

Educational Opportunity Centers Pre-Application Workshops

The U.S. Department of Education will host ten (10) pre-application workshops for the FY 2011 competition for grants under the **Educational Opportunity Centers** (EOC) Program. The locations and dates of these workshops, as well as an online form for registration can be found on the following Web site:

<http://www.triogrants.com/>

You are encouraged to complete the registration form if you plan to attend. Although registration is not required, doing so will help ensure sufficient workshop materials. Each EOC workshop will take place at the same time on the listed date (from 2 to 5 p.m.) and provide the same content (an overview of the application package). There is no charge for attending the workshop, but attendees are reminded that federal funds may not be used to pay for any costs associated with application for grant funds, including airfare and hotel accommodations.

For hotel reservations and directions, you may contact the hotel hosting the workshop you wish to attend or another hotel in the same area.

For additional information about the workshops, please contact:
