$$AA \times [(ARR) + (SI) + (GR)] = \text{District Unit of Analysis Value}$$

The District Unit of Analysis Value is used as the last step in the process to rank each district according to the outcomes of all the key indicators. Values have a possible range of 3 to 36; the lower the value, the greater the need.

School Level Analysis

To identify the lowest five percent of schools, Idaho is first identifying the lowest performing districts. Due to the small, rural, and remote nature of many Idaho schools and districts³, the Idaho Department of Education has determined that it is more effective to identify districts as the unit of analysis and then target schools within the district for improving academic achievement. Often, the small schools' performance does not show up in AYP data sets because they have populations that are less than the minimum n-count for accountability. Therefore, our system of support must aggregate the data into a larger unit of analysis in order to identify those who truly are in need. Therefore, the lowest 5% of schools will be identified by serving the lowest 5% of districts.

The SEA determines the number of schools to participate in the Instructional Core Focus Visit process based on available resources. The criteria for selecting schools include factors such as: (1) type of school (i.e., elementary, middle, high); (2) results on state assessments; (3) school status under NCLB accountability provisions; or (4) other criteria of interest. Once the list of schools to participate in the Instructional Core Focus Visit process is finalized, a review schedule is worked out with the LEAs.

The review schedule needs to reflect awareness of the academic year calendar, as well as specific activities scheduled by individual schools. Reviews should be scheduled when regular classes are in session. Therefore, it is important to avoid times when special activities (e.g., school holidays, professional development days or parts of days, testing, parent conference days, field trips, or assemblies) have been scheduled.

³ More than half of Idaho school districts serve less than 500 students.

Scheduling Focus Visits:

Focus Visits are scheduled on (2-3) consecutive days for each school/district. During the Focus Visit, teams conduct the following data collection activities:

- Introductory meeting with representation expected from the district/building leadership and school board.
- Exit meeting with representation expected from the district/building leadership and school board.
- Interview with the superintendent. (90 minutes)
- Interview with each building principal. (90 minutes)
- Interview with central office administration and personnel. (90 minutes)
- Focus group with the leadership team at each building. (60 minutes)
- Focus group with 6-8 members of the instructional staff at each building. (60 minutes)
- Focus group with 6-8 members of the classified support staff (e.g., cooks, custodians, etc) at each building. (60 minutes)
- Focus group with 10-20 parents (who are not employed by the LEA) at each building representative of the populations. (60 minutes)
- Focus group with 6-8 students grades 4-12 at each building representative of the populations. (60 minutes)
- Classroom observations of 100% of certified teaching staff. (20 minutes)
- Interviews with at least 60% of teachers whose classrooms are observed. (15 minutes)
- Review a set of documents relevant to the Focus Visit indicators. (on-going)
- At the option of the SDE, a survey of school staff prior to the on-site visit. (pre-visit).

Once the SEA has completed the planning tasks, Focus Visit Teams are based on LEA size and location and instructed to proceed with the preparation phase.

(see Section 3).

ACTIVITY	COMPLETION DATE
SEA determines criteria for LEA selection	July-August
SEA selects LEAs to have Instructional Core Focus Visits	August
SEA schedules Instructional Core Focus Visits	August
SEA contacts LEA regarding the Instructional Core Focus Visit	August
SEA provides briefings to LEA	6-8 weeks prior to visit
SEA forms and assigns Instructional Core Focus Visit Teams	6-8 weeks prior to visit

Section 3: Preparing for the Focus Visit

The SDE, the Focus Visit team leader and team, as well as the district and building level administration are all involved in preparations leading up to the on-site Focus Visit.

The SDE makes initial contact with the district superintendent to confirm the Instructional Core Focus Visit activity and provide the superintendent with the name and contact information of the Instructional Core Focus Visit team leader. At this time, the SDE requests that the superintendent send in the information needed for the team leader to create the on-site visit schedule (Appendix 3-A). The SDE forwards this information to the team leader. The SDE provides the Instructional Core Focus Visit team with the supplies and equipment needed to conduct the review, as well as meeting space needed prior to and following the on-site visit.

The responsibility of arranging the Instructional Core Focus Visit falls to the Instructional Core Focus Visit team leader. A task checklist is provided in Appendix 3-M. The team leader is the point of contact between the team and the superintendent, as well as between the team and the SDE. As soon as the team leader receives notification from the SDE regarding a specific Instructional Core Focus Visit, he/she contacts the team members and arranges for an initial team meeting. The team leader plans the meeting agenda and chairs this and all other meetings of the team. The team leader develops a preliminary schedule to be confirmed with the principal(s) for the on-site visit activities and makes individual team member assignments. A schedule for future meetings, including all focus groups, interviews and post-visit follow-up visits should also be set.

The team leader also makes an initial contact with the district level administration team to discuss the upcoming Instructional Core Focus Visit. It is essential to maintain regular contact with the superintendent and principal(s) (in person, via Idaho Education Network (IEN), via email, or telephone) throughout the preparation phase to ensure that the review runs smoothly. The team leader should ensure that the district level administration leadership team understands the nature of the Instructional Core Focus Visit, and how it takes place, and shares this information with their building level leadership teams. The team leader works with the administration leadership team to obtain the information needed prior to the on-site visit in order to schedule on-site activities (Appendix 3-K contains a list of documents to be provided prior to the on-site visit), to arrange for a secure work space in the assigned school for the team, and to ensure that documents to be examined during the on-site visit are ready for the team upon its arrival at the school. The team leader provides the superintendent with a written list of school documents required by the review team, if applicable. Appendix 4-K contains a list of documents that may possibly be reviewed during the on-site visit.

The principal makes the school staff aware of the CEE perceptual survey and facilitates the administration of it three to four weeks prior to the on-site visit. One week prior to the on-site visit, the team leader reports to the principal the number of respondents and requests a second notice about participation is sent to school staff. It is important to have as high a response rate as possible to ensure the validity of the results. Survey responses are anonymous and, if responses are disaggregated, the disaggregation does not allow specific individuals to be identified.

As described in Section 2, the team conducts multiple activities during its 2-3 day visit. Therefore, establishing a realistic schedule is critical. A major activity involves 20-minute classroom observations. Classroom observations concentrate on reading/language arts or math lessons, but ensure 100% participation of all certified staff members. There must be sampling across grade levels and special programs. Observation should include a mixture of the beginnings, middles, and ends of lessons.

The SDE requests that the principal inform the teachers who are involved in the observation/interview process. Teachers will be notified of the times of their observations. Teachers will also be notified if they have been selected to participate in the interviews. A minimum of 60% of all certified staff members per building will be selected to participate in the interview process. These teachers are requested to have the following materials available for reference at the interview: (1) weekly lesson plan (for the week of the visit); (2) related unit plans; (3) related curricular content standards; (4) records of student performance; (5) sample of assessments (e.g., formative and summative); and (6) written communications to parents.

The team leader provides team members with a schedule for observation and interviews that includes the names of the teachers, the grade level, the subject (for secondary schools), the room locations, and the observation and interview times. A map of the school is also provided. The observation period should reflect typical classroom activity. Sufficient time between observations and interviews should be scheduled to allow for reviewing notes, travel between classrooms, and breaks.

In addition to the schedule for classroom observations and teacher interviews, the team leader provides team members and the principal with the schedule for the interviews, focus group discussions, and time to review documents. It is expected that all team members participate in completing the Document Review Checklist (Appendix 4-L) and devote some of their on-site time to this task.

The team leader schedules times during the on-site visit for the team to meet and debrief and discuss areas of concern and points of clarification to maintain a high level of reliability and validity in the data collection. The team leader should also meet with the principal during the on-site visit to discuss any matters related to conducting the

Instructional Core Focus Visit. The district and building level administration teams are required to attend a kick-off meeting prior to or at the beginning of Day 1 to review all aspects of the focus visits, meet the review team and provide an orientation to the school would be very helpful in setting a collegial tone. Team members also have a number of responsibilities during the preparation phase. They are to review background information provided by the school, prepare themselves to carry out their assignments during the on-site visit, and participate in all team meetings held prior to the on-site visit. Once the Instructional Core Focus Visit Team has completed the preparation tasks, it proceeds to conduct the Instructional Core Focus Visit (Section 4).

Refer to the appendices related to this section which include samples of correspondence, talking points, checklists, and forms.

Section 3 Appendices: Preparing for the Instructional Core Focus Visit

- 3-A Preparing for the Review Timeline
- 3-B Sample letter from team leader to district superintendent regarding review arrangements (i.e. work space for team, class schedules for purpose of scheduling classroom observations, schedule to conduct focus groups, information about composition of focus groups)
- 3-C Talking points for team leader's use in briefing superintendent about Instructional Core Focus Visit
- 3-D Sample letter to principal regarding conducting CEE survey
- 3-E Sample message for principal to use requesting staff to complete CEE survey
- 3-F Sample message for principal to provide teachers involved in classroom observation and individual interviews
- 3-G Sample message for principal to use requesting parents to participate in a Focus Group
- 3-H Sample message for principal to use requesting students and parent permission to participate in Focus Group
- 3-I Team Leader Checklist for Arranging Instructional Core Focus Visit Schedule
- 3-J Instructional Core Focus Visit Schedule Form
- 3-K List of documents to be requested prior to on-site visit

- 3-L Agenda for Instructional Core Focus Visit Team Meeting to Prepare for Review
- 3-M Team leader Task Checklist

Appendix 3-A: Preparing for the Review Timeline

ACTIVITY	COMPLETION DATE
SEA selects Team leader and team members	6-8 weeks before on-site visit
SEA sends notification letter to school (including request for documents to help prepare)	6-8 weeks before on-site visit
SEA provides requested school documents to Team leader	4 weeks before on-site visit
Team leader contacts Principal	6 weeks before on-site visit
Team leader arranges for CEE survey access to school staff	6-8 weeks before on-site visit
Team leader meets with team	1-2 weeks before on-site visit
SEA provides review supplies/equipment to Team leader	1 week before on-site visit

Appendix 3-B: Sample Letter from Team leader to Superintendent Regarding Review Arrangements

Date

Superintendent

District

Address

RE: Instructional Core Focus Visit

Dear Superintendent (Name);

As we discussed last week, your district will receive a Focus Visit (fill in dates) that is designed to support the district's improvement efforts. The team will be comprised of approximately (fill in number of staff) members from the Department of Education. (fill in team lead) will be the team lead. Other possible team members include:

- (add team members)

I, too, will be attending the Focus Visit. The creation of Focus Visit support teams for districts struggling to meet the needs of all learners is part of our statewide system of support. Data collection activities will guide the process and will include classroom observations, teacher interviews, a survey administered to all levels of staff, focus groups with identified staff and the review of documents related to instruction. The Department intends to use the information to make recommendations to the district in relate to other state sponsored technical assistance that is available, professional development that may be needed, and other types of improvement activities.

(Insert team lead name) will be in touch prior to the review and will give you samples of the observation tool we'll be using as well access to the survey instruments.

Prior to our arrival we'll ask you to send us:

- Map of the schools
- Master Class Schedules
- Bell Schedule
- Lunch Schedule
- Any special events you might have planned for those days

You can email those documents to (fill in team lead) or you can fax them to her at (208) 334-2228.

On the first day of the review we'll need the following documents (if possible) ready for the team's review:

- Representative course syllabi from middle and high schools
- Three most recent faculty meeting agendas
- Collaboration team meeting schedules (three most recent agendas, and any minutes)
- Agendas and minutes from three most recent school board meetings
- Pacing guides (elementary)
- Professional Development Plan, Schedule, Sessions
- Mission and Vision Statement
- Sample of newsletters sent to parents/community

We will need a dedicated work space for the dates of the review in which the data that are collected may be discussed in confidence. The space should be large enough to accommodate all team members and available from 7:30 until 5:00 p.m. And it would work best to have the documents listed above ready first thing in the morning; please place them in the room prior to our arrival on the first day. We will be observing each teacher in the district for 20 minutes. If we can not fit classroom observations of all the teachers into the schedule we'll focus on reading, math, science, and English language arts. If there are particular areas of instruction (student engagement, classroom management, standards based activities, etc.) that you would like us to focus on please let (fill in team lead) know.

We would like to meet with your leadership team the during the kick-off meeting prior to the Focus Visit to introduce ourselves and explain each of our roles. On (fill in dates)

afternoon, I'd like to spend about an hour with you to debrief the team's findings. After that we would like to present recommendations to your leadership team as part of an exit interview. Several districts that have participated in Focus Visits have also found it helpful to invite School Board Members to attend the exit interview since it can promote further program coherence.

I want to stress that this visit is not for monitoring. We will be focusing on instruction rather than on compliance. We want to make sure that we match the technical assistance we provide with the current needs of your district.

Sincerely,

Marybeth Flachbart, Ed.D.
Deputy Superintendent Student Achievement and School Improvement
Idaho Department of Education

Appendix 3-C: Talking Points for Team Leader’s Use in Briefing Superintendent and Principal about Focus Visits

- Self-introduce to principal following initial correspondence
- Review the request for materials needed to construct the visit schedule
- Schedule time(s) for principal interview (and other meetings as desired)
- Review logistical arrangements (space, parking, lunch availability)
- Emphasize the need to work together to set up and conduct the review
- Provide principal with contact information
- Review each element of the review (e.g., online survey, observation/interview, focus groups, and document review) and answer all questions
- Arrange for further conversations leading up to on-site visit
- Schedule follow-up conversations and visits

The Instructional Core Focus Visit consists of the following data collection activities:

- On-line CEE survey of school staff – begins one week prior to on-site visit and ends just prior to visit. The team leader will review the on-line survey with principal and arrange for access to it at least one week before the visit. The team leader will provide the principal with material describing the survey and how it can be accessed to disseminate to school staff. It is the principal’s responsibility to inform staff of the need to complete the survey and inform the team leader of any technical problems related to the survey in a timely manner.
- Teacher interview and classroom observations (TICO) – the number of observations and interviews conducted during the review will provide a representative sample of classrooms at the school. Each team member will complete a TICO form for classroom observation, and the observation period is to be exactly 20 minutes in length. The interview may be conducted either before or after the observation at a time when the teacher is free to meet for 15 minutes. Teachers should have lesson plans, curriculum content standards, records of student performance, sample assessments, sample written communications with parents, etc., available for consultant review at this time.
- Principal/Superintendent interview—should be scheduled for a total of 90 minutes, and can occur in one block or in two 45 minute blocks.
- Focus groups for instructional staff and leadership team—the principal will assist with Focus group activities by ensuring appropriate space for the

groups to meet in, that participating school staff arrive promptly, and if a group member is unavailable to participate at the time of the focus group, will identify a substitute.

- Review of documents—principal is provided with a list of documents to be reviewed on-site in letter from Team leader. Team leader, working with principal, ensures that these documents are available for review beginning at 7:30 on the day of the visit.

School

Address

Address

Dear Principal (NAME):

An essential component of the (name of state)'s Focus Visit onsite review is the completion of a CEE survey, which is entitled "Instructional Staff Survey." The purpose of this tool is to gather data that will be used to identify resources and strategies to enhance and increase the effectiveness of delivering services to students and parents in your school.

While we understand that every staff person in your building plays a vital role in educating children, we also recognize that during the Focus Visit site review that we will be unable to dialogue with everyone. As a result, the SDE is utilizing a survey, with the intent to provide all school staff an opportunity to participate in the site review process. It is also important to note that all responses to the survey are anonymous – none will be identified or reported individually. All of the data collected will be summarized to provide a snapshot of your school.

In order to ensure that the survey is completed in a timely fashion, the survey will be made available to your staff four weeks prior to the review, beginning (DATE) and ending (DATE). (TEAM MEMBER) will be the lead on administering this survey and will be in contact to find an optimal time to administer the survey to all participating stakeholders. We ask that you make the school staff aware of the survey ahead of the beginning date and encourage their full participation.

I will contact you mid-week to provide you a report on the number of respondents and most likely, to request that a second call for participation be made to staff. We're hoping for 100% participation!

I welcome any questions or concerns that you may have regarding the survey, and invite you to contact me at anytime at either (PHONE) or (EMAIL) for further discussion. We appreciate your collaboration and cooperation with us as we work together to build strong and effective schools for the children of the (name of district).

Sincerely,

Team leader

Appendix 3-E: Sample Letter from Principal to Staff Regarding CEE Survey

SCHOOL LETTERHEAD

Date

To All (SCHOOL NAME) Staff:

The Idaho State Department of Education will be conducting a Focus Visit onsite review at our school on (DATE). An essential component of the review is a survey that the site review team would like for you to complete. The purpose of this process is to gather perceptual data that will be used to identify resources and strategies to enhance and increase the effectiveness of delivering services to the students and parents in our school. All the responses to the survey are anonymous – no one will be identified or reported individually. All of the data collected will be summarized to provide a snapshot of our school, and help us to identify areas of need.

In order to ensure that the survey is completed in a timely fashion, the survey will be administered to all staff on (DATE) and ending (DATE). I ask that you all take a moment and complete the survey before the ending date.

Thank you in advance for your cooperation – let's go for 100% participation!

Thank you!

(Principal's Name)

Appendix 3-F: Sample Letter from Principal to Staff Regarding Classroom Observations and Interviews

SCHOOL LETTERHEAD

Date

Dear (SCHOOL NAME) Staff

On (DATE), representatives from the Idaho State Department of Education will be conducting an onsite school review. Among the many facets of this review, some or all of our teachers will be observed and interviewed during the course of the day. I have been notified that you will be one of those teachers.

In preparation for the site review, I have provided the site review team with a copy of (SCHOOL NAME) master and classroom schedules; which lists the names of all the faculty members, when particular subjects will be taught, grade levels and classroom locations (numbers), and a list of all staff with room location and job titles. This information will permit members of the site review team to create a schedule of visits and interviews. Please be advised that teachers will be notified as to the time when this observation will take place.

Classroom observations will primarily concentrate on reading/language arts and math lessons, but given time, members of the team may elect to visit additional classrooms outside of the above stated subject areas. Throughout the day, members of the review team will be observing teachers in the classrooms for 20 minutes, as well as conducting a 15 minute teacher interview either before or after the observation. Teachers who have been selected to participate in the interview will be notified prior to the on-site visit. As a part of the teacher interview process, teachers will be asked to share with the team member(s) the following documents:

- a) Lesson plans;
- b) Curriculum content standards;
- c) Records of student performance;
- d) Sample assessments (i.e. pre- and post-test, interim assessments); and
- e) Sample written communication to parents.
- f) Sample criteria of mastery with descriptions

Please be certain that you have these items readily available during the interview. Thanking you in advance for your ongoing support and cooperation.

Appendix 3-G: Sample Letter from Principal to Parents Regarding Instructional Core Focus Visit

SCHOOL LETTERHEAD

Date

Address

Dear (SCHOOL NAME) Parent;

On (DATE), representatives from the Idaho State Department of Education will be conducting an onsite school review. Among the many facets of this review, parents of their respective schools will be asked to participate in a SDE facilitated focus group meeting. I have been asked by the SDE to identify 10-20 parents who are not employed by our school district to participate in these focus group meetings.

The group will meet for 60 minutes.

Timeframes will be strictly honored (starting and ending times).

The group will contain no more than 20 and no fewer 10 members.

The group composition should be representative of the student population of the school.

A minimum of two team members conduct the group: one to ask questions, the other to record conversation and observations of the group and be a timekeeper.

I am asking you to represent (SCHOOL NAME) as a participant in this focus group. The meeting will be held at (LOCATION) on (DATE) from (TIME). The meeting will include facilitating questions to the group in the areas of High Standards and Expectations for All Students; Curriculum, Instruction and Assessments Aligned with State Standards; Frequent Monitoring of Learning and Teaching; High Level of Family and Community Involvement; School Communication and School Collaboration; and School Leadership. All meetings will be conducted and facilitated by SDE team members.

Please confirm your participation on this focus group by (DATE).

Thanking you in advance for your ongoing support and cooperation.

Thank you!

(Principal's Name)

Appendix 3-H: Sample Letter from Principal to Students Regarding Instructional Core Focus Visit

SCHOOL LETTERHEAD

Date

Address

Dear **(SCHOOL NAME)** Parent and Student;

On **(DATE)**, representatives from the Idaho State Department of Education will be conducting an onsite school review. Among the many facets of this review, parents of their respective schools will be asked to participate in a SDE facilitated focus group meeting. I have been asked by the SDE to identify 6-8 students to participate in these focus group meetings.

The group will meet for 60 minutes.

Timeframes will be strictly honored **(starting and ending times)**.

The group will contain no more than 8 and no fewer 6 members.

The group composition should be representative of the student population of the school.

A minimum of two team members conduct the group: one to ask questions, the other to record conversation and observations of the group and be a timekeeper.

I am asking you to represent **(SCHOOL NAME)** as a participant in this focus group. The meeting will be held **at (LOCATION) on (DATE) from (TIME)**. The meeting will include facilitating questions to the group in the areas of High Standards and Expectations for All Students; Curriculum, Instruction and Assessments Aligned with State Standards; Frequent Monitoring of Learning and Teaching; High Level of Family and Community Involvement; School Communication and School Collaboration; and School Leadership. All meetings will be conducted and facilitated by SDE team members.

Parent notification and permission is required for you to participate in this focus group meeting. Please confirm your participation and return the form by **(DATE)**.

Thanking you in advance for your ongoing support and cooperation.

Thank you!

(Principal's Name)

School Name: _____ Date: _____

Date of Focus Group Meeting: _____

Location of Focus Group Meeting: _____

Student Name: _____ Grade: _____

Parent Name: _____

I, _____, will allow my student
_____ to participate in the student focus group meeting. The
meeting will be held at **(LOCATION) on (DATE) from (TIME)**.

I understand the meeting will include facilitating questions to the group in the areas of High Standards and Expectations for All Students; Curriculum, Instruction and Assessments Aligned with State Standards; Frequent Monitoring of Learning and Teaching; High Level of Family and Community Involvement; School Communication and School Collaboration; and School Leadership. All meetings will be conducted and facilitated by Idaho State Department of Education team members. Meetings will be limited to 60 minutes and timeframes will be strictly followed.

Please check the appropriate box for participation:

My student will be participating in the focus group.

My student will NOT be participating in the focus group.

Appendix 3-I: Team Leader Checklist for Arranging Instructional Core Focus Visit Schedule

Contact Principal by telephone to discuss arrangements

- Set up a date and time to meet and review arrangements. This may be via telephone or in person

3-4 weeks before the review you need:

- Map of the school
- Master class schedule which includes names of faculty, when particular subjects will be taught, grade levels and classroom locations (numbers)
- List of all staff with room location and job titles
- Bell schedule
- Lunch schedule
- List of any special events that may have been planned on the day of the review

3 weeks before the review, schedule Focus Groups, Principal Interview, Classroom Observations, and assign team members

In the three weeks before the review, create Agenda for on-site review

On day of review, you may need access to (inform Superintendent/Principal in letter with list):

- AYP Data
- Content and Performance Standards
- Course Syllabi
- Individualized Learning Plans
- Instructional Team Meeting Schedules, Faculty Meeting Agendas, and Notes
- Instructional Units and Pacing Guides
- Principal's Calendar
- Professional Development Plan, Schedule, and Session Agendas
- Sample of newsletters & communications to external & internal audiences
- School Events Calendar
- School Improvement Plan
- Teacher Handbook
- Dedicated work space

Note: Team leader will schedule the following review activities: classroom visit and interview, principal interview, leadership focus group, instructional staff focus group, parent focus group, non-instructional staff focus group, document review, team meetings (as needed).

Reminder: A minimum of 2 persons assigned for each focus group as well as Principal Interview.

Reminder: schedule 45-50 minutes for TICO, not necessarily back-to-back but at teacher's convenience (for interview)

Reminder: build in time for moving around, breaks, don't forget lunch!

