PART 2: MAINTENANCE-OF-EFFORT INFORMATION

In the SFSF Phase I Application, States were required to submit the following in order to receive the first portion of funds:

- A *Maintenance-of-Effort Assurance* (Part 4, Section A) of maintaining State support for elementary and secondary education and for public institutions of higher education (IHEs) at least at the level of such support in FY 2006 for FYs 2009, 2010, and 2011.
- A *Maintenance-of-Effort Waiver Assurance* (Part 4, Section B). In the event that a State anticipated being unable to comply with one or more of the Stabilization program MOE requirements referenced in the Maintenance-of-Effort Assurance, the State would provide an assurance that it met the eligibility criteria for a MOE waiver.¹
- A *Maintenance-of-Effort Baseline Data* form.

¹ Guidance on the Maintenance of Effort Requirements for SFSF and MOE Waiver Form are available at <http://www.ed.gov/policy/gen/leg/recovery/statutory/moe-guidance.pdf>.

PART 2A: UPDATE OF MAINTENANCE-OF-EFFORT DATA

SPECIAL NOTES:

- In the SFSF Phase I Application, States were required to submit MOE data. The Department is requesting that States reaffirm these data for Phase II, and in particular, to update FY 2009 data to actual levels of State support.
- *For further information, see Appendix D – Instructions for Part 2: Maintenance of Effort.*

1. Levels of State support for elementary and secondary education (*the amounts may reflect the levels of State support on either an aggregate basis or a per-student basis*):

FY 2006	\$ <u>834,246,326</u>
FY 2009	\$ <u>825,849,130</u>
FY 2010*	\$ <u>857,726,770</u>
FY 2011*	\$ <u>unknown</u>

(* Provide data to the extent that data are currently available.)

2. Levels of State support for public institutions of higher education (*enter amounts for each year*):

FY 2006	\$ <u>180,371,797</u>
FY 2009	\$ <u>170,883,078</u>
FY 2010*	\$ <u>173,306,844</u>
FY 2011*	\$ <u>unknown</u>

(* Provide data to the extent that data are currently available.)

PART 2A: UPDATE OF MAINTENANCE-OF-EFFORT DATA

3. Additional Submission Requirements:

- (a) Identify and describe the data sources used in determining the levels of State support for elementary and secondary education.

The data source for support for Elementary and Secondary Education is the entire General Revenue budget for Elementary and Secondary Education and includes charter school aid, support for state schools, teachers' retirement, school construction aid, etc. For determining the distribution between higher education and elementary and secondary education, distributed education aid to school districts was used in accordance with the federal guidance as reference in Part 5, Section A, #2, *State's Primary Education Funding Formulae*. For 2006 and 2008 actual expenditures are used. For 2009, the preliminary (unaudited) closing statement from the Controller's Office is used. For 2010, the budget enacted by the General Assembly and signed by the Governor in June 2009 is used.

For 2006, data can be found here:

http://www.budget.ri.gov/Documents/Prior%20Year%20Budgets/Operating%20Budget%202009/TechAppendix/ED/3023_Elementary%20And%20Secondary%20Education.pdf

For 2008, data can be found here:

http://www.budget.ri.gov/Documents/CurrentFY/TechAppendix/ED/1_Department%20of%20Elementary%20and%20Secondary%20Education.pdf

For 2009, the preliminary closing data can be found here:

http://controller.admin.ri.gov/documents/Financial%20Reports//Preliminary%20Closing%20Report_2009.pdf

For 2010, data enacted by the legislature can be found here (sum the General Revenues lines under Elementary and Secondary Education on pages 16 and 17):

PART 2A: UPDATE OF MAINTENANCE-OF-EFFORT DATA

3. Additional Submission Requirements:

(b) Identify and describe the data sources used in determining the levels of State support for public IHEs.

The data source for support for Institutions of Higher Education is the entire General Revenue budget for Public Higher Education. For 2006-2008 actual expenditures are used. For 2009, the preliminary (unaudited) closing statement from the Controller's Office is used. For 2010, the budget enacted by the General Assembly and signed by the Governor in June 2009 is used.

For 2006, data can be found here:

http://www.budget.ri.gov/Documents/Prior%20Year%20Budgets/Operating%20Budget%202009/TechAppendix/ED/3024_Board%20Of%20Governors%20For%20Higher%20Education.pdf

For 2008, data can be found here:

http://www.budget.ri.gov/Documents/CurrentFY/TechAppendix/ED/2_Public%20Higher%20Education.pdf.

For 2009, the preliminary (unaudited) closing data can be found here:

http://controller.admin.ri.gov/documents/Financial%20Reports//Preliminary%20Closing%20Report_2009.pdf

For 2010, data enacted by the legislature can be found here (sum the General Revenues lines under Public Higher Education on pages 18 and 19):

<http://www.rilin.state.ri.us/BillText/BillText09/HouseText09/Article-001-SUB-A-as-amended.pdf>

For all years, Research and Development funding and Student Tuition funding are not included in the General Revenue budget. In the Technical Appendix documents linked to above Research and Development can be found under the Other Funds category as "Sponsored Research" and "Sponsored and Contract Research" under each institution of higher learning. Student Tuition and Fees can be found under the Other Funds category as "Education and General" under each institution of higher education.

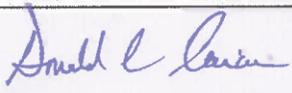

Note: Since the FY 2010 budget was enacted revenues have continued to decline at a precipitous pace. As a result, further changes will have to be made to the FY 2010 budget enacted in June 2009. The Governor has released a proposed corrective action plan to cut spending to match the lower level of revenue and the General Assembly is now considering it. The result will likely mean a lower dollar level of state support for education, but may be teamed with a lower cost for pension obligations and other cost-saving initiatives for local school districts. The Governor and the State continue to maintain their assurances that the State will abide by the percentage spending requirements in FY 2008-FY 2011 in order to be eligible for the waiver.

PART 2B: ATTESTATION OF MAINTENANCE-OF-EFFORT COMPLIANCE

The Governor or his/her authorized representative attests to the following:

To the best of his/her knowledge and based on the best available data, the State has met all maintenance-of-effort requirements for the State Fiscal Stabilization Program for FY 2009 (check all that apply):

- for elementary and secondary education.
- for public Institutions of Higher Education (IHEs).

