Note: Table excludes 3 projects that did not submit a 2006-07 APR and 11 projects that reported zero college-ready participants. Projects that reported zero college-ready participants were excluded because the number of college-ready participants is the denominator in each performance measure calculation. Grantees directly reported the number of participants who enrolled in college, and who applied for financial aid, in the 2006-07 APR; these numbers serve as the numerators of the two performance measures.

Note: Table excludes 3 projects that did not submit a 2006-07 APR and 11 projects that reported zero college-ready participants. Projects that reported zero college-ready participants were excluded because the number of college-ready participants is the denominator in each performance measure calculation. Grantees directly reported the number of participants who enrolled in college, and who applied for financial aid, in the 2006-07 APR; these numbers serve as the numerators of the two performance measures.

- (a) The sector of grantee is 2-year for 2-year postsecondary institutions, 4-year for 4-year postsecondary institutions and S/N/O for secondary schools, non-profit organizations, or other organizations.
- (b) Participants enrolled in 4-year educational institutions includes participants enrolled in public four-year institutions and participants enrolled in private four-year institutions.
- (c) Participants enrolled in 2-year educational institutions includes participants enrolled in public two-year institutions and participants enrolled in private two-year institutions.
- (d) Participants enrolled in Other educational institutions includes participants enrolled in public or non-profit vocational/technical institutions and participants enrolled in proprietary schools.