Appendix 3-K: List of Documents to be Requested Prior to On-Site Visit

A major part of preparing for the Instructional Core Focus Visit involves setting up the schedule for on-site activities (e.g., classroom observations and-accompanying teacher interviews, focus groups). Another important preparation component is to orient team members to basic facts about the school (e.g., enrollment size, student body composition, state assessment results, and content of School Improvement Plan [if applicable]).

At least four (4) weeks prior to the visit, the Team leader should receive the following documents from the principal:

- Map of school
- Master class schedule (should contain names of faculty, when particular subjects are being taught, grade levels, classroom numbers)
- List of all staff with room locations and job titles
- Bell schedule
- Lunch schedule
- List of any special events planned during period of review (e.g., field trips, assemblies, scheduled fire drills, and professional development sessions)
- School Fact Sheet (note: this information may be obtained through a web link or provided by the school district to the Team leader)
- School Improvement Plan (note: this information may be obtained through a web link or provided by the school district to the Team leader)

VI. Wrap Up

Section 4: Conducting the Instructional Core Focus Visit

The Idaho State Department of Education continues to provide support to the Instructional Core Focus Visit team as the Instructional Core Focus Visit is conducted, with the team leader serving as the point of contact. However, the major participants are the team leader and other team members.

The Instructional Core Focus Visit consists of the following data collection activities:

- On-line CEE survey of school staff
- Teacher interview and classroom observation (TICO)
- Superintendent/Principal interview
- Focus groups for instructional staff, classified support staff (e.g., cooks, custodians, etc), leadership team, and parents
- Review of documents

CEE Survey of School Staff , Parents and Students

Data collection for the Instructional Core Focus Visit actually begins four weeks prior to the on-site visit through the on-line CEE staff survey. Ideally, this activity ends just prior to the on-site visit.

In preparing for the Instructional Core Focus Visit (see Section 3) the Team Leader (or designee) will receive CEE survey results and provide results to Capacity Builders assigned to individual schools. The assigned Capacity Builder will review the on-line survey with the principal when the data becomes available. The Capacity Builder provides the principal with material describing the survey and how it can be accessed to disseminate to school staff (Appendices 3-E).

It is the principal's responsibility to inform his/her staff of the need to complete the survey. The team leader provides updates to the principal regarding the number of respondents to date. The principal should inform the team leader of any technical problems related to the survey as promptly as possible so these issues can be resolved.

Teacher Interview and Classroom Observation (TICO)

The most extensive part of the Instructional Core Focus Visit is Teacher Interview and Classroom Observation (TICO). All team members are assigned teachers to observe and to interview following the schedule developed by the team leader. 100% of all certified staff members will participate in the classroom observations and a minimum of 60% of all certified staff members will be chosen to participate in the teacher interviews.

The number of teachers involved in TICO varies depending on the school's size and the number of team members.

Each team member is responsible for familiarizing him/herself with the TICO items and instructions. It is important to apply the indicators consistently among team members. The TICO form is reviewed at a team meeting prior to the on-site visit. Below is a set of procedures related to the conduct of the classroom observation and the teacher interview.

Classroom Observation

Be punctual. When entering the classroom, adopt a friendly manner with both the teacher and students. While in the classroom, try to be unobtrusive and remain at a distance (in the back of the room or another area away from student focus) so both students and teacher will behave "naturally," without feeling overly self-conscious about your presence. Noting the times (and duration) when certain events in the classroom begin and end are often extremely useful for characterizing the classroom and should be noted as appropriate. Be sure to complete the identifying information on both the face page and summary sheet of the TICO form. When finished, if it can be done with a gesture that doesn't interrupt instruction, thank the teacher and move on.

Each team member is to complete a TICO form for classroom observation. There are a number of indicators related to the observation period. Guidance related to responding to each indicator is provided in Section I (Classroom Observation). Limited space is provided on the TICO form for notes. Notes must be referenced to specific indicators and are only included to provide explanations, if needed. Extensive notes are not required. The observation period is to be exactly 20 minutes in length.

Teacher Interview

Show respect for the teacher by beginning and ending the interview according to the agreed-upon schedule. The interview should be conducted by a pair (if possible), with one conducting the interview and one recording the interview using the TICO form. There are a number of indicators related to the interview. A script for conducting the interview, as well as guidance related to responding to each indicator, is provided in Section II (Teacher Interview). Notes must be referenced to specific indicators and are only included to provide explanations, if needed. Extensive notes are not required.

The interview may be conducted before or after the observation, at a time when the teacher is free to talk with you for about 15 minutes and has her/his teaching

records and plans at hand. Every effort will be given to assure that the teacher is not observed and interviewed by the same team member. Teachers should have been provided a list of documents to have ready (see Section 3 Preparing for the Instructional Core Focus Visit). To keep the interview within the allotted time, the greeting must be brief, but friendly, and the questions asked and answered in a quick-paced manner. When finished, thank the teacher and move on.

Completion of TICO Form

One TICO form is to be completed and submitted for each observation/interview. The final page is a summary sheet; it is very important to fill out the form completely and provide it to the team leader by the end of the on-site visit. The forms are compiled to provide a school-level impression of classroom practice related to each indicator. These data are analyzed along with the other information gathered during the review and are used in the preparation of the review report.

Superintendent/Principal Interview and Focus Group Discussions

All team members are assigned duties related to the conduct of the six interviews and/or focus groups. These sessions are held according to the schedule prepared by the team leader. It is expected that the principal will assist with these activities by ensuring that participating school staff arrive promptly and, in the case where a focus group member is unable to participate, identify an appropriate substitute.

Focus groups will be defined by the district being reviewed. For example, teachers, parents, classified support staff (e.g., cooks, custodians, etc.), and central office personnel (e.g., curriculum director, federal programs director, etc.) are a few possible focus groups.

Focus groups and the superintendent and principal interviews are conducted by a pair of individuals, with one person conducting the interview or facilitating the focus group discussion and one person taking notes. Notes should be as complete as possible; include verbatim comments for significant points. These notes are used in the process of analysis and report writing. (The review report includes no comments attributed to specific focus group participants.) The note taker, with assistance from the interviewer/facilitator, transcribes the notes as soon as possible after the interview/focus group and codes the notes in terms of the 9 standards and, to the extent possible, to specific indicators. Questions in the interview/focus group protocols carry coding related to standards and/or indicators.

Protocols and note-taking forms for the interview/focus groups are located in Appendices 4-D through 4-M. Focus group sessions are scheduled for one hour each and the time limits must be respected. It is important to manage the allotted time so that all questions are addressed. The principal interview may be divided into shorter time segments (totaling one hour) to accommodate the principal's schedule.

Tips for facilitating a successful focus group session include:

- Make sure that everyone is introduced.
- Emphasize the importance of participation by all group members.
- Establish norms for comments (e.g., each comment is valid, differences of opinion are accepted, and judgments are not made on any comments).
- Establish a level of comfort by reminding participants that, although notes are taken, everything discussed within the focus group is confidential; no comments are attributed to individuals.
- Show respect for participants by adhering to the time schedule.
- Let participants know that, in order to address each question, there may be limits set on the discussion of a particular question.

Document Review

A list of the documents to be reviewed on-site is included in Appendix 4-N. The purpose of the document review is to ascertain the existence of written documentation reflecting the Focus Visit indicators. The team leader should build time for document review into the on-site schedule. The team leader makes review assignments to team members. The team leader, working with the principal, ensures that these documents are available for review beginning the first day of the on-site visit.

Each team member should be provided with a Document Review Checklist (Appendix 4-O). The checklist identifies which documents relate to particular standards (with embedded indicators). The checklist uses a yes-no format. If substantiating evidence of an indicator is found, the name of the document must be noted. This is important for the subsequent analysis and report preparation activities.

Team Meetings

To manage the on-site visit effectively, the team leader holds daily meetings of the team to review progress and address any logistical issues. The team meets with the principal at the beginning of the on-site visit to exchange introductions and receive, from the principal, a brief orientation to the school. It is recommended that the team leader collect TICO forms and document review checklists from team members at the end of each day. Interview and focus groups notes are finalized shortly after the on-site visit.

Exit Conversation with the District and Building Leadership Teams

At the end of the on-site visit the team leader arranges a meeting in which participation is expected from the district, building, and school board leadership. The district is responsible for inviting key influential stakeholders to this exit meeting. The team leader is able to discuss highlights of the review process as well as identify some strengths of the school's program based on preliminary team discussion and share set of findings and recommendations at this time. The meeting is also an opportunity for the team leader to answer questions regarding the next step in the Instructional Core Focus Visit process, data analysis, and report preparation. A set of suggested talking points for the team leader is included in Appendix 4-S. Once the review team completes the on-site visit, it proceeds to the stage of compiling and analyzing the data and preparing the review report (Section 5).

The appendices related to this section include all of the data collection instruments, the list of documents the school provides on-site and suggested agendas for team meetings held during the on-site visit.

ACTIVITY	COMPLETION DATE
Team conducts data collection activities including classroom observations, teacher interviews, principal and superintendent interviews, focus group meetings, etc.	Daily during on-site
Team leader collects observation checklists, interview notes, etc.	Daily during on-site
Team leader meets with principal(s)	Daily during on-site
Team leader collects data points and compiles final recommendations	
Team leader returns school documents to principal*	Day 3 of Review

* Team may retain documents for reference until report is prepared

Appendix 4-B: Instructions for Using TICO Prior to School Visit

The team leader will make arrangements for both the classroom observations and the associated teacher interviews. Team members will be provided with a schedule for observation and interviews that includes the names of the teachers, the grade level, the subject (for secondary schools), the room location, and the observation and interview times. A map of the school will also be provided. The schedule will provide time for a 20-minute classroom observation and a 15-minute interview. The observation period should reflect typical classroom activity.

The team leader will request that the principal inform the teachers who will be involved in the TICO process, including the times scheduled for the observation and interview periods. These teachers should be asked to have the following materials available for reference during the interview: (1) weekly lesson plan (for the week of the visit); (2) related unit plans; (3) related curricular content standards; (4) records of student performance; (5) sample of assessments (e.g., summative, diagnostic); and (6) written communications to parents.

Classroom Observation

Be punctual. When entering the classroom, adopt a friendly manner with both the teacher and students. While in the classroom, try to be unobtrusive and remain at a distance (in the back of the room or another area away from student focus) so both students and teacher will behave “naturally,” without feeling overly self-conscious about your presence. Noting the times (and duration) when certain events in the classroom begin and end are often extremely useful for characterizing the classroom and should be noted as appropriate. Be sure to complete the identifying information on the TICO cover sheet and summary sheet.

If you are paired for the observation, consider dividing primary responsibilities for the set of indicators, particularly if multiple learning activities (e.g., small groups and independent work) are occurring simultaneously.

Each observer is to complete a TICO form for classroom observation. There are 13 indicators related to the observation period. Guidance related to responding to each indicator is provided in Section 4 of TICO (Classroom Observation) on pages 46-51. Limited space has been provided on the TICO form for notes. Notes should be referenced to specific indicators and are only needed to provide explanations, if needed. Extensive notes are not required.

Teacher Interview

Show respect for the teacher by beginning and ending the interview according to the agreed-upon schedule. The interview should ideally be conducted by a pair, with one

conducting the interview and one recording the interview using the TICO form. If necessary, one person may conduct the interview. There are 14 indicators related to the interview. A script for conducting the interview as well as guidance related to responding to each indicator is provided in Section 4 of TICO (Teacher Interview) on pages 68-70. Notes should be reference to specific indicators and are only needed to provide explanations, if needed. Extensive notes are not required.

The interview may be conducted before or after the observation, at a time when the teacher is free to talk with you for about 15 minutes and has her/his teaching records and plans at hand. To keep the interview within the allotted time, the greeting must be brief, but friendly, and the questions asked and answered in a quick-paced manner. When finished, thank the teacher and move on.

Completion of TICO Form

Partners (if applicable) should get together and complete one TICO form for each observation/interview. The form must be completely filled out and provided to the Team leader by the end of the on-site visit. The data on the Summary Sheet (pages 140-141) will be compiled to provide a school-level impression of classroom practice related to each indicator. These data will be analyzed along with the other information gathered during the review and will be used in the preparation of the review report.

Classroom Observation:

(A standard amount of observation time —20 minutes—for each teacher)

When entering the classroom, adopt a friendly manner with both the teacher and students. While in the classroom, try to be unobtrusive and remain at a distance (in the back of the room or another area away from student focus) so both students and teacher will behave “naturally,” without feeling overly self-conscious about your presence. Noting the times (and duration) when certain events in the classroom begin and end are often extremely useful for characterizing the classroom and should be noted as appropriate.

Important Note: *The explanations of individual indicators in Sections b, c, and d, and apply them when responding to ensure consistency among reviewers. Reviewer response choices are provided for each indicator. Refer to the scoring rubric when making a determination of descriptors. This is strictly based on whether the indicator was observed and to the degree that indicator was observed as determined by the observer.*

General Information:

Please complete the general information before the observation is scheduled but complete this section in its entirety. General information includes:

Grade Level: _____ Teacher Name: _____
Subject: _____ Observer Name: _____
Date: _____ Begin: _____ End: _____ Total Time: _____

Observation Statistics:

Complete this portion of the TICO form during the actual observation. Refer to the focus visit master schedule to determine the observation time and only mark on box. The number of students will reflect the number of students in attendance during the observation not the total number of students listed on the class roster. Make note of the presence and total number of any additional adult instructional staff. In the space provided document what specific activities the additional adult instructional staff members are performing.

OBSERVATION STATISTICS:

(mark all that apply)

of Students: _____ Aide Present: Y N

Observation Time (refer to schedule)

Beginning of Lesson

Middle of Lesson

End of Lesson

How many? _____

(If aide is present please make note of all duties performed)

--

Percent of Time:

Please estimate the total percent of time spent on each of these areas of possible instructional techniques. This is strictly a rough estimate of the percent of time spent in each of these areas. If activities are observed other than those listed please include a specific description and percent of time in the "Other" category. *(If two or more instructional modes take place simultaneously, assign the time to each; the combined time of the five modes may, thus, exceed the total time of the observation. Indicate this situation in the Notes section of this form.)*

Percent of Time: *(please estimate the total percent of time spent on each of these areas of instruction)*

Tch Directed: _____ % **Student Directed:** _____ % **Independent Work:** _____ %
Computer-Based: _____ % **Other:** _____ %
(please specify) _____

Teacher-Directed Whole Class / Teacher-Directed Small Group

Teacher-directed, whole-class instruction is the traditional mode of the teacher at the center of instruction with students at their desks or stations listening to the teacher and responding to the teacher. Depending upon when the observer is in the classroom, the teacher may be introducing the lesson, presenting the lesson, or summarizing the lesson. In teacher-directed small group, we are looking for the same teaching practices that a teacher would use in whole-class. The observer checks only the items appropriate for the phases of instruction observed

Student-Directed Groups

The teacher may have the students working in groups that are led by one student, groups engaged in cooperative learning activities, or groups following an agenda without a leader. It is possible that the teacher is working with one group while other groups of students are directing their own group activities. In that case, focus on the teacher within the group he/she is leading. This category, student-directed groups, applies if the teacher is NOT primarily occupied with one group.

Independent Work

Independent work is what is often called "seat time," when students are working on assignments individually. Taking a test wouldn't count as "independent work" and wouldn't make for a good observation session. In this set of observations, the focus is on the instructional interactions of the student, teacher, and the work. We are looking to see if the teacher is active, using the time to check student work, provide feedback, and give assistance.

Domain 2: The Classroom Environment

The Classroom Management items are assessed by the observer by merely looking around the room at the time of the classroom observation, not by interview. Each indicator will be assessed for level of implementation based on the scoring rubric. This is strictly an observation, or a moment-in-time snapshot, and is not an evaluative

DOMAIN 2: The Classroom Environment		<i>U</i>	<i>B</i>	<i>P</i>	<i>D</i>	<i>NA</i>
IIIA28	Travel to all areas in which students are working.	1	2	3	4	0
IIIA32	Interacts managerially with students (reinforcing class rules, procedures)	1	2	3	4	0
IIIC01	When waiting for teacher assistance or finished with assignment, students are occupied with curriculum-related activities.	1	2	3	4	0
IIIC10	Reinforces classroom rules & procedures by positively teaching them.	1	2	3	4	0

process.

IIIA28: During the observed period the teacher moves to all areas of the classroom in which students are working.

IIIA32: Bi-directional, verbal interaction or observation between the teacher and student(s) includes at least one heard instance of explaining, reinforcing classroom procedures or rules.

IIIC01: This is evidence that the teacher has provided “wait time” procedures or activities. The item is checked observed if the observer notes students who turn from one activity (whether computer-based, small group, independent) to other curriculum-based work while waiting for teacher assistance.

IIIC10: At least one heard or observed instance of the teacher explaining, reinforcing classroom procedures or rules.

Domain 3: The Instruction

The Classroom Instruction items are assessed by the observer by merely watching the interaction and engagement of teacher and student. Each indicator will be assessed for level of implementation based on the scoring rubric. This is strictly an observation and not an evaluative process.

DOMAIN 3: Instruction		<i>U</i>	<i>B</i>	<i>P</i>	<i>D</i>	<i>NA</i>
IIIA09	Clearly states the lesson's topic, theme, or chief objective	1	2	3	4	0
IIIA11	Uses modeling, demonstration, graphics	1	2	3	4	0
IIIA13	Explains directly and thoroughly	1	2	3	4	0
IIIA16	Uses prompting/cueing	1	2	3	4	0
IIIA21	Re-teaches following questioning	1	2	3	4	0
IIIA26	Encourages students to check their own comprehension	1	2	3	4	0
IIIA31	Interacts instructionally with students (explaining, checking, giving feedback)	1	2	3	4	0
IIIC05	Uses a variety of instructional modes.	1	2	3	4	0
IIIC12	Engages all students (e.g., encourages silent students to participate)	1	2	3	4	0

IIIA09: The purpose of the lesson is clearly stated or implied to the students.

IIIA11: The teacher provides a concrete organizer by using a model, demonstration, or graphic.

IIIA13: Without rambling, the teacher clearly presents, “teaches” the lesson in a way that is clear to the students.

IIIA16: A cue or prompt is a signal, hint, or nudge to help the student toward a correct response. The teacher may frame a question to provide contextual cues.

IIIA21: The teacher follows questioning with “re-teaching” or “re-presentation” to fill gaps in understanding. If so, check YES.

IIIA26: The teacher asks questions that require not so much an answer to the teacher but a self-assessment of comprehension. This is similar to “thinking about your own thinking.”

IIIA31: Bi-directional, verbal interaction between the teacher and student(s) includes at least one instance of instructionally-based comments during student group work or independent work.

IIIC05: During the observed period the teacher uses more than one mode of instruction (e.g., whole class, small group, computer-based, independent).

IIIC12: At least one heard or observed instance of the teacher explaining, reinforcing classroom procedures or rules.

Notes and Comments Regarding Classroom Observation

Please record any factual, observable, and antidotal information pertaining to each of the indicators on the reverse side of the collection tool to add clarity and transparency to the observation. Please be specific and thorough, but brief in your comments. These comments will be reviewed and reported as additional evidence to support each of the indicators. It is necessary that as much of the observation be collected as possible to provide the most accurate, objective “snap shot” of the classroom instruction.

Return the completed observation tool to the team leader as soon as possible for data entry and analysis.

(Reference the indicator code with each comment. Wrap Up/Check for Understanding)

IDAHO FOCUS VISIT

SCORING RUBRIC FOR CLASSROOM OBSERVATION

DOMAIN 2: Classroom Environment		<i>Unsatisfactory</i> 1	<i>Basic</i> 2	<i>Proficient</i> 3	<i>Distinguished</i> 4	NA 0
III.A.2.8	Travel to all areas in which students are working.	Student behavior is not monitored, and the teacher is unaware of what the students are doing.	Teacher is generally aware of student behavior but may miss the activities of some students.	Teacher is alert to student behavior at all times.	Monitoring by the teacher is subtle and preventive. Students monitor their own and their peers' behavior, correcting one another respectfully.	Not Observed
DOMAIN 2: Classroom Environment		<i>Unsatisfactory</i> 1	<i>Basic</i> 2	<i>Proficient</i> 3	<i>Distinguished</i> 4	NA 0
III.A.3.2	Interacts managerially with students (reinforcing class rules, procedures)	Teacher does not respond to misbehavior, or the response is inconsistent, is overly repressive, or does not respect the student's dignity.	Teacher attempts to respond to student misbehavior but with uneven results, or there are not major infractions of the rules.	Teacher response to misbehavior is appropriate and successful and respects the student's dignity, or student behavior is general appropriate.	Teacher response to misbehavior is highly effective and sensitive to students' individual needs, or student behavior is entirely appropriate.	Not Observed
DOMAIN 2: Classroom Environment		<i>Unsatisfactory</i> 1	<i>Basic</i> 2	<i>Proficient</i> 3	<i>Distinguished</i> 4	NA 0
III.C.0.1	When waiting for teacher assistance or finished with assignment, students are occupied with curriculum-related activities.	Students not working with teacher are not productively engage in learning or curriculum-related activities.	Students not directly supervised by the teacher are somewhat productively engaged in learning and curriculum-related activities.	Most students are productively engaged in learning and curriculum-related activities while unsupervised by the teacher.	Students are productively engaged in learning and curriculum-related activities while unsupervised by the teacher at all times, with students assuming responsibility for productivity.	Not Observed

DOMAIN 2: Classroom Environment		Unsatisfactory		Basic		Proficient		Distinguished		NA	
		1	2	3	4	NA	0				
III C10	Reinforces classroom rules & procedures by positively teaching them.	Teacher interaction with at least some students is negative, demeaning, sarcastic, or inappropriate to the age or culture of the students. Students exhibit disrespect for the teacher.	Teacher-student interactions are generally appropriate but may reflect occasional inconsistencies, favoritism, or disregard for students' cultures. Students exhibit minimal respect for the teacher.	Teacher-student interactions are friendly and demonstrate general caring and respect. Such interactions are appropriate to the age and cultures of the students. Students exhibit respect for the teacher.	Teacher interactions with the students reflect genuine respect and caring for individuals as well as groups of students. Students appear to trust the teacher with sensitive information.	NA	0				
		Not Observed	Not Observed	Not Observed	Not Observed	Not Observed	Not Observed				
DOMAIN 3: Instruction		Unsatisfactory		Basic		Proficient		Distinguished		NA	
		1	2	3	4	NA	0				
III A09	Clearly states the lesson's topic, theme, or chief objective	Teacher's purpose in a lesson or unit is unclear to students.	Teacher attempts to explain the instructional purpose, with limited success.	Teacher's purpose for the lesson or unit is clear, including where it is situated within broader learning.	Teacher makes the purpose of the lesson or unit clear, including where it is situated within broader learning, linking that purpose to student interests.	NA	0				
		Not Observed	Not Observed	Not Observed	Not Observed	Not Observed	Not Observed				
DOMAIN 3: Instruction		Unsatisfactory		Basic		Proficient		Distinguished		NA	
		1	2	3	4	NA	0				
III A11	Uses modeling, demonstration, graphics	Modeling, demonstrations or graphics are inappropriate for students' age or background. Students are not mentally engaged in them.	Modeling, demonstrations, or graphics are appropriate for some students and engage them mentally, but others are not engaged.	Most modeling, demonstrations, or graphics are appropriate for students, and almost all students are cognitively engaged with exploring content.	All students are cognitively engaged with modeling, demonstrations, or graphics in exploration of the content. Students initiate or adapt to enhance their understanding.	NA	0				
		Not Observed	Not Observed	Not Observed	Not Observed	Not Observed	Not Observed				