Governor or Authorized Representative of the Governor (Printed Name): Donald L. Carcieri	
Signature: 	Date: 1/4/2010

If a State has not met or cannot meet MOE for either elementary and secondary education or public IHEs, or both, it must complete the following:

The State has not met all maintenance-of-effort requirements for the State Fiscal Stabilization Program for FY 2009 and

(check one):

- has already submitted a MOE Waiver Request to the US Department of Education.
- is submitting a MOE Waiver Request with this application package.

NOTE: The Department of Education has received verbal approval from USDOE on its FY09 waiver. We are waiting written confirmation.

PART 3: DATA COLLECTION, PUBLIC REPORTING, AND PLANNING

Requirements

The State plan must describe the State's current ability to collect the data or other information needed for the assurance indicators and descriptors as well as the State's current ability to publicly report (as defined in the Notice of Final Requirements, included here as Appendix E) the data. If the State is currently able to fully collect and publicly report the required data or other information, the State must provide a URL where the most recent data or information may be accessed. If a State is not currently able to collect or publicly report the data or other information, the plan must describe the State's process and timeline for developing and implementing the means to do so as soon as possible but no later than September 30, 2011. These requirements apply to the assurance indicators and descriptors in the following education reform assurance areas: (a) Achieving Equity in Teacher Distribution, (c) Standards and Assessments (with the exception, in many cases, of Indicators (c)(11) and (c)(12)), and (d) Supporting Struggling Schools. Sections related to these assurances are located in sections I, III, and IV of Part 3A and Section I of Part 3B in the application.

In the event that a State will develop, but not implement, the ability to fully collect and publicly report the data for Indicator(s) (c)(11) and/or (c)(12), its plan need not meet the requirements of Section I of Part 3B. Rather, a State should complete a plan that meets the requirements of Section V of Part 3B for the relevant indicator(s). If a State will be able to both develop and implement collection and public reporting of either of these indicators, the plan requirements of Section I of Part 3B will apply to the relevant indicator(s).

Regarding education reform assurance area (b) Improving Collection and Use of Data, the State must describe in the State plan whether the State's data system includes the required elements of a statewide longitudinal data system and whether the State provides teachers with their students' growth data and information related to individual teacher impact. If the State does not meet the requirement, the State plan must describe the State's process and timeline for developing and implementing the means to meet the requirement in accordance with the requirements in the notice. Sections related to this assurance are Section II of Part 3A and Sections II, III, and IV of Part 3B.

The data or information needed for an assurance indicator or descriptor are in some cases already reported to the Department by the State, or are provided by the Department. In those cases, it is understood that the State does and is currently able to collect the data or information. For those elements, the State's plan only needs to address the State's ability to publicly report the data or information, and the State does not need to include a plan for collecting the data or information in Part 3B. The indicators and descriptors involving data or information currently reported to the Department or provided by the Department are marked below with a Confirm icon (see Icon Key below). Sections requiring States to confirm data or information already reported to the Department contain specific links to the appropriate Department webpage. The overall webpage housing all information for indicators requiring confirmation is <http://www.ed.gov/programs/statestabilization/confirm-indicators.html>.

Part 3A, *Indicators and Descriptors under the Assurances*, is designed to collect short answers about the State's current status with respect to each indicator and descriptor. If you are using the macro-enabled² MS Word version of this form, you will be able to check boxes and type your answers directly into the form. If you wish to attach narrative answers in a separate document, you may do so, but be sure to clearly note in the relevant text box that the response is attached and mark the attachment with the citation of the indicator or descriptor to which you are responding.

Part 3B is the *State Plan* section. For those indicators and descriptors for which the State is not currently collecting and/or publicly reporting the requested data and information in such a way that addresses the program requirements, you must provide a plan for doing so in Part 3B. If, based on your answer, you are directed to address the element in Part 3B, write the element reference in the Plan Element Verification chart in Part 3B to keep a running list of the items you will need to address in your State Plan. Directions for which elements must be addressed in the State Plan are embedded into each indicator and descriptor boxes below. Part 3B contains five subsections. The subsections provide separate instructions for the plan elements that must be included for:

- I. Assurances (a), (c) (with the exception of Indicators (c)(11) and (c)(12)), and (d);
- II. Indicator (b)(1);
- III. Indicator (b)(2);
- IV. Indicator (b)(3); and,
- V. If applicable, Indicators (c)(11) and (c)(12) (Section V).

² To enable macros in Microsoft Word, select Save As (if you are using the 2007 version, Save As is under the round icon in the top left hand corner; in older versions, Save As is under the File menu) and from the Save File as Type menu, select Word Macro-Enabled Document.

PART 3A: ASSURANCE INDICATORS AND DESCRIPTORS

I. Assurance (a): Achieving Equity in Teacher Distribution

A State must collect and publicly report data and other information on: (1) the extent that students in high- and low-poverty schools in the State have access to highly qualified teachers; (2) the extent that current strategies and efforts to address inequities in the distribution of inexperienced, unqualified, or out-of-field teachers; (3) how teacher and principal performance is evaluated and how performance ratings are used; and (4) the distribution of performance evaluation ratings or levels among teachers and principals.

Indicator (a)(1)	Confirm, for the State, the number and percentage (including numerator and denominator) of core academic courses taught, in the highest-poverty and lowest-poverty schools, by teachers who are highly qualified consistent with section 9101(23) of the Elementary and Secondary Education Act of 1965, as amended (ESEA).	
<p>Please respond (Yes or No): Are the data related to this indicator at http://www.ed.gov/programs/statestabilization/indicator-a1.xls correct?</p> <p>¹ <input type="checkbox"/> Yes, the data are correct.</p> <p>² <input checked="" type="checkbox"/> No, the data are not correct.</p> <p>If checked, provide below or in an attachment the correct data and any supporting information. A URL linking to the correct data on the State’s website is also sufficient:³ http://www.ride.ri.gov/EducatorQuality/DOCS/SFSF/teacher_quality_2009.pdf</p> <p>Please respond (check only one):</p> <p>⁴ <input checked="" type="checkbox"/> The State makes the data <i>publicly available</i> and updates the data <i>annually</i> on a website.</p> <p>Provide the State website where the data are provided by the State to the public:⁵ http://www.ride.ri.gov/EducatorQuality/DOCS/SFSF/teacher_quality_2009.pdf</p> <p>⁶ <input type="checkbox"/> The State makes the data <i>publicly available</i> on a website but updates it <i>less than annually</i>.</p> <p>➔ Provide the State’s plan for making the data publicly available and updating it annually on a website in Part 3B. Provide the State website where the most recently updated data are provided by the State to the public: ⁷ [Click here to enter text.](#)

⁸ The State does not make the data publicly available on a website.

