PART 3: INITIAL BASELINE DATA FOR EDUCATION REFORM ASSURANCES

SPECIAL NOTES:

- In completing this portion of the application, please refer to Appendix B – Instructions for Part 3: Initial Baseline Data for Education Reform Assurances.
- The data described in Appendix B for two of the education reform assurances in Part 2 of the application – the Improving Assessments Assurance and the Improving Standards Assurance – are the most current available baseline data for these areas. Thus, the Department is not inviting States to submit additional information with respect to these two assurances.
- The Governor or his/her authorized representative should confirm whether the initial baseline data sources described in Appendix B for the four assurances referenced below – Achieving Equity in Teacher Distribution; Improving Collection and Use of Data; Improving State Academic Content and Student Achievement Standards; and Supporting Struggling Schools – reflect the State's current status with respect to these assurances. A State that confirms the use of these initial baseline data sources does not have to submit additional baseline data with this application. If a State elects not to use the identified data sources for one or more of these four assurances, it must submit other initial baseline data for that assurance.

The Governor or his/her authorized representative confirms that the data sources that are currently available to the Department and described in Appendix B are a reasonable reflection of the current status of the State with respect to the following education reform assurances that he/she provided in Part 2 of the Application (*check only those assurances for which the State accepts the data described in Appendix B*):

- Achieving Equity in Teacher Distribution Assurance.
- Improving Collection and Use of Data Assurance.
- Improving Standards Assurance.
- Supporting Struggling Schools Assurance.

PART 4, SECTION A: MAINTENANCE-OF-EFFORT (MOE) ASSURANCE

SPECIAL NOTES:

- In completing Part 4 of the application, please refer to Appendix C – Instructions for Part 4: Maintenance of Effort.
- The Governor or his/her authorized representative should check only those MOE requirements that he or she anticipates the State will meet. If the Governor or his/her authorized representative anticipates that the State will be unable to meet one or more of the requirements, he or she must sign the additional waiver assurance in Part 4, Section B.
- For the purpose of determining MOE, State support for public institutions of higher education (IHEs) must not include support for capital projects or for research and development or tuition and fees paid by students.

The Governor or his/her authorized representative assures the following (*check appropriate assurances that apply*):

- X In FY 2009, the State will maintain State support for elementary and secondary education at least at the level of such support in FY 2006.
- X In FY 2010, the State will maintain State support for elementary and secondary education at least at the level of such support in FY 2006.
- X In FY 2011, the State will maintain State support for elementary and secondary education at least at the level of such support in FY 2006.
- X In FY 2009, the State will maintain State support for public IHEs at least at the level of such support in FY 2006.
- X In FY 2010, the State will maintain State support for public IHEs at least at the level of such support in FY 2006.
- X In FY 2011, the State will maintain State support for public IHEs at least at the level of such support in FY 2006.

--OR--

 To the best of his/her knowledge and based on the best available data, the State will be unable to meet any of the above-referenced maintenance-of-effort requirements.

PART 4, SECTION B: MAINTENANCE-OF-EFFORT WAIVER ASSURANCE

SPECIAL NOTES:

- If a State anticipates that it will be unable to comply with one or more of the Stabilization program MOE requirements referenced in Part 4, Section A of the application, the State must provide the assurance below.
- States that anticipate meeting all of the Stabilization program MOE requirements should not complete the waiver assurance in this section of the application. See Appendix C – Instructions for Part 4: Maintenance of Effort. The criterion for a waiver of the MOE requirements is provided in Appendix C.
- The Department will be providing additional guidance to States regarding the process for applying for waivers of the Stabilization program MOE requirements.

The Governor or his/her authorized representative assures the following:

To the best of his/her knowledge and based on the best available data, the State meets or will meet the eligibility criterion for a MOE waiver for each of the Stabilization program MOE requirements that the Governor or his/her authorized representative anticipates the State will be unable to meet.

PART 4, SECTION C: MAINTENANCE-OF-EFFORT BASELINE DATA

SPECIAL NOTES:

- A State has some flexibility in determining the “levels of State support” for MOE purposes. FY 2006	<u>\$4,041,830,515</u>
FY 2009*	<u>\$5,456,203,038</u>
FY 2010*	<u>\$5,295,960,828</u>
FY 2011*	<u>Unknown</u>

(* Provide data to the extent that data are currently available.)

- 2. Levels of State support for public institutions of higher education** *(enter amounts for each year):*

PART 5, SECTION A: STATE USES OF THE EDUCATION STABILIZATION FUND

SPECIAL NOTES:

- Section A of Part 5 requests data on the Education Stabilization Fund (CFDA No. 84.394). In completing this portion of the application, please refer to Appendix D – Instructions for Part 5: State Uses of Funds.
- At a later date, the Department will collect data on the levels of State support for elementary, secondary, and postsecondary education in FY 2011.
- These data may differ from the data in the levels of support for maintenance-of-effort purposes. See instructions in Appendix D.
- The term “postsecondary education” refers to public IHEs.

1. Levels of State Support for Elementary, Secondary, and Postsecondary Education

Provide the following data on the levels of State support for elementary, secondary, and postsecondary education:

1. Levels of State Support for Elementary, Secondary, and Postsecondary Education

Additional Information: Did the State, prior to October 1, 2008, approve formula increases to support elementary and secondary education in FY 2010 or 2011, or to phase in State equity and adequacy adjustments?*

Yes

No

* See Appendix D Worksheets for further guidance on how such increases affect a State’s “use of funds” calculations.

2. State's Primary Education Funding Formulae

Additional Submission Requirement: In an attachment to the application, identify and describe each of the State's primary elementary and secondary education funding formulae that were used in determining the calculations provided above for the levels of State support for elementary and secondary education.

