### I.C. Distribution of Government Services funds (GSF) to entities

Distribution of Government Services funds (CFDA No. 84.397) to entities:

Total amount of Government Services funds made available to LEAs, IHEs, or other entities for obligation from October 1, 2010 through September 30, 2011 (Funds Made Available):

**\$29,756,363.63**

Provide a list of entities (including state agencies) to which the state has awarded GSF and the total amount of Government Services funds made available to each entity for obligation from October 1, 2010 to September 30, 2011:

Entity Name	Entity ID	Funds Made Available (2010) \$	Funds Made Available\$
HUTCHINSON CORRECTIONAL FACILITY	313000	26,491,166.07	15,258,167.93

NORTON CORRECTIONAL FACILITY	581000	12,823,745.03	7,176,254.97
WINFIELD CORRECTIONAL FACILITY	712000	12,678,059.27	7,321,940.73

## II.A. Uses of Education Stabilization funds by LEAs

Provide a concise narrative of how LEAs in your state have generally used Education Stabilization funds, and the impact that the funds had on elementary and secondary education in your State from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

**Kansas distributed the SFSF funds to Unified School District's general fund and supplemental general fund. The general and supplemental general funds are used to provide operating expenses for each district. Districts in Kansas used nearly 91 percent of the funds for salaries and fringe benefits of teachers, teacher aides, principals, and other district employees. The remaining funds were used for various expenses, such as teaching supplies and utilities. Kansas school districts received \$277,400,000 for their general and supplemental general funds. These funds allowed schools to maintain most of the educational programs for students. Without the SFSF funds, schools would have cut numerous positions which would have directly affected the education of our children. These funds allowed schools sufficient time to review district data and evaluate expenses to best determine where resources could be reduced or reallocated in the future without cutting important educational opportunities in the 2009-10 and 2010-11 school years. Kansas estimated that these funds saved or helped retain over 3500 teaching and administrative positions in the 2009-10 school year and 1100 teaching and administrative positions in the 2010-11 school year.**

Please update for the new timeframe:

**No funds distributed during the new timeframe of October 1, 2010 to September 30, 2011.**

Estimate the total amount of Education Stabilization funds draw downs that the State made on behalf of LEAs, from October 1, 2010 to September 30, 2011, under the following categories:

Salaries and benefits:	<b>\$0.00</b>
Contracts for construction, modernization, renovation, or repair projects:	<b>\$0.00</b>
Other:	<b>\$0.00</b>
Total:	<b>\$0.00</b>

## II.B. Uses of Education Stabilization funds by public IHEs

Provide a concise narrative of how public IHEs in your State have generally used Education Stabilization funds, and the impact that the funds have had on postsecondary education in your State from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

**In light of a state economic climate that resulted in a 12% SGF reduction for higher education, approximately 33% of funds were used for "modernization, renovation, or repair projects" and 67% to mitigate tuition increases for resident students and to buffer the impact of tuition restraint for IHEs. These one-time, unique and extraordinary federal funds were critical to higher education. The State's distribution that targeted one-time expenditures created a bridge for institutions and students while helping to avoid a substantial budget "cliff" in FY 2012. The infrastructure certifications under Section 1511 of ARRA are provided on the Kansas Governor's website at the following link: <https://governor.ks.gov/road-map/american-recovery-act---education>**

Please update for the new timeframe:

**Approximately 50% of funds were used for "modernization, renovation, or repair projects" and 50% to mitigate tuition increases for resident students (by spending SFSF dollars on staff rather than charging additional tuition rates) and to buffer the impact of tuition restraint for IHEs. These one-time, unique and extraordinary federal funds were critical to higher education. The State's distribution that targeted one-time expenditures created a bridge for institutions and students while helping to avoid a substantial budget "cliff" in FY 2012. The infrastructure certifications under Section 1511 of ARRA are provided on the Kansas Governor's website at the following link: <https://governor.ks.gov/road-map/american-recovery-act--education>**

Estimate the total amount of Education Stabilization funds draw downs that the State made on behalf of public IHEs, from October 1, 2010 to September 30, 2011, under the following categories:

Salaries and benefits:	<b>\$21,705,683.00</b>
Student financial assistance:	<b>\$0.00</b>
Contracts for modernization, renovation, or repair projects:	<b>\$35,742,536.00</b>
Other:	<b>\$0.00</b>
Total:	<b>\$57,448,219.00</b>

### **II.C. Uses of Government Services funds by entities**

Provide a concise narrative of how entities in your State (including State agencies) have generally used Government Services funds, and how the funds have affected the State's provision of services from October 1, 2010 to September 30, 2011:

Entry from previous timeframe:

**The Government Services Fund is being used for public safety in order to prevent deeper cuts in public safety or other government services in the State of Kansas. The entire award is being used to pay salaries and benefits at three state correctional facilities. At one of the three prisons, part of the grant will pay a portion of their other operating expenses. The three correctional facilities are: Hutchinson Correctional Facility, Norton Correctional Facility and Winfield Correctional Facility. All three facilities house male offenders. The grant award will be spent over two fiscal years.**

Please update for the new timeframe:

**The Government Services Fund is being used for public safety in order to prevent deeper cuts in public safety or other government services in the State of Kansas. The entire award is being used to pay salaries and benefits at three state correctional facilities. At one of the three prisons, part of the grant will pay a portion of their other operating expenses. The three correctional facilities are: Hutchinson Correctional Facility, Norton Correctional Facility and Winfield Correctional Facility. All three facilities**

**house male offenders. The grant award will be spent over two fiscal years.**

Estimate the total amount of Government Services funds that the State has drawn down on behalf of its subrecipients, from October 1, 2010 to September 30, 2011, under the following categories:

Elementary and secondary education (excluding construction, modernization, renovation, or repair of public school facilities):	<b>\$0.00</b>
Construction, modernization, renovation, or repair of public school facilities:	<b>\$0.00</b>
Modernization, renovation, or repair of public IHE facilities:	<b>\$0.00</b>
Public IHEs (excluding modernization, renovation, or repair of public IHE facilities):	<b>\$0.00</b>
Public safety:	<b>\$29,756,363.63</b>
Public assistance:	<b>\$0.00</b>
Transportation:	<b>\$0.00</b>
Other:	<b>\$0.00</b>
Total:	<b>\$29,756,363.63</b>

**III.A. & B. Tuition and Fees**

Describe any actions taken by the State to limit increases in tuition and fees imposed by public IHEs for in-State students:

Entry from previous timeframe:

**The nine-member Kansas Board of Regents (KBOR) is the statewide governing Board for the state universities and is responsible of the setting of tuition and fees. During this great recession, one of the guiding principles for the Board has been to not pass the budget burden on to students and families. Similiarly, the indepedent governing boards of each of the community and technical colleges and the municipal university keep student access and affordability in the forefront. In fact, the average tuition and fees at Kansas public four-year institutions is well below the national average. The Kansas average for four-year institutions is \$5,746 and two-year colleges is \$2,091.**

Please update for the new timeframe:

**The nine-member Kansas Board of Regents (KBOR) is the statewide governing Board for the state universities and is responsible of the setting of tuition and fees. During this great recession, one of the guiding principles for the Board has been to not pass the budget burden on to students and families. Similarly, the indepedent governing boards of each of the community and technical colleges and the municipal university keep student access and affordability in the forefront. In fact, the average tuition and fees at Kansas public four-year institutions is well below the national average. The Kansas average for four-year institutions is \$5,746 and two-year colleges is \$2,091.**

For each 2- or 4-year public IHE, please provide the tuition and mandatory fee amounts for in-State students for school years 2008-2009, 2009-2010, and 2010-2011:

Data should be provided for all four-year and two-year public IHEs. Private IHEs should not be included.

#### IV. Tax Increases Averted

Estimate the degree to which State tax increases were averted because of the availability of SFSF funds.