➔ Provide the State's plan for making the data publicly available and updating the data annually on a website in Part 3B. Cite "Indicator (a)(1)" in the Plan Element Verification chart in Part 3B, Section I and mark both the Collection and Public Reporting columns.

**Indicator
(a)(2)**

Confirm whether the State's Teacher Equity Plan (as part of the State's Highly Qualified Teacher Plan) fully reflects the steps the State is currently taking to ensure that students from low-income families and minority students are not taught at higher rates than other students by inexperienced, unqualified, or out-of-field teachers (as required in section 1111(b)(8)(C) of the ESEA).

Please respond (Yes or No): Is the State's Teacher Equity Plan located at <http://www.ed.gov/programs/teacherqual/hqtplans/index.html> correct?

¹ Yes, the information is correct.

² No, the information is not correct.

➔ If checked, provide below or in an attachment the State's most updated Teacher Equity Plan. A URL linking to the correct data on the State's website is also sufficient:³ [Click here to enter text.](#)

Please respond (check only one):

II. Assurance (b): Improving Collection and Use of Data

A State must collect and publicly report information on the elements of its statewide longitudinal data system, on whether teachers receive data on student growth in a manner that is timely and informs instructional programs, and on whether the State provides teachers with reports of individual teacher impact on student achievement.

Indicator (b)(1)	Indicate which of the 12 elements described in section 6401(e)(2)(D) of the America COMPETES Act are included in the State's statewide longitudinal data system.	
<p>Instructions: Please indicate which of the 12 elements of the America COMPETES Act are included in the State's statewide longitudinal data system.</p> <p>Please respond (check Yes or No): For pre-K through postsecondary education, does the State's statewide longitudinal data system include the following elements:</p> <p>(1) A unique statewide student identifier that does not permit a student to be individually identified by users of the system?</p> <p><input checked="" type="checkbox"/> Yes. <input type="checkbox"/> No. Provide a plan for including this element in your statewide longitudinal data system in Part 3B. 4) The capacity to communicate with higher education data systems?

- Yes.
 No. Provide a plan for including this element in your statewide longitudinal data system in Part 3B. Cite #4 in the Plan Element Verification Chart in Part 3B, Section II. [SEE PLAN ATTACHED](#)

(5) An audit system assessing data quality, validity, and reliability?

- Yes.
 No. Provide a plan for including this element in your statewide longitudinal data system in Part 3B. Cite #5 in the Plan Element Verification Chart in Part 3B, Section II.

Please respond (check Yes or No): For pre-K through grade 12 education, does the State's statewide longitudinal data system include the following elements:

(6) Yearly State assessment records of individual students?

- Yes.
 No. Provide a plan for including this element in your statewide longitudinal data system in Part 3B. Cite #6 in the Plan Element Verification Chart in Part 3B, Section II.

(7) Information on students not tested, by grade and subject?

- Yes.
 No. Provide a plan for including this element in your statewide longitudinal data system in Part 3B. Cite #7 in the Plan Element Verification Chart in Part 3B, Section II.

(8) A teacher identifier system with the ability to match teachers to students?

- Yes.
 No. Provide a plan for including this element in your statewide longitudinal data system in Part 3B. Cite #8 in the Plan Element Verification Chart in Part 3B, Section II. [SEE PLAN ATTACHED](#)

(9) Student-level transcript information, including on courses completed and grades earned?

Yes.

No. Provide a plan for including this element in your statewide longitudinal data system in Part 3B. Cite #9 in the Plan Element Verification Chart in Part 3B, Section II. [SEE PLAN ATTACHED](#)

(10) Student-level college readiness test scores?

Yes.

No. Provide a plan for including this element in your statewide longitudinal data system in Part 3B. Cite #10 in the Plan Element Verification Chart in Part 3B, Section II. [SEE PLAN ATTACHED](#)

Please respond (check Yes or No): For postsecondary education, does the State's statewide longitudinal data system include the following elements:

(11) Information regarding the extent to which students transition successfully from secondary school to postsecondary education, including whether students enroll in remedial coursework?

Yes.

No. Provide a plan for including this element in your statewide longitudinal data system in Part 3B. Cite #11 in the Plan Element Verification Chart in Part 3B, Section II. [SEE PLAN ATTACHED](#)

(12) Other information determined necessary to address alignment and adequate preparation for success in postsecondary education?

Yes.

No. Provide a plan for including this element in your statewide longitudinal data system in Part 3B. Cite #12 in the Plan Element Verification Chart in Part 3B, Section II. [SEE PLAN ATTACHED](#)

Indicator (b)(2)	Indicate whether the State provides student growth data on their current students and the students they taught in the previous year to, at a minimum, teachers of reading/language arts and mathematics in grades in which the State administers assessments in those subjects in a manner that is timely and informs instructional programs.
<p>Please respond (check Yes or No): Does the State provide student growth data on their current students and the students they taught the previous year to, at a minimum, teachers of reading/language arts and mathematics in grades in which the State administers assessments in those subjects, in a manner that is timely and informs instructional programs?</p> <p><input checked="" type="checkbox"/> Yes. IV. Assurance (d): Supporting Struggling Schools

A State must collect and publicly report data and other information on the progress of certain groups of schools in the State on State assessments in reading/language arts and mathematics; on the extent to which reforms to improve student academic achievement are implemented in the persistently lowest-achieving schools in the State; and on the extent to which charter schools are operating in the State.

Indicator (d)(1)	Provide, for the State, the average statewide school gain in the “all students” category and the average statewide school gain for each student subgroup (as under section 1111(b)(2)(C)(v) of the ESEA) on the State assessments in reading/language arts and for the State and for each LEA in the State, the number and percentage (including numerator and denominator) of Title I schools in improvement, corrective action, or restructuring that have made progress (as defined in this notice) on State assessments in reading/language arts in the last year.

Descriptor (d)(1) Provide the definition of “persistently lowest-achieving schools” (consistent with the requirements for defining this term set forth in the Definitions section of the NFR) that the State uses to identify such schools.