DOMAIN 3: Instruction		<i>Unsatisfactory</i> 1	<i>Basic</i> 2	<i>Proficient</i> 3	<i>Distinguished</i> 4	NA 0
IIIA13 Explains directly and thoroughly	Teacher's directions and procedures are confusing to students.	Teacher's directions and procedures are clarified after initial student confusion.	Teacher's directions and procedures are clear to students.	Teacher's directions and procedures are clear to possible student misunderstandings.	Teacher's directions and procedures are clear to possible student misunderstandings.	Not observed
	The lesson has no clearly defined structure, or the pace of the lesson is too slow or rushed, or both.	The lesson has a recognizable structure, although it is not uniformly maintained throughout the lesson. Pacing of the lesson is inconsistent.	The lesson has a clearly defined structure around which the activities are organized. Pacing of the lesson is generally appropriate.	The lesson's structure is highly coherent, allowing for reflection and closure. Pacing of the lesson is appropriate for all students.		
	Teacher's explanation of the content is unclear or confusing or uses inappropriate language.	Teacher's explanation of the content is uneven; some done skillfully, but other portions are difficult to follow.	Teacher's explanation of content is appropriate and connects with students' knowledge and experience.	Teacher's explanation of content is imaginative and connects with students' knowledge and experience. Students contribute to explaining concepts to their peers.		
DOMAIN 3: Instruction		<i>Unsatisfactory</i> 1	<i>Basic</i> 2	<i>Proficient</i> 3	<i>Distinguished</i> 4	NA 0
IIIA16 Uses prompting/cueing	Teacher's questions and cueing are virtually all of poor quality, with low cognitive challenge and single correct responses, and they are asked in rapid succession.	Teacher's questions are a combination of low and high quality, posed in rapid succession. Only some invite a thoughtful response.	Most of teacher's questions are of high quality. Adequate time is provided for students to respond	Teacher's questions are of uniformly high quality, with adequate time for students to respond. Students formulate many questions.	Teacher's questions are of uniformly high quality, with adequate time for students to respond. Students formulate many questions.	Not observed

DOMAIN 3: Instruction		Unsatisfactory	Basic	Proficient	Distinguished	NA
		1	2	3	4	
III A21	Re-teaches following questioning	Teacher adheres rigidly to an instructional plan, even when a change is clearly needed.	Teacher attempts to adjust a lesson when needed, with only partially successful results.	Teacher makes a minor adjustment to a lesson, and the adjustment occurs smoothly.	Teacher successfully makes a major adjustment to a lesson when needed.	Not observed
		Teacher ignores or brushes aside students' questions or interests.	Teacher attempts to accommodate students' questions or interests, although the pacing of the lesson is disrupted.	Teacher successfully accommodates students' questions or interests.	Teacher seizes a major opportunity to enhance learning, building on student interests or a spontaneous event.	
DOMAIN 3: Instruction		Unsatisfactory	Basic	Proficient	Distinguished	NA
		1	2	3	4	0
III A26	Encourages students to check their own comprehension	Students do not engage in self-assessment or monitoring of progress.	Students occasionally assess the quality of their own work against the assessment criteria and performance standards.	Students frequently assess and monitor the quality of their own work against the assessment criteria and performance standards.	Students not only frequently assess and monitor the quality of their own work against the assessment criteria and performance standards but also make active use of that information in their learning.	Not Observed

DOMAIN 3: Instruction		<i>Unsatisfactory</i>	<i>Basic</i>	<i>Proficient</i>	<i>Distinguished</i>	<i>NA</i>
		<i>1</i>	<i>2</i>	<i>3</i>	<i>4</i>	<i>0</i>
III.A.31	Interacts instructionally with students (explaining, checking, giving feedback)	The lesson has no clearly defined structure, or the pace of the lesson is too slow or rushed, or both.	The lesson has a recognizable structure, although it is not uniformly maintained throughout the lesson. Pacing of the lesson is inconsistent.	The lesson has a clearly defined structure around which the activities are organized. Pacing of the lesson is generally appropriate.	The lesson's structure is highly coherent, allowing for reflection and closure. Pacing of the lesson is appropriate for all students.	Not Observed
		Interaction between teacher and students is predominately recitation style, with the teacher mediating all questions and answers.	Teacher makes some attempt to engage students in genuine discussion rather than recitation, with uneven results.	Teacher creates a genuine discussion among students, stepping aside when appropriate.	Students assume considerable responsibility for the success of the discussion, initiating topics and making unsolicited contributions.	
		Teacher's feedback to students is of poor quality and not provided in a timely manner.	Teacher's feedback to students is uneven, and its timeliness is inconsistent.	Teacher's feedback to students is timely and of consistently high quality.	Teacher's feedback to students is timely and of consistently high quality, and students make use of the feedback in their learning.

	1		2		3		4		0	
Engages all students (e.g., encourages all students to participate)	A few students dominate the discussion.		Teacher attempts to engage all students in the discussion, but with only limited success.		Teacher successfully engages all students in the discussion.		Students themselves ensure that all voices are heard in the discussion.			
	Instructional materials and resources are unsuitable to the instructional purposes of do not engage students mentally.		Instructional materials and resources are only partially suitable to the instructional purposes, or students are only partially mentally engaged with them.		Instructional materials and resources are suitable to the instructional purposes and engage students mentally.		Instructional materials and resources are suitable to the instructional purposes and engage students mentally. Students initiate the choice, adaptation, or creation of materials to enhance their learning		Not observed	

II. Teacher Interview

The Teacher Interview may be conducted before or after the observation, at a time when the teacher is free to talk with you for about 15 minutes and has his/her teaching records and plans at hand. A different reviewer will be used than the one who conducted the classroom observation. To keep the interview within the allotted time, the greeting must be brief, but friendly, and the questions asked and answered in a quick-paced manner. It may be helpful to begin the interview by reminding the teacher of the documents he/she was to have available. Use the script found below each of the indicator tables. If YES, check box on right hand side of the table. When finished, thank the teacher and move on.

Aligned, Objectives-Based Instruction and Assessment

IIIA01: *“Do you plan your lessons with guidance from a document that aligns the curriculum to state standards?”* If yes, *“please show me the document.”* If the teacher demonstrates that his/her daily lesson plans are aligned to standards, then check YES.

IIA01: *“Do you have standards-aligned instructional units for each subject and grade level as a resource for your lesson planning?”* If yes, *“please show me the document.”* If available, Check YES.

IIA02: *“Do your instructional units include performance objectives and criteria for student mastery?”* If yes, *“please show me unit descriptions.”* If the teacher has instructional units that reference specific standards-based objectives and mastery criteria, then check YES. (Note: if this is the same document shown for previous item, ascertain that it does include performance objectives and then check YES)

IIIA02: *“Are your weekly lesson plans aligned with the units of instruction?”* If yes, ask to see a plan(s) and the corresponding instructional unit. If it is clear from the documents or from the teacher’s explanation that alignment is a regular consideration in weekly lesson planning, check YES.

IIC01: *“Are the learning activities in your lesson plan related to standards-based performance objectives?”* If yes, *“please provide some examples from this lesson plan.”* If the teacher demonstrates in his/her lesson plan alignment of activities to performance objectives, then check YES.

IIB01: *“Do you use a pre-test/post-test to determine each student’s readiness for a new unit of instruction and mastery at the completion of a unit of instruction?”* If yes, ask the teacher to show you or describe one of the pre-test/post-tests used. If the pre-test/post-test is aligned with objectives, check YES. Note that a test is not necessarily paper-pencil in early grades, but may be an oral check of each student’s readiness and mastery.

IIB04: If YES to IIB01, ask: *“Do you individualize instruction based on pre-test results?”* If yes, ask the teacher to show an example. If there is evidence that instruction is differentiated, check YES.

IIB05: If YES to IIB01, ask: *“What do you do for students who don’t pass the test?”* If the teacher systematically re-teaches, check YES.

<i>IIIA01</i>	Is guided by a document that aligns instruction to a standards-based curriculum	Y N
<i>IIA01</i>	Uses a standards-aligned unit of instruction for each subject and grade level developed by the Instructional Team	Y N
<i>IIA02</i>	Uses a unit of instruction that includes standards-based objectives and criteria for Mastery	Y N
<i>IIIA02</i>	Develops a weekly lesson plan aligned with unit of instruction	Y N
<i>IIC01</i>	Organizes instruction around learning activities aligned to objectives	Y N
<i>IIB01</i>	Units of instruction include pre-/post-tests to assess student mastery of standards-based objectives.	Y N
<i>IIB04</i>	Teacher individualizes instruction based on pre-test results to provide support for some students and enhanced learning opportunities for others	Y N
<i>IIB05</i>	Re-teaches based on post-test results	Y N

Classroom Management

IIIC01: Ask “What do students do if they have completed their assigned work when working independently or when they are waiting for help from the teacher?” If the teacher indicates that he/she routinely provides students with curriculum-related work to

do if they complete an assignment or are waiting for help, or has a procedure for students to follow in cases of completing an assignment or waiting for help, check YES.

IIICo1	Provides curriculum-related activities for students when they have completed other work or are waiting for assistance	Y N
--------	-----------------------------------------------------------------------------------------------------------------------	-----

Homework/Communication with Parents

IIIB06: Ask, “Do you report to parents how their child is doing in mastering specific objectives?” If yes, ask to see a sample of a report that parents receive. If the report is systematically sent to parents at least once each grading period and includes indication of mastery of objectives, check YES.

IIIBo6	Systematically reports to parents the student’s mastery of specific objectives	Y N
--------	--------------------------------------------------------------------------------	-----

Computer-Based Instruction (Aligned, Objectives-Based Curriculum and Assessment)

Prompt: Ask, “Do students use computer-based instructional programs in the subject we are observing?” Clarify that the students receive instruction through a computer program and don’t use it only as a tool for word processing or similar tasks. If yes, check YES.

If “NO” to prompt, the interview is completed. If “YES”, continue.

IIIA40: Ask, “What do you do with reports of learning objectives accomplished with the computer program?” If the teacher explains a system either within the program itself or in his/her documentation that keeps a record of student mastery of subject objectives, check YES.

Notes and Comments Regarding Interview (Reference the indicator code with each comment.

Interview with Teacher _____ Date: _____ Grade Level: _____ Subject: _____

Teacher Name: _____ Observer(s): _____

	What is the best part of working at this school?		

Appendix 4-D (1): Superintendent Interview Questions

Guidelines:

- The interviewer(s) will meet from 60-90 minutes, depending on the time allotted.
- Timelines will be strictly honored (starting and ending times).
- At least 2 people will conduct the interview.
- The selected interviewers should have had school experience and/or a leadership role.
- One person should ask questions and the other record conversation and observations.

District Context and Support

IA07: The district sets district, school, and student subgroup achievement targets.

“What types of district, school, and student subgroup achievement targets does the district set?”

IA08: The school board and superintendent present a unified vision for school improvement.

“To what degree is your vision for school improvement unified with that of the school board? How do you and the board articulate that to the stakeholders of the district?”

IA09: The superintendent and other central office staff are accountable for school improvement and student learning outcomes.

“Other than through state mechanisms, how are you and others in your central office staff held accountable for school improvement and learning outcomes for all students?”

IA10: The district regularly reallocates resources to support school, staff, and instructional improvement.

“Describe the way in which you reallocate resources to support school, staff, and instructional improvement. What are some specific recent examples of these reallocations?”

IA12: The district intervenes early when a school is not making adequate progress.

“Describe the process that your district uses to intervene when a school is not making adequate progress.”

IA13: The district works with the school to provide early and intensive intervention for students not making progress.

“In what ways do you and central office staff work with the struggling schools to provide early and intensive intervention for students that are not making progress?” Describe some specific examples.

IA14: The district recruits, trains, supports, and places personnel to competently address the problems of schools in need of improvement.

“Describe what practices, procedures and policies are currently used to recruit, train, support and place qualified and effective personnel to competently address the problems of schools in need of improvement?”

District and Change Process

IB01: The district operates with district-level and school-level improvement teams.

“What district and school-level teams are in place that works to ensure improvement is occurring in areas of need? What is the frequency of meetings and structure or format of these meetings? What is the accountability or evaluation process for these improvement teams?”

IB02: The district examines existing school improvement strategies being implemented across the district and determines their value, expanding, modifying, and culling as evidence suggests.

“How does the district examine existing school improvement strategies that are being implemented across the district to determine their value? What process is in place to expand, modify, or set aside these strategies depending on the results of this process?”

IB07: The district ensures that the improvement plan includes research-based, field-proven programs, practices, and models.

“In what ways does the central office ensure that the district’s improvement plan includes research-based, proven programs, practices, and models? How does the district ensure implementation of these research-based programs, practices and models are done with fidelity?”

IB10: The district ensures that the change agent (typically the principal) is skilled in motivating staff and the community, communicating clear expectations, and focusing on improved student learning.

“To what degree are school leaders skilled in motivating both the staff and the community, communicating clear expectations, and focusing on improved student learning? What do you do when they are not skilled in one of these areas?”

IB12: The district is prepared for setbacks, resistance, and obstacles on the path to substantial improvement.

“How do you handle setbacks, resistance, and/or obstacles on the path to the improvement process in schools?”

District-School Expectations

IC01: The school reports and documents its progress monthly to the superintendent, and the superintendent reports the school’s progress to the school board.

“Describe the type and frequency with which schools report and document their progress to you. Similarly, describe the way in which you report schools’ progress to the school board.”

IC02: The district designates a central office contact person for the school, and that person maintains close communication with the school and an interest in its progress.

“IS there someone from the district designated as a central office contact person for schools in need of improvement, and how does that person maintain close communication with the school and an interest in its progress?”

IC05: The district provides a cohesive district curriculum guide/map aligned with state standards or otherwise places curricular expectations on the school.

“What are the district’s curricular expectations for schools both in terms of alignment to state standards and also from one grade level to the next within the district? In other words, describe the degree to which the district has mapped curriculum expectations.”

IC07: Professional development is built into the school schedule by the district, but the school is allowed discretion in selecting training and consultation that fit the requirements of its restructuring plan and its evolving needs.

“Describe the ways in which professional development is built into school schedules by the district. To what degree are the schools allowed discretion in selecting training and/or the help of consultants that match identified areas of need?”

IC08: Staff development is built into the schedule for support staff (e.g., aides, clerks, custodians, cooks) as well as classroom teachers.

“Describe how staff development is built into the schedule for all types of support staff (e.g., aides, clerks, custodians, cooks)?”

Appendix 4-D (2): Superintendent Interview Notes Page

District Context and Support

1. **(IA07)** - What types of district, school, and student subgroup achievement targets does the district set?
2. **(IA08)** – To what degree is your vision for school improvement unified with that of the school board? How do you and the board articulate that to the stakeholders of the district?
3. **(IA09)** - Other than through state mechanisms, how are you and others in your central office staff held accountable for school improvement and learning outcomes for all students?
4. **(IA10)** – Describe the way in which you reallocate resources to support school, staff, and instructional improvement.
5. **(IA12)** – Describe the process that your district uses to intervene when a school is not making adequate progress.

6. **(IA13)** – In what ways do you and central office staff work with the struggling schools to provide early and intensive intervention for students that are not making progress?

7. **(IA14)** - Describe what practices, procedures and policies are currently used to recruit, train, support and place qualified and effective personnel to competently address the problems of schools in need of improvement?

District and Change Process

8. **(IB01)** – What district and school-level teams are in place that works to ensure improvement is occurring in areas of need?

9. **(IB02)** – How does the district examine existing school improvement strategies that are being implemented across the district to determine their value? What process is in place to expand, modify, or set aside these strategies depending on the results of this process?

10. **(IB07)** – In what ways does the central office ensure that the district’s improvement plan includes research-based, proven programs, practices, and models? How does the district ensure implementation of these research-based programs, practices and models are done with fidelity?
11. **(IB10)** – To what degree are school leaders skilled in motivating both the staff and the community, communicating clear expectations, and focusing on improved student learning? What do you do when they are not skilled in one of these areas?
12. **(IB12)** – How do you handle setbacks, resistance, and/or obstacles on the path to the improvement process in schools?

District-School Expectations

13. **(IC01)** – Describe the type and frequency with which schools report and document their progress to you. Similarly, describe the way in which you report schools’ progress to the school board.

14. **(IC02)** – Is there someone from the district designated as a central office contact person for schools in need of improvement, and how does that person maintain close communication with the school and an interest in its progress?

15. **(IC05)** – What are the district’s curricular expectations for schools both in terms of alignment to state standards and also from one grade level to the next within the district? In other words, describe the degree to which the district has mapped curriculum expectations.

16. **(IC07)** – Describe the ways in which professional development is built into school schedules by the district. To what degree are the schools allowed discretion in selecting training and/or the help of consultants that match identified areas of need?

17. **(IC08)** – Describe how staff development is built into the schedule for all types of support staff (e.g., aides, clerks, custodians, cooks)?

Appendix 4-E (1): Principal Interview Form

Guidelines:

- The interviewer(s) will meet from 60-90 minutes, depending on the time allotted.
- Timelines will be strictly honored (starting and ending times).
- At least 2 people will conduct the interview.
- The selected interviewers should have had school experience and/or a leadership role.
- One person should ask questions and the other record conversation and observations.

Characteristic #2: High Standards and Expectations for All Students

IIIA01: All teachers are guided by a document that aligns standards, curriculum, instruction, and assessment.

“Are teachers guided by a specific document that aligns standards, curriculum instruction, and assessment? If not, what is guiding them?”

Probe: IIC0: Units of instruction include specific learning activities aligned to objectives.

“How do you support the development of units of instruction that include activities aligned to objectives?”

IIIA31: All teachers interact instructionally with students (explaining, checking, giving feedback).

“How do teachers interact instructionally with students (explaining, checking for understanding, and giving feedback)?”

IIIA32: All teachers interact managerially with students (reinforcing rules, procedures).

“How do teachers interact managerially with students (reinforcing rules, procedures)?”

IIIC10: All teachers reinforce classroom rules and procedures by positively teaching them.

“How do you help teachers reinforce rules and procedures by positively teaching them?”

Characteristic #3: Effective School Leadership

IE10: The principal celebrates individual, team, and school successes, especially related to student learning outcomes.

“How do you celebrate individual, team, and school successes, especially related to student learning outcomes?”

IE13: The principal offers frequent opportunities for staff and parents to voice constructive critique of the school’s progress and suggestions for improvement.

“Do you offer frequent opportunities for staff and parents to voice constructive critique of the school’s progress and suggestions for improvement? How?”

Characteristic #4: High Levels of Collaboration & Communication

ID01: A team structure is officially incorporated into the school improvement plan and school governance policy.

“How does your school improvement plan address the issue of teachers working together?”

ID07: A Leadership Team consisting of the principal, teachers who lead the Instructional Teams, and other key professional staff meets regularly (twice a month or more for an hour each meeting).

“What is the make-up of the Leadership Team and how often does the Leadership Team meet (i.e. twice a month or more for an hour each meeting).”

ID08: The Leadership Team serves as a conduit of communication to the faculty and staff.

“How does the Leadership Team serve as a conduit of communication to the faculty and staff?”

ID13: Instructional Teams meet for blocks of time (4 to 6 hour blocks, once a month; whole days before and after the school year) sufficient to develop and refine units of instruction and review student learning data.

“What impact has the instructional team had on developing and refining units of instruction and on reviewing student learning data?”

Probe: *“How is student data utilized in setting goals?”*

Characteristic #6: Frequent Monitoring of Learning and Teaching

IID08: Instructional Teams use student learning data to assess strengths and weaknesses of the curriculum and instructional strategies.

“How have instructional teams used student-learning data to assess the strengths and weaknesses of the curriculum and instructional strategies?”

IID06: Yearly learning goals are set for the school by the Leadership Team, utilizing student learning data.

“How are yearly learning goals set for the school by the Leadership Team?”

Probe: *“How have assessment data informed the development and/or progress of the School Improvement Plan?”*

Characteristic #7: Focused Professional Development

IF03: Professional development for teachers includes observations by the principal related to indicators of effective teaching and classroom management. **AND**

IF04: Professional development for teachers includes observations by peers related to indicators of effective teaching and classroom management.

“How do you use classroom observations to inform the professional development you provide your teachers?”

Probe: *“How does your professional development address effective teaching and classroom management?”*

Characteristic #9: High Level of Family and Community Involvement

IE13: The principal offers frequent opportunities for staff and parents to voice constructive critique of the school’s progress and suggestions for improvement.

“What opportunities do you offer for staff and parents to voice constructive critique of the school’s progress and suggestions for improvement?”

IIIB01: All teachers maintain a file of communication with parents.

“Do teachers maintain a file of communication with parents?”

IIIB06: All teachers systematically report to parents the student’s mastery of specific standards-based objectives.

“Do teachers systematically report to parents the student’s mastery of specific standards-based objectives? How?”

Probe: *“What opportunities are parents given to assist in children’s home-based study and their reading/math development and habits?”*

Appendix 4-E (2): Principal Interview Notes

Characteristic #2: High Standards & Expectations for All Students

1. **IIIA01:** Are teachers guided by a specific document that aligns standards, curriculum instruction, and assessment? If not, what is guiding them?
 - a. **Probe: IIC01** How do you support the development of units of instruction that include activities aligned to objectives?

2. **IIIA31:** How do teachers interact instructionally with students (explaining, checking for understanding, and giving feedback)?

3. **IIIA32:** How do teachers interact managerially with students (reinforcing rules, procedures)?

4. **IIIC10:** How do you help teachers reinforce rules and procedures by positively teaching them?

10. **ID13:** What impact has the instructional team had on developing and refining units of instruction and on reviewing student learning data?

a. **Probe:** How is student data utilized in setting goals?

Characteristic #6: Frequent Monitoring of Learning and Teaching

11. **IID08:** How have instructional teams used student-learning data to assess the strengths and weaknesses of the curriculum and instructional strategies?

12. **IID06:** How are yearly learning goals set for the school by the Leadership Team?

a. **Probe:** How have assessment data informed the development and/or progress of the School Improvement Plan?

Characteristic #7: Focused Professional Development

13. **IF03/IF04:** How do you use classroom observations to inform the professional development you provide your teachers?

- a. **Probe:** How does your professional development address effective teaching and classroom management?

Characteristic #9: High Level of Family and Community Involvement

14. **IE13:** What opportunities do you offer for staff and parents to voice constructive critique of the school's progress and suggestions for improvement?

15. **IIIB01:** Do teachers maintain a file of communication with parents?

16. **IIIB06:** Do teachers systematically report to parents the student's mastery of specific standards-based objectives? How?

- a. **Probe:** What opportunities are parents given to assist in children's home-based study and their reading/math development and habits?

Appendix 4-F (1): Leadership Team Focus Group

Guidelines:

- The group will meet for 60 minutes.
- Timeframes will be strictly honored (starting and ending times).
- The group will contain no more than 8 and no fewer 5 members.
- Two team members conduct the group: one to ask questions, the other to record conversation and observations of the group and be a timekeeper.

Characteristic #4: High Levels of Collaboration & Communication

ID07: A Leadership Team consisting of the principal, teachers who lead the Instructional Teams, and other key professional staff meets regularly (twice a month or more for an hour each meeting).

“How does the administration develop the leadership capacity of the Leadership Team members?”

ID08: The Leadership Team serves as a conduit of communication to the faculty and staff.

“How does the Leadership Team function within the school?”

Probe: *“How does it communicate with faculty and staff?”*

Characteristic #5: Curriculum, Instruction & Assessment Aligned w/State Standards

IIA01: Instructional Teams develop standards-aligned units of instruction for each subject and grade level.

“What process does the instructional team follow to develop or implement Standards aligned units of instruction?”

Characteristic #6: Frequent Monitoring of Learning and Teaching

IID06: Yearly learning goals are set for the school by the Leadership Team, utilizing student learning data.

“How are yearly learning goals set for the school by the Leadership Team?”