As explained in the Instructions in Appendix D, a State must determine the amount of funds needed to restore fully the levels of State support for elementary, secondary, and postsecondary education in FY 2009 before determining the amount of funds available to restore the levels of such support in FY 2010.

SPECIAL NOTES:

- At a later date, the Department will collect data on the amount of funds, if any, that remain available to (1) restore the levels of State support for elementary, secondary, and postsecondary education in FY 2011, and (2) award subgrants to local educational agencies (LEAs) based on their proportionate shares of funding under Part A of Title I of the ESEA.
- The calculations for these data must be based on the State's total Education Stabilization Fund allocation as reflected in Appendix A and not on the State's initial Education Stabilization Fund award.
- Although the State must follow the Instructions in Appendix D, in order to determine the amount of funds that LEAs and IHEs will receive under the program (i.e., the "restoration amounts"), the Governor has discretion in determining when to release these funds to LEAs and IHEs.

Attachment #2

PART 5, SECTION A: STATE USES OF THE EDUCATION STABILIZATION FUND

2. State's Primary Education Funding Formulae

Additional Submission Requirement: In an attachment to the application, identify and describe each of the State's primary elementary and secondary education funding formulae that were used in determining the calculations provided above for the levels of State support for elementary and secondary education.

Foundation program - The Foundation program provides local school systems a minimum per pupil dollar amount with the intention that they will have the resources necessary to reasonably expect that the average student could meet the State's performance standards. The per pupil amount is multiplied by the local school systems' full time equivalent enrollment from the prior fiscal year. State and local shares of the foundation program vary county to county depending on local wealth – less wealthy school systems receive relatively more per pupil than wealthy school systems.

Geographic Cost of Education Index (GCEI) - The GCEI is a Maryland specific index intended to adjust State education aid to reflect regional differences in the cost of providing educational services that are outside the control of local jurisdictions.

Supplemental Grant - The Supplemental grant formula guarantees each local school system at least one percent growth over the prior fiscal year in fiscal years 2009 and 2010. Beginning in fiscal year 2011, the supplemental grants to local school systems will be equal to supplemental grant from the prior fiscal year.

Formulas for At Risk Students - In addition to the foundation program, the State allocates additional funds based on the enrollment of three at-risk student groups: special education; limited-English proficient; and economically disadvantaged. The additional costs of providing services to these students is weighted using a proportion of the foundation per pupil amount that would be needed in addition to the foundation, to reasonably assume that an at-risk student could achieve State standards.

Guaranteed Tax Base - The Guaranteed Tax Base program provides an incentive for low-wealth jurisdictions to increase their appropriation to the local school systems by tying the State appropriation to the effort the local government makes to fund education.

Transportation - The State provides funding to each local school system to support student transportation through two formulas. The first provides a base transportation grant that increases each year with inflation and varies with fluctuations in enrollment. The second provides \$1,000 in additional funds for each student requiring special transportation services due to a disability.

Teacher Retirement - On behalf of the local boards of education, the State pays the entire cost of pension/retirement benefits for eligible school employees. The salary base from the most recently completed fiscal year is multiplied by an inflation factor in order to derive estimated salaries for the upcoming fiscal year. The inflated salary base is multiplied by the employer contribution rate, which is determined by the State's actuary based on the corridor funding method.

3. Data on State Support for Postsecondary Education

Additional Submission Requirement: In an attachment to the application, identify and describe the specific State data sources that were used in determining the calculations provided above for the levels of State support for public IHEs.

The level of state support for public institutions of higher education includes state General Funds and Higher education Investment funds for the University System of Maryland, Morgan State University, Saint Mary's College of Maryland, and the community colleges. The FY 2008 data is actual expenditures as reported in the Governor's Budget Books. The FY 2009 appropriation is a combination of data from the Governor's Budget Books and documents approved by the Maryland Board of Public Works on March 4th, 2009. The FY 2010 data is derived from the FY 2010 budget bill and Budget Reconciliation and Finance Act of 2009.

5. Process for Awarding Funds to Public IHEs

Additional Submission Requirement: In an attachment to the application, describe the process that the State will use to determine the amount of funding that individual public IHEs will receive from the funds that the State sets aside to restore the levels of State support for these institutions.

The fiscal year 2009 and fiscal year 2010 level of State support for higher education exceeds the level provided in both fiscal years 2008 and 2009. Given that restorations are not required for higher education, the entire Maryland allocation of the Education Stabilization fund will support primary and secondary education.

It is my pleasure to support the State of Maryland Application for State Fiscal Stabilization Funds provided by the American Recovery and Reinvestment Act of 2009. This unprecedented opportunity to save and create jobs, stimulate the economy, and continue to improve student achievement in Maryland is greatly appreciated.

I am committed to working with Governor O'Malley to distribute the funds to Maryland schools in an expedient manner, once the state's application is approved. Additionally, please be assured that we will continue our efforts to:

- a. Improve teacher effectiveness and address inequities in the distribution of highly qualified teachers between high-poverty and low-poverty schools;
- b. Build a longitudinal data system that includes the elements described in the America Competes Act;
- c. Comply with requirements related to the inclusion of children with disabilities and limited English proficient students in the state assessment system; and,
- d. Comply with requirements related to the support of schools in improvement.

I am delighted that you have had the opportunity to visit a Maryland school. Further, I am most appreciative for the guidance provided by you and your staff related to the various funding streams that have been made available as a result of the American Recovery and Reinvestment Act of 2009. Thank you for your excellent leadership. I look forward to continuing to work together to prepare our students for the increasingly competitive global economy of the 21st century.

Sincerely,

Nancy S. Grasmick