Please respond (check Yes or No): Does the State have a definition of “persistently lowest achieving schools” (consistent with the requirements for defining this term set forth in the Definitions section of the NFR) for the purposes of this indicator?

Yes, the State has a definition of “persistently lowest achieving schools” for the purposes of this indicator.

→ Provide the definition here:²

In Rhode Island, “persistently lowest-achieving schools” are defined as those that are among the lowest-achieving five percent of Title I schools in improvement, corrective action, or restructuring in the State or that have a high school graduation rate that is less than 60 percent over a number of years. In an effort to more effectively target resources, *persistently lowest-achieving schools* will be delineated according to need into one of three tiers:

Tier I schools: Any Title I school in improvement, corrective action, or restructuring that

- i. Is among the lowest-achieving five percent¹ of Title I schools in improvement, corrective action, or restructuring in the State; or
- ii. Is a high school that has had a graduation rate as defined in 34 C.F.R. § 200.19(b) that is less than 60 percent over a number of years;

Tier II schools: Any secondary school that is eligible for, but does not receive, Title I funds that

- i. Is among the lowest-achieving five percent² of secondary schools in the State that are eligible for, but do not receive, Title I funds; or
- ii. Is a high school that has had a graduation rate as defined in 34 C.F.R. § 200.19(b) that is less than 60 percent over a number of years.

Tier III: Any Title I school in improvement, corrective action, or restructuring that

- i. Is not a Tier I school
- ii. Is among the bottom 6–10 percent³ of Title I schools in improvement, corrective action, or restructuring.

¹ Or the five lowest-achieving Title I schools in improvement, corrective action, or restructuring in the State, whichever number of schools is greater.

² Or the five lowest-achieving secondary schools in the State that are eligible for, but do not receive, Title I funds, whichever number of schools is greater.

³ Or the next five lowest-achieving schools, whichever is greater.

If Yes, please respond (check one):

PART 3B: DATA COLLECTION & PUBLIC REPORTING PLANS

Requirement: The State must collect and publicly report the data or other information required by an assurance indicator or descriptor. If the State is not able to fully collect or publicly report, at least annually through September 30, 2011, the State plan must describe the State’s process and timeline for developing and implementing, as soon as possible but no later than September 30, 2011, the means to fully collect and publicly report the data or information, including the milestones that the State establishes toward developing and implementing those means, the date by which the State expects to reach each milestone, and any obstacles that may prevent the State from developing and implementing those means by September 30, 2011, including but not limited to requirements and prohibitions of State law and policy. The plan must also include the nature and frequency of reports that the State will provide to the public regarding its progress in developing and implementing those means; the website where the State will make the plan and progress reports publicly available (as defined in the Notice of Final Requirements, Definitions, and Approval Criteria for the SFSF Phase II), the amount of funds the State is using or will use to develop and implement those means, and whether the funds are or will be Federal, State, or local funds.

I. ASSURANCES (a), (c), AND (d)

Plan Element Verification: Please fill out the following chart to indicate which elements, per the instructions in Part 1, must be addressed in the State plan, and whether they must address collection, public reporting, or both. Do not list elements that do not need to be addressed in the State plan. Only list those for which the State has been directed to do so in completing Part 3A.

State Plan Document for

Plan Element: Descriptor (a)(1) _____ ADDRESSING: COLLECTION AND PUBLIC REPORTING

A State Plan will be submitted for each assurance indicator or descriptor under education reform areas **(a), (c), and (d)** for which the State is not able to fully collect or publicly report annually the required data or information (as indicated in Part 3A).

“Does the State collect a description of the system each LEA uses to evaluate the performance of teachers?”

Response 7 – No, the State does not collect this information.

“Does the State collect a description of the manner in which each LEA uses the results of the evaluation systems described above related to the performance of teachers in decisions regarding teacher development, compensation, promotion, retention, and removal?”

Response 14 – No, the State does not collect this data.

PROCESS AND TIMELINE:

(A) Describe the agency or agencies in the State responsible for the development, execution, and oversight of the plan, including the institutional infrastructure and describe the capacity of the agency or agencies as they relate to each of those tasks;

The SEA has developed, and the Board of Regents for Elementary and Secondary Education has approved, Educator Evaluation Standards which require that each LEA shall develop an evaluation system that:

- establishes a common understanding of expectations for educator quality within the district;
- emphasizes the professional growth and continuous improvement of individual educators;
- creates an organizational approach to the collective professional growth and continuous improvement of groups of educators to support district goals;
- provides quality assurance for the performance of all district educators;
- assures fair, accurate, and consistent evaluations; and
- provides district educators a role in guiding the ongoing system development in response to systematic feedback and changing district needs.

The Educator Evaluation Standards require that all approved evaluation systems include multiple measures, integrate student achievement and growth data, provide communication and training for evaluators and those to be evaluated, and require that evaluation results are used to retain, develop, support, compensate, and remove educators.

Work in the state to ensure all LEAs will have approved evaluation systems is ongoing. The SEA is developing a model evaluation system that LEAs may select to adopt and adapt. A joint grant-funded effort is underway between four urban districts and the AFT to develop an evaluation system that will be reviewed using the Educator Evaluation Standards. The SEA may allow LEAs that petition to develop a local system this option as long as the resulting system will be consistent with the state standards.

The SEA has developed a timeline for implementation of the Educator Evaluation Standards and approval of local systems. The timeline specifies that the SEA will work with all LEAs in spring 2010 to disseminate information about the Educator Evaluation Standards, a model evaluation system, and guidance for implementation for fall 2010. The SEA will support and monitor districts during the initial implementation of evaluation systems in the 2010-2011 academic year. The SEA will begin evaluating the implementation of the systems in 2010 - 2011 for necessary revisions to meet final approval.

As part of the implementation of the Educator Evaluation Standards, the SEA will require all LEAs to provide a description of their evaluation system, key evaluation tools used in the evaluation system, and representative materials used to communicate with and train evaluators and those to be evaluated. LEA evaluation systems that meet the expectations of the Educator Evaluation Standards will receive SEA approval and begin to undergo regular monitoring of the evaluation system. Evaluation systems that do not meet required expectations will not be approved and such LEAs will be required to develop a revised action plan to identify necessary actions to meet all requirements. LEAs with approved evaluation system will be required to assure on an annual basis that changes have not been made to the system or provide revised materials to the SEA for review and approval. The SEA will maintain and update evaluation system information on the State website on at least an annual basis or as LEAs revise and/or receive approval for their evaluation systems.

