Source: U.S. Department of Education, Federal TRIO Programs, Upward Bound Performance Reports: 2000–01 through 2007–08 and federal financial aid files 2000–01 through 2007–08.

Note: UB = classic UB; UBMS = Upward Bound Math-Science; HS = high school. This table excludes five projects that did not submit a 2007–08 APR. Expected high school graduation year was derived from the expected high school graduation date and the year and grade at entry into Upward Bound reported on the APR. Postsecondary enrollment was determined by examining postsecondary education variables on the APR (transcript code, first enrollment date, institution codes, financial aid, enrollment status, grade level, and degree completion) from 2000–01 through 2007–08 and disbursement amount from the federal financial aid data from 2000–01 through 2007–08. NSC enrollment data are excluded from determination of postsecondary enrollment. Postsecondary enrollment rate is calculated as the number with evidence of postsecondary enrollment divided by the number expected to graduate. Table 3 lists the five projects excluded from Table 1 because they did not submit a 2007–08 APR.

(a) This analysis includes those participants who were expected to graduate from high school in 2006–07 (n=25,398). A total of 19,795 or 77.9 percent enrolled in a postsecondary institution by 2007–08.

(b) The sector of grantee is 2-year for 2-year postsecondary institutions, 4-year for 4-year postsecondary institutions and S/N/O for secondary schools, non-profit organizations, or other organizations.

Source: U.S. Department of Education, Federal TRIO Programs, Upward Bound Performance Reports: 2000–01 through 2007–08 and federal financial aid files 2000–01 through 2007–08.

Note: UB = classic UB; UBMS = Upward Bound Math-Science. The Total Participants column includes new, continuing, or re-entry participants in 2006–07 (PartCD0607=1, 2, or 3). These participants were counted as persisting if they were also continuing or re-entry participants in 2007–08 (PartCD0708=2 or 3) or were prior-year participants in 2007–08 who were either still in high school or enrolled in postsecondary education. Postsecondary enrollment was determined by examining postsecondary education variables on the APR (transcript code, first enrollment date, institution codes, financial aid, enrollment status, grade level, and degree completion) from 2000–01 through 2007–08 and disbursement amount from the federal financial aid data from 2000–01 through 2007–08. NSC enrollment data are excluded from determination of postsecondary enrollment. Calculations for the table exclude participants who were not served in 2006–07 (either because they were prior-year participants in 2006–07 or because they were first served in 2007–08) and those who did not have 2007–08 APR data.

Table 3 lists the 346 projects excluded from Table 2; 256 were excluded because they were first funded in 2007-08, 81 were excluded due to significant omissions in fields critical to calculating whether participants stayed in high school or enrolled in postsecondary education, three projects did not submit a 2006-07 APR, five projects did not submit a 2007-08 APR, and one project submitted a 2006-07 APR but reported serving no new, continuing, or re-entry participants. The calculations in Table 2 include participants and funding from non-excluded projects only; excluded projects accounted for \$93,234,955 in program funding.

(a) The sector of grantee is 2-year for 2-year postsecondary institutions, 4-year for 4-year postsecondary institutions and S/N/O for secondary schools, non-profit organizations, or other organizations.

(b) The efficiency gap is the difference between the annual cost per participant and annual cost per successful participant.

Table 3. Projects excluded from program- and grantee-level efficiency measures by reason for exclusion

Award Number	Grantee	State	Sector	2007-08 Funding	Reason for exclusion

Source: U.S. Department of Education, Federal TRIO Programs, Upward Bound Performance Reports: 2000–01 through 2007–08 and federal financial aid files 2000–01 through 2007–08.
Note: UB = classic UB; UBMS = Upward Bound Math-Science. Projects marked as 'Missing persistence data for 15%+ of participants' reported data during both 2006–07 and 2007–08, but reported invalid data or failed to report data in fields critical to calculating persistence for fifteen percent or more of the relevant participants. Fifteen percent or more of the 2006–07 participants (PartCD0607=1, 2, or 3) in these projects either 1) had no 2007–08 APR record, 2) had an invalid or unknown PartCD in 2007–08, or 3) were prior-year participants in 2007–08 with no evidence of postsecondary enrollment and an invalid or unknown HSGrad value in 2007–08. All projects in Table 3 were excluded from Table 2; projects that did not submit a 2007–08 APR were also excluded from Table 1.