Entry from previous timeframe:

**Kansas received \$450 million through the State Fiscal Stabilization Fund from the Recovery Act. Despite this funding, the 2010 Legislature increased the rate of state sales and use tax from 5.3 percent to 6.3 percent, effective July 1, 2010, to generate over \$300 million in revenues to the State General Fund beginning in FY 2011. Without this rate increase, it would have been extremely difficult to meet maintenance of effort requirements for state aid to K-12 schools, higher education and for our health and human service programs.**

Please update for the new timeframe:

**Kansas received \$450 million through the State Fiscal Stabilization Fund from the Recovery Act. Despite this funding, the 2010 Legislature increased the rate of state sales and use tax from 5.3 percent to 6.3 percent, effective July 1, 2010, to generate over \$300 million in revenues to the State General Fund beginning in FY 2011. Without this rate increase, it would have been extremely difficult to meet maintenance of effort requirements for state aid to K-12 schools, higher education and for our health and human service entitlement programs like Medicaid.**

## V. Jobs Saved or Created

In its quarterly reports submitted under section 1512 of ARRA, each State provided data on, among other things, the number of jobs estimated to have been saved or created as a result of SFSF support. The Department will use the information that has been reported to determine the number of jobs that have been saved or created. For the purposes of the Initial Annual Report, the State is not required to provide any additional information on the number of jobs estimated to have been saved or created.

Jobs Reported Saved or Created in the First APR:

	Reported Jobs for 02/17/09 - 09/30/09	Reported Jobs for 10/01/09 - 12/31/09	Reported Jobs for 01/01/10 - 03/31/10	Reported Jobs for 04/01/10 - 06/30/10	Reported Jobs for 07/01/10 - 09/30/10
<b>Education Grants</b>	2,937.24	3,028.69	4,264.18	3,656.9	1,329.23
<b>Government Services</b>	821.65	834.2	826.2	816.64	841.1

Jobs Reported Saved or Created in the Second APR:

	Reported Jobs for 10/01/10 - 12/31/10	Reported Jobs for 01/01/11 - 03/31/11	Reported Jobs for 04/01/11 - 06/30/11	Reported Jobs for 07/01/11 - 09/30/11
<b>Education Grants</b>	1228.95	1333.06	1464.86	348.44
<b>Government Services</b>	907.22	902.96	667.5	0

## VI. Progress in Advancing Education Reform

### A. Reducing inequities in the distribution of highly qualified teachers:

Describe the steps that the State has taken, from October 1, 2010 through September 30, 2011, to reduce inequities in the distribution of highly qualified teachers.

Entry from previous timeframe:

**Since the approval of the Phase 1 SFSF application Kansas has made the following progress towards reducing the inequities in the**