- (B)** Describe the agency or agencies, institutions, or organizations, if any, providing technical assistance or other support in the development, execution, and oversight of the plan, and describe the nature of such technical assistance or other support;

The SEA has developed the Educator Evaluation Standards internally with the support of a national consultant. The four urban districts are receiving funding from an AFT innovation grant. The SEA is exploring the option of engaging a national non-profit organization to support the development of a model evaluation system. The SEA will monitor the implementation of the standards, conduct the approval process for LEA evaluation systems, and monitor the annual reporting requirements.

- (C)** The nature and frequency of reports that the State will provide to the public regarding its progress in developing and implementing those means.

The Rhode Island Department of Elementary and Secondary Education maintains a robust public website at www.ride.ri.gov. It is the responsibility and requirement of every Department to provide content and timely information. A new website has been created to specifically provide the public with State Plan documents and reports on the progress. The easy to use menu system will direct the user to the historical and current progress related to the individual state plans, indexed by the Indicator or Descriptor, as well as the Plan itself. The site will provide for Public input via an existing email feedback system which will allow the user to subscribe and be automatically notified on any updates posted. A minimum of quarterly updates will be posted to the site, or as progress warrants. The reports will refer to an established work plan with milestones. A State Plan will be submitted for each assurance indicator or descriptor under education reform areas **(a), (c), and (d)** for which the State is not able to fully collect or publicly report annually the required data or information (as indicated in Part 3A).

“Does the State request information on whether the system each LEA uses to evaluate the performance of teachers includes student achievement outcomes or student growth data as an evaluation criterion?”

Response 7 – No, the State does not collect this data.

PROCESS AND TIMELINE:

(A) Describe the agency or agencies in the State responsible for the development, execution, and oversight of the plan, including the institutional infrastructure and describe the capacity of the agency or agencies as they relate to each of those tasks;

The Rhode Island Educator Evaluation Standards indicator 1.3 states in part that “an educator’s overall evaluation of effectiveness is primarily determined by evidence of impact on student growth and academic achievement.” The SEA has outlined a plan to develop a model evaluation system and support LEAs in the adoption or adaptation of an evaluation system that will meet the expectations of the Rhode Island Educator Evaluation Standards, including indicator 1.3. Four urban districts working in conjunction with an AFT innovation grant are simultaneously working to develop an evaluation system that will also need to meet the expectations of the Rhode Island Educator Evaluation Standards.

LEAs will implement evaluation systems beginning in the 2010-2011 academic year. As part of the reporting and approval process, LEAs will need to demonstrate that their evaluation system meets the expectation of Educator Evaluation Standard 1.3. LEA evaluation systems that meet the expectations of the Educator Evaluation Standards will receive SEA approval and begin to undergo regular monitoring of the evaluation system. Evaluation systems that do not meet required expectations will not be approved and such LEAs will be required to develop a revised action plan to identify necessary actions meet all requirements. LEAs with an approved

evaluation system will be required to assure on an annual basis that changes have not been made to the system or provide revised materials to the SEA for review and approval. The SEA will maintain and update evaluation system information on the State website on at least an annual basis or as LEAs revise and/or receive approval for their evaluation systems.

State Plan Document for

Plan Element: Indicator(a)(6)_____ ADDRESSING: COLLECTION AND PUBLIC REPORTING

A State Plan will be submitted for each assurance indicator or descriptor under education reform areas **(a), (c), and (d)** for which the State is not able to fully collect or publicly report annually the required data or information (as indicated in Part 3A).

“Does the State request information on whether the system each LEA uses to evaluate the performance of principals includes student achievement outcomes or student growth data as an evaluation criterion?”

Response 7 – No, the State does not collect this data.

PROCESS AND TIMELINE:

(A) Describe the agency or agencies in the State responsible for the development, execution, and oversight of the plan, including the institutional infrastructure and describe the capacity of the agency or agencies as they relate to each of those tasks;

The Rhode Island Educator Evaluation Standards indicator 1.3 states in part that “an educator’s overall evaluation of effectiveness is primarily determined by evidence of impact on student growth and academic achievement.” The State uses the term “educators” to indicate all teachers, support professionals, and administrators, including principals. The SEA has outlined a plan to develop a model evaluation system and support LEAs in the adoption or adaptation of an evaluation system that will meet the expectations of the Rhode Island Educator Evaluation Standards, including indicator 1.3. Four urban districts working in conjunction with an AFT innovation grant are simultaneously working to develop an evaluation system that will also need to meet the expectations of the Rhode Island Educator Evaluation Standards.

LEAs will implement evaluation systems beginning in the 2010-2011 academic year. As part of the reporting and approval process, LEAs will need to demonstrate that their evaluation system meets the expectation of Educator Evaluation Standard 1.3. LEA evaluation systems that meet the expectations of the Educator Evaluation Standards will receive SEA approval and begin to undergo regular monitoring of the evaluation system. Evaluation systems that do not meet required expectations will not be approved and such LEAs will be required to develop a revised

action plan to identify necessary actions to meet all requirements. LEAs with an approved evaluation system will be required to assure on an annual basis that changes have not been made to the system or provide revised materials to the SEA for review and approval. The SEA will maintain and update evaluation system information on the State website on at least an annual basis or as LEAs revise and/or receive approval for their evaluation systems.

- (B)** Describe the agency or agencies, institutions, or organizations, if any, providing technical assistance or other support in the development, execution, and oversight of the plan, and describe the nature of such technical assistance or other support;

The SEA has developed the Educator Evaluation Standards internally with the support of a national consultant. The four urban districts are receiving funding from an AFT innovation grant. The SEA is exploring the option of engaging a national non-profit organization to support the development of a model evaluation system. The SEA will monitor the implementation of the standards, conduct the approval process for LEA evaluation systems, and monitor the annual reporting requirements.

- (C)** The nature and frequency of reports that the State will provide to the public regarding its progress in developing and implementing those means.

