Dear Family, Your child is learning how pictures and words go together to tell a story in a book.

- Put your child in your lap or right next to you.

- Open the book sent home by your child’s teacher or one that you already have at home.

- As you read, put your finger under each word.

- Show your child a picture that describes what you have read.

- Ask your child to tell you who or what is in the picture.

- Ask your child to find an important character or special object in the picture.

Child’s name ________________________________