Probe: *“How have assessment data informed the development and/or progress of the School Improvement Plan?”*

IID08: Instructional Teams use student learning data to assess strengths and weaknesses of the curriculum and instructional strategies.

“How is student learning data used to assess the strengths and weaknesses of curriculum and instructional strategies?”

IID09: Instructional Teams use student learning data to plan instruction. **AND**

IID10: Instructional Teams use student learning data to identify students in need of instructional support or enhancement. **AND**

IID11: Instructional Teams review the results of unit pre-/post-tests to make decisions about the curriculum and instructional plans and to "red flag" students in need of intervention (both students in need of tutoring or extra help and students needing enhanced learning opportunities because of early mastery of objectives).

“What process is used to identify and support students in need of intervention?”

Characteristic #7: Focused Professional Development

IF01: The principal compiles reports from classroom observations, showing aggregate areas of strength and areas that need improvement without revealing the identity of individual teachers. **AND**

IF02: The Leadership Team reviews the principal's summary reports of classroom observations and takes them into account in planning professional development.

“What information/data does the Leadership Team use to plan professional development?”

Appendix 4-G (1): Instructional Staff Focus Group Questions

Guidelines:

- The group will meet for 60 minutes.
- Timeframes will be strictly honored (starting and ending times).
- Time should be budgeted to allow for answering all questions.
- The group will contain no more than 8 and no fewer 5 members who have instructional responsibilities including paraprofessional staff.
- The selection of group members (random or intentional) needs to be documented in the data analysis.
- The group composition should be representative of the school.
- Two team members conduct the group: one to ask questions, the other to record the conversation and observations of the group and to act as timekeeper.

Characteristic #2: High Standards and Expectations for All Students

IIIA01: All teachers are guided by a document that aligns standards, curriculum, instruction, and assessment. **AND**

IIIA02: All teachers develop weekly lesson plans based on aligned units of instruction. **AND**

IIIA05: All teachers maintain a record of each student's mastery of specific learning objectives.

“What documents guide your planning and instruction? Please identify them and describe them.”

Characteristic #3: Effective School Leadership

IE06: The principal keeps a focus on instructional improvement and student learning outcomes. **AND**

IE07: The principal monitors curriculum and classroom instruction regularly. **AND**

IE10: The principal celebrates individual, team, and school successes, especially related to student learning outcomes. **AND**

IE13: The principal offers frequent opportunities for staff and parents to voice constructive critique of the school's progress and suggestions for improvement. **AND**

“How does your administration demonstrate support for teaching and learning?”

Characteristic #6: Frequent Monitoring of Learning and Teaching

IIB01: Units of instruction include pre-/post-tests to assess student mastery of standards-based objectives. **AND**

IIB04: Teachers individualize instruction based on pre-test results to provide support for some students and enhanced learning opportunities for others. **AND**

IID08: Instructional Teams use student learning data to assess strengths and weaknesses of the curriculum and instructional strategies. **AND**

IID09: Instructional Teams use student learning data to plan instruction.

“What types of evaluation practices are used at this school to assess students learning?”

IIB05: Teachers re-teach based on post-test results. **AND**

IID10: Instructional Teams use student learning data to identify students in need of instructional support or enhancement. **AND**

IID11: Instructional Teams review the results of unit pre-/post-tests to make decisions about the curriculum and instructional plans and to "red flag" students in need of intervention (both students in need of tutoring or extra help and students needing enhanced learning opportunities because of early mastery of objectives).

“How is this information used?”

Probe: *“Look at what the administration has put in place to support your classroom practice and what affect that has had on your students.”*

Characteristic #7: Focused Professional Development

IF07: Professional development of individual teachers includes an emphasis on indicators of effective teaching. **AND**

IF08: Professional development for the whole faculty includes assessment of strengths and areas in need of improvement from classroom observations of indicators of effective teaching.

“What professional development activities (workshops, coaching, mentoring, learning communities, action research, etc.) have you participated in the past year?”

“What impact have they had on student learning and how you provide instruction?”

Probe: *“Give examples of how your principal supports instructional improvement.”*

Characteristic #9: High Level of Family and Community Involvement

IE13: The principal offers frequent opportunities for staff and parents to voice constructive critique of the school's progress and suggestions for improvement.

“How does leadership in the school communicate with staff and parents? How often?”

Appendix 4-G (2): Instructional Staff Focus Group Notes

Characteristic #2: High Standards and Expectations for All Students

1. **IIIA01, IIIA02 IIIA05:** *“What documents guide your planning and instruction? Please identify them and describe them.*

Characteristic #3: Effective School Leadership

2. **IE06, IE07, IE10, IE13:** *“How does your administration demonstrate support for teaching and learning?”*

Characteristic #6: Frequent Monitoring of Learning and Teaching

3. **IIB01, IIB04, IID08, IID09:** *“What types of evaluation practices are used at this school to assess students learning?”*

4. **IIB05, IID10, IID11:** *“How is this information used?”*

- a. **Probe:** *“Look at what the administration has put in place to support your classroom practice and what affect that has had on your students.”*

Characteristic #7: Focused Professional Development

5. **IF07, IF08:** *“What professional development activities (workshops, coaching, mentoring, learning communities, action research, etc.) have you participated in the past year?”*

6. **IF07, IF08:** *“What impact have they had on student learning and how you provide instruction?”*

a. **Probe:** *“Give examples of how your principal supports instructional improvement.”*

Characteristic #9: High Level of Family and Community Involvement

7. **IE13:** *“How does leadership in the school communicate with staff and parents? How often?”*

Appendix 4-H (1): Non-Instructional Staff Focus Group Questions

Guidelines:

- The group will meet for 60 minutes.
- The group can include: dean of students, guidance counselor, school nurse, secretaries, security staff, food services staff, building service staff, technical support staff, and other non-teaching staff.
- Timeframes will be strictly honored (starting and ending times).
- Time should be budgeted to allow for answering all questions.
- The group will contain no more than 8 and no fewer than 5 members.
- The selection of group members (random or intentional) needs to be documented in the data analysis.
- The group composition should be representative of non-teaching staff in the school (e.g. school nurse, secretaries, building services personnel, parent outreach staff).
- Two team members conduct the group: one to ask questions, the other to record the conversation and observations of the group, and to act as timekeeper.

Characteristic #3: Effective School Leadership

IE06: The principal keeps a focus on instructional improvement and student learning outcomes.

“How does the administration keep a focus on instructional improvement and student learning outcomes?”

IE10: The principal celebrates individual, team, and school successes, especially related to student learning outcomes.

“How does the administration celebrate individual, team, and school successes?”

IE13: The principal offers frequent opportunities for staff and parents to voice constructive critique of the school’s progress and suggestions for improvement.

“What opportunities are you given to voice constructive comments about the school’s progress and offer suggestions for improvement?”

Characteristic #4: High Levels of Collaboration & Communication

IID06: Yearly learning goals are set for the school by the Leadership Team, utilizing student learning data. **AND**

ID08: The Leadership Team serves as a conduit of communication to the faculty and staff.

“How are you made aware of the yearly learning goals set for the school?”

Characteristic #7: Focused Professional Development

IF08: Professional development for the whole faculty includes assessment of strengths and areas in need of improvement from classroom observations of indicators of effective teaching.

“How are you involved in professional development for the whole school staff?”

Characteristic #9: High Level of Family and Community Involvement

IE13: The principal offers frequent opportunities for staff and parents to voice constructive critique of the school’s progress and suggestions for improvement.

“How does the school staff communicate regularly with parents and community?”

Appendix 4-H (2): Non-Instructional Staff Focus Group Notes

Characteristic #3: Effective School Leadership

1. **IE06:** *“How does the administration keep a focus on instructional improvement and student learning outcomes?”*
2. **IE10:** *“How does the administration celebrate individual, team, and school successes?”*
3. **IE13:** *“What opportunities are you given to voice constructive comments about the school’s progress and offer suggestions for improvement?”*

Characteristic #4: High Levels of Collaboration & Communication

4. **IID06, ID08:** *“How are you made aware of the yearly learning goals set for the school?”*

Characteristic #7: Focused Professional Development

5. **IF08:** *“How are you involved in professional development for the whole school staff?”*

Characteristic #9: High Level of Family and Community Involvement

6. **IE13:** *“How does the school staff communicate regularly with parents and community?”*

Appendix 4-I (1): Parent Focus Group

Guidelines:

- The group will meet for 60 minutes.
- Timeframes will be strictly honored (starting and ending times).
- The group will contain no more than 8 and no fewer 5 members.
- The selection of group members (random or intentional) needs to be documented in the data analysis.
- The group composition should be representative of the student population of the school.
- Two team members conduct the group: one to ask questions, the other to record conversation and observations of the group and be a timekeeper.

Characteristic #3: Effective School Leadership

IE10: The principal celebrates individual, team, and school successes, especially related to student learning outcomes.

“Does the principal at this school celebrate the school’s successes? If so, how?”

Parent Involvement Analysis:

“How does the principal inform parents about the school’s mission and goals?”

Characteristic #9: High Level of Family and Community Involvement

IE13: The principal offers frequent opportunities for staff and parents to voice constructive critique of the school’s progress and suggestions for improvement.

“How often does the principal at this school give you opportunities to voice your opinion and provide suggestions about the school’s progress?”

IIIB01: All teachers maintain a file of communication with parents.

“What kinds of communication do you receive from this school about ways to help your child succeed in school?”

IIIB06: All teachers systematically report to parents the student's mastery of specific standards-based objectives.

“What opportunities are you given to meet with your child's teachers to discuss your child's progress?”

Parent Involvement Analysis:

“What kinds of practical guidance do you receive from this school to encourage your child's regular reading habits at home?”

Appendix 4-I (2): Parent Focus Group Notes
Characteristic #3: Effective School Leadership

1. **IE10:** *“Does the administration at this school celebrate the school’s successes? If so, how?”*

2. **PIA:** *“How does the principal inform parents about the school’s mission and goals?”*

Characteristic #9: High Level of Family and Community Involvement

3. **IE13:** *“How often does the principal at this school give you opportunities to voice your opinion and provide suggestions about the school’s progress?”*

4. **IIIB01:** *“What kinds of communication do you receive from this school about ways to help your child succeed in school?”*

5. **IIIB06:** *“What opportunities are you given to meet with your child’s teachers to discuss your child’s progress?”*

6. **PIA:** *“What kinds of practical guidance do you receive from this school to encourage your child’s regular reading habits at home?”*

Appendix 4-J (1): Student Focus Group

Guidelines:

- The group will meet for 60 minutes.
- Timeframes will be strictly honored (starting and ending times).
- The group will contain no more than 8 and no fewer 5 members.
- The selection of group members (random or intentional) needs to be documented in the data analysis.
- The group composition should be representative of the student population of the school.
- Parent notification and permission is required for each of the group members. Parent notification and getting parental permission is the responsibility of the school/district and necessary documentation must be presented to evaluators prior to participating in the Student Focus Group.
- Two team members conduct the group: one to ask questions, the other to record conversation and observations of the group and be a timekeeper.

Characteristic #2: High Standards and Expectations for All Students

IIIA31: All teachers interact instructionally with students (explaining, checking, giving feedback). **AND**

IIIA33: All teachers interact socially with students (noticing and attending to an ill student, asking about the weekend, inquiring about the family).

“Does your teacher believe you can learn?”

IIIA13: All teachers explain directly and thoroughly. **AND**

IIIA26: All teachers encourage students to check their own comprehension.

“Does your teacher expect you to work hard?”

IIIA09: All teachers clearly state the lesson’s topic, theme, and objectives.

“Does your teacher make clear what you are supposed to learn?”

IIB04: Teachers individualize instruction based on pre-test results to provide support for some students and enhanced learning opportunities for others. **AND**

IIIA11: All teachers use modeling, demonstration, and graphics. **AND**

IIIC05: IIIC05 All teachers use a variety of instructional modes.

“Does your teacher use different ways to help you learn?”

Characteristic #3: Effective School Leadership

IE10: The principal celebrates individual, team, and school successes, especially related to student learning outcomes.

“Does your school celebrate the school’s success? How?”

IE13: The principal offers frequent opportunities for staff and parents to voice constructive critique of the school’s progress and suggestions for improvement.

“Does your teacher listen to your ideas and opinions?”

Characteristic #9: High Level of Family and Community Involvement

IIIB01: All teachers maintain a file of communication with parents.

“Does your teacher tell your family when you are going a good job in school?”

IIIB06: All teachers systematically report to parents the student’s mastery of specific standards-based objectives.

“If you are having problems learning, does your teacher talk with your family?”

Appendix 4-Q: Student Focus Group Notes

Characteristic #2: High Standards and Expectations for All Students

1. IIIA31, IIIA33: *“Does your teacher believe you can learn?”*
2. IIIA13, IIIA26: *“Does your teacher expect you to work hard?”*
3. IIIA09: *“Does your teacher make clear what you are supposed to learn?”*
4. IIB04, IIIA11, IIIC05: *“Does your teacher use different ways to help you learn?”*

Characteristic #3: Effective School Leadership

5. **IE10:** *“Does your school celebrate the school’s success? How?”*

6. **IE13:** *“Does your teacher listen to your ideas and opinions?”*

Characteristic #9: High Level of Family and Community Involvement

7. **IIIB01** *“Does your teacher tell your family when you are going a good job in school?”*

8. **IIIB06:** *“If you are having problems learning, does your teacher talk with your family?”*

Appendix 4-K: List of Requested Documents for Document Review

Note: Schools and teachers should be provided this list in advance and asked to have these documents available on-site, if requested, during the review. Interview questions will relate to the processes and procedures staff use in relation to the instructional core. The SDE recommends that the following be readily available as artifacts during the interview process in order to support the conversation.

AYP Data

Content and Performance Standards

Course Syllabi

Faculty Meeting Agendas

Individualized Learning Plans

Instructional Team Meeting Schedules, Agendas, and Notes

Instructional Units

Pacing Guides

Principal's Calendar

Professional Development Plan, Schedule, and Session Agendas

Sample of newsletters and other communications to external and internal audiences

School Community Council Mission Statement and Membership List

School Events Calendar

School Improvement Plan

Teacher Handbook

Appendix 4-L: Document Review Checklist

Note: The set of documents in Column 1 listed under each of the *Nine Characteristics of High Performing Schools* is to be examined in order to complete the checklist for each indicator under that characteristic. If evidence is noted, check the “Yes” box and also indicate the document(s) containing the evidence to assist in report preparation. Twenty nine (29) indicators will be evaluated, in part, on the basis of document review.

Characteristic 2 – High Standards and Expectations for All Students			
Document Set	Relevant Indicators	Yes (evidence of indicator noted)	No (evidence of indicator not noted)
Classroom Instruction - Preparation			
School Improvement Plan, Instructional units, content and performance standards, pacing guides, Instructional Team meeting notes	IIIA01: All teachers are guided by a document that aligns standards, curriculum, instruction, and assessment		
Instructional Team meeting schedules and notes, AYP data	IIIA02: All teachers develop weekly lesson plans based on aligned units of instruction.		
	IIIA05: All teachers maintain a record of each student’s mastery of specific learning objectives.		
	IIIA06: All teachers test frequently using a variety of evaluation methods and maintain a record of the results.		

Characteristic 3 – Effective School Leadership			
Document Set	Relevant Indicators	Yes (evidence of indicator noted)	No (evidence of indicator not noted)
Newsletters and other communications to external and internal	IE07: The principal monitors curriculum and classroom instruction		

Characteristic 3 – Effective School Leadership			
Document Set	Relevant Indicators	Yes (evidence of indicator noted)	No (evidence of indicator not noted)
audiences, School events calendar	regularly.		
Principal's calendar, Faculty Meeting agendas	IE10: The principal celebrates individual, team, and school successes, especially related to student learning outcomes.		
School Improvement Plan, Instructional units, content and performance standards, pacing guides	IE13: The principal offers frequent opportunities for staff and parents to voice constructive critique of the school's progress and suggestions for improvement.		

Characteristic 4 – High Levels of Collaboration & Communication			
Document Set	Relevant Indicators	Yes (evidence of indicator noted)	No (evidence of indicator not noted)
School Improvement Plan, Instructional Team meeting schedules and notes, AYP data	ID01: A team structure is officially incorporated into the school improvement plan and school governance policy.		
Instructional units, content and performance standards, pacing guides, Instructional Team meeting notes	ID08: The Leadership Team serves as a conduit of communication to the faculty and staff		
Newsletters and other communications to external and internal audiences, School events calendar	ID13: Instructional Teams meet for blocks of time (4 to 6 hour blocks, once a month; whole days before and after the school year) sufficient to develop and refine units of instruction and review student learning data.		

Characteristic 5 - Curriculum, Instruction & Assessments Aligned w/ State Standards			
Document Set	Relevant Indicators	Yes (evidence of indicator noted)	No (evidence of indicator not noted)
School Improvement Plan, Instructional units, content and performance standards, pacing guides, Instructional Team meeting notes	IIA01: Instructional teams develop standards-aligned units of instruction for each subject & grade level		
	IIA02 Units of instruction include standards-based objectives and criteria for mastery		
	IIC01 Units of instruction include specific learning activities aligned to objectives		
	IIC01 Materials for standards-aligned learning activities are well-organized, labeled, and stored for convenient use by teachers.		

Characteristic 6 – Frequent Monitoring of Learning and Teaching			
Document Set	Relevant Indicators	Yes (evidence of indicator noted)	No (evidence of indicator not noted)
	Classroom Assessment		
	IIB01: Units of instruction include pre-/post-tests to assess student mastery of standards-based objectives.		
	Periodic Assessment		
Course syllabi, Instructional Team meeting agendas and notes, School Improvement Plan, individualized learning	IID06: Yearly learning goals are set for the school by the Leadership Team, utilizing student learning data.		

Characteristic 6 – Frequent Monitoring of Learning and Teaching			
Document Set	Relevant Indicators	Yes (evidence of indicator noted)	No (evidence of indicator not noted)
plans			
Instructional units, content and performance standards, pacing guides, Instructional Team meeting notes	IID08: Instructional Teams use student learning data to assess strengths and weaknesses of the curriculum and instructional strategies.		
Instructional Team meeting agendas and notes, School Improvement Plan, AYP data	IID09: Instructional Teams use student learning data to plan instruction.		
	IID10: Instructional Teams use student learning data to identify students in need of instructional support or enhancement.		
	IID11: Instructional Teams review the results of unit pre-/post-tests to make decisions about the curriculum and instructional plans and to "red flag" students in need of intervention (both students in need of tutoring or extra help and students needing enhanced learning opportunities because of their early mastery of objectives).		

Characteristic 7 – Focused Professional Development			
Document Set	Relevant Indicators	Yes (evidence of indicator noted)	No (evidence of indicator not noted)
Professional Development Plan (for school), Professional Development session agendas	IF05: Professional development for teachers includes self-assessment related to indicators of effective teaching and classroom management.		

Characteristic 7 – Focused Professional Development			
Document Set	Relevant Indicators	Yes (evidence of indicator noted)	No (evidence of indicator not noted)
	IF08: Professional development for the whole faculty includes assessment of strengths and areas in need of improvement from classroom observations of indicators of effective teaching.		
	IF10: The principal plans opportunities for teachers to share their strengths with other teachers.		

Characteristic 9 – High Level of Family and Community Involvement			
Document Set	Relevant Indicators	Yes (evidence of indicator noted)	No (evidence of indicator not noted)
School Community Council mission statement and membership list, Teacher Handbook, Parent Newsletters	IE 13: The principal offers frequent opportunities for staff and parents to voice constructive critique of the school's progress and suggestions for improvement.		
	IIIB01: All teachers maintain a file of communication with parents.		
Newsletters and other communications to external and internal audiences, School events calendar	IIIB06: All teachers systematically report to parents the student's mastery of specific standards-based objectives		
Principal's calendar, Faculty Meeting agendas, Newsletters and other communications to external and internal audiences, School events calendar	PIA: Parents receive regular communication (absent jargon) about learning standards, their children's progress, and the parents' role in their children's school success.		

Characteristic 9 – High Level of Family and Community Involvement			
Document Set	Relevant Indicators	Yes (evidence of indicator noted)	No (evidence of indicator not noted)
	PIA: Parents receive practical guidance to encourage their children’s regular reading habits at home.		
	PIA: Parents are given opportunities to meet with teachers to discuss both their children’s progress in school and their children’s home-based study and reading habits.		

Appendix 4-M (1): School Staff Survey of School Characteristics

Nine Characteristics of High Performing Schools Perception Surveys

School Staff Survey of School Characteristics

To improve school quality and help students learn, school personnel need to identify their strengths and areas needing improvement. Obtaining your views about your school is an important part of this process.

The survey on the following pages was developed to generate discussion that can help your school improvement efforts. Each of the statements in the survey relate to one or more of the nine characteristics of high-performing schools. (*For more information on these types of schools, see <http://www.k12.wa.us/research/pubdocs/pdf/9character%20SIP.pdf>*)

It will take you about 10 minutes to complete the survey. To ensure your responses remain confidential, your ratings will be combined with other staff and reported as a group. Completing the survey is voluntary, although we encourage you to respond honestly to help your school get a complete understanding of staff views. To help keep survey responses confidential, consider using an out-of-district resource to give the survey and analyze the results.

Survey Scale: The survey on the following pages uses a 5-point scale, from 1 meaning you “do not agree at all” to 5 meaning you “agree completely.” Indicate the number that best describes your level of agreement about each statement. If you have no knowledge to make an accurate selection, mark 0 in the first column (“no basis to judge”).

Before taking the survey, please complete the *School Staff Survey of School Characteristics Information* form on the following page. This information will be used for analysis purposes only, and results will not be reported for categories that have fewer than five (5) responses.

Note: Schools & Districts participating in the Idaho Building Capacity Project will utilize perceptual surveys together as a cohort.

School Staff Survey of School Characteristics Information

District: _____ School: _____ Date: _____

1. Level/Type of School (check all that apply):

- Elementary School Middle/Junior High School High School
 Other: _____

2. Grades Served by this School (e.g. K-6): _____

3. Your primary role (*check one*):

- Teacher Building Administrator Para-educator
 Other Classified Staff Other Certificated Staff

4. Years working in your current role (*include work in other locations*):

- 0 - 3 4 - 7 8 - 15 16 or more

5. Years working in this school (*check one*):

- 0 - 3 4 - 7 8 - 15 16 or more

6. Grade(s) taught (*circle all that apply*):

K 1 2 3 4 5 6 7 8 9 10 11 12 Not applicable

7. [Optional: For individual school use]:

School Staff Survey of School Characteristics

Think about your school as you read each of the statements below. Then circle the number that best describes how much you agree with that statement.

The survey on the following pages uses a 5-point scale, from 1 meaning you “do not agree at all” to 5 meaning you “agree completely”. Indicate the number that best describes your level of agreement about each statement. If you have no knowledge to make an accurate selection, mark 0 in the first column (“no basis to judge”).

		No Basis to Judge	Don't Agree At All		Agree Moderately	Agree Completely	
1. Vision	a. The school has a clear sense of purpose.	0	1	2	3	4	5
	b. I have a clear understanding of what the school is trying to achieve.	0	1	2	3	4	5
	c. The staff shares a common understanding of what the school wants to achieve.	0	1	2	3	4	5
	d. All staff are committed to achieving the school's goals.	0	1	2	3	4	5

9. Family & Community Involvement	a. The staff believes students learn more through effective family support.	0	1	2	3	4	5
	b. The school works with many community organizations to support its students.	0	1	2	3	4	5
	c. The school makes a special effort to contact the families of students who are struggling academically.	0	1	2	3	4	5
	d. Teachers have frequent contact with their student's parents.	0	1	2	3	4	5
	e. The school provides ample information to families about how to help students succeed in school.	0	1	2	3	4	5
	f. Many parents are involved as volunteers at the school.	0	1	2	3	4	5

Comments or Response to Optional Question(s):

Nine Characteristics of High Performing Schools Perception Surveys

Family Perspectives Survey

Certain characteristics of a school can affect student learning. This survey asks for your views about our school so we can improve and provide the best possible education for your child.