The Rhode Island Department of Elementary and Secondary Education maintains a robust public website at www.ride.ri.gov. It is the responsibility and requirement of every Department to provide content and timely information. A new website has been created to specifically provide the public with State Plan documents and reports on the progress. The easy to use menu system will direct the user to the historical and current progress related to the individual state plans, indexed by the Indicator or Descriptor, as well as the Plan itself. The site will provide for Public input via an existing email feedback system which will allow the user to subscribe and be automatically notified on any updates posted. State Plan Document for

Plan Element: Indicator (a)(7) _____ ADDRESSING: COLLECTION AND PUBLIC REPORTING

A State Plan will be submitted for each assurance indicator or descriptor under education reform areas **(a), (c), and (d)** for which the State is not able to fully collect or publicly report annually the required data or information (as indicated in Part 3A).

“Does the State collect, for each LEA in the State whose principals receive performance ratings or levels through an evaluation system, the number and percentage of principals rated at each performance rating or level?”

Response 7 – No, the State does not collect these data.

PROCESS AND TIMELINE:

(A) Describe the agency or agencies in the State responsible for the development, execution, and oversight of the plan, including the institutional infrastructure and describe the capacity of the agency or agencies as they relate to each of those tasks;

The Rhode Island Educator Evaluation Standards indicator 1.1 states that an approved evaluation system “communicates a vision of effective educators and supports this description with clear, measurable expectations for performance that distinguish among highly effective, effective, minimally effective, and ineffective educators.”

The State uses the term “educators” to indicate all teachers, support professionals, and administrators, including principals. The SEA has outlined a plan to develop a model evaluation system and support LEAs in the adoption or adaptation of an evaluation system that will meet the expectations of the Rhode Island Educator Evaluation Standards, including indicator 1.1. Four urban districts working in conjunction with an AFT innovation grant are simultaneously working to develop an evaluation system that will also need to meet the expectations of the Rhode Island Educator Evaluation Standards.

LEAs will implement evaluation systems beginning in the 2010-2011 academic year. LEA evaluation systems that meet the expectations of the Educator Evaluation Standards will receive SEA approval and begin to undergo regular monitoring of the evaluation system. required expectations will not be approved and such LEAs will be required to develop a revised action plan to identify necessary actions to meet all requirements. LEAs with an approved evaluation system will be required to assure on an annual basis that changes have not been made to the system or provide revised materials to the SEA for review and approval. The SEA will maintain and update evaluation system information on the State website on at least an annual basis or as LEAs revise and/or receive approval for their evaluation systems.

As part of the annual reporting process for approved evaluation systems, LEAs are required to provide the SEA with results from their evaluation system as to the performance ratings of all educators in the categories of highly effective, effective, minimally effective, and ineffective. This data must include the number and percentage of educators rated at each performance level, including numerators and denominators.

- (B)** Describe the agency or agencies, institutions, or organizations, if any, providing technical assistance or other support in the development, execution, and oversight of the plan, and describe the nature of such technical assistance or other support;

**State Plan Document for
Plan Element: Indicator (c)(11) and (c) (12) _ADDRESSING: COLLECTION
AND PUBLIC REPORTING**

A State Plan will be submitted for each assurance indicator or descriptor under education reform areas **(a), (c), and (d)** for which the State is not able to fully collect or publicly report annually the required data or information (as indicated in Part 3A).

PROCESS AND TIMELINE:

- (A)** Describe the agency or agencies in the State responsible for the development, execution, and oversight of the plan, including the institutional infrastructure and describe the capacity of the agency or agencies as they relate to each of those tasks;

The Rhode Island Department of Education (RIDE) is finalizing a statewide contract with the National Student Clearinghouse. RIDE will submit to the Clearinghouse lists (“Request Files”) of persons in order to obtain data on their enrollment status and educational achievements at postsecondary educational institutions. RIDE agrees to format and submit Request Files in accordance with Clearinghouse published specifications. The fee for the services is equal to \$6,917.00 for the initial year in the contract period, which is based on a rate of \$0.70 per high school graduate multiplied by 9,881, the number of graduates as reported in NCES’s Digest of Education Statistics. For future years, the fee will be calculated by multiplying \$0.70 by the number of high school graduates as reported by NCES.

- (B)** Describe the agency or agencies, institutions, or organizations, if any, providing technical assistance or other support in the development, execution, and oversight of the plan, and describe the nature of such technical assistance or other support;

The Clearinghouse provides a nationwide, central repository of information on the enrollment status and educational achievements of postsecondary students. Participating educational institutions submit to the Clearinghouse information on the enrollment statuses of all of their students and listings of the alumni to whom they have awarded degrees or certificates. They appoint the Clearinghouse as their agent for purposes of reporting student information to authorized recipients. NSC anticipates that its new version of Student Tracker, to be unveiled in 2011, will enable our state to track students by subgroup.

(C) The nature and frequency of reports that the State will provide to the public regarding its progress in developing and implementing those means.

Reports shall be posted quarterly on an SLDS website (to be developed). These reports will contain information about the status of Rhode Island’s progress in meeting these indicators and will include, as applicable, white papers and data stories to help the public understand the significance of the integrated information. In addition, the National Student Clearinghouse will provide annual reports to the state.

State Fiscal Stabilization Fund (SFSF) Phase II Application

State Plan Document for

Plan Element: Indicator (b)(1) _____ ADDRESSING: #4,8,9,10,11,AND 12 OF STATEWIDE LONGITUDINAL DATA SYSTEM

Rhode Island does not have a statewide longitudinal data system that fully includes all 12 elements of the America COMPETES Act, as addressed in indicator (b)(1). This plan provides the process and timeline for developing and implementing, as soon as possible, but no later than September 30, 2011, a statewide longitudinal data system that includes all 12 elements of the America COMPETES Act.

PROCESS AND TIMELINE:

- (A) Describe the agency or agencies in the State responsible for the development, execution, and oversight of the plan, including the institutional infrastructure and describe the capacity of the agency or agencies as they relate to each of those tasks;

The Rhode Island Department of Elementary and Secondary Education's (RIDE) longitudinal data vision is evolving from a seamless, student-centered K-12 system that is designed to guarantee universality of process, data, and use to a more extensive and easy-to-use construct that supports the tracking of student information from birth to the workplace (PK- 20+) to determine post-secondary outcomes. RIDE's goal is to accomplish this in the following iterative phases:

- 1) K-16 data combined with the Departments of Human Services (DHS), Health (DOH), Children Youth and Families (DCYF), Mental Health and Retardation (MHRH), and Juvenile Justice = PK-16 data;
- 2) PK-16 Education, Health, Disability, Medicaid, Transitional Assistance data with the Adult Ed, Career & Tech, Labor & Training, Workforce data = PK-20+ data;
- 3) Rhode Island PK-20+ data with other New England States' PK-20+ data = NE:PK-20+ data; NOTE: RIDE and CT, VT, NH, & ME have initiated SLDS data sharing work ; and
- 4) NE:PK-20+ data with the remaining US states' PK20+ data = US-PK-20+data.

