Source: U.S. Department of Education, Federal TRIO Programs, Upward Bound Performance Reports: 2000–01 through 2009–10 and federal financial aid files 2000–01 through 2009–10.

Note: UB = classic UB; UBMS = Upward Bound Math-Science; HS = high school. Expected high school graduation year was derived from the expected high school graduation date and the year and grade at entry into Upward Bound reported on the APR. Postsecondary enrollment was determined by examining postsecondary education variables on the APR (transcript code, first enrollment date, institution codes, financial aid, enrollment status, grade level, and degree completion) from 2000–01 through 2009–10 and disbursement amount from the federal financial aid data from 2000–01 through 2009–10. NSC enrollment data are excluded from determination of postsecondary enrollment. Postsecondary enrollment rate is calculated as the number with evidence of postsecondary enrollment divided by the number expected to graduate.

(a) This analysis includes those participants who were expected to graduate from high school in 2008–09 (n=21,165). A total of 17,528 or 82.8 percent enrolled in a postsecondary institution by 2009–10.

(b) The sector of grantee is 2-year for 2-year postsecondary institutions, 4-year for 4-year postsecondary institutions and S/N/O for secondary schools, non-profit organizations, or other organizations.

Table 2. Efficiency of UB and UBMS Projects during the 2009–10 academic year

Table 2. Efficiency of UB and UBMS Projects during the 2009–10 academic year

Award Number	Grantee	State	Sector of grantee (a)	Total participants	Persisting participants	Percent of participants who were successful	2009–10 Funding	Annual cost per participant	Annual cost per successful participant	Efficiency gap (b)
--------------	---------	-------	-----------------------	--------------------	-------------------------	---	-----------------	-----------------------------	--	--------------------

Note: UB = classic UB; UBMS = Upward Bound Math-Science. The Total Participants column includes new, continuing, or re-entry participants in 2008–09 (PartCD0809=1, 2, 3, or 6). These participants were counted as persisting if they were also continuing or re-entry participants in 2009–10 (PartCD0910=2 or 3) or were prior-year participants in 2009–10 who were either still in high school or enrolled in postsecondary education. Postsecondary enrollment was determined by examining postsecondary education variables on the APR (transcript code, first enrollment date, institution codes, financial aid, enrollment status, grade level, and degree completion) from 2000–01 through 2009–10 and disbursement amount from the federal financial aid data from 2000–01 through 2009–10. NSC enrollment data are excluded from determination of postsecondary enrollment. Calculations for the table exclude participants who were not served in 2008–09 (either because they were prior-year participants in 2008–09 or because they were first served in 2009–10) and those who did not have 2009–10 APR data.

Table 3 lists the 31 projects excluded from Table 2; 13 were excluded due to significant omissions in fields critical to calculating whether participants stayed in high school or enrolled in postsecondary education, 16 projects did not submit a 2008-09 APR, and two projects did not submit a 2009-10 APR. The calculations in Table 2 include participants and funding from non-excluded projects only; excluded projects accounted for \$8,520,232 in program funding.

(a) The sector of grantee is 2-year for 2-year postsecondary institutions, 4-year for 4-year postsecondary institutions and S/N/O for secondary schools, non-profit organizations, or other organizations.

(b) The efficiency gap is the difference between the annual cost per participant and annual cost per successful participant.

Source: U.S. Department of Education, Federal TRIO Programs, Upward Bound Performance Reports: 2000–01 through 2009–10 and federal financial aid files 2000–01 through 2009–10.

Note: UB = classic UB; UBMS = Upward Bound Math-Science. Projects marked as 'Missing persistence data for 15%+ of participants' reported data during both 2008–09 and 2009–10, but reported invalid data or failed to report data in fields critical to calculating persistence for fifteen percent or more of the relevant participants. Fifteen percent or more of the 2008–09 participants (PartCD0809=1, 2, or 3) in these projects either 1) had no 2009–10 APR record, 2) had an invalid or unknown PartCD in 2009–10, or 3) were prior-year participants in 2009–10 with no evidence of postsecondary enrollment and an invalid or unknown HSGrad value in 2009–10. All projects in Table 3 were excluded from Table 2 only.