It will take you about 5-10 minutes to respond to the 30 statements about the school. The survey uses a 5-point scale, with **1** meaning you “don’t agree at all” with the statement, and **5** meaning you “agree completely”. (Mark the **0** when you don’t know or the statement does not apply.) Mark one number for each statement.

Please respond honestly to each statement. *All responses will be anonymous and remain confidential.* Participation is voluntary, and not responding to the survey will not affect your child in any way. If you do not want to take the survey, please check the box below and return the blank survey to the school.

I choose not to respond to this survey

Please provide some background information about yourself. This information will be used for analysis purposes only, and results will not be reported for categories that have fewer than five (5) responses. (Mark one box for each question)

1. Gender: Male Female

2. Your race/ethnicity: American Indian/Native Amer. African American/Black
 Asian/Pacific Islander Hispanic/Latino
 White/Caucasian Multi-racial
 Other

3. Number of children in this school: 0 1 2 3 4 or more

4. Number of children under 18 living in your home:
 0 1 2 3 4 5 or more

5. Relationship to children in the school: Parent Guardian
 Relative Other

6. Main language spoken at home: English Spanish
 Cambodian Chinese
 Korean Russian
 Ukranian Tagalog
 Vietnamese Other

7. Frequency of visits to the school:
 Never Rarely Sometimes Often Very Often

8. Provide any comments below or attach them to this survey.

Family Perspectives Survey

Think about your school as you read each of the statements below. Then circle the number that best describes how much you agree with that statement.

The survey on the following pages uses a 5-point scale, from 1 meaning you “do not agree at all” to 5 meaning you “agree completely”. Indicate the number that best describes your level of agreement about each statement. If you don’t know or the statement does not apply, mark 0 in the first column (“no basis to judge”).

District: _____ School: _____ Date: _____

	No Basis to Judge	Don't Agree At All	Agree Moderately	Agree Completely		
1. The school has a clearly defined purpose and mission.	0	1	2	3	4	5
2. I have a clear understanding of what the school is trying to accomplish.	0	1	2	3	4	5
3. I support the goals of the school.	0	1	2	3	4	5
4. The school's primary emphasis is improving student learning.	0	1	2	3	4	5
5. The school communicates its goals effectively to families and the community.	0	1	2	3	4	5
6. All students in the school are expected to meet high standards.	0	1	2	3	4	5
7. My child understands what needs to be learned.	0	1	2	3	4	5
8. School work is meaningful and made relevant.	0	1	2	3	4	5
9. Teachers do whatever it takes to help my child meet high academic standards.	0	1	2	3	4	5
10. Teachers make adjustments to meet individual student's needs.	0	1	2	3	4	5
11. Classes challenge students to think and solve problems.	0	1	2	3	4	5
12. Students receive detailed information about the quality of the work they do.	0	1	2	3	4	5
13. Teachers give students extra help if it is needed.	0	1	2	3	4	5

Section 5. Preparing and Transmitting the Instructional Core Focus Visit Report

The Instructional Core Focus Visit team leader and team are all involved in preparing the Instructional Core Focus Visit Report. To assist the team in preparing the report, the LEA arranges for workspace and equipment. The LEA also provides editorial and other support services needed for report preparation.

The team leader is responsible for managing the activities related to data analysis and report preparation, and serves as liaison to the LEA regarding this work. It is the team leader's responsibility to schedule and monitor a timeline to complete this phase of the Instructional Core Focus Visit; to this end the team leader schedules and conducts team meetings to review on-site data and determine the nature of findings and recommendations to be included in the report. The team leader makes appropriate assignments to team members. Finally, the team leader, personally or through delegation, assures that the Instructional Core Focus Visit report reflects high standards for analysis and writing.

The team members are responsible for participating in all team meetings, completing all assigned tasks, and providing feedback on the Instructional Core Focus Visit report if requested.

Compiling and analyzing data

The first task is to compile the TICO summary data. Data from the TICO summary sheet for each teacher is entered into the TICO Data Compiler (Appendix 5-B) and totaled. These data provide information, based on the observations and interviews conducted, on the extent to which teachers' preparation and instruction reflect Instructional Core Focus Visit indicators. If there are sufficient numbers of teachers involved (i.e., at least three) the team may consider disaggregating the TICO data by grade level (or cluster i.e., grades 1-3) and/or by subject area (i.e., reading). TICO data will be compiled by individual school and by district. TICO data are to be reported by the percentage of teachers whose practices reflect indicators. Appendix 5-C displays examples of how TICO data may be reported for selected individual indicators.

The analysis task brings together all data sources aligned with the indicators (note: there will be instances where the nature of the data sources requires alignment at the characteristic level instead). A data analysis matrix tool is included in Appendix 5-D. This tool is an adaptation of the Patterns of Practice Matrix that lays out the set of review indicators organized within the nine characteristics. The analysis tool is structured to permit the team to attribute on-site review data, by source, to individual indicators. Working through this tool provides an opportunity for the team to capture what was heard and seen on-site.

Quantitative data includes the TICO information (reported as the percentage of teachers whose practices reflect the indicators). Results of the CEE survey (reported as the number or percentage of respondents agreeing with an item) may also be considered but optional. Qualitative data includes the results of the document reviews as well as the interview and

focus group notes. TICO data and document review results need to be weighted more heavily in the team's analysis process than school personnel's perceptions and/or opinions.

By completing the data analysis tool the team can determine the extent to which the school's practices reflect the indicators. The team is encouraged to reach consensus on each indicator based on the available evidence. This process requires the team to consider the weight of evidence. It may be helpful for the team to ask itself, in ambiguous cases, whether there is enough evidence to discern that "it is raining" (with regard to an indicator). This means that there is a strong enough data-based case supporting the presence of the indicator in the school.

How do we tell if it is raining? If we are indoors and see dark clouds, this might be a clue. Observing people walking with raised umbrellas or cars passing with windshield wipers in motion would increase our belief that it is raining. Seeing puddles might provide stronger evidence. But we'd have the most confidence if we personally could actually feel the rain. This is the standard teams must try to apply in the analysis activity.

Preparing for exit meeting

An exit meeting will be scheduled at the conclusion of the Instructional Core Focus Visit to share a summarized report with the district leadership team. All aspects of the Instructional Core Focus Visit will be reflective within this meeting emphasizing areas of strengths, areas of weaknesses, and recommendations based upon the evidence collected during the Focus Visit. The exit meeting will be facilitated by the team lead and will not exceed 60 minutes. All Focus Team members will be present to be available for questions or clarifications. Team members will also be assigned different agenda items to review and present at the request of the team lead. The LEA is given the latitude to include any and all members from their LEA. The local school board must have representation during the exit meeting.

Agenda topics for this exit meeting will include:

- Introductions of team members and explanation of history, goals and expectations from the Instructional Core Focus Visit
- Review of individual Focus Group meetings
- Review of school/district TICO data collection
- Review of CEE survey data
- Review of Instructional Core Focus Visit Report

A suggested outline for the Instructional Core Focus Visit report is included in Appendix 5-E (2). The team leader oversees the writing of the report and, after reviewing its content, shares the report with the LEA during the exit meeting. The report is drafted from both qualitative and quantitative data collected throughout the Instructional Core Focus Visit and summarized under the Nine Characteristics of High Performing Schools and categorized by areas of strengths, areas of concerns and recommendations based on evidence.

The report's Introduction would briefly describe the purpose of the review, how it was conducted, and who participated. It should also acknowledge the cooperation of the school staff. Finally, it should indicate the scope of the review (e.g., number of CEE survey

respondents, number of teachers observed and interviewed, number of persons involved in focus group conversations, and identification of documents reviewed). The Highlights section is an opportunity to emphasize a small number of important findings (and recommendations) and/or strengths identified within the course of the Instructional Core Focus Visit.

For each standard, the report will reflect the results of the team's analysis of the data. Although the recommendations are written for the school's consideration, they are also designed to inform LEA and SEA assistance services. A copy of the Indicator Framework (Appendix 1-A) should be included in the report.

The LEA will review all the information presented during the exit meeting and prioritize how to address the recommendations. The team lead will be in contact with the LEA leadership team within two weeks following the Instructional Core Focus Visit to provide additional technical assistance or guidance and clarification to the review team's recommendations. The team leader will continue to offer technical assistance every two weeks for the duration of the school year. A concerted effort of technical assistance will be provided by Capacity Builders, if applicable. If the LEA is not part of the Idaho Capacity Building Project a temporary Capacity Builder will be provided. Within the first month following the Instructional Core Focus Visit the LEA will submit a prioritized list of Focus Items to the team leader identifying a plan of action of addressing and implementing necessary practice to these Focus Items.

Holding a debriefing meeting for Focus Visit team members (optional)

Within one month following the on-site visit, the SDE may hold a one day meeting to examine all Instructional Core Focus Visit data and determine the report content. This meeting may be scheduled during the planning process (Section 2). Prior to the meeting, note takers for interview/focus group activities should complete their transcription and coding activities (Section 4). The team leader will have all of the copies of TICO forms and Document Review checklists, as well as summary data resulting from the CEE survey. The main objective of this meeting will be to review the procedures of the Instructional Core Focus Visit, identify areas of strengths and concerns, and to evaluate the overall success of the process.

Appendix 5-C : Reporting TICO Data

Teacher Interview and Classroom Observation Instrument (TICO)

Tally Sheet

Data are reported as the percentage of teachers whose practice reflects an indicator. Data may be disaggregated by grade level and/or subject area. Here are examples of tabulation and statement of finding. This would be done for each indicator as part of Focus Visit data analysis task.

School:

Date of Review:

TICO Observation

Indicator: IIC01

When waiting for teacher assistance or finished with assignment, students are occupied with curriculum-related activities.(exclude in # of Teachers Observed any teacher marked as no occasion for the observation)

Grade Level	# of Teachers Observed (Column A)	# of Indicators Observed (Column B)	% of Indicators Observed (B / A)
Whole School	8	4	4/8 = 50%

Fifty percent of observed teachers' classrooms exhibited behavior reflecting this indicator.

Indicator: IIIA35

Students are engaged and on task.

Grade 4 Classes	# of Teachers Observed (Column A)	# of Indicators Observed (Column B)	% of Indicators Observed (B / A)
	3	3	3/3 = 100%

All of the Grade 4 Classes observed had evidence of this indicator.

Indicator: IIC05

Teacher uses a variety of instructional modes.

Math Classes	# of Teachers Observed (Column A)	# of Indicators Observed (Column B)	% of Indicators Observed (B / A)
	4	1	1/4 = 25%

This indicator was observed in 25% of the math classes observed

TICO Interview

Indicator: IIA02

Uses a unit of instruction that includes standards-based objectives and criteria for mastery.

Whole School	# of Teachers (Column A)	# of Indicators (Column B)	% of Indicators (B / A)
	10	7	$7/10 = 70\%$

Seventy percent of teachers interviewed had evidence of this indicator.

Indicator: IIIA03/04

Teacher uses objective-based pre-tests and post-tests.

Reading	# of Teachers (Column A)	# of Indicators (Column B)	% of Indicators (B / A)
	8	7	$7/8 = 87.5\%$

87.5% of the teachers interviewed regarding reading instruction documented the use of pre-tests and post-tests.

Indicator: IIIC01

Provides curriculum-related activities for students when they have completed other work or are waiting for assistance.

Grade 3	# of Teachers (Column A)	# of Indicators (Column B)	% of Indicators (B / A)
	4	1	$1/4 = 25\%$

Twenty-five percent of Grade 3 teachers interviewed indicated they provided such activities.

Appendix 5-D: Focus Visit Analysis Matrix Tool

This table arrays specific items appearing on the data collection tools (by item number or other designation depending on the tool) used in the reviews against the set of indicators that will be reported upon. For triangulation purposes there are multiple data sources per indicator.

Indicator	TICO Interview	TICO Observe	Principal Interview	CEE Survey	Instructional Staff Focus Group	Non-Instructional Staff Focus Group	Leadership Instructional Team Focus Group	Student Focus Group	Parent Focus Group	Documents Evidence Tangibles
Characteristic 2 High Standards & Expectations for All Students										Instructional Team meeting schedules and notes, AYP data, School Improvement Plan, Instructional units, content & performance standards, pacing guides, Newsletters and other communications to external and internal audiences, School events calendar, Course syllabi, individualized learning plans
IIIA01: All teachers are guided by a document that aligns standards, curriculum, instruction, and assessment.	X		X		X					
IIIA02: All teachers develop weekly lesson plans based on aligned units of instruction.	X				X					
IIIA05: All teachers maintain a record of each student's mastery of specific learning objectives.	X				X					
IIIA06: All teachers test frequently using a variety of evaluation methods & maintain a record	X									

Indicator	TICO Interview	TICO Observe	Principal Interview	CEE Survey	Instructional Staff Focus Group	Non-Instructional Staff Focus Group	Leadership Instructional Team Focus Group	Student Focus Group	Parent Focus Group	Documents Evidence Tangibles
of the results.										
IIIA09: All teachers clearly state the lesson's topic, theme, & objectives.		X						X		
IIIA11: All teachers use modeling, demonstration & graphics.		X						X		
IIIA13: All teachers explain directly and thoroughly.		X						X		
IIIA16: All teachers use prompting/cueing.		X								
IIIA21: All teachers re-teach following questions.		X								
IIIA26: Teachers encourage students to check their own comprehension.		X						X		
IIIA28: All teachers travel to all areas in which students are working.		X								

Indicator	TICO Interview	TICO Observe	Principal Interview	CEE Survey	Instructional Staff Focus Group	Non-Instructional Staff Focus Group	Leadership Instructional Team Focus Group	Student Focus Group	Parent Focus Group	Documents Evidence Tangibles
IIIA31: All teachers interact instructionally with students (explaining, checking, giving feedback).		X	X					X		
IIIA32: All teachers interact managerially with students (reinforcing rules, procedures).		X	X							
IIIA35: Students are engaged and on task.			X							
IIIA40: All teachers assess student mastery in ways other than those provided by the computer program.	X									
IIIB06: All teachers systematically report to parents the student's mastery of specific standards-based objectives.	X							X		
IIIC01: When waiting for	X	X								

Indicator	TICO Interview	TICO Observe	Principal Interview	CEE Survey	Instructional Staff Focus Group	Non-Instructional Staff Focus Group	Leadership Instructional Team Focus Group	Student Focus Group	Parent Focus Group	Documents Evidence Tangibles
assistance from the teacher, students are occupied with curriculum-related activities provided by the teacher.										
IIIC05: All teachers use a variety of instructional modes.		X						X		
IIIC10: All teachers reinforce classroom rules and procedures by positively teaching them.		X	X							
IIIC12: All teachers engage all students (e.g., encourage silent students to participate).		X								
Characteristic 3 Effective School Leadership										Newsletters and other communications to external and internal
IE06: The principal keeps a focus on instructional improvement and					X	X

Indicator	TICO Interview	TICO Observe	Principal Interview	CEE Survey	Instructional Staff Focus Group	Non-Instructional Staff Focus Group	Leadership Instructional Team Focus Group	Student Focus Group	Parent Focus Group	Documents Evidence Tangibles
progress in school and their children's home-based study and reading habits.										

Appendix 5-E (1): Instructions for Compiling Data from All Sources by Indicator

Items Needed

- Patterns of Practice (Focus Visit) Analysis Tool Matrix
- Instructional Staff Online Survey Results
- Teacher Interview and Classroom Observation (TICO) Tally Sheet
- Document Review Checklist
- Principal Interview Notes
- Instructional Staff Focus Group Notes
- Non-Instructional Staff Focus Group Notes
- Leadership Team Focus Group Notes
- Parent Focus Group Notes

Process Steps

1. Team leader ascertains that all of the items listed above have been completed (e.g., all team members have entered their TICO summary data onto a single tally sheet; all documents available at the school have been examined with results recorded on the Document Review Checklist)
2. Using the Patterns of Practice Analysis Tool Matrix as a framework, the team records data (by source) for each indicator. It may be possible (and advisable) for the Team leader to begin the recording process by entering the data from the Instructional Staff Online Survey, the TICO Tally Sheet (if completed by the team), and the Document Review Checklist prior to the team meeting. Data from the principal interview and the various focus groups is recorded at the team meeting. The note takers for the interview/focus groups discuss the content of their notes, and the team agrees on the salient points to be recorded in the Matrix.
3. Instructional Core Focus Visit findings (and resulting recommendations) are based on various types of data. While all data need to be considered, stronger weight should be given to the evidence from Instructional Core Focus Visitors' observations and from written documents.
4. The TICO Tally Sheet provides the number of teachers rated by reviewers as exhibiting individual indicators. These data are based either on
 - actual observation of a particular behavior in the classroom or

- what the teacher says and/or documents as shown to the reviewer during the teacher interview.
5. The Document Review Checklist data indicate, in the judgment of reviewers, whether indicators are addressed within one or more of the documents the school provides.
 6. The results of the CEE Perceptual Survey are quantitative (i.e., number of respondents selecting particular response category). As a rule of thumb consider grouping responses from the “to a great extent” and “to a moderate extent” as those agreeing with the statement. Either percentages or numbers responding may be used in the Instructional Core Focus Visit Report. These data reflect the opinions of those responding to the survey.
 7. Notes from the five interview/focus groups reflecting the opinions of those participating.
 8. Because the notes from the five interview/focus groups may be extensive, it is important to identify the most salient points with regard to the indicators.
 9. Once the Focus Visit Analysis Tool Matrix has been filled out to reflect all data sources, the team will be able to identify findings as well as reach conclusions upon which recommendations and statements of strengths will be based.
 10. The next step will be writing the Instructional Core Focus Visit Final Report.

Appendix 5-E (2): Review Report Outline

Introduction:

Highlights:

Characteristic 2 – High Standards and Expectations for All Students

Strengths:

Concerns:

Evidence:

Recommendations to school:

Characteristic 3 – Effective School Leadership

Strengths:

Characteristic 9 – High Level of Family and Community Involvement

Strengths:

Concerns:

Evidence:

Recommendations to school:

Appendix 5-E (3): Sample Review Report Outline

Introduction:

Clear that the district leadership is open and ready to benefit from a variety of opportunities.

Highlights:

Focus Group participation

Approachable Leadership

Sense of Community

Characteristic 2 – High Standards and Expectations for All Students

Strengths: Deep commitment to students/ Know their students

Concerns: Disparity in terms of expectations (ELL)

Evidence: Interviews/ Assessment Data

Recommendations to school: Standards-based report card?

Horizontal agreement on standards taught/ grading policy

Characteristic 3 – Effective School Leadership

Strengths: Approachable, emphasis on standards, TIA project

Concerns: Certain amount of resistance for horizontal alignment.

Evidence: Teacher Focus groups

Recommendations to school: Consider mandating a certain % of agreement.

Characteristic 4 – High Levels of Collaboration & Communication

Strengths: Sense of teaming – support each other

Concerns: Media/ Communication, Time to collaborate (time on task a good start)

Evidence: Parent focus groups/ teach interviews

Recommendations to school: Shared collaboration time (PLCs)/ Strategy

Characteristic 5 - Curriculum, Instruction and Assessments Aligned with State Standards

Strengths: Leadership clearly wants to see instruction aligned to standards

Concerns: EOCs and course curriculum vary by teacher

Evidence: Teacher observations, instructional focus groups, teacher interviews

Recommendations to school: move forward on TIA

Characteristic 6 – Frequent Monitoring of Learning and Teaching

Strengths: Elementary does a lot of progress monitoring – Comprehensive Assessment Plan

Concerns: Need for formative assessments at the secondary level. Overreliance on ISAT data.

Evidence: Few teachers could answer questions on interview.

Recommendations to school: Implement a Comprehensive Assessment Plan K-12

Characteristic 7 – Focused Professional Development

Strengths: Professional Development Committee focus - district wide

Concerns: Teachers' desire for differentiated opportunities

Evidence: Interviews/ Focus Groups

Recommendations to school: IDLA Online Professional Development

Characteristic 9 – High Level of Family and Community Involvement

Strengths: Total commitment of community

Concerns: More communication wanted by secondary parents.

Evidence: Parent Focus Groups

Recommendations to school: Progress Reports – mailed

Section 6 - Frequently Asked Questions

What is the Instructional Core Focus Visit?

The Instructional Core Focus Visit is an examination of a school's activities in relation to a set of research-based indicators associated with schools demonstrating proficient levels of academic achievement. The Instructional Core Focus Visit considers a set of 51 indicators (district and school) related to the following nine characteristics of high performing schools:

- Clear and Shared Focus
- High Standards and Expectations for all students
- Effective School Leadership
- High Levels of Collaboration and Communication
- Curriculum, Instruction and Assessment aligned with State Standards
- Frequent Monitoring of Learning and Teaching
- Focused Professional Development
- Supportive Learning Environment
- High Levels of Family and Community Involvement

The Instructional Core Focus Visit process looks for evidence of the presence of indicators associated with substantial school improvement. It includes collecting detailed information on the quality of instruction, assessment, curriculum, planning, and parent involvement. Data collection activities include classroom observation, surveys and interviews with staff, and the review of documents related to the educational program. Review teams will be composed of consultants selected for their expertise in the area of educational administration and pedagogy.

What is the source of the indicators upon which the Instructional Core Focus Visit is based?

The Instructional Core Focus Visit is based on indicators included in *Handbook on Restructuring and Substantial School Improvement* created by the Center on Innovation & Improvement (CII) and published by Information Age Publishing, Inc. (2007), and adapted to Idaho's Rapid School Improvement Indicators and the Nine Characteristics of Highly Effective Schools. CII is one of five national content centers under the federal Comprehensive Centers Program. This handbook has received the approval of the U.S. Department of Education; in addition, it received the honor of being designated Best Publication of the Year by Division H of the American Educational Research Association (AERA) in 2008.

Nine states and the Bureau of Indian Education (BIE) are now using the handbook as the backbone of a major effort to provide training and technical assistance to districts and schools identified as in need of improvement under both state and No Child Left Behind accountability provisions. Virginia's effort began in 2007 with an assistance program for divisions designated as in probation status and continues this year at both division and school levels. This year Virginia has begun to coordinate various activities conducted by elements of its statewide system of support within this indicators-based framework.

Why are Instructional Core Focus Visits being conducted?

Under provisions in the federal Title 1 program (Section 1117 of P.L. 107-110 No Child Left Behind Act of 2001), the SEA is required to provide a Statewide System of Support to assist Title I districts and schools that are in need of improvement, corrective action, or restructuring. The Statewide System of Support extends beyond the SEA's own resources, including organizational partners, distinguished educators, support teams, and other consultants to assist districts and schools with expertise appropriate to the needs of the district or school.

The results of Instructional Core Focus Visits will help the SEA deliver appropriate service through its statewide system of support. It is expected that the results of these reviews will also inform LEA's technical assistance efforts. Finally, schools that undergo Instructional Core Focus Visits will receive valuable feedback about the extent to which their operations related to the nine standards reflect a set of processes and practices identified with successful schools. Schools will be able to use this information in their school improvement planning.

How many LEAs will have Instructional Core Focus Visits each year?

Currently, there are plans to conduct Focus Reviews of approximately five school districts each year. During the 2009-2010 school year the SDE conducted five Instructional Core Focus Visits.

How have these LEAs been selected?

The SEA selected the LEAs in which Instructional Core Focus Visits will take place based upon an analysis of their accountability status, graduation rate, academic achievement and demographic risk factors.

When will the Instructional Core Focus Visits be conducted?

Instructional Core Focus Visits during the (school year) school year will take place between (fill in period).