Project Management of this grant will be located in the Commissioner's Office. An updated organizational structure, reflecting the Commissioner's five priorities, was unveiled in early

December 2009 and will propose the newly created position of Chief Knowledge Officer (CKO). This person will be responsible for coordination of all RIDE data initiatives. This individual will also be responsible for designing and implementing a data governance model within the Department of Education, developing protocols for sharing data with all state agencies and working with the PK-16 Council to ensure cooperation and coordination across the state's education pipeline. The CKO will ultimately be accountable for the outcomes proposed in this application. The CKO, as a direct report to the commissioner, is also accountable to the Board of Regents for Elementary and Secondary Education. **Project Team Members** are representatives from stakeholder organizations and individual RIDE offices who will work with the project manager to accomplish the steps necessary for a successful implementation and achievement of the anticipated benefits. Team members are responsible to the project manager for satisfactorily completing assigned tasks. External Team members include:

Charles Miller, RI Higher Education Assistance Authority: Chief Information Officer
*Kathy Sisson, RI Higher Education Assistance Authority: **Way to Go RI** Program Manager*
Rebecca Lee, Providence Plan: DataHub Project Director
Jim Lucht, Providence Plan: DataHub Research Specialist
Deborah Grossman-Garber, Office of Higher Education: Deputy Commissioner
Hersh Cristino, Pawtucket Public Schools: Teacher Technology Coordinator
New England Secondary Schools Consortium, Data Committee Members
Michael Grady, Annenberg Institute for School Reform: Research Collaborative Member

RIDE Staff Committed to the Project:

Chief Knowledge Officer, Office of the Commissioner: (To be hired) will serve as Project Manager.

Ed Giroux, Information Technology Director: will coordinate RIDE IT staff in support of this project.

Joe Guido, Technology Consultant: will provide project management support to the Chief Knowledge Officer

Peg Votta, Research Specialist, Office of the Commissioner: will work with the Research Collaborative to develop training initiatives and determine a multi-focused longitudinal research agenda and will be the state liaison to the districts of Pawtucket and Central Falls.

Lisa Foehr, Teacher Quality Specialist: will help ensure that the Performance Management System aligns with teacher and leadership standards and will coordinate user testing of Rhode Island teachers and administrators.

Robert Metcalfe, Office of Middle and High School Reform: will serve as Liaison to the Providence Plan and manage scheduling across state agencies.

Roy Seitsinger, Director of the Office of Middle and High School Reform: will work with the higher education agencies to ensure coordination of higher education and K-12 initiatives.

Van Yidana, Office of Assessment: will provide psychometric support in development of a growth model

- (B) Describe the agency or agencies, institutions, or organizations, if any, providing technical assistance or other support in the development, execution, and oversight of the plan, and describe the nature of such technical assistance or other support;

When expanding the data capacity in existing K-12 systems to include other educational data, a SLDS must identify the entities responsible for the operation of the statewide data system and should include a common understanding of data ownership, data management, and data confidentiality and access, as well as means by which to resolve differences among partners.

All prior SLDS initiatives occurred in isolation in that each agency developed its data system to address its data needs. To ensure uniform understanding of responsibility for operation of a multi-agency data initiative, a common understanding of data ownership, data management and data confidentiality and access, the governing body of this project is the Governor's PK-16 Council. Staff hired for this project will report to the PK-16 Council. Disputes will be settled by the PK-16 Council. Though the Project Manager and Chief Knowledge Officer will attend to day-to-day implementation of the project, the PK-16 Council will advise all activities. Two cross-agency work groups will meet monthly to work through cross-agency issues. One work group concerns the vertical linkages (pk-12, higher education and the work force). Partners of the vertical link work include the Office of Higher Education, the Department of Labor and Training, the RI School Counselors Association and the Rhode Island Higher Education Assistance Authority. The other work group concerns the horizontal linking of state agencies (Health; Children, Youth and Families; Mental Health and Retardation, Family Court). Partners in this work include the agencies listed above as well as the Providence Plan, a local non-profit organization that is housing the cross-state agency data repository.

- (C) The nature and frequency of reports that the State will provide to the public regarding its progress in developing and implementing those means.

Reports shall be posted quarterly on an SLDS website (to be developed). These reports will contain information about the status of Rhode Island's progress in meeting these indicators and will include, as applicable, white papers and data stories to help the public understand the significance of the integrated information.

See **PUBLIC REPORTING AND PROGRESS REPORTS** below.

X NOT APPLICABLE

IV. INDICATOR (b)(3)

As indicated in **Part 3A, Indicator (b)(3)**, the State does not provide teachers of reading/language arts and mathematics in grades in which the State administers assessments in those subjects with reports of individual teacher impact on student achievement. Attached is the State Plan for Indicator (b)(3)

Rhode Island Department of Elementary and Secondary Education

State Fiscal Stabilization Fund (SFSF) Phase II Application

State Plan Document for

Plan Element: Indicator (b)(3) _____ ADDRESSING: INFORMATION TO TEACHERS

Rhode Island does not provide teachers of reading/language arts and mathematics in grades in which the State administers assessments in those subjects with reports of individual teacher impact on student achievement.

PROCESS AND TIMELINE:

- (A) Describe the agency or agencies in the State responsible for the development, execution, and oversight of the plan, including the institutional infrastructure and describe the capacity of the agency or agencies as they relate to each of those tasks;

The Rhode Island Educator Evaluation Standards indicator 1.3 states in part that “an educator’s overall evaluation of effectiveness is primarily determined by evidence of impact on student growth and academic achievement.” The SEA has outlined a plan to develop a model evaluation system and support LEAs in the adoption or adaptation of an evaluation system that will meet the expectations of the Rhode Island Educator Evaluation Standards, including indicator 1.3.

As a part of the model evaluation system, the SEA will develop a growth model designed to provide reports of individual teacher impact data. The Office of Instruction, Assessment, and Accountability has taken the lead on the development of this growth model and to date promising models have been researched and identified.