distribution of highly qualified teachers. **GOAL 1:** The development of a cohesive data and reporting system that provides measures for the qualifications, assignments, performance in the classroom, and distribution of teachers in the state. The Kansas State Department of Education (KSDE) has demonstrated considerable progress in refining the collection tools that provide KSDE with the information on assignments and distribution of teachers. • **Strategy:** KSDE will continue the collection of data reflecting the number of highly qualified teachers in core content classes in high and low poverty schools, including the number of resignations, transfers, reductions in force, and retirements. **Progress:** KSDE, through the collaboration of the Teacher Education and Licensure and Title Programs and Services teams, has collected, disaggregated, and disseminated data on highly qualified teachers (HQT) in core content classes in high and low poverty schools, including the number of resignations, transfers, layoffs, and retirements. The largest growth has been demonstrated in world languages. It is also apparent that Kansas still exhibits a discrepancy in the area of mathematics in the high poverty secondary schools. • **Strategy:** KSDE will produce an annual mobility report which reflects the "school to school" movement of staff. This will assist KSDE in the identification of teachers transferring from high poverty schools to low poverty schools and making connections with schools that are on improvement. **Progress:** KSDE is redefining the exit report to include reasons for leaving: Further data will need to be collected to determine if teachers are leaving high poverty schools to move to low poverty schools. • **Strategy:** Produce an annual report detailing not only the number of vacancies, but also the number of staff who have left schools which are on improvement. **Progress:** The Licensed Personnel Report which is due in late February contains data on vacancies. Data that will be collected in February of 2011 will be compared to previous data to verify the reasons that staff is leaving and also to determine if a higher percentage of staff leave a building that is on improvement. Table VII presents the data that has been collected for the past two years concerning exit reasons. Kansas will continue to collect and analyze data to enable KSDE to support schools as staff leave. • **Strategy:** Working with Teacher Quality Center to identify districts that have high equitable distribution and low equitable distribution of teachers across the state based on years of experience, school poverty level, and school improvement status. **Progress:** The National Comprehensive Center for Teacher Quality has helped produce visual representations of the state's distribution of teachers based on years of experience, school poverty level, and school improvement status. In June, the Teacher Education and Licensure team presented data on teacher distribution in their annual report to the Kansas State Board of Education. **GOAL 2:** Improve the system of human capital and revise it as a mechanism to ensure highly qualified, highly effective teacher/leaders in each classroom. The Kansas State Department of Education is currently working with two different contractors to better define this work. The timeline for completion of this work is listed below. • **Strategy:** Analyze hiring policies of districts that are on improvement or that have schools which are on improvement, including vacancy notification requirements. **Progress:** KSDE has contracted with Cross and Joftus, LLC to work with the KSDE and Kansas districts that are on Year 2 of improvement. Cross and Joftus, also referred to as Kansas Learning Network or KLN, will study and recommend changes to the hiring policies of schools and districts on improvement. • **Strategy:** Analyze cost effectiveness of current policies on financial incentives for teaching in high needs schools. **Progress:** Through the Kansas Learning Network, schools and districts on improvement will report on the use of financial incentives and its success in hiring for the 2010-2011 school year. • **Strategy:** Define teacher/leader effectiveness in Kansas. **Progress:** Kansas State Department of Education has contracted with Education Testing Services (ETS) to facilitate stakeholder research to define what an effective teacher/leader is. The development of a research based definition will align with the evaluation system discussed in the next strategy. • **Strategy:** Review evaluation systems for measuring teacher/leader effectiveness and improving their performance. Please note that

“leader” is defined, for the purpose of this work, as principal and superintendents. Progress: KSDE has contracted with Education Testing Services (ETS) to facilitate the development of a teacher, principal, and superintendent evaluation system. This system will be implemented across the state in the future to aid in determining teacher/leader effectiveness. KSDE, Kansas Learning Network, along with teachers and administrators will be involved in the process. The evaluation instrument will be developed and piloted in the 2011-2012 school year. Schools on improvement have agreed to pilot the instrument during the 2011-2012 school year. Refinements will be made to the evaluation system if needed and will be made available to all schools during the 2012-2013 school year.

Please update for the new timeframe:

**KSDE, in an effort to help districts examine data around the equitable distribution of teachers, has created an equitable distribution tool within SEEK (System for Education Enterprise in Kansas). SEEK is a robust system designed to pull already existing data from other KSDE sources and disaggregate this data for use in the field. The equitable distribution tool allows districts to examine data around teacher distribution in relationship to high and low poverty schools, average years of teacher experience, teachers with less than three years of experience, and teachers’ with a Master’s degree or above. As teacher quality data is gathered through the use of the new teacher evaluation system, this data will be added to SEEK for further examination. The new Kansas teacher evaluation, KEEP or Kansas Educator Evaluation Protocol, will begin its second pilot year in 2012 – 2013. The first year gave us the opportunity to study the protocol in practice and to make revisions as needed. The second year of pilot will compile 10% of Kansas school districts and will add to the protocol an observation instrument and a perception survey of students, parents, and staff. Through an electronic repository educators are able to compile an electronic portfolio and the KSDE will be able to direct student achievement data to the repository to enrich the evidence gathered there.**

### **Certification of review of submission**

**Note:** This page should be certified by the governor or an authorized representative of the governor.

I certify that, to the best of my knowledge, the information in this report is accurate and complete and conforms to the definitions and instructions used in the *Reference and User Manual*.

Full name and title: **Elaine Frisbie, Deputy Director of the Kansas Division of the Budget**