Who will conduct the Instructional Core Focus Visits?

The SDE, as part of its statewide system of support, will to conduct the Instructional Core Focus Visits in schools during the 2010-2011 school year. The SDE will partner

with the Regional School Improvement Centers to provide additional consultants as needed to participate on the Instructional Core Focus Visit team. All consultants have strong backgrounds in education. They include former principals, teachers, and district-level administrators. Most have had experience in conducting Instructional Core Focus Visits in schools. They have participated in a series of training events related to the process and procedures of a Instructional Core Focus Visit.

How are Instructional Core Focus Visits conducted?

In general, Instructional Core Focus Visits are on-site visits to schools and include a variety of data collection activities. The only data collection activity outside the period of the on-site visit is conducting an on-line survey to which all staff within the school are encouraged to respond. Responses to the survey will be collected in the week leading up to the on-site visit.

During the on-site visit the Instructional Core Focus Visit team will gather data from multiple sources including:

- classroom observation in a sample of classrooms
- interviews with teachers and school leadership
- focus groups with instructional and non-instructional personnel as well as with parents
- review of key documents requested from the principal prior to the on-site visit

The Instructional Core Focus Visit team leader will work with the principal prior to the on-site visit to establish a schedule for the data collection activities. Using a staff roster, the team leader will select the teachers whose classrooms will be visited; this sample is intended to represent the grade levels within the school. To ensure the integrity of the review process which seeks to obtain a profile of the school during its normal operations, teachers whose classrooms will be visited will not be notified in advance. Staff invited to participate in focus groups will be notified in advance to facilitate scheduling. Key documents will be examined during the on-site visit; principals will not be burdened with photocopying or mailing requirements.

How many days does the Instructional Core Focus Visit team spend on-site in schools for a Instructional Core Focus Visit?

The Instructional Core Focus Visit team will spend 2-3 days in each district. The number of classroom observations, interviews and focus groups will be determined by factors including school enrollment and/or presence of special programs.

How are the results of the Instructional Core Focus Visit reported?

Following the on-site visit, the Instructional Core Focus Visit team will synthesize the information it collected. The team will structure its analysis using the set of nine

characteristics and 51 indicators that constitute the Instructional Core Focus Visit framework. The Instructional Core Focus Visit team will come to consensus regarding the nature of the findings and recommendations to include in the report. A written Instructional Core Focus Visit report will be prepared by the team and shared to the LEA during an exit meeting.

Do the Instructional Core Focus Visit reports contain the names of the schools, school staff, and other persons involved in the review?

No. while the SDE reserves the right to make aggregate data and the final report public, Instructional Core Focus Visit reports will not include the names of individual teachers who have been observed nor will there be any kind of summative 'grade' for schools in the sample. The review team will simply report what they observed and what data they gathered for each of the standards and associated indicators in the framework.

Do the Instructional Core Focus Visit reports contain any student names or academic data regarding individual students?

No. Instructional Core Focus Visit reports will NEVER contain the names of students or academic data regarding individual students.

It is important to point out that, in the conducting of interviews with teachers whose classrooms have been observed, the Instructional Core Focus Visiter will be asking how the teacher differentiates instruction and maintains records of student mastery, but the teacher will not be asked to provide information identifying individual students.

Who will get to see and use the Instructional Core Focus Visit reports?

The main purpose of the review is to provide input to the LEA related to its systemic improvement efforts. However, participating schools should find the reports valuable to inform their own internal discussions about professional development and school improvement at the building level. School districts involved in Instructional Core Focus Visits may also find that the reports provide useful information about professional development and other technical assistance needs.

How do Instructional Core Focus Visits differ from other examinations of schools and/or classrooms?

There are differences in purpose and design. The Instructional Core Focus Visit's main purpose is to inform the LEA's decision-making efforts related to improving the instructional core and attaining substantially improved student outcomes. To do this the LEA will be most interested in identifying themes and critical needs that emerge in the Instructional Core Focus Visit findings across multiple schools settings. The Instructional Core Focus Visit is NOT for the purpose of evaluating the quality of individual schools or individual school staff.

The Instructional Core Focus Visit's design reflects two major principles:

- using multiple data sources to triangulate the determination of areas that may need to be addressed, and
- maximizing the review's objectivity by having external reviewers observe classrooms and review documents used by the school.

LEA Application
1003(g) School Improvement Grant (SIG)

1. LEA INFORMATION

The School District's Superintendent, School Board Chair, Title I Director, Fiscal Manager, must all certify that they have read and understand the SIG Assurances and guarantee that the information in this application is accurate.

Application Date: _____

Superintendent Name	Signature
School Board Chair Name	Signature
Title I Director Name	Signature
Fiscal Manager Name	Signature

DIRECTIONS:

The following questions correspond to the Federal Guidelines for the Grant. Districts may also want to review the Scoring Rubric that will be used to evaluate the District SIG applications.

LEAs must complete all sections of the application: 1) LEA Information 2) Assurances 3) Schools to be Served 4) Needs Assessment and Intervention Model Selection 5) Improvement Plan 6) Timeline 7) Annual Goals and Assessment 8) Consultation with Stakeholders 9) Optional Services 10) Budget

Sections 1-3 should be complete by the LEA and will apply to all Priority and Focus schools the District is applying to serve. Complete sections 4-10 using a separate word

document for each school. Please answer questions in bullet form where applicable and put N/A by any item that does not apply to that school. Applications with missing information may not be considered for funding.

2. ASSURANCES

By signing the application, the LEA is agreeing to the following assurances. The LEA application must also include any appropriate waivers requested on the next page.

Assurances

The LEA assures that it will:

- Use its School Improvement Grant to implement fully and effectively an intervention in each Priority and Focus school that the LEA commits to serve consistent with the final requirements;
- Establish annual goals for student achievement on the State's assessments in both reading/language arts and mathematics and measure progress on the leading indicators in section III of the final requirements in order to monitor each Priority and Focus school that it serves with school improvement funds;
- If it implements a restart model in a Priority or Focus school, include in its contract or agreement terms and provisions to hold the charter operator, charter management organization, or education management organization accountable for complying with the final requirements;
- Monitor and evaluate the actions a school has taken, as outlined in the approved SIG application, to recruit, select and provide oversight to external providers to ensure their quality;
- Monitor and evaluate the actions schools have taken, as outlined in the approved SIG application, to sustain the reforms after the funding period ends and that will provide technical assistance to school on how they can sustain progress in the absence of SIG funding; and,
- Report to the SEA the school-level data required under section III of the final requirements in the state Grant Reimbursement Application.

1. SCHOOLS TO BE SERVED

Districts must include the following information for each school it will serve with a SIG Grant.

School Name & Grade Levels	Principal Name	NCES ID# (16 digits)	Student FTE	Priority or Focus	Intervention Model	Amount Requested

2. NEEDS ASSESSMENT AND INTERVENTION MODEL SELECTED

The District must select an intervention model that best meets the needs of each school prior to the beginning of the school year and begin implementation of the basic elements of the model at the beginning of the school year. However, certain elements such as job-embedded professional development, identifying and rewarding teachers and principals that have impacted student achievement may occur later in the school year. At a minimum, basic elements, for each model include:

- a. Transformation Model: Replace the principal (unless the school has replaced the principal within the past two years); grant principal sufficient operational flexibility (staffing, calendars/time, and budgeting) to implement fully a comprehensive approach to substantially improve student achievement outcomes and increase high school graduation rates; provide timeline for identifying and implementing an instructional program that is research-based and vertically aligned from one grade to the next as well as with the state content standards, develop schedules for extending learning time, and creating community-oriented schools; and provide plan for ensuring that the school receives ongoing, intensive technical assistance from the district and external partners.
- b. Turnaround Model: Replace the principal, grant new principal sufficient operational flexibility (staffing, calendars/time, and budgeting) to implement fully a comprehensive approach to substantially improve student achievement outcomes and increase high school graduation rates; develop and adopt locally-determined “turnaround” competencies to screen all existing staff, rehiring up to 50% and select new staff; and identify processes for providing increased learning time to students and staff and for designing job-embedded professional development in

collaboration with staff. The district will provide timelines indicating its commitments to address the remaining required actions.

- c. **Restart Model:** A restart model is one in which an LEA converts a school into a charter school or closes and reopens a school under a charter school operator, a charter management organization (CMO), or an education management organization (EMO) that has been selected through a rigorous review process. Restart models must be implemented in School Year 2014-2015 and must enroll, within the grades it serves, any former student who wishes to attend the school. In Idaho, such a charter school must be authorized under the LEA rather than the Charter School Commission, and the district will hold the EMO responsible for the meeting the final requirements associated with the intervention model. Additional information regarding the process of conversion may be obtained at http://www.sde.idaho.gov/site/charter_schools/.

(Note: A CMO is a non-profit organization that operates or manages charter schools by centralizing or sharing certain functions and resources among schools. An EMO is a for-profit or non-profit organization that provides “whole-school operation” services to an LEA.) **While federal guidance does not require it, Idaho State policy requires that it is mandatory for any CMO or EMO that enters into an agreement to operate a Priority or Focus school to attend state sponsored professional development offered by the State Department of Education.**

- d. **School Closure:** Establish a timeline for school closure and reassign students to other higher-achieving schools within the district.

A full description of the reform models and required elements can be found on the U.S. Department of Education’s web site <http://www2.ed.gov/programs/sif/applicant.html>

4a. For each Priority and Focus school the District has committed to serve, describe the process of determining the appropriate intervention model for each school. Include the results of an analysis of needs (include student achievement data from multiple measures, and if available, results of CEE Survey (if applicable), Instructional Core Focus Visit data, Wise Tool School Improvement Plan), including instructional programs, school leadership and school infrastructure, and selected interventions for each school aligned to the needs each school has identified in the description.

4b. After completing an analysis of the four intervention/reform models based on the needs assessment, show why the particular model was selected.

- Show how the selected model takes into account the achievement of specific subgroups (Native American, Hispanic, Limited English Proficient, Students with Disabilities).
- Describe how the proposed model will positively impact student outcomes.

4c. Describe the district level leadership team and other support that provides oversight and technical assistance to each Priority and Focus school including participants, such as federal programs, special education, curriculum director, superintendent, local trustee, parent, and others as appropriate.

- Provide evidence of School Board commitment.
- Identify a District level liaison (i.e., an internal lead partner) for each Priority and Focus school who is accountable for the school progress in the intervention model.

3. IMPLEMENTATION OF INTERVENTION MODEL

5a. For each Priority and Focus school the District is applying to serve explain the actions the District has taken (or will take) to design and implement the intervention model consistent with final School Improvement Grant requirements. Include any proposed pre-implementation and full-implementation activities and detailed school-by-school information linked to specific interventions.

To guide this process, LEAs should use the Center on Innovation and Improvement's publication [Selecting the Intervention Model and Partners](http://www.centerii.org/learnmodel/) at <http://www.centerii.org/learnmodel/>

Transformation

Please address the following questions within your response to 5a if the Transformation Model has been selected:

1. Has the principal been replaced? (If the principal is new to the school within the last 2 years, the principal may remain as principal if the district has implemented "in whole or part" the required elements of the selected model.)
2. Has the district implemented such strategies as financial incentives and career ladders for hiring, placing and retaining effective teachers?
3. Has the LEA implemented a rigorous, transparent, and equitable evaluation systems for teachers and principals? In addition to employing the Danielson Framework, does the evaluation take into consideration student growth data, multiple observation-based assessments of performance, ongoing collection of professional reflecting student achievement and increased graduation rates?
4. How does the LEA plan to identify and reward school leaders and teachers who have increased student achievement and graduation rates; identify and remove those who, after ample opportunities to improve professional practice, have not done so?

Transformation

5. How has the LEA used data to identify and adopt an instructional program that is research-based and aligned to state standards both vertically and across classrooms?
6. How does the LEA plan to identify professional development that is ongoing, job-embedded and aligned to identified needs?
7. Has the district ensured the continuous use of student data (formative, summative, diagnostic) to inform and differentiate instruction to meet academic needs?
8. Has the district established schedules and strategies that provide increased learning time for all subjects?
9. Does the plan include providing ongoing mechanisms for family and community involvement?
10. How will the LEA select a new leader and what experience, training, competencies will the new leader be expected to have?
11. How will the LEA enable the new leader to make and sustain strategic staff replacements?
12. What is the LEA's capacity to support the transformation, including the implementation of required and permissible strategies?
13. What changes in decision making policies and mechanisms (including greater school-level flexibility in budgeting and scheduling) must accompany the transformation?
14. How will the changes be sustained after the funding period ends?

Turnaround

Please address the following questions within your response to 5a if the Turnaround Model has been selected:

1. Has the district replaced the principal? (If the principal is new to the school within the last 2 years, the principal may remain as principal if the district has implemented "in whole or part" the required elements of the selected model.
2. Has the district used a locally adopted measure to assess the competencies of staff who can work in the turnaround school? The assessment must be to screen all existing staff and select new staff, rehiring no more than 50%.
3. How will the LEA implement such strategies as financial incentives and career ladders for hiring, placing and retaining effective teachers?
4. How has the LEA used data to identify and adopt an instructional program that is research-based and aligned to state standards both vertically and across classrooms?
5. How will the LEA identify professional development that is ongoing, job-embedded and aligned to identified needs?
6. Has the district ensured the continuous use of student data (formative, summative, diagnostic) to inform and differentiate instruction to meet academic

Turnaround

- needs?
7. Has the district established schedules and strategies that provide increased learning time for all subjects?
 8. Has the district included appropriate social-emotional and community-oriented services and support for students?
 9. Has the district adopted a new governance structure to address turnaround schools? (The district may hire a chief turnaround office to report directly to the superintendent.)
 10. How will the LEA select a new leader and what experience, training, competencies will the new leader be expected to have?
 11. How will the LEA enable the new leader to make and sustain strategic staff replacements?
 12. What is the LEA's capacity to support the transformation, including the implementation of required and permissible strategies?
 13. Does the district's plan provide the principal with sufficient operating flexibility in staffing, calendars/time, and budgeting to fully implement comprehensive approach to substantially improve student achievement outcomes and increase high school graduation rates?
 14. What changes in decision making policies and mechanisms (including greater school-level flexibility in budgeting and scheduling) must accompany the changes?
 15. How will the changes be sustained after the funding period ends?

School Closure

Please address the following questions within your response to 5a if the School Closure Model has been selected:

1. Has the district established a plan and timeline for school closure with closure to occur before the beginning of the coming school year?
2. Has the district identified other higher performing schools within reasonable proximity to schools being closed?
3. Does the district have a plan for supporting the students in the new schools?

Restart

Please address the following questions within your response to 5a if the Restart Model has been selected:

1. Has the LEA decided to either restart the school as a charter school or select an external educational management organization (the EMO may be either a non-profit or for profit entity)? If so, describe the LEAs plan to restart.
2. If the district intends to close the school and restart it as a Charter School, have

Restart

they provided evidence of having accessed information from Michelle Clement Taylor, School Choice Coordinator?

3. Has the district accessed information provided on the State Department of Education's website for charter school developers and/or authorizers? (http://www.sde.idaho.gov/site/charter_schools/authorizers.htm)
4. If the district intends to enter into an agreement with EMO do they have a clear and delineated process for selecting an EMO?
5. Has the district compiled a pool of potential EMOs?
6. Does the district describe the process they will use to vet each of the EMOs?
7. Has the district assured that all former students who wish to attend the restarted school will be granted permission to attend the restarted school?
8. How will the district monitor the performance of the EMO?

5b. For each Priority and Focus school the District is applying to serve, explain the actions the District has taken (or will take) to ensure that the school receives ongoing, intensive technical assistance and related support from the District and the Statewide System of Support of the Idaho State Department of Education, or a designated external provider. If the LEA intends to select external partners beyond those already approved by the State, the LEA must

1. Describe the rigorous review process that will be used to recruit, screen, and select such partners to ensure they are of high quality.
2. Describe how the proposed plan will positively impact student outcomes.
3. List the multiple measures that will be used to evaluate the effectiveness of external partners.
4. Describe how the district has determined which external technical assistance providers it has chosen to work with each school.
5. List specific qualifications the district is looking for in an external provider.
6. Describe the evaluation process which will be used to monitor supports and services provided to the school by both the LEA and external partners.
7. Describe the involvement of stakeholders in the selection process.

5c. For each Priority and Focus school the District is applying to serve, explain the actions the District has taken (or will take) to align other new and existing resources to fully implement the reform model.

- Include other local, state, or federal financial resources that will be used to implement the reform model.
- Describe plan for continuously reviewing the allocation of resources to ensure implementation and sustainability of the program.
- Describe how the LEA will coordinate both new and existing resources.

5d. For each Priority and Focus school the District is applying to serve, explain any proposed activities and the actions the District has taken (or will take) to

modify its practices or policies if necessary and enable its schools to fully and effectively implement the reform model.

1. Share how the district reviewed or will review current practices and policies which either support or impede reform efforts.
2. Share the process for annual review and revision of board policies and procedures.
3. Describe the district processes and policies related to recruiting and retaining highly effective leaders and teachers (issues related to the master contract, collaborative discussion related to local competency based assessment of teaching practices, competitive salaries and benefits).
4. Explain how communication will be intentional and frequent between the superintendent, district leaders and staff in participating schools.

5e. For each Priority and Focus school the District is applying to serve explain the actions the District will take to sustain reforms once the funding period ends.

- Describe the system-wide infrastructures the district has developed or will develop to sustain reforms in Priority and Focus schools. For example:
 - Board adopted policies and practices, and supports for Priority and Focus schools to sustain changes and innovations.
 - Tools, systems, and practices supporting the use of data to inform district, school, and classroom decision making.
 - Process of delivering collaboratively determined, job-embedded professional development.
 - Calendar and schedule which provide extended learning time.
 - System for continued horizontal and vertical curriculum alignment.
 - Budget which uses federal, state, and local education funding to sustain reforms.
 - Narrative describing the process for differentiating resources to sustain reform efforts.
 - Decision making practices at the district and school levels which provide for stakeholder involvement and input in sustaining changes, innovations, and a continuous improvement process.

5f. For each Priority and Focus school the District is applying to serve include information on District and each school improvement plan. What process is used in the district and in each school to effectively use the WISE Tool (online Strategic Planning Tool)?

4. TIMELINE

Provide a timeline that delineates any proposed pre-implementation and full-implementation activities and the steps the District will take to implement the basic elements of the selected reform model in each Priority and Focus school. The timeline

should indicate that the District has the ability to implement the basic elements of the model during the current school year. The timeline must explicitly delineate all key elements that are required to be in place at the beginning of the school year (e.g., increasing learning time, selecting a CMO or EMO, etc.).

- Include a three-year timeline for implementing the selected reform model in each Priority and Focus school.
 - Show that the basic (required) elements will be in place during the coming school year.
 - Allow for certain basic elements to be revisited (job-embedded professional development, identifying and rewarding principals and teachers who have increased student achievement) to occur later in the process of implementing the model
 - Show within your timeline how sustainability will be addressed.

5. ANNUAL GOALS AND ASSESSMENT

7a. Describe how the LEA will monitor each Priority and or Focus school that receives school improvement funds by establishing the annual goals for student achievement on the State’s assessment in reading and mathematics. At a minimum, the goal for maintaining the percentage of students scoring proficient or advanced on the prior year’s ISAT (or SBAC when it is in place) should be 95%. Multiple measures may also be included as consistent with district expectations and student achievement goals. Given the significance of the reform model and the infusion of funds districts should set aggressive but realistic goals for increasing the percentage of below basic students to basic, and basic to proficient basic to proficient in all student basic to proficient in all students and subgroup categories. If the targeted Priority and Focus school is a secondary school, the district should also include annual goals related to increasing graduation rate particularly among specific subgroups of students that have traditionally higher dropout rates.

ANNUAL GOALS READING *(as measured by ISAT)*

Grade	% of Increase in Students moving from Below Basic to Basic, Proficient, or Advanced	% of Increase in Students moving from Basic to Proficient or Advanced	% of Increase in Students moving from Proficient to Advanced	% of Students maintaining either Proficient or Advanced

ANNUAL GOALS MATH (as measured by ISAT)

Grade	% of Increase in Students moving from Below Basic to Basic, Proficient, or Advanced	% of Increase in Students moving from Basic to Proficient or Advanced	% of Increase in Students moving from Proficient to Advanced	% of Students maintaining either Proficient or Advanced

ANNUAL GOALS SCIENCE (as measured by ISAT)

Grade	% of Increase in Students moving from Below Basic to Basic, Proficient, or Advanced	% of Increase in Students moving from Basic to Proficient or Advanced	% of Increase in Students moving from Proficient to Advanced	% of Students maintaining either Proficient or Advanced

7b. Describe how the District will use interim and/or formative assessment as well as other indicators (attendance, discipline referrals, referrals to special education, Title I, classroom grades, etc.) to determine if students are making progress toward the annual goals established by the District.

1. Describe the district plan for creating common assessments for every content area measured on ISAT (soon to be SBAC).
2. Describe the District comprehensive assessment plan (screening, progress monitoring, diagnostic, interim and summative assessments).
3. Include the District timeline for collecting and analyzing the assessment data and how it will be communicated with school board, school leadership, parents and teachers.

4. Share how formative assessment is used to improve instruction.
5. Share how students are identified as “at-risk”.

6. CONSULTATION WITH STAKEHOLDERS

Describe how, as appropriate the District has consulted with relevant stakeholders (School Board Members, Personnel Associations, Building Leadership Teams, Parents, etc.) regarding the District’s application and implementation of school improvement models in its Priority and Focus schools. Delineate any proposed pre-implementation activities as such.

1. Describe how stakeholder input will be sought and used during the implementation process. Include input from relevant stakeholders and describe how the input was utilized in the application process. For example, a variety of two-way communication models (survey, focus groups, interviews) which were used to gather input during the application process.
2. Include a timeline for regular communication with stakeholders.

7. OPTIONAL SERVICES

Districts Applying for Services Provided Directly by the State for Priority and Focus Schools:

NOTE: Districts have the option to apply for any the following services, but are not required to do so, and may apply for SIG funds without selecting participation in the following.

The following is a list of potential services provided by the SDE to schools in all categories of needs improvement. Please note that for schools in Priority and Focus, participation in these state sponsored activities would be in addition to adopting a selected reform model (closure, restart, turnaround, transformation) and does not replace the school level requirements for each intervention model. The SDE School Improvement Grant coordinator does not have a mechanism for collecting funds or payments from Districts to pay for participation in these grant programs. Therefore, please be aware that by selecting these services, the District is voluntarily granting approval for the SDE to provide services directly in lieu of receiving grant funds as flow through dollars. Check the boxes below indicating, for the district and schools, the State sponsored services in which the district intends to participate:

9a. (Response Required) Check the following box to indicate the District’s awareness that it is permitting the SDE to retain sufficient grant funds as part of the District’s application and award.

NOTE: Districts have the option to apply for the services outlined in this section, but are not required to do so, and may apply for SIG funds without selecting participation in the services. However, if a district opts to participate in any of the activities outlined in 8b or 8c(1-3), the district must check the appropriate box below.

- Yes. The District grants permission to the SDE to add and retain an amount of funding to the budget requested in this application that is sufficient for participation in the following services for which the District is applying and for which the SDE will provide such services directly. The District grants permission to the SDE to provide such services directly on behalf of the schools in this application.
- No. The District does not grant permission to the SDE for retaining grant funds to provide services directly. (Please note that by checking this box, the district and its schools will not be permitted to participate in the following programs.)
- IF NO, PLEASE MOVE ON TO PART 10.

9b. Please indicate the services provided directly by the SDE for which the District would like to apply. For each State sponsored improvement activity, the district must answer the appropriate questions for each particular project in section 9c.

NOTE: Districts have the option to apply for the services outlined in this section, but are not required to do so, and may apply for SIG funds without selecting participation in the services.

