How Did We Get Here?

The Federal TRIO Programs are educational opportunity outreach programs designed to motivate and support students from disadvantaged backgrounds. TRIO consists of seven outreach and support programs targeted to serve and assist low-income, first generation college, and disabled students to progress through the academic pipeline from middle school to post-baccalaureate programs. Under the Higher Education Act of 1964, Talent Search was the second TRIO program created in 1965. The Talent Search Program identifies and assists individuals from disadvantaged backgrounds who have the potential to succeed in higher education. Talent Search also serves high school dropouts by encouraging them to reenter the educational system and complete their education.
