- Project-based, hands on learning
- Career and technical education courses
- Interdisciplinary teams of teachers from different subject areas who teach the same group of students
- Work-based learning experiences that are designed to help students extend and deepen classroom work (e.g., job shadows, internships, community service)
- Specialized career academy or pathway organized around a specific career area (e.g., health, hospitality, engineering)
- Individualized career and academic counseling to strengthen students’ career and postsecondary awareness and explore opportunities beyond high school
- Integration of postsecondary education and training that allows students to participate in education and training while they are still in high school and leads to credit toward a postsecondary degree or certificate or industry recognized credential
- Employer engagement to provide work-based learning opportunities and mentoring to students, or provide professional development for staff, or collaborate on curriculum development
This section asks about **Coordination of Strategies.** School services provided to address the needs of students at risk of educational failure may be coordinated with one or more other strategies, or they may be isolated. Coordinated services are designed to work together in an integrated system to match students to appropriate resources. Isolated services operate independently, with little communication with other programs or services.