<i>State Sponsored Improvement Activities</i>	YES	NO
District Level Supports		
<ul style="list-style-type: none"> • The Idaho Building Capacity (IBC) Project (To participate in this project, “yes” must be checked at both the school and district level.) 	<input type="checkbox"/>	<input type="checkbox"/>
<ul style="list-style-type: none"> • Idaho Superintendents Network of Support 	<input type="checkbox"/>	<input type="checkbox"/>
School Level Supports		

- The Idaho Building Capacity (IBC) Project * *
- (To participate in this project, “yes” must be checked at both the school and district level.)
- Network of Innovative School Leaders * *
- (A network for Principals)

*Provide, by name, a list of schools that will participate:

School <i>(add additional rows if needed)</i>	Name the projects for which the school is applying

9c - Below are the descriptions of Optional State Sponsored Improvement Activities and applicable questions, performance agreements, and assurances. Please answer the questions and sign the assurances for each portion as they pertain to your improvement plan.

9c(1). Idaho Building Capacity Project (IBC)

Description. IBC provides scaffolded support by distinguished educators for three years to both under-achieving schools and their local district leaders. In the first year, the school and the central office receive the services of a trained, distinguished educator for 30 visits (averaging 8-10 hours per week); in the second year the support decreases to an average of 15-20 hours a month, and in year three, 8-10 hours a month, with the focus on sustainability. We believe that if capacity builders had the benefit of the data collected from a focus visit, the result in terms of student achievement could be faster and more impactful, but with that said, the results of the program are impressive. One of our two pilot districts, Caldwell went from no school meeting AYP to six out of 10 meeting AYP in the first year of the program. The second district had a school on the verge of restructuring which met AYP for the first time in five years. Both school districts had already implemented many improvement programs, but they are quick to attribute

much of their success to the value of an executive coach to their administrative team during the implementation of change.

District Application Questions. Please include your answers to each question in a separate document.

1. In a brief narrative, describe your Star Rating history. What are the successes of your district? What challenges do you face? What changes have you made in an attempt to respond to your identified Star Rating challenges? How well did they work? What are your continued plans for addressing your Star Rating challenges?
2. If you are selected for participation in the IBC project, what do you envision as the role of the Capacity Builder? What are your initial thoughts on how you might utilize the services of the CB at the district level?
3. District - How will the district office support IBC project work at the school level?
4. What outcomes do you expect at your school as a result of participation in the IBC project?

District Performance Agreement

The District Superintendent and School Board agree to:

- Effectively utilize the Capacity Builders' services and engage in IBC services and activities.
- Actively engage a district leadership team and the local School Board in the IBC Project and the work of improvement.
- Support principal(s) and building leadership team(s) in creating change that will align with the district vision and result in increased student achievement.
- Provide executive sponsorship by establishing the IBC Project as a high priority of the district.
- Appoint a district contact who will oversee and coordinate the work of the IBC project and school / district leaders (strategic planning, communication, project details, progress monitoring, etc.).
- Support and ensure the administration of the required staff survey from CEE along with optional CEE surveys (e.g., student and parent).
- Participate in any federal or state program evaluation related to this project or funding stream.

NOTE: Districts have the option to apply for the Idaho Building Capacity (IBC) Project, but are not required to do so, and may apply for SIG funds without participation in IBC. However, if a district opts to participate, please complete this performance agreement by providing additional district signatures below.

Provide the signature of Superintendent and School Board Chair to indicate assurance of this performance agreement.

<hr/> <i>Superintendent Signature</i>	<hr/> <i>Date</i>
<hr/> <i>Board Chair Signature</i>	<hr/> <i>Date</i>

School Application Each of the participating schools in the IBC project need to respond to the following and sign the assurance. Please include your answers to each question in a separate document.

1. Provide a data table that demonstrates at a glance the achievement data of your school.
2. Provide a copy of the mission/vision statement for your school and/or a brief summary of the strategic plan for your school. (You do not need to print a copy of your WISE tool, we have access to this information. This would be supplemental information that you believe to be pertinent.)
3. In a brief narrative, describe your Star Rating history. What are the successes of your school? What challenges do you face? What changes have you made in an attempt to respond to your identified Star Rating challenges? How well did they work? What are your continued plans for addressing your Star Rating challenges?
4. If you are selected for participation in the IBC project, what do you envision as the role of the Capacity Builder? What are your initial thoughts on how you might utilize the services of the CB in your school?
5. How will you include your staff in the decision to participate in the IBC project; thus encouraging the greatest amount of engagement? How supportive do you think your staff will be to the idea of participating in the IBC project?
6. What outcomes do you expect at your school as a result of participation in the IBC project?

School Performance Agreement The School(s) agrees to:

- Effectively utilize the Capacity Builders' services and engage in IBC services and activities.

- Actively engage a school leadership team in the IBC Project and the work of improvement.
- Lead change that will result in increased student achievement.
- Establish the IBC Project as a high priority of the school.
- Promote staff participation in IBC services and activities.
- Administer the required staff survey from the Center for Educational Effectiveness (CEE) along with optional CEE surveys (e.g., student and parent) by the end of May or as available (surveys will be provided through the Regional Support Centers).

Provide the signature of each participating school's principal to indicate assurance of this performance agreement.

Principal Signature:	School Name:
<hr/>	<hr/>

9c(2). Idaho Superintendents Network

Description. The Idaho Superintendents Network (ISN) is a project developed by the SDE to support the work of district leaders in improving outcomes for all students by focusing on the quality of instruction. The network is comprised of superintendents who work together to develop a cohesive and dedicated leadership community focused on teaching and learning. ISN members support each other as they bring about change and collectively brainstorm obstacles that prevent improvement in the quality of teaching and learning within their districts.

Application. Please provide a written summary (no more than two pages) that describes an area the district superintendent would like to explore to be able to support Priority

and Focus schools in this application. Include your answers to each question in a separate document. Specifically, it should include:

1. Name of superintendent
2. District
3. Percentage of low socio-economic students
4. Number of years in current position
5. Identify an area of need within the district system
6. The district leadership's Theory of Action
7. The identification of one to three key stakeholders the superintendent will work with that are currently within the district or accessible to the superintendent (e.g., school board trustee, assistant superintendent, curriculum director, director of federal programs, teacher leader, parent, business leader, etc.)

Performance Agreement. By submitting this application, the District agrees to:

- Attend and fully participate in all four meetings or send a designee from team.
- Participate in any evaluation of the network.

NOTE: Districts have the option to apply for the Idaho Superintendents Network (ISN) Project, but are not required to do so, and may apply for SIG funds without participation in ISN. However, if a district opts to participate, please complete this performance agreement by providing additional signatures below.

Provide the signature of Superintendent to indicate assurance of this performance agreement.

Superintendent

Date

9c(3). Network of Innovative School Leaders (NISL)

Description. The Network of Innovative School Leaders (NISL) project brings principals struggling to meet the needs of all learners together to discuss their roles in advancing student outcomes. Each school agrees to participate in instructional reviews (onsite observations of instruction), which consist of observations of each classroom using a research-based tool. The emphasis of improvement is to increase the leadership capacity of each principal. Network meetings will focus on leadership competencies; understanding of the characteristics of effective schools; developing connections with other leaders; and implementing existing initiatives such as the Danielson *Framework for Teaching* (FFT), WISE tool improvement planning, and others in a way that integrates with the vision of local leaders.

Application. Please provide (a) a letter of recommendation from the District Superintendent recommending each principal for participation in NISL and (b) a brief narrative (no more than one page) of the following in a separate document for each school.

1. What is the work you are currently doing day to day to support the improvement of the instructional core and improve the overall student learning in your building?
2. What is the work you are currently doing day to day to build capacity in and influence their thinking and behaviors to improve overall student learning in your building?
3. If you are selected for participation in the NISL project, what do you envision as the role of the project to you professionally?
4. What outcomes do you expect in your building as a result of participation in the network?

Performance Agreement. By submitting this application ...

The District Superintendent agrees to:

- Provide release time to Principal to participate in all NISL activities.
- Participate in the evaluation of NISL.

Participating Principals agree to:

- Attend the Statewide NISL Leadership Institutes
- Attend the Regional Meetings
- Participate in webinars and other program activities
- Participate in the evaluation of the NISL project, which may include interviews, school visits, or other data collection methods

NOTE: Districts have the option to apply for the Network of Innovative School Leaders (NISL) project, but are not required to do so, and may apply for SIG funds without participation in NISL. However, if a district opts to participate, please complete this performance agreement by providing additional signatures below.

Provide the signature of each participating school's principal to indicate assurance of this performance agreement.

Principal Signature:	School Name:
_____	_____
_____	_____

8. BUDGET AND CAPACITY TO USE SIG FUNDS

10a. Describe how the LEA will use SIG funds to provide adequate resources and related support to each priority and focus school it intends to serve in order to implement fully and effectively the selected intervention in each of those schools.

10b. Describe how the LEA will ensure that each priority and/or focus school that it commits to serve receives all of the State and local funds it would receive in the absence of the school improvement funds and how those resources will be aligned with the selected intervention for each school.

10c. A district must include a proposed budget that indicates the amount of school improvement funds the district will expend for three years for each Priority and Focus school it commits to serve. (Successful grantees will receive full funding in year one of the SIG grant. Additional funding for years 2 and 3 will be dependent on the success of the implementation and the continued support of federal funds.)

The budget should include a summary of proposed funding amounts and a narrative explaining how the district will allocate SIG funds over a maximum 3-year period (until the end of the period of availability). A separate budget table should be created for each school the district intends to serve and the funding should be consistent with both the timeline provided by the LEA for implementation and support required activities.

1. Ensure that the budget for each school served falls within the parameters of the SIG final requirements, which may be no less than \$50,000 and no more than \$2 million per year over no more than three years. Pre-implementation expenses that are requested must be delineated as such in the budget narrative and included as part of the Year 1 budget request. Pre-implementation expenses must also be permissible and aligned with the selected intervention model.
2. Complete the Budget Summary Table below (page 24). Include the following:

- Subtotal of expenditures by grant categories and budget categories, with subtotals of proposed budget amounts for the district and each Priority and Focus school for a maximum of three years (through September 30, 2017).
- Total budget amount for each school and for the district (through September 30, 2017).
- Descriptions should include name of each school, delineate Priority or Focus, and the total proposed budget for that school each year.
- Ensure that all proposed expenditures are permissible. Ensure that no prohibited expenses are included. For example, construction, such as structural alterations to buildings, building maintenance, or repairs, is specifically prohibited according to 34 C.F.R. § 77.1(c).

In addition to cumulative information, provide individual proposed budget amounts and a narrative indicating how the district will allocate SIG funds through the period of availability, with separate detailed budget narratives for the district and each of the Priority and Focus schools the district is committing to serve.

3. Complete the Budget Narrative below (pages 25-29). The budget must provide sufficient funding for the following activities:

- Implement the selected intervention model and its requirements (closure, restart, turnaround, transformation) in each Priority and Focus school.
- Conduct district-level activities designed to support implementation of the selected school intervention models in the district's Priority and Focus schools. Such district-level activities must be described in a budget narrative that is specific to the district office and separate from the school-level budget narrative.

Examples for Permissible Pre-implementation and Full-implementation Activities for Transformation Model:

- Provide additional compensation to attract and retain staff, such as bonus to recruit and place a cohort of high performing teachers together in a low achieving school.
- Ensure school is not required to accept a teacher without mutual consent of teacher and principal
- Partnerships with parent organizations and faith based organizations, health clinics, other state/local agencies
- Provide additional professional development to teachers to support students with disabilities and English language learners
- Establishment of early warning systems (attendance, discipline referrals, grades, homework, participation)
- Implement a school-wide response to intervention model
- Adopt a new governance structure

- Implement a new school model (themed, dual language academy)
- Implement a per-pupil based budget formula that is weighted based on student needs.
- Implement rigorous, transparent, and equitable evaluation systems for teachers and principals. For example, in addition to employing the Danielson Framework, evaluation takes into consideration student growth data, multiple observation-based assessments of performance, ongoing collection of professional reflecting student achievement and increased graduation rates.
- Identify and reward school leaders and teachers who have increased student achievement and graduation rates; identify and remove those who, after ample opportunities to improve professional practice have not done so.
- Provide ongoing mechanisms for family and community engagement.
- Partner with parent, faith based, and other community based organizations such as health clinics, or other state/local programs.
- Extend the school day to provide such strategies as advisories built into the school day.
- Implement approaches to improve school climate and discipline.
- Expand program to offer pre-kindergarten or full day kindergarten.
- For secondary schools:
 - Increase graduation rate through strategies such as credit recovery.
 - Improve student transition from middle to high school
 - Increase rigor in coursework
 - Offer opportunities for advanced courses
 - Provide supports to ensure that low-income students can take advantage of these programs
 - Establish early warning systems (attendance, discipline referrals, grades, homework completion)
- Institute a system for measuring changes in instructional practices resulting from professional development.
- Conduct periodic reviews to ensure the curriculum is implemented with fidelity, having intended impact on student achievement and modified if ineffective.
- Implement a school-wide response to intervention model
- Ensure school receives intensive ongoing technical support from district, state, or external providers.

Visit <http://www2.ed.gov/programs/sif/2010-27313.pdf> for Federal Guidelines on permissible uses of funds.

Selection of external providers that are not pre-approved by the SDE will be evaluated by the criteria set in Section B, Part 2 (2), of the SEA Application and must be included in the LEA budget.

BUDGET SUMMARY

(Attach a separate budget for the district as a whole and each school being served.)

School Name: _____ (select one): Priority Focus

	BUDGET CATEGORIES	Teachers/Leaders			Instructional/Support			Learning Time			Governance			SUBTOTALS

4. Budget Narrative

Attach a separate budget narrative for each part of the organization. In other words, include a budget narrative that delineates funds to be used at the district office and a separate budget narrative for each school being served. The number of Budget Narrative forms that are to be submitted will thus be equal to the number of schools listed under *Section II: SCHOOLS TO BE SERVED* plus one, for any expenses at the district office.

SCORING RUBRIC FOR LEA APPLICATIONS
1003(g) School Improvement Grant (SIG)
2014-15 School Year

District: _____

Reviewer # _____

Priority and Focus Schools: _____

Directions to Reviewers: *Each application will have at least two separate reviewers.* Read and score each section of the application using the Scoring Rubric to determine total amount of points.

LEAs must complete all sections of the application: 1) LEA Information 2) Assurances 3) Schools to be Served 4) Needs Assessment and Intervention Model Selection 5) Implementation of Intervention Model 6) Timeline 7) Annual Goals and Assessment 8) Consultation with Stakeholders 9) Optional Services 10) Budget

- LEAs that are proposing to use funds for a pre-implementation period must articulate them as such and do so according to the guidelines.
- Reviewers must determine when providing a score for each section of the rubric whether or not any proposed pre-implementation budget and activities are permissible.
- Districts must not be penalized for (i.e., not earn points during the review and scoring process) opting not to include pre-implementation activities.

Enter the total score in Points Awarded section below and summarize at least two strengths and one area that you feel could be strengthened in the application. Scoring rubrics will be shared with districts, if requested. In addition to rating each section, provide comments if you rated the section as “NOT ADEQUATE”.

Districts may be asked to revise their applications and resubmit them if additional information is needed.

Total Points Awarded: _____

Strengths (at least two):

Weakness (at least one):

SCORING GUIDE

Section	Points Possible	Points Awarded
1. LEA Information	5	
2. Assurances	5	
3. Schools to be Served	5	
4. Needs Analysis and Intervention Selection	15	
5. Implementation of Intervention Model	25	
6. Timeline	5	
7. Annual Goals and Assessment	10	
8. Consultation with Stakeholders	5	
9. Optional Services	NO POINTS	NO POINTS
10. Budget	15	
Total Points	90	

Having reviewed the district's proposal: (1) How ready to do you think the district is to make significant changes within the school(s)? (2) What support structures are described in the application that could be sustained after the money is gone? (3) How does the LEA intend to build leadership and teacher capacity? *Please refer to specifics within the application, as well as demographics of the applying school district (size, location, district and building level staffing, prior involvement in state sponsored support).*

What questions do you have for the district?

1) LEA INFORMATION	Inadequate – 1 point	Adequate – 3 points	Excellent – 5 points
District information is filled out with signatures.	Missing two or more areas of information	Missing one area of information	All areas of information complete

2) ASSURANCES	Inadequate – 1 point	Adequate – 3 points	Excellent – 5 points
	Missing two or more assurances	Missing one assurance	All areas of assurances complete

3) SCHOOLS TO BE SERVED	Inadequate – 1 point	Adequate – 3 points	Excellent – 5 points
District information is provided for priority and focus schools.	Missing multiple eligible schools, or missing multiple explanations/capacity to serve.	Missing eligible school, or missing explanation/capacity to serve.	All eligible schools are accounted for and models selected, or explanation given for why LEA does not have capacity to serve.

4) NEEDS ANALYSIS AND INTERVENTION SELECTION	Inadequate – 1 point	Adequate – 3 points	Excellent – 5 points
<p>4a. Describe the process of determining the appropriate intervention model for each school.</p>	<p>Little or no completion of testing: data with goals; student leading indicators; key findings; analysis of instructional program, school leadership, and school infrastructure needs with selected interventions.</p> <p>Little to none of the required data sources have been provided and/or the analysis (findings) is lacking or minimal</p> <p>Little or no use of analysis and/or causes are illogical and not based on data</p>	<p>Some completion of testing: data with goals; student leading indicators; key findings; analysis of instructional program, school leadership, and school infrastructure needs with selected interventions.</p> <p>Some of the required data sources have been provided</p> <p>Some of the analysis (findings) from the data and goals and interventions seem accurate</p>	<p>Full completion of testing: data with goals; student leading indicators; key findings; analysis of instructional program, school leadership, and school infrastructure needs with selected interventions.</p> <p>All of the required data sources have been provided</p> <p>All of the analysis (findings) from the data and the goals and interventions are logical</p>

4b) Intervention model selected based on assessment of needs.	Inadequate – 1 point	Adequate – 3 points	Excellent – 5 points
<p>District shows why the particular model was selected and how the selected model takes into account the achievement of specific subgroups (Native American, Hispanic, Limited English Proficient, Students with Disabilities).</p>	<p>The alignment of the schools needs with the improvement model chosen is lacking or minimal.</p> <p>Little or no account of specific subgroups (Native American, Hispanic, Limited English Proficient, Students with Disabilities) is taken into account.</p>	<p>A general alignment between the needs of the school with the model chosen has been demonstrated.</p> <p>Some account of the achievement of specific subgroups (Native American, Hispanic, Limited English Proficient, Students with Disabilities) is taken into account.</p>	<p>The alignment between the needs of the school with the model chosen is specifically and conclusively demonstrated as appropriate.</p> <p>The selected model takes into account the achievement of specific subgroups (Native American, Hispanic, Limited English Proficient, Students with Disabilities).</p>

4c) LEADERSHIP SUPPORT	Inadequate – 1 point	Adequate – 3 points	Excellent – 5 points
<p>Describe the district level support and leadership team that provides oversight and technical assistance to each school.</p>	<p>Limited description of the district level support and few or no district level participants have formed a leadership team.</p>	<p>Partial description of the district level support and a limited leadership team is described but does not include more than two district level participants, such as federal programs, special education, curriculum director, superintendent, local trustee, parent, school</p>	<p>Full description of the district level support and leadership team including participants, such as federal programs, special education, curriculum director, superintendent, local trustee, parent, school board member and others as appropriate.</p>

	<p>No commitment from school board.</p> <p>No district level liaison (i.e., an internal lead partner) for each school</p>	<p>board member and others as appropriate.</p> <p>Limited evidence of School Board commitment.</p> <p>District level liaison (i.e., an internal lead partner) for each school</p>	<p>Evidence of School Board commitment.</p> <p>District level liaison (i.e., an internal lead partner) for each school is accountable for the school progress in the intervention model</p>
--	---------------------------------------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

5)Implementation of Intervention Model	Inadequate – 1 point	Adequate – 3 points	Excellent – 5 points
<p>5a.For each school, the District explains the actions they have taken (or will take) to design and implement the intervention model consistent with final School Improvement Grant requirements.</p>	<p>Limited evidence of school-by-school information linked to specific interventions. Any proposed pre-implementation activities are not clearly linked to interventions.</p>	<p>Sufficient description of school-by-school information linked to specific interventions. Any proposed pre-implementation activities are listed but not clearly linked to interventions.</p>	<p>Complete and detailed description of school-by-school information linked to specific interventions. Any proposed pre-implementation activities are linked to interventions.</p>

REVIEWERS: The district must select a reform model prior to the beginning of the school year and begin implementation of the basic elements of the model at the beginning of the school year. However, certain elements such as job-embedded professional development, identifying and rewarding teachers and principals that have impacted student achievement may occur later in the school year.

- **Transformation Model:** Replace the principal (unless the school has replaced the principal within the past two years) ; grant principal sufficient operational flexibility (staffing, calendars/time, and budgeting) to implement fully a comprehensive approach to substantially improve student achievement outcomes and increase high school graduation rates; provide timeline for identifying and implementing an instructional program that is research-based and vertically aligned from one grade to the next as well as with the state content standards, develop schedules for extending learning time, and creating community-oriented schools; and provide plan for ensuring that the school receives ongoing, intensive technical assistance from the district and external partners.
- **Turnaround Model:** Replace the principal, grant new principal sufficient operational flexibility (staffing, calendars/time, and budgeting) to implement fully a comprehensive approach to substantially improve student achievement outcomes and increase high school graduation rates; develop and adopt locally-determined “turnaround” competencies to screen all existing staff, rehiring up to 50% and select new staff; and identify processes for providing increased learning time to students and staff and for designing job-embedded professional development in collaboration with staff. The district will provide timelines indicating its commitments to address the remaining required actions.
- **Restart Model:** A restart model is one in which an LEA converts a school into a charter school or closes and reopens a school under a charter school operator, a charter management organization (CMO), or an education management organization (EMO) that has been selected through a rigorous review process. Restart models must be implemented in School Year 2014-2015 and must enroll, within the grades it serves, any former student who wishes to attend the school. In Idaho, such a charter school must be authorized under the LEA rather than the Charter School Commission, and the district will hold the EMO responsible for the meeting the final requirements associated with the intervention model. Additional information regarding the process of conversion may be obtained at http://www.sde.idaho.gov/site/charter_schools/.

(Note: A CMO is a non-profit organization that operates or manages charter schools by centralizing or sharing certain functions and resources among schools. An EMO is a for-profit or non-profit organization that provides “whole-school operation” services to an LEA.) **While federal guidance does not require it, Idaho State policy requires that it is mandatory for any CMO or EMO that enters into an agreement**

to operate a Priority or Focus school to attend state sponsored professional development offered by the State Department of Education.

- **School Closure:** Establish a timeline for school closure and reassign students to other higher-achieving schools within the district.

A full description of the reform models and required elements can be found on the U.S. Department of Education's web site <http://www2.ed.gov/programs/sif/applicant.html>

(Note to Reviewers: Districts were instructed to use the Center on Innovation and Improvement's publication Selecting the Intervention Model and Partners at <http://www.centerii.org/leamodel/>

Because each of the models is different, be sure to also identify the following features:

- *the model selected and then follow the appropriate rubric has been inserted in the district folder provided by the SDE*
- *if pre-implementation activities are indicated under this section, if they are permissible, and if they align with the selected intervention model*
- *if the LEA intends to select external partners beyond those already approved by the State, the application describes the rigorous review process that will be used to recruit, screen, and select such partners to ensure they are of high quality*

Transformation

Required:

- Has the principal been replaced? (If the principal is new to the school within the last 2 years, the principal may remain as principal if the district has implemented "in whole or part" the required elements of the selected model.
- Has the district implemented such strategies as financial incentives and career ladders for hiring, placing and retaining effective teachers?
- Does the proposal indicate the implementation of rigorous, transparent, and equitable evaluation systems for teachers and principals? In addition to employing the Danielson Framework, does the evaluation take into consideration student growth data, multiple observation-based assessments of performance, ongoing collection of professional reflecting student achievement and increased graduation rates?
- Does the plan Identify and reward school leaders and teachers who have increased student achievement and graduation rates; identify and remove those who, after ample opportunities to improve professional practice,

Transformation

have not done so?

