Source: U.S. Department of Education, Federal TRIO Programs, Upward Bound Performance Reports: 2000–01 through 2008–09 and federal financial aid files 2000–01 through 2008–09.

Note: UB = classic UB; UBMS = Upward Bound Math-Science; HS = high school. Expected high school graduation year was derived from the expected high school graduation date and the year and grade at entry into Upward Bound reported on the APR. Postsecondary enrollment was determined by examining postsecondary education variables on the APR (transcript code, first enrollment date, institution codes, financial aid, enrollment status, grade level, and degree completion) from 2000–01 through 2008–09 and disbursement amount from the federal financial aid data from 2000–01 through 2008–09. NSC enrollment data are excluded from determination of postsecondary enrollment. Postsecondary enrollment rate is calculated as the number with evidence of postsecondary enrollment divided by the number expected to graduate.

(a) This analysis includes those participants who were expected to graduate from high school in 2007–08 (n=22,872). A total of 18,542 or 81.1 percent enrolled in a postsecondary institution by 2008–09.

(b) The sector of grantee is 2-year for 2-year postsecondary institutions, 4-year for 4-year postsecondary institutions and S/N/O for secondary schools, non-profit organizations, or other organizations.

(c) A new grant cycle began in 2007–08, including 254 new grants. Because these new grants took in primarily 9th and 10th grade students, they served few participants with an expected high school graduation date in 2007–08. Of the 254 new grants, 234 did not serve any such participants.

Table 2. Efficiency of UB and UBMS Projects during the 2008–09 academic year

Award Number	Grantee	State	Sector of grantee (a)	Total participants	Persisting participants	Percent of participants who were successful	2008-09 Funding	Annual cost per participant	Annual cost per successful participant	Efficiency gap (b)

Source: U.S. Department of Education, Federal TRIO Programs, Upward Bound Performance Reports: 2000–01 through 2008–09 and federal financial aid files 2000–01 through 2008–09.

Note: UB = classic UB; UBMS = Upward Bound Math-Science. The Total Participants column includes new, continuing, or re-entry participants in 2007–08 (PartCD0708=1, 2, 3, or 6). These participants were counted as persisting if they were also continuing or re-entry participants in 2008–09 (PartCD0809=2 or 3) or were prior-year participants in 2008–09 who were either still in high school or enrolled in postsecondary education. Postsecondary enrollment was determined by examining postsecondary education variables on the APR (transcript code, first enrollment date, institution codes, financial aid, enrollment status, grade level, and degree completion) from 2000–01 through 2008–09 and disbursement amount from the federal financial aid data from 2000–01 through 2008–09. NSC enrollment data are excluded from determination of postsecondary enrollment. Calculations for the table exclude participants who were not served in 2007–08 (either because they were prior-year participants in 2007–08 or because they were first served in 2008–09) and those who did not have 2008–09 APR data.

Table 3 lists the 24 projects excluded from Table 2; 14 were excluded due to significant omissions in fields critical to calculating whether participants stayed in high school or enrolled in postsecondary education, one project did not submit a 2007-08 APR, and nine projects submitted a 2007-08 APR but reported serving no new, continuing, or re-entry participants. The calculations in Table 2 include participants and funding from non-excluded projects only; excluded projects accounted for \$7,403,239 in program funding.

(a) The sector of grantee is 2-year for 2-year postsecondary institutions, 4-year for 4-year postsecondary institutions and S/N/O for secondary schools, non-profit organizations, or other organizations.

(b) The efficiency gap is the difference between the annual cost per participant and annual cost per successful participant.

Table 3. Projects excluded from program- and grantee-level efficiency measures by reason for exclusion

Total UB and UBMS				\$7,403,239	

Source: U.S. Department of Education, Federal TRIO Programs, Upward Bound Performance Reports: 2000–01 through 2008–09 and federal financial aid files 2000–01 through 2008–09.

Note: UB = classic UB; UBMS = Upward Bound Math-Science. Projects marked as 'No new, continuing, or re-entry participants in 2007-08' submitted a 2007-08 APR but reported serving no new, continuing, or re-entry participants. Projects marked as 'Missing persistence data for 15%+ of participants' reported data during both 2007–08 and 2008–09, but reported invalid data or failed to report data in fields critical to calculating persistence for fifteen percent or more of the relevant participants. Fifteen percent or more of the 2007–08 participants (PartCD0708=1, 2, or 3) in these projects either 1) had no 2008–09 APR record, 2) had an invalid or unknown PartCD in 2008–09, or 3) were prior-year participants in 2008–09 with no evidence of postsecondary enrollment and an invalid or unknown HSGrad value in 2008–09. All projects in Table 3 were excluded from Table 2 only.