The Office of Instruction, Assessment, and Accountability will work closely with the Office of Educator Quality in the development and implementation of the growth model.

- (B) Describe the agency or agencies, institutions, or organizations, if any, providing technical assistance or other support in the development, execution, and oversight of the plan, and describe the nature of such technical assistance or other support;

The SEA will develop the growth model internally with the support of a national consultant. The SEA will conduct the pilot study, analyze results of the pilot study, and disseminate reports to educators statewide.

The SEA is exploring the option of engaging external consultants to develop an online reporting platform to enable educators to easily access the growth data.

- (C) The nature and frequency of reports that the State will provide to the public regarding its progress in developing and implementing those means. Reports shall be posted quarterly on an SLDS website (to be developed). These reports will contain information about the status of Rhode Island’s progress in meeting these indicators and will include, as applicable, white papers and data stories to help the public understand the significance of the integrated information.

The Rhode Island Department of Elementary and Secondary Education maintains a robust public website at www.ride.ri.gov. It is the responsibility and requirement of every Department to provide content and timely information. A new website has been created to specifically provide the public with State Plan documents and reports on the progress. The easy to use menu system will direct the user to the historical and current progress related to the individual state plans, indexed by the Indicator or Descriptor, as well as the Plan itself. The site will provide for Public input via an existing email feedback system which will allow the user to subscribe and be automatically notified on any updates posted. A minimum of quarterly updates will be posted to the site, or as progress warrants. The reports will refer to an established work plan with milestones. The URL for the State Plans and Progress Reports website is www.ride.ri.gov/finance/funding/arra/SFSF_phaseII/reports.aspx

MILESTONES:

Enter the milestones that the State establishes toward developing and implementing the means to fully collect and/or publicly report (as required) the data or information; the date by which the State expects to reach each milestone; any obstacles that may prevent the State from developing and implementing those means by September 30, 2011, including but not limited to requirements and prohibitions of State law and policy;

PART 3C-- GENERAL REQUIREMENTS

- (1) Describe the processes the State employs to review and verify the required data and other information on the indicators and descriptors.

The process used at the RI Department of Education (RIDE) for preparing the application for Phase II of the State Fiscal Stabilization Funds (SFSF) grant included the coordination of four teams, led by RIDE's Chief of Operations, Carolyn Dias, on behalf of the Governor's Office.

1. FISCAL TEAM: The Fiscal group was responsible for the final submittal of the application, ensuring that all areas of the application were addressed and that information received from RIDE staff was accurate, complete and on time. This team also worked in conjunction with the state's Budget Office on the MOE waiver.

Offices/Team Members:

Finance:

Carolyn Dias, Chief of Operations

Marliot Uzcategui, Chief Financial Officer

Deborah Marisi, Federal Grants Coordinator

Dennis Juchnik, Controller

Diann Miele, Program Coordinator/Facilitator

Commissioner:

Elliot Krieger, Executive Assistant for Communications

Peg Votta, Research Specialist

State Budget Office:

William Trimble, Budget Analyst

2. DATA TEAM: This team was led by RIDE's Director of Network and Information Services, Ed Giroux. Ed and his team were responsible for providing the information on all of the indicators and descriptors, ensuring that the website links were correct, and writing comprehensive state plans for needed indicators. To ensure continuity of the state plans, a template was developed

and used for all plans. Members of this team are very knowledgeable about state education data and worked collectively in submitting the required data.

Offices/Team Members:

Network and Information Systems:

Ed Giroux, Director

Ken Gu, Senior Data Systems Administrator

Assessment & Accountability:

Van Yidana, Accountability Specialist

Ana Karantonis, Education Specialist

Educator Quality:

Andre Audette, Regents Fellow

3. RACE TO THE TOP TEAM: This team was responsible for cross walking the data submitted for the SFSF application with the corresponding indicators of the Race to the Top grant application. This team consisted of Mary Ann Snider, Director of Assessment & Accountability, and Sherry Chen, consultant.
4. GOVERNOR'S REVIEW TEAM: Representatives from RIDE (Carolyn Dias), the Governor's Office (Janet Durfee-Hidalgo) and the state executive Office of Recovery and Reinvestment (Christian Jenner) were part of this group. This team allowed for direct communication between RIDE, the Governor's office and the state ARRA office to ensure that all parties were in agreement with the final grant submission.

The Fiscal and Data Teams worked closely together to crosscheck data and website links and utilized a SharePoint website to review the application at any point in time. In addition to email contact, these two teams had weekly meetings throughout the application process.

The Race to the Top Team worked closely with the Chief of Operations throughout the application process to ensure correlation and agreement of the SFSF and Race to the Top indicators.

Biweekly meetings were held with the Governor's Review Team, as well as phone and email contacts as deemed necessary. The final application was approved by the Governor's Office.

- (2) Describe the processes the State employs to ensure that, consistent with 34 CFR 99.31(b), the required data and other information are not made publicly available in a manner that personally identifies students, where applicable.

The RI Department of Education has an established policy that ensures released data does not personally identify students, as restricted in the Family Educational Rights and Privacy Act (FERPA). All of RIDE's publicly posted reports adhere to programmed rules whereby RIDE safeguards privacy of information related to small groups with fewer than 10 students by inserting 'blanks' or '*' in all public reports to indicate student group has too few students for evaluation or inclusion; thereby eliminating information that would make the student's identify easily traceable by the exist in the form of small cell sizes in aggregated or statistical information from education records.

A formal Department wide policy was has been established (http://www.ride.ri.gov/onis/Docs/Memo_2-1-08.pdf) that provides guidelines for the handling, publishing, and data sharing policy of the Agency.

Data sharing agreements follow all established FERPA language. Each agreement is reviewed by the Legal Department, and provide minimally for the parties in the agreement, purpose of agreement, noting specific data to exchange, terms and conditions, frequency of exchange, maintenance, destruction, confidentiality restrictions, and agreement to abide by all local, state, and Federal laws and regulations governing the confidentiality of data exchanged. Example of data agreement.: <http://www.ride.ri.gov/Commissioner/Legal/DOCUMENTS/data sharing agreement.pdf>

RIDE maintains a FERPA and PPRA website for staff, District and SEA reference. http://www.ride.ri.gov/Commissioner/legal/FERPA_PPRA.aspx