- Does the proposal use data to identify and adopt an instructional program that is research-based and aligned to state standards both vertically and across classrooms?
- Does the proposal identify professional development that is ongoing, job-embedded and aligned to identified needs?
- Has the district ensured the continuous use of student data (formative, summative, diagnostic) to inform and differentiate instruction to meet academic needs?
- Has the district established schedules and strategies that provide increased learning time for all subjects?
- Does the plan include providing ongoing mechanisms for family and community involvement?

Permissible:

- Provide additional incentives to attract and retain staff
- Ensure school is not required to accept a teacher without mutual consent of teacher and principal
- Partnerships with parent organizations and faith based organizations, health clinics, other state/local agencies
- For secondary schools, credit recovery programs
- Use and integrate technology-based interventions
- Provide additional professional development to teachers to support students with disabilities and English language learners
- Establishment of early warning systems (attendance, discipline referrals, grades, homework, participation)
- Implement a school-wide response to intervention model
- Adopt a new governance structure
- Implement a new school model (themed, dual language academy)
- Implement a per-pupil based budget formula that is weighted based on student needs.

Other factors to consider:

- How will the LEA select a new leader and what experience, training, competencies will the new leader be expected to have?
- How will the LEA enable the new leader to make and sustain strategic staff replacements?
- What is the LEA's capacity to support the transformation, including the implementation of required and permissible strategies?

Transformation

- What changes in decision making policies and mechanisms (including greater school-level flexibility in budgeting and scheduling must accompany the transformation?
- How will the changes be brought about and sustained?

Turnaround

Required:

- Has the district replaced the principal? (If the principal is new to the school within the last 2 years, the principal may remain as principal if the district has implemented “in whole or part” the required elements of the selected model.
- Has the district used a locally adopted measure to assess the competencies of staff who can work in the turnaround school? The assessment must be to screen all existing staff and select new staff, rehiring no more than 50%.
- Does the district’s application demonstrate that they will implement such strategies as financial incentives and career ladders for hiring, placing and retaining effective teachers?
- Does the proposal use data to identify and adopt an instructional program that is research-based and aligned to state standards both vertically and across classrooms?
- Does the proposal identify professional development that is ongoing, job-embedded and aligned to identified needs?
- Has the district ensured the continuous use of student data (formative, summative, diagnostic) to inform and differentiate instruction to meet academic needs?
- Has the district established schedules and strategies that provide increased learning time for all subjects?
- Has the district included appropriate social-emotional and community-oriented services and support for students?
- Has the district adopted a new governance structure to address turnaround schools? (The district may hire a chief turnaround office to report directly to the superintendent.)
- Does the district’s plan provide the principal with sufficient operating flexibility in staffing, calendars/time, and budgeting to fully implement comprehensive approach to substantially improve student achievement outcomes and increase high school graduation rates?

Permissible:

- Implement rigorous, transparent, and equitable evaluation systems for teachers and principals. For example, in

Turnaround

addition to employing the Danielson Framework, evaluation takes into consideration student growth data, multiple observation-based assessments of performance, ongoing collection of professional reflecting student achievement and increased graduation rates.

- Identify and reward school leaders and teachers who have increased student achievement and graduation rates; identify and remove those who, after ample opportunities to improve professional practice have not done so.
- Provide additional compensation to attract and retain staff, such as bonus to recruit and place a cohort of high performing teachers together in a low achieving school.
- Ensure school is not required to accept a teacher without mutual consent of teacher and principal
- Provide ongoing mechanisms for family and community engagement.
- Partner with parent, faith based, and other community based organizations such as health clinics, or other state/local programs.
- Extend the school day to provide such strategies as advisories built into the school day.
- Implement approaches to improve school climate and discipline.
- Expand program to offer pre-kindergarten or full day kindergarten.
- For secondary schools:
 - Increase graduation rate through strategies such as credit recovery.
 - Improve student transition from middle to high school
 - Increase rigor in coursework
 - Offer opportunities for advanced courses
 - Provide supports to ensure that low-income students can take advantage of these programs
 - Establish early warning systems (attendance, discipline referrals, grades, homework completion)
- Institute a system for measuring changes in instructional practices resulting from professional development.
- Conduct periodic reviews to ensure the curriculum is implemented with fidelity, having intended impact on student achievement and modified if ineffective.
- Implement a school-wide response to intervention model
- Provide additional professional development to teachers to support student with disabilities and English language learners.
- Use and integrate technology-based supports and interventions as part of the instructional program.
- Ensure school receives intensive ongoing technical support from district, state, or external providers (CBs)
- Implement a new school model (themed, dual language academy)

Turnaround

- Implement a per pupil school based budget formula that is weighted based on student needs.

Other factors to consider:

- How will the LEA select a new leader and what experience, training, competencies will the new leader be expected to have?
- How will the LEA enable the new leader to make and sustain strategic staff replacements?
- What is the LEA's capacity to support the transformation, including the implementation of required and permissible strategies?
- What changes in decision making policies and mechanisms (including greater school-level flexibility in budgeting and scheduling must accompany the transformation?
- How will the changes be brought about and sustained?

School Closure

Required:

- Has the district established a plan and timeline for school closure with closure to occur before the beginning of the coming school year?
- Has the district identified other higher performing schools within reasonable proximity to schools being closed?
- Does the district have a plan for supporting the students in the new schools?

Restart

Requirements:

LEAs have the option of either restarting the school as a charter school or selecting an external educational management organization (EMO). The EMO may be either a non-profit or for profit entity.

- If the district intends to close the school and restart it as a Charter School, have they provided evidence of having accessed information from Michelle Clement Taylor, School Choice Coordinator?
- Has the district accessed information provided on the State Department of Education's website for charter school developers and/or authorizers? (http://www.sde.idaho.gov/site/charter_schools/authorizers.htm)
- If the district intends to enter into an agreement with EMO do they have a clear and delineated process for selecting an EMO?
- Has the district compiled a pool of potential EMOs?
- Does the district describe the process they will use to vet each of the EMOs?
- Has the district assured that all former students who wish to attend the restarted school will be granted permission to attend the restarted school?
- How will the district monitor the performance of the EMO?

5b. EXTERNAL PROVIDERS	Inadequate – 1 point	Adequate – 3 points	Excellent – 5 points
The District must provide any proposed pre-implementation activities and detailed school-by-school information linked to specific interventions. If the LEA intends to select external partners beyond those already approved by the State.	Missing two or more areas of information and descriptions are limited and incomplete.	Missing at least one area of information and descriptions are sufficient but not complete.	If the LEA intends to select external partners beyond those already approved by the State, the LEA must Describe the rigorous review process that will be used to recruit, screen, and select such partners to ensure they are of high quality. Describe how the proposed

			<p>plan will positively impact student outcomes.</p> <p>List the multiple measures that will be used to evaluate the effectiveness of external partners.</p> <p>Stakeholders will be involved in the selection process of external providers.</p> <p>*TA from SSOS at State Dept. is approved and evaluated at the State Level.</p>
--	--	--	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

5c. IMPLEMENTATION ACTIVITIES	Inadequate – 1 point	Adequate – 3 points	Excellent – 5 points
District describes activities and it has taken (or will take) to align other new and existing resources to fully implement the reform model.	Missing two or more areas of information listed in <i>excellent</i> .	Missing one area of information listed in <i>excellent</i> .	<p>Lea included other local, state, or federal financial resources that will be used to implement the reform model.</p> <p>Clear plan for continuously reviewing the allocation of resources to ensure implementation and sustainability of the program. Clear description of how the LEA will coordinate both new and existing resources.</p>

5d. PLAN TO MODIFY LEA PRACTICES AND POLICIES	Inadequate – 1 point	Adequate – 3 points	Excellent – 5 points
<p>Explain any proposed activities and the actions the District has taken (or will take) to modify its practices or policies if necessary and enable its schools to fully and effectively implement the reform model.</p>	<p>The proposed activities and/or connections made are vague or INCOMPLETE.</p>	<p>A detailed description is provided that addresses SOME of the proposed activities but lacks a complete plan.</p>	<p>Clear process for annual review and revision of board policies and procedures.</p> <p>Description of LEA processes and policies related to recruiting and retaining highly effective leaders and teachers</p> <p>Explains how communication will be intentional and frequent between the superintendent, district leaders and staff in participating schools.</p> <p>Description of how activities indicated under this section align with the selected intervention model.</p>

5e. SUSTAINABILITY	Inadequate – 1 point	Adequate – 3 points	Excellent – 5 points
<p>Explain the actions the District will take to sustain reforms</p>	<p>No or limited description of plan for sustainability.</p>	<p>Requires additional development in order to be</p>	<p>Clear description of the system-wide infrastructures</p>

once the funding period ends.		effective.	the district has developed or will develop to sustain reforms in each school.
-------------------------------	--	------------	-------------------------------------------------------------------------------

5f. SCHOOL IMPROVEMENT PLAN PRACTICES AND POLICIES	Inadequate – 1 point	Adequate – 3 points	Excellent – 5 points
District and school(s) improvement plan. Process used in the district and in each school to effectively use the WISE Tool (online Strategic Planning Tool) schools to fully and effectively implement the reform model.	Missing two or more areas listed in <i>excellent</i> .	Missing one area listed in <i>excellent</i> .	Regular, on-going use of the WISE Tool for school improvement is evident. Leadership team is involved in planning and monitoring plan. Plan is current and communicated on a regular basis to school board.

6.TIMELINE	Inadequate – 1 point	Adequate – 3 points	Excellent – 5 points
Timeline delineates any proposed pre-implementation activities and the steps the District will take to implement the basic elements of the selected reform model in each school.	NO timeline is provided OR the provided timeline is incomplete in 2 or more components.	Timeline lacks a few key elements of the selected reform model.	Indicates that the District has the ability to implement the basic elements of the model during the current school year. Includes all key elements that are required to be in place at the beginning of the school

			<p>year (e.g., increasing learning time, selecting a CMO or EMO, etc.).</p> <p>Includes a three-year timeline for implementing the selected reform model</p> <p>Allows for certain basic elements to be revisited (job-embedded professional development, identifying and rewarding principals and teachers who have increased student achievement) to occur later in the process of implementing the model</p>
--	--	--	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

7.ANNUAL GOALS AND ASSESSMENT	Inadequate – 1 point	Adequate – 3 points	Excellent – 5 points
7a)The LEA will monitor each Priority and or Focus school that receives school improvement funds by establishing the annual goals for student achievement on the State’s assessment in reading and mathematics.	NO or inaccurate goals are listed with only a few or no multiple measures.	Annual goals are not consistent with minimum goal of proficient or advanced and multiple measures are MINIMAL.	<p>Description of how at a minimum, the goal for maintaining the percentage of students scoring proficient or advanced on the prior year’s ISAT (or SBAC when it is in place) should be 95%.</p> <p>Multiple measures are included as consistent with district expectations and</p>

			<p>student achievement goals.</p> <p>Realistic goals for increasing the percentage of below basic students to basic, and basic to proficient in all and subgroups.</p> <p>If the targeted school is a secondary school, the district included annual goals related to increasing graduation rate.</p>
--	--	--	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

7b. INTERIM AND/OR FORMATIVE ASSESSMENT	Inadequate – 1 point	Adequate – 3 points	Excellent – 5 points
Interim and/or formative assessment as well as other indicators (attendance, discipline referrals, referrals to special education, Title I, classroom grades, etc.) to determine if students are making progress toward the annual goals established by the District.	NO or very few assessments will be used to monitor progress.	The assessment system to monitor progress is MINIMAL.	<p>Description of the district plan for creating common assessments for every content area measured on ISAT (soon to be SBAC).</p> <p>Description of the District comprehensive assessment plan (screening, progress monitoring, diagnostic, interim and summative assessments).</p> <p>District timeline for collecting</p>

			<p>and analyzing the assessment data and how it will be communicated with school board, school leadership, parents and teachers is included.</p> <p>Description of how formative assessment is used to improve instruction.</p> <p>Explanation of how students are identified as “at-risk”.</p>
--	--	--	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

8. CONSULTATION WITH STAKEHOLDERS	Inadequate – 1 point	Adequate – 3 points	Excellent – 5 points
<p>The District has consulted with relevant stakeholders regarding the District’s application and implementation of school improvement models in its schools.</p>	<p>Vague of no description of how consultation with stakeholders was sought during implementation process. Clearly not a priority of LEA.</p>	<p>Limited consultation with stakeholders and lack of input sought and used during application process.</p>	<p>The District has consulted with relevant stakeholders (School Board Members, Personnel Associations, Building Leadership Teams, Parents, etc.) regarding the District’s application and implementation of school improvement models in its schools.</p> <p>Description of how stakeholder input will be sought and used</p>

			<p>during the implementation process.</p> <p>Included a timeline for regular communication with stakeholders.</p>
--	--	--	-------------------------------------------------------------------------------------------------------------------

9.OPTIONAL SERVICES (NO POINTS AWARDED)	Idaho Superintendents Network	Network of Innovative School Leaders	Idaho Building Capacity Project
Districts have the option to apply for any of the following services, but are not required to do so, and may apply for SIG funds without selecting participation in the following SDE SSOS services.	List school(s) requesting IBC:	List school(s) requesting IBC:	List school(s) requesting IBC:

10 BUDGET AND CAPACITY TO USE SIG FUNDS	Inadequate – 1 point	Adequate – 3 points	Excellent – 5 points
10a.Describe how the LEA will use SIG funds to provide adequate resources and related support to each school	<p>Little or no expenditures are reasonable, allowable, or necessary.</p> <p>Few, if any, expenditures are aligned with the</p>	<p>Some expenditures are reasonable, allowable, and necessary.</p> <p>Some expenditures are aligned with the activities</p>	<p>Expenditures are reasonable, allowable, and necessary.</p> <p>Expenditures are aligned with the activities and goals of the grant.</p>

in order to implement fully and effectively the selected intervention in each of those schools.	activities and goals of the grant. Budget demonstrates no reduction in funding, internal capacity building or sustainability over time.	and goals of the grant. Budget demonstrates some reduction in funding as internal capacity is built and sustained over time.	Budget demonstrates gradual reduction as internal capacity is built and sustained over time.
-------------------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------

10b. BUDGET AND CAPACITY TO USE SIG FUNDS	Inadequate – 1 point	Adequate – 3 points	Excellent – 5 points
10b. Describe how the LEA will ensure that each school receives all of the State and local funds it would receive in the absence of the school improvement funds and how those resources will be aligned with the selected intervention for each school.	Few, if any, expenditures are aligned with the activities and goals of the grant. Budget demonstrates no reduction in funding, internal capacity building or sustainability over time. Expenditures could be considered supplanting (expenditures are also included in Basic Title I Budget, or are responsibility of district).	Some expenditures are aligned with the activities and goals of the grant. Budget demonstrates some reduction in funding as internal capacity is built and sustained over time. Some expenditures may be considered supplanting (some expenditures are also included in Basic Title I Budget, or are responsibility of district).	Expenditures are aligned with the activities and goals of the grant. Budget demonstrates gradual reduction as internal capacity is built and sustained over time. Expenditures are not considered supplanting (expenditures are not included in Basic Title I Budget, or are not responsibility of district).

10c. PROPOSED BUDGET	Inadequate – 1 point	Adequate – 3 points	Excellent – 5 points
Proposed budget indicates the amount of school improvement funds the district will expend for 3 years for each school.	Budget is vague or no description of how the LEA will allocate SIG funds over a 3 year period. Clearly not a priority of LEA.	Budget is limited and the description of how the LEA will allocate SIG funds over a 3 year period is incomplete.	The budget should include a summary of proposed funding amounts and a narrative explaining how the district will allocate SIG funds over a 3-year period (until the end of the period of availability). A separate budget table should be created for each school the district intends to serve and the funding should be consistent with both the timeline provided by the LEA for implementation and support required activities.

REVIEWERS: The Budget must reflect the following:

1. Falls within the parameters of the SIG final requirements, which may be no less than \$50,000 and no more than \$2 million per year over no more than three years. Pre-implementation expenses that are requested must be delineated as such in the budget narrative and included as part of the Year 1 budget request. Pre-implementation expenses must also be permissible and aligned with the selected intervention model.
2. Budget summary table completed and must include the following:
 - Subtotal of expenditures by grant categories and budget categories, with subtotals of proposed budget amounts for the district and each Priority and Focus school for a maximum of three years (through September 30, 2017).
 - Total budget amount for each school and for the district (through September 30, 2017).
 - Descriptions should include name of each school, delineate Priority or Focus, and the total proposed budget for that school each year.

- Ensure that all proposed expenditures are permissible. Ensure that no prohibited expenses are included. For example, construction, such as structural alterations to buildings, building maintenance, or repairs, is specifically prohibited according to 34 C.F.R. § 77.1(c).

In addition to cumulative information, provide individual proposed budget amounts and a narrative indicating how the district will allocate SIG funds through the period of availability, with separate detailed budget narratives for the district and each of the Priority and Focus schools the district is committing to serve.

3. Budget Narrative completed.

The budget must provide sufficient funding for the following activities:

- Implement the selected intervention model and its requirements (closure, restart, turnaround, transformation) in each Priority and Focus school.
- Conduct district-level activities designed to support implementation of the selected school intervention models in the district's Priority and Focus schools. Such district-level activities must be described in a budget narrative that is specific to the district office and separate from the school-level budget narrative.

As appropriate, include state-level expenses associated with technical assistance and other support services required or requested and agreed upon by the Idaho SDE and district. Requested activities may be for implementing intervention models in Priority and Focus schools, or associated district-level activities. Districts may also contact the SDE about contracting for either external providers or services. Selection of external providers that are not pre-approved by the SDE will be evaluated based on the criteria set in Section B, Part 2 (2), of the SEA Application.

Bob,
Thanks for the review. This is based on achievement on the ISAT or SBAC as we go forward. Private Schools are not required to take the test so are not identified as schools that need to improve. They are not eligible for these funds. The private school students do not affect the test scores for a district.
Merry Christmas!

Hi Marcia,

This all looks good. I tried to call David Aitken at Lapwai to see how the program affects his school, or helps. How many private schools are eligible for this?

If you cannot get back to me, I will understand. Have a great Christmas.

Bob

Subject: Committee of Practitioners

Importance: High

Dear Committee of Practitioners,

The School Year, 2013-2014, began with very important work for all districts in addition to their most important job of providing the best learning atmosphere possible for the students in their care. Idaho Core Standards Implementation is now happening in all schools and preparation for the new achievement test pilot is underway.

Here at the department our Educational Divisions have articulated our role in serving districts with the statement you see at the bottom of my signature line.

“Supporting districts, schools and each other in successfully meeting the needs of all Idaho students.”

As a member of the Committee of Practitioners you have provided review and feedback on any major policy changes within Title I. Our School Improvement Team is asking each committee member to review the attached letter and provide feedback on the FY13 Idaho SIG APP. The letter outlines the changes in the application so it should help you in focusing your attention on the specific sections we would appreciate your comments, and questions.

Below is a description of the duties of the committee.

Committee of Practitioners

The Committee of Practitioners is an advisory committee for Title I of the Elementary and Secondary Education Act-Improving the Academic Achievement of the Disadvantaged programs. Your knowledge and expertise is helpful in providing guidance for the state programs.

Specifically, this committee advises for the following program:

Title I-A Basic Program is operated by local educational agencies to ensure that all children have the opportunity to obtain a high-quality education and reach proficiency on challenging state academic standards and assessments. This program provides formula funding that may be used to provide additional instructional staff, professional development, extended-time programs and other strategies for raising student achievement in high-poverty schools.

Membership includes representation from federal program directors from local districts, administrators, teachers, parents, school boards, private schools, pupil services, the governor or his representative and ranking members of the education committee from both the Senate and the House of Representatives.

Duties of such committee shall include a review, before publication, of any proposed or final State rule or regulations pursuant to this title. In an emergency situation where such rule or regulation must be issued within a very limited time to assist local educational agencies with the operation of the program under this title, the State educational agency may issue a regulation without prior consultation, but shall immediately thereafter convene the State’s committee of practitioners to review the emergency regulation before issuance in final form. NCLB Sec. 1903 (b) (3)

Let me know if you have any questions.

BOISE, IDAHO 83720-0027

TOM LUNA
STATE SUPERINTENDENT
PUBLIC INSTRUCTION

Dear Committee of Practitioners:

Thank you for your commitment to support Idaho schools. We recently completed the grant application for ***FY 2013 New Awards Competition, Section 1003(g) of the Elementary and Secondary Education Act (CFDA Number: 84.377A)***. School Improvement Grants (SIG), authorized under section 1003(g) of Title I of the Elementary and Secondary Education Act of 1965 (Title I or ESEA), are grants to State educational agencies (SEAs) that SEAs use to make competitive subgrants to local educational agencies (LEAs) that demonstrate the greatest need for the funds and the strongest commitment to use the funds to provide adequate resources in order to raise substantially the achievement of students in their lowest-performing schools.

Your questions and feedback are important to us. We apologize for the limited time frame for public comment as our date of submission is this Friday, December 20, 2013. Thank you for taking the time to review the application and to share any comments by visiting the SDE Public Comments webpage:

<http://www.sde.idaho.gov/site/publicComments/>

Since this Committee of Practitioners reviewed the FY2012 Grant Application, we thought it would be helpful to share any **major changes**:

- The FY 2013 New Awards Grant will fund a new cohort of SIG schools to begin implementation in the 2014-15 school year and dispersed over a three year period.
- The US Department of Education recently announced that it is also inviting SEAs to request a waiver to **allow LEAs to apply to implement SIG models in Focus Schools**. Although B-23a of the *ESEA Flexibility Frequently Asked Questions Addendum* (March 5, 2013) explicitly states that an SEA may not award SIG funds to an LEA for use in focus schools, it adds:
 - However, if an SEA is able to demonstrate that implementing those comprehensive reforms in its focus schools is consistent with both the goal of the SIG program and the SEA's approved system of differentiated recognition, accountability, and support, the Department will consider the SEA's request for an additional waiver to permit it to award SIG funds to an LEA for use in focus schools that are not otherwise eligible for the funds.
- **Three changes to the LEA Application:**
 - **B. Descriptive Information:**

STATE DEPARTMENT OF EDUCATION

P.O. BOX 83720
BOISE, IDAHO 83720-0027

TOM LUNA
STATE SUPERINTENDENT
PUBLIC INSTRUCTION

1. For each Tier I and Tier II (*Priority and Focus*) school that the LEA commits to serve, the LEA must demonstrate that the LEA has analyzed the needs of each school, such as instructional programs, school leadership and school infrastructure, and selected interventions for each school aligned to the needs each school has identified.
2. The LEA must ensure that each Tier I and Tier II (*Priority and Focus*) school that it commits to serve receives all of the State and local funds it would receive in the absence of the school improvement funds and that those resources are aligned with the interventions.
5. The LEA must describe how it will monitor each Tier 1 and Tier II (*Priority and Focus*) school that receives school improvement funds by including:
 - Establishing annual goals for student achievement on the State's assessments in both reading/language arts and mathematics; and,
 - Measuring progress on the leading indicators as defined in the final requirements.

Lastly, there are no major policy changes for the FY 2013 SIG competition.

Thank you for your time and commitment to this review and feedback. Please reach out if you have any questions in regards to this process.
